

THE TECH

VOL. XXXII. NO. 49

BOSTON, MASS., WEDNESDAY, DECEMBER 4, 1912

PRICE TWO CENTS

FIRST HOCKEY GAME TONIGHT AT ARENA

Varsity Team to Meet Pilgrim A. A. Seven—Very Fast Game Expected.

At 8 o'clock tonight at the Arena, Technology will play the opening hockey game of the season. The Institute will line up against the fast Pilgrim A. A. seven, who were known as the Intercolonials last year. Technology will have a large number of last year's team in the line-up and a fast game is expected. While the game is only a practice game for both teams, it will, without doubt, be interesting. As the main idea of the game is to get a line on the new men who have turned out, everyone who has been out regularly for practice will be given an opportunity to get into the game for a few minutes. The hockey squad are to show up for practice at 7.30 tonight, when a short practice will be held before the game.

The lineup of the two teams at the start is as follows: Technology: Hurlbut, c.; Foote, r.; Storke, l. w.; Fletcher, r. w.; Stucklen, c. p.; Eichorn, p.; Ranney, g. Pilgrim A. A.: Dennasha, c.; Fynan, r.; Fritz, l. w.; Marston, r. w.; Lane, c. p.; Whitten, p.; Zenahn, g.

Wolley and Toulan will probably substitute in the Pilgrim A. A. line-up during the game.

Prospects look good for a game with Harvard within a week or two, and the management is trying to make the necessary arrangements. It is expected that the complete schedule will be out in a few days.

HUNTINGTON HALL

Ever in Constant Use—Three or Four Lectures a Day.

In speaking of the Institute recently, Mr. Cook, a prominent Bostonian, said that there was a certain splendid hall which was only used by students but five hours a week. He probably referred to Huntington Hall, though no one is quite certain. If he could have been at the Institute one day this past week he would have had a very different impression.

The Massachusetts Teachers' Association held the hall for two sessions, A. M. and 2 P. M. When the Lowell Institute lecture people began to arrive President Eliot was in the midst of his address to the teachers. The Lowell people were conveyed into class rooms at hand, where they could be seated while waiting. The teachers filed out at 4.45, and by quick work the hall was aired and Mr. Bland was able to begin his lecture at 5. This matter of three or four shifts a day is one of the many problems that come up and are satisfactorily handled.

SEDGWICK TRIP.

Professor Sedgwick goes this week to Ohio, and on his way he will speak to the students at Oberlin on some of the phases of public sanitation.

Are you a regular subscriber to THE TECH. If so you can have it delivered.

JUNIOR BANQUET TREMENDOUS SUCCESS

Professors Burton and Russell and Bursar Rand Were Speakers.

One hundred and fourteen loyal members of the Class of '14 mutually agreed that the annual banquet of the Junior Class, which took place last evening at the Union, was one of the most enjoyable occasions of the year. The program of entertainment was well filled with interesting talks by members of the Faculty, many songs and the familiar M. I. T. cheers. Steward Colton provided an excellent menu, and each man was supplied with a pipe, an abundance of tobacco and a package of "Fatimas."

Dean Burton, the first speaker, was

PROFESSOR RUSSELL.

introduced by President Wyman shortly following the announcement of the winner in the Junior Prom Committee election. He spoke of the importance of the Junior Class as a factor in the Institute's social life.

"The Freshmen are not ready for it, and the Sophomores are occupied with Field Day. The burden of the social activities of the year naturally fall to the Juniors."

The Dean placed great stress on the Founder's Day dinner, which will take place next Saturday, December (Continued to Page 3.)

"WEIGHT" MEN LUCKY.

"Doc" Leslie, Harvard Crack, to Coach Them This Winter.

F. H. "Doc" Leslie, the former Harvard shot-putter, has consented to coach the Institute weight men in this event during the coming season. He has won many points for Harvard in this branch of the track game, his best heave being forty-two feet nine inches, made in the Harvard-Dartmouth meet. He was also a hockey star during his undergraduate days. Good material seldom escapes him, and under his coaching Technology should annex the sixteen-pound event in several of the spring meets

CATHOLIC CLUB MEETS IN UNION TONIGHT

Mr. T. A. Mullen Is Speaker—Important Business On Hand.

This evening, at 6 o'clock, the M. I. T. Catholic Club holds its third meeting of the year in the Union. The meeting will be called promptly, and the officers urge every member to be at the Union at that hour. The first part of the meeting will consist, as usual, of a dinner. The entertainment committee has secured as chief speaker of the evening Mr. Thomas A. Mullen, a gentleman who has an enviable reputation as an after-dinner speaker. The subject of his address has not yet been announced.

Mr. Mullen's talk will be followed by the regular business meeting. This meeting is to be a little more important than the ordinary business meeting, for plans are to be completed for the dance which is scheduled to take place some time in the near future. Committees are to be appointed and all preliminary steps will be taken to make the dance a great success. The president of the club expects at least seventy-five members to be present, and urges all who are interested to be at the Union at 6 o'clock sharp.

1914 PROM RESULTS.

Hurlbutt, Fox, Morse, Crowell and Hiller Elected.

The results of the Junior Prom ballot place Frederick L. Hurlbutt, Charles E. Fox, John C. Morse, Donald G. Crowell and Adelbert D. Hiller on the committee. A feature of the election was its closeness, in spite of the fact that over one hundred ballots were cast and votes were well scattered among the twenty men on the list.

This election is of great interest for it is one of the important committees appointed to run one of the largest Junior events. All who have attended a Junior Prom know what an important social event it is, and a well chosen committee insures a successful affair. The five men who were elected are prominent in the affairs of their class. Hurlbutt was on the hockey team last year, and is the manager of this year's team. Fox has been prominent generally in athletics and especially in track meets. Morse and Crowell have both taken part in class affairs and are popular among their classmates. Hiller carried a principal part in last year's Tech Show.

The total votes cast for each man are as follows: F. B. Barnes, 20; G. W. Blakely, 23; W. H. Brotherton, 25; K. N. Calver, 18; D. G. Crowell, 33; R. C. Doremus, 22; L. B. Duff, 16; T. J. Duffield, 20; C. E. Fox, 50; D. Gould, 12; A. D. Hiller, 26; T. H. Huff, 14; F. L. Hurlbutt, 57; F. F. Mackentepe, 24; E. W. Mason, 25; H. F. Merrill, 15; J. C. Morse, 34; E. M. Newlin, 16; P. A. Russell, 11; W. A. Snow, 19; J. H. Stone, 19; A. V. Swift, 21.

DANCE PROGRAMS FOR WINTER CONCERT OUT

Orders Will Be at Union This Noon—Unique Features Planned.

The final programs for the Winter Concert of the Combined Musical Clubs may be obtained today at the Union, between 1 and 2 o'clock. To obtain the programs it will be necessary to show the ticket for the concert and dance. This year the programs are cream colored, with the seal of the Institute embossed in gold; the pencil and cord are cardinal. The matrons for the dance are Mrs. Richard MacLaurin, Mrs. Alfred E. Burton, Mrs. Allyne L. Merrill, Mrs. Henry P. Talbot, Mrs. Edward F. Miller and Mrs. Harold Pender. The dance will have many new features and arrangements so as to make it a little different from their previous dances. Dancing will last from 9.30 P. M. until 2 A. M.

The reception committee is composed of the following members: R. S. Rankin, '13; W. H. Brotherton, '14; D. O. Dunn, '14; G. A. Swenson, '13; E. C. Taylor, '14, and A. C. Sherman, Jr., '14. Poole's Orchestra of eight pieces has been engaged to furnish the music. The musical program of the clubs will last about an hour and a half, and is composed of the following numbers:

- Overture (a) March, "The Diplomat."
(b) "The Climax."
Technology Orchestra.
1. "The Chase," Glee Club.
2. "Spanish Dance," Mandolin Club.
3. Selection, Vocal Quartet.
4. "White Crow," March. Banjo Club.
5. (a) "Venetian Love Song,"
(b) "Oh! Promise me,"
Technology Orchestra.
V. M. F. Tallman, '14, Tenor Soloist.
6. "Potpourri Italiana," Mandolin Club.
7. "Wanted—A Wife," Glee Club.
8. "Indian War Dance," Banjo Club.
9. Selection, Vocal Quartet.
10. "Stein Song," Glee Club.

FRESHMAN BALLOTS.

The time limit on the Freshman Class ballots has been extended one day, so that the ballots are due on tomorrow at 5 o'clock P. M. The results of the election will be announced in the Friday morning issue of THE TECH.

WEATHER.

Forecast for Boston and vicinity: Today probably fair; moderate variable winds.

CALENDAR.

- Wednesday, December 4, 1912.

WEDNESDAY, DECEMBER 4, 1912

Dean Burton told the members of the Class of 1914 at the dinner last evening of the great help that the undergraduates can be, especially the upper classmen, to the various committees that are considering the best methods of arrangement for the social life of students in the new Institute. He explained what some of the problems are that present themselves for solution and urged every man to give the matter his serious thought, asking them at the same time to bring any ideas which they have to him.

Every one of us should realize what a privilege is offered us at this time in co-operating with these committees who are seeking the best ways to bring about the highest good, and should indeed give our best efforts toward finding what we consider to be good features to introduce. A general and very good idea may be obtained from an article appearing in the June issue of the Technology Review, which can be seen in Rogers Library, as to what must be decided before any definite plans can be made, and every man will do well to read this description carefully. As Dean Burton stated it is apt to be the case that the men who are now actually living in conditions which are to be improved upon are possibly able to give very concrete ideas as to the needed changes.

Let us all help in whatever way we can toward the New Technology.

BROTHERHOOD MEETS.

Last night the Brotherhood of St. Andrew held the first of a series of three discussions on the puzzling points of the Christian Religion. These discussions—there are two to follow—are led by Mr. Van Etten and are taken in an informal way.

MANDOLIN REHEARSAL.

This afternoon, at 4.15 P. M., the Mandolin Club will hold a very important rehearsal in the Union. This rehearsal is the last one before the Winter Concert, and the manager of the organization says that a full attendance is necessary. The club has two selections chosen for Friday, the "Spanish Dance," by Moszkowski, and a "Potpourri Italiana," as arranged by Lansing.

LYRIC COMPETITION NEARING THE CLOSE

Many Lyrics Handed in For Show—Inducements Offered For More.

The lyric competition for the Tech Show is still open and there are still many chances for good lyrics. Several lyrics have been handed in which have shown merit. The management, however, would like to have more submitted. This year's Show allows for a much greater variety of lyrics than any of the previous ones, which makes them easier to write.

The inducements for the successful lyric and song writers are free tickets to the Show. Manager Fiske of the Stage Department will be in the Tech Show office every afternoon to give the necessary instruction to anyone who wishes to enter this competition. The authors of the Show, J. M. Hastings and E. Menderson, are willing to give any information the writers may wish regarding the book and to assist them in writing the lyrics.

The music competition will begin in a short time and the Show officials hope that an even greater number than were entered last year will try this year. Further particulars regarding this competition will appear in THE TECH in a few days.

The work of the activity is being pushed forward rapidly and already several theatres have been engaged and arrangements for the trips planned. The Show anticipates taking more and longer trips this year than ever previously taken, thus making this season the most varied and profitable in the history of the Show.

COMMUNICATION.

To the Editor of THE TECH:

The different organizations, such as class and varsity teams, class officers, etc., are required by the present Technique management to make a deposit of \$5.00 in order to have the pictures taken at Purdy's for this year's Technique.

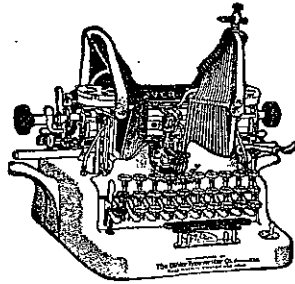

We believe that the student body wants to see the pictures of all the clubs, etc., as they have appeared in previous issues in the 1914 book, but why should these groups be required to guarantee to purchase four pictures at \$1.25? This means that if a large number do not want pictures the financial burden falls on the few, but at the same time the large number are willing to oblige Technique and the student body in general by giving the necessary time for taking the pictures.

The facts appear to indicate that this year's Technique Board is not as competent to arrange business matters as have been previous boards.

Why could not terms similar to last year's have been obtained, whereby no deposit was required nor was anyone asked or required to buy pictures? Apparently the photographer, Notman, did not suffer or they would not have made the agreement; neither did the Technique suffer. The photographer furnished Technique with one print, and if only one was sold at \$1.25 no charge was made, but if more were sold the board was charged only for the actual cost of materials and labor.

It would appear that this year's board did not investigate terms offered by different photographers or else they had some reason for selecting one whose terms could not possibly compare with those offered by other photographers to other Technique Boards.

(Signed) G. R. Thayer, '13.
H. D. Peck, '13.

START YOUR TECH YEAR RIGHT.

Your equipment for the year is not complete unless it includes the **Oliver Typewriter, Model Number Five.**

Regardless of the work you may take up after you leave Technology, the **Oliver Typewriter** will be a necessity. Why not take advantage of the opportunity to get **The Oliver** while you are studying? It is cheaper to do your own typewriting than to hire a stenographer.

You can RENT the **Number Five Model Oliver** at the rate of \$5.00 per month and when you have paid twenty consecutive months' rental, **The Oliver** will be presented to you without further expense.

WIRELESS SOCIETY OF NEW ENGLAND

To Meet at Tuft's College Saturday — Prominent Speaker Will Be Present.

A meeting of the New England Wireless Society will be held next Saturday, December 7, at 8 P. M., in Robinson Hall, Tuft's College. This association is a combination of the wireless societies of Harvard, Tufts and of the Institute. It is, however, not composed exclusively of college men, and in its membership are enrolled many prominent authorities on wireless telegraphy, and operators.

The society considers itself very fortunate in the fact that such an authority as Mr. Greenleaf W. Pickard will be present to speak at this meeting, and his talk promises to be a very interesting one. The Institute men interested in wireless will miss a rare opportunity, say the officials of the M. I. T. Club, if they fail to attend. They are all invited to attend, and those joining the society before January 1 will not be charged the entrance fee. Applications for membership may be sent to the secretary, Mr. E. W. Chapin, 43 Thayer Hall, Cambridge. The yearly dues are one dollar.

1914 DINNER.

(Continued from Page 1.)

This date should be impressed upon every Tech man's memory, as it is the one hundred and eighth anniversary of the birth of the founder of the Institute. Many colleges have a day on which undergraduates have general assembly—in many cases it is known as Founder's Day. This year it is proposed to inaugurate such a day at the Institute with the Technology dinner on next Saturday.

The Institute Committee has been working on the preparation of this event for some time, and the success of the dinner is unquestioned. Although the Senior President will preside, the Junior Class will be an important factor in the celebration of this, the first of a series of annual days extending into the future, as the commemoration of the event is to be continued in succeeding years.

A committee, composed of members of the Faculty and Alumni, has been appointed by the president to decide on the best form of a building for the Walker Memorial at the New Technology. Although many meetings have taken place within the past month, it is still undecided as to the site of building that would prove to be the most useful to undergraduates. It is estimated that \$225,000 will be required to carry out the plans. The members of the committee believe that the individual opinion of the undergraduates would be of great value to them, and Professor Burton earnestly requested the men who have suggestions to make to communicate with him. The Walker Memorial is to be an ideal student's dining, with every convenience that can be had in making the New Technology life enjoyable.

Deansur Rand followed the Dean with a collection of humorous stories which brought hearty laughter from every man.

A review of conditions and life at the Institute during Professor Russell's undergraduate days proved to be interesting. This was followed by a brief discussion of the success that men hope to achieve, as well as the main qualities that are requisite to success. In order to gain the best of the red end, Professor Russell cited it was necessary to gather knowledge, gain experience, acquire judgment and develop character. He urged each quality, and carefully explained methods by which men could themselves in attaining these requirements.

WRESTLING TEAM IN EXCELLENT CONDITION

Test Matches Show Improvement — Opening For Freshmen in Matches.

The wrestling team is fast rounding into championship form, so that things are beginning to look interesting, with the first meet only two weeks off. The team is being coached by Kelley, 1913, who has had considerable experience on the mat out West. Captain Treat expects to take at least one man in each class, possibly two in a few classes, on the trip to East Weymouth, where the opening meet with Clapp Memorial is scheduled to take place.

Among the heavyweights it looks as though it is between "Pop" Crowell and Wilson to represent the Institute. In the 145-pound class, either Smythe-Martin, Alexander, or Muther will take the trip, while Kelley and Blodgett will fight it out in the 135-pound class. Means and Sayer seem to have it all their way in the 125 and 115-pound classes, respectively.

The Freshmen are showing up well under the coaching of Mr. Grapey and Manager Blodgett. Sayer, 1916, who is holding down the 115-pound class on the varsity team, is back again after a lay-off, owing to an injury to one of his ribs. Any other Freshman or upperclassman who shows up well in the next two weeks has a good chance to go with the squad on the 14th. Two more meets are practically arranged with Brown and Boston Y. M. C. U., and there is a possibility of holding matches with Tufts, Harvard and Needham Y. M. C. A.

HYGIENE EXHIBIT.

The Technology hygiene exhibit which took a special diploma of merit at the Fifteenth International Congress on Hygiene and Demography at Washington, and was shown for a month in the Boston Public Library, is now in New Bedford, and occupies the place of honor in the main entrance hall of the public library there.

LECTURES ON CHINA.

J. O. P. Bland, in his lecture yesterday before the Lowell Institute on "Cosmopolitan Finance and World Politics in China," reiterated his former statement that China is unsuited now for popular government. Their rule is corrupt and shows a great lack in financial knowledge. They offer larger returns than necessary for what they borrow, as was shown in the so-called Belgian loan when they paid 2 per cent. more than necessary.

America and England would supply money but demand supervision of its disposal. The Cantonese party do not want this supervision, however, because it would do away with all corruption.
