

THE TECH

VOL. XXXII. NO. 5

BOSTON, MASS., FRIDAY, OCTOBER 4, 1912

PRICE TWO CENTS

CIRCULATION OF THE TECH GROWING FAST

Number of Subscriptions This Year Exceeds Previous Records.

The circulation of THE TECH is growing rapidly and promises to greatly exceed the record set in previous years. This is due mainly to the activity of the Business Department and a number of innovations that are doing much to help the circulation grow.

The number of subscription books sold this year is far in excess of that sold last year, and they are still going fast. Old subscribers are renewing their subscriptions, and every mail finds large numbers of unsolicited checks.

An extension of the delivery system heretofore in vogue is proving exceedingly popular, and is responsible for a large number of new subscriptions. THE TECH will be delivered every morning, six times a week, before 8 A. M. to the following streets: St. James avenue, Newbury street, The Fenway, Westland avenue, Huntington avenue, below Massachusetts avenue, St. Botolph and crossing streets. The expense is nothing extra, and any man desiring the service may obtain it by application by postal to the circulation manager.

ELECTRO-CHEMISTS.

Course XIV Society to Be Formed Nov. 10, at Union.

An informal meeting was held yesterday afternoon by a dozen or more of the Course XIV Juniors to discuss the organization of an Electro-Chemical Society. All were enthusiastic, and it was unanimously decided to call a meeting of all students interested in the project, in order to organize the society. This meeting was set for Thursday, October 10th, at 5 o'clock, at the Union. The organizers hope that the electro-chemists will turn out in force, as the society cannot be organized unless sufficient interest is shown.

At the meeting will also be discussed the nature and purposes of the society, whether the social side or the educational will predominate, for instance, several different views were expressed at the preliminary meeting yesterday, the general opinion seeming to favor the social side.

The need for an Electro-Chemical society has so long been apparent that it is surprising nothing has been done about it before. The credit for starting the movement belongs to E. C. Crocker, '14, I. Paris and C. G. Maier were also active in the discussion.

1914 NOMINATIONS.

Nominations for officers of the Junior Class are due Monday, October 14th, a week from next Monday. They may be left at the Cage for 1914 Ballot Committee, signed by ten members of the class.

FINANCE COMMITTEE BEGINS YEAR'S WORK

Much Important Business Comes Before First Meeting of Term.

The first and perhaps the most important meeting of the Finance Committee was held last night in the Union. Fifteen men sat down to a good supper, and soon after the business meeting had begun three or four more came in. The following activities were not represented at the meeting: Class of 1915, Class of 1916, the Athletic Association, the Electrical Engineering Society, the Orchestra, the Cosmopolitan Club and the Architectural Society.

It was moved and passed that unless a member of the Finance Committee notify the Secretary before the noon of the day of the meeting that he will not be at the supper, that he be fined 50 cents. It was also decided to hold the meetings on the first Thursday after the first Tuesday of each month.

Chairman Peck appointed Babcock, Gibson and Lawrence as a committee to investigate the matter of uniform vouchers and forms, so that a report might be furnished at the next meeting.

After some discussion the matter of having a common purchasing agent was laid on the table, and instead the Committee decided to appoint a committee to look into the matter of printing. Dunn, Custer and Keith were appointed to form this committee.

The meeting then heard and discussed the reports of the various activities, most of which showed a balance on the right side. The meeting entertained very favorably the suggestion of Gibson of THE TECH that the societies co-operate with the paper in securing better publicity for themselves and in raising the standard of the reports of meetings.

PROGRESSIVE PARTY.

Inauguration of Club to Take Place Today in Union.

At 1.30 o'clock today in the Union the Progressive movement in the Institute will be inaugurated by an open meeting, to which all are invited. The speaker of the day will be one of the foremost members of the Progressive Party in the State and a candidate for the office of Secretary of State for this Commonwealth. That man is Mr. Russell A. Wood, a member of the Legislature of Massachusetts and a resident of the city of Cambridge.

The spirit of Progressiveness that is spreading throughout the entire country has evidenced itself in our American colleges by the institution of movements similar to the one started here. Many men here in the Institute are favorable to the ideas of the new party and some of the faculty have the same attitude.

Secretary Talbot of the T. C. A. will preside and a large number of men are expected to turn out to welcome one of the first men to run for office under the Progressive Party.

SOPHOMORES HOLD THEIR FIRST MEETING

Few Men Out—Dean Burton Advises Class About Kidnapping Freshmen.

Yesterday, at noon, the Sophomore class held its first meeting of the year, and owing to the small amount of publicity given, it was only attended by a small number. After the meeting was called to order by President Hilton, Dean Burton addressed the class. He said that he always wanted the Sophomore class to win Field Day, because it showed that a class had enough spirit to hang together for two years in a way that they could accomplish something.

He also spoke of the motion adopted by the Class of 1914 to abolish the kidnapping of the Freshman temporary chairman at the dinner given by THE TECH, and the free fight on Rogers' steps. This, he said, was greatly approved of by the alumni, and was in accord with his wishes. He closed by saying that he heartily approved of Field Day and everything connected with it, and hoped that 1915 would be victorious. A motion was then made and passed that the class do away with the kidnapping of the Freshman temporary chairman before the banquet.

A discussion then followed in regard to the reduction of the class dues from \$1.50 to \$1.00. A motion was made and lost that the dues be reduced. Hilton announced that a nominating committee would be appointed and that nominations are now open for the different class officers. Nominations must be signed by ten members of the class and left

at the Cage for the committee by October 14. An announcement was also made that football and tug-of-war practice would start that afternoon, and that relay work had already begun. Hilton urged it upon the fellows the necessity of coming out for any of the teams if the class wanted to repeat their performance of last year on Field Day.

After the meeting, Germain, the captain of the track team, spoke to the fellows about coming out for the class relay team, for, he said, it is largely from the Sophomore class that Coach Kanaly hopes to get enough men for a winning track team this year.

FRESHMAN TUG-OF-WAR.

Practice Begins Today and Will Be Held Daily at Four P. M.

At a meeting of the Freshmen candidates for the tug-of-war team, nineteen men responded to the call of Manager Bickford. Manager Fiske and Captain Affel, of the 1914 team, spoke to the men and gave them a few words concerning their experiences last year, and mentioned the fact that the practice is hard work, to which the men can only become accustomed by perseverance. The fellows should report early and stay for practice every day, which at first is not very arduous and will not take

(Continued to Page 4.)

ANNUAL FRESHMAN DINNER PROGRESSING

Affair to Be Held in the Union Dining Room Saturday Evening.

The annual dinner given by THE TECH to the Freshmen begins promptly at 6.30 on Saturday evening, and is given in the Union. It is not only a pleasure but a duty of every Freshman at the Institute to attend this first class gathering of their Technology life. They will have a fine opportunity to meet the men who are doing things here and get an inside knowledge of some of the activities, as well as to meet their own classmates and learn to know them. The tickets are now on sale, and those expecting to go should purchase them before Friday morning, so that arrangements may be made with the Steward for the right number.

All who attend will have an opportunity to get acquainted with the Dean, one of whose principal duties is being the friend and adviser to the student body and act as a general go-between in matters between the Faculty and students. Prof. Talbot, who through his Chemistry courses has as much if not more to do with the Freshman than any other one member of the Faculty; Coach Kanaly, who will tell the entering men how they can best help out his part of the Institute activity, and Major Cole, with whom the Freshmen will come into very close contact during the entire year and learn to like.

SHOW TREASURER.

Manager Weeks, of Tech Show, will be in his office in Room B, in the Union, Friday afternoon, at 4.10, to meet all candidates for the position of treasurer. This position is a new one and has been created to make the work of the Business Manager lighter. Juniors and Seniors only are eligible for the position which offers the only chance for a man to become one of the Managing Board of the Show.

The work of the treasurer will be to handle the business of selling tickets, keep all accounts and take complete charge of the Show money. The position is one of great importance because of the responsibility and great amount of work involved, and men who have had some business experience in the line are preferred.

A Freshman is known by the umbrella he carries.

CALENDAR.

Friday, October 4, 1912.

1.00—Freshman Class Meeting in Huntington Hall.

1.30—Meeting of Tech Progressives in Union.

4.00—1916 Tug-of-War at Gym.

4.00—Sophomore Football—Irvington Oval.

4.00—Freshman Football—Tech Field.

8.00—T. C. A. Reception at Union.

Saturday, October 5, 1912.

2.00—Hare and Hounds—Trinity Place.

6.30—THE TECH Dinner—Union.

THE CHEMICAL SUPPLY ROOM.

The management of the store room in Walker Building has been so often the object of just criticism by the student body that it should soon awake to the fact that civility and good nature are necessary if harmonious relations are to exist between it and the men.

We are proud to be able to say that Technology men, for the most part, are essentially polite in their dealings with the Staff around the Institute. Should not the Staff reciprocate by seeing that the men are treated with some consideration?

It is extremely disheartening to be met with rudeness when one's requests are legally based and politely made, and it is to be hoped that the department may take this expression of student sentiment to heart and see that there be no further cause for complaint.

DEMOCRACY.

The Union dining room opened yesterday in all its renovated glory, and we are glad to say was well patronized by the student body. Several complaints were made about the inefficient waiting methods, but we must bear in mind that this is the beginning of the school year, and that the men are not as yet fully conversant with the requirements of our dining room patrons. Directly things begin to settle down we are sure that the waiting will be all that can be desired.

It may not be generally known among the student body that Institute men are acting as waiters in the Union, and are paying their expenses with the money so earned. Last year \$1,200 was paid out to the student waiters by the dining room management.

Let us then be sparing in our criticism for the next few weeks, and by helping our brother students in this quiet way, preserve that splendidly democratic spirit for which Technology has always been renowned.

RETROSPECTION.

Probably not many men at Technology know how the Cage came by its name. No recent graduate can recall the time when the parcel room was an enclosure in the entrance hall of Rogers, just where men now stand in line before the Bursar's window; and one must go back some distance in the roll of alumni to find men who

COMPETITION FOR ADVERTISING MANAGER

The Tech Issues Call to Sophomores to Enter in Contest.

The competition for candidates for Advertising Manager of THE TECH will open tomorrow afternoon at 4.10 P. M. All candidates for the position will meet the General Manager in the upper office of THE TECH. Owing to the absence of last year's advertising manager and the promotion of B. Adams to Business Manager, the former position is left open, to be filled by competition.

Only Sophomores are eligible to compete for the position, and the man best fitted for the job is one who has had business experience of one sort or another, but not particularly in soliciting advertisements. This opening offers an excellent opportunity to become a member of the managing Board of THE TECH and also to gain a large amount of practical business experience that will be of the greatest assistance in after life.

The competition, which starts today, will continue until November 10, at which time the election of the successful competitor will take place. Those unable to be present at the first call for men today will find an opportunity to meet the Business Manager on Saturday at 1 P. M. Election will be based solely on work done during the period of competition, and thus every Sophomore will have an equal chance to gain the coveted position.

N. E. I. C. A. A. COURSE.

Meeting Saturday Night Will Decide Start and Finish.

The course for the first annual run of the N. E. I. C. A. A. will be decided upon Saturday night, when the Executive Committee meets in the B. A. A. Clubhouse. At the last meeting of the committee it was decided to hold the run on November 16. Several colleges have put in a bid for the race, Holy Cross being especially anxious to secure the meet, with the start and finish on Fitton Field in Worcester. This college has promised the annual football game of Worcester Polytechnic and Holy Cross as a preliminary if the race comes to Worcester. Many of the colleges around Boston are in favor of using the old I. C. A. A. A. A. course with the start at the Field.

Wherever the race will be held, the distance will be between 4½ and 5 miles. The entries will close on October 27, with R. C. Robinson, of Brown, secretary of the association. A silk banner will go to the winning team, and gold medals will be awarded to each member of the winning team, and silver medals to the members of the second team. Twenty men may be entered for each college, with seven to start and five to score.

An interscholastic race will be held the same day over a shorter course, between 2.3-4 and 3 miles. The same prizes will be given to the school boys as to the college men.

In the Mining Department. Have you heard X, Y, Z's latest scheme? "No what is it? He always has some crazy plan in his noodle." "He wants to get up a corporation to extract the silver from the linings of clouds. He says there's millions in it."

Remember when it was tenanted by an excellent, though mature maiden, who was with student irreverence dubbed "The Bird." Her enclosure was termed the "Cage" in her honor, and when the parcel room went elsewhere, and Miss Blank had long departed, the name still stuck to the convenient store place.

THE TECH

Morning Delivery

THE TECH is prepared to deliver the paper before 8 a. m. to all students rooming on the following streets - St. James Avenue, Newbury St. The Fenway, Westland Avenue, Huntington Ave., below Massachusetts Ave., St. Botolph and cross streets.

SOPHOMORE FOOTBALL PRACTICE HAS BEGUN

Eight of Last Year's Team Out For Work at Oval Last Night.

Only eight men showed up for Sophomore football practice last night at the Oval, and Captain Scully wants all the men who have reported to Manager Frye to come out for work tomorrow afternoon at 4 o'clock, or as soon after that time as they can. The following men reported at the meeting in the Union Wednesday: Scully, Morse, Howlett, O'Brien, Kelleher, McDevitt, Boynton, Haslam, Murphy, Fletcher, Waterman, Frocter, Helsett, Pond and Fulton. Two new men, Fleming and Whiting, reported at the Oval yesterday. If all these men will show up every day for practice the chances are that the Sophs will again come away with the "pennant."

The work last night consisted of kicking and catching punts and a short signal practice. Morse, who played half-back on last year's team, is being tried out as a punter, and Kelleher, substitute tackle on last year's squad, is also being used in this line. Boynton was working at his old place at center, with Scully running the squad at quarter. Manager Frye has secured the services of Tom Conway, an old English High man, as coach. A practice scrimmage will probably take place with Cambridge Latin School next Wednesday, to give the team its first tryout so the coach can get a line on the work of the men. The manager is at work on a schedule of games with the neighboring High schools.

Nine members of last year's team have reported so far, and if more men will turn out 1913 ought to turn out a snappy team. O'Brien, the man who won the game last year, back again at his old position and will materially strengthen the back field by his steady, aggressive playing. Howlett will probably take care of one of the end positions, while Haslam is out for the other. McDevitt will be a valuable man in the back field, and Morse is to be tried out in one of the back positions as he is being developed as a punter.

T. C. A. RECEPTION.

New Men to Be Entertained in Union Tonight at 8.00.

Tonight at 8 P. M. in the Union the annual reception to the Freshman Class by the upper classmen will be held under the auspices of the Technology Christian Association. A delightful program has been arranged, including a number of representative speakers and the quartet from last year's Musical Clubs.

The object of the meeting is twofold. First, to acquaint the new men with the traditions and customs of the Institute, to give them an idea of the various activities here and to make them feel at home and not lost in this great school. Secondly, and most important, is the idea of getting the new men to mix with the upper classmen and not segregate and keep all to themselves.

FRESHMAN RUNNERS.

Many Freshmen this year have asked whether they are eligible to run on the Varsity track and cross-country teams. In answer to this query the track captain and coach desire it said that all Freshmen are eligible to both squads of candidates. Daily practises are being held by both at the Field. To get to the Field take any Brookline Village car and get off at Pond Avenue, and walk a few minutes up the avenue.

Technology Men will make no mistake in depending upon this Great Store for the Newest and Best Ideas in

Clothing, Hats,

Shirts, Haberdashery,

Shoes, Hosiery

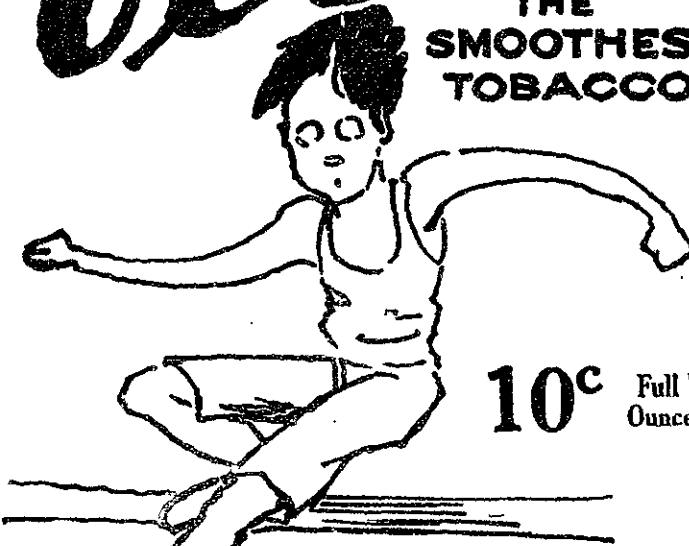

and in fact everything -- that has a place in the College man's wardrobe.

All Men's Goods are in our men's store section separate from other parts of the store and having direct entrances from Avon and Summer Streets.
