I am not ready for this article, for I want you, you will only be sorry for it if you do. Believe me, I know what I am talking about, and you do not.

You are reading it now, are you not in spite of what I tell you? And when you finish you will feel like kicking yourself and disturbing your calm and gentle thoughts by causing insanitary and unnecessary excitement.

All in all, it is more foolishly directed by that quarter-brained bunch of young hooligans than anything on the institute. More of the matters will be made for practice. If the chance to improve and thereby this will give the second-rate men a chance to improve and thereby.

The team would probably get the use of the Arena occasionally, as there is a large number of big condenser, where the temperature of 135 degrees Fahrenheit is allowed to percolate through it. The extract which is drawn off at the bottom represents about 45 per cent. of the malt used. This malt extract is allowed to percolate through the various offices and después the bruised good while before they were really needed. By so doing they probably exclude the most interesting and instructive lectures of the year.

The keynote of Rev. Mr. Clifford's talk was the church cooperation, and in embarking on it he brought in the difficult point which prevails in the churches at Thanksgiving time from that which prevailed in his own day. He presented the student church units in one common praise service, while in the old days they were continually at theological war with each other.

Another point which Rev. Mr. Clifford laid stress on was the usual historical prayer. For illustration he cited the case of the sovereign girl who, having heard a young man pray and then go and visit him, had no rest in the speaker. We before her, having heard a young man pray and then go and visit him, had no rest in the speaker. We before her, having heard a young man pray and then go and visit him, had no rest in the speaker.

Mr. E. T. Wheeler of the University Dental School, will referee. All Freshmen out for the wrestling team, however, have been requested to be at this meet at East Weymouth to get some experience by watching the wrestlers. The men will leave the South Station at 6.30 P.M. tomorrow.

PORTFOLIO NOM
Senior Pictures to Be Taken at Nottman's Next Monday.

At a meeting of the officers of the Senior Class, held yesterday afternoon, it was decided to have the class pictures taken at Nottman's on Monday, December 19th. The president will also appoint a committee to take charge of the Senior Portfolio Committee nominations.

Nominations for members of the Senior Portfolio Committee, which will be left for the Varsity for the 1915 Nomination and the Senior Class, must be in before 3 P. M., Monday, December 20th.

President Wheeler of the University of California believes that, compared to the ordinary marriages made in houses, the marriages made in college are a great improvement.

BIOLOGICAL TRIP

The fourth meeting of the Cosmopolitan Club will be held in the Union tomorrow evening, and will be a "Chinese Night." A special committee has been appointed to arrange decorations which will be distinctly Chinese, and they will do their best to make the present back to the land of the dragon. Owing to a mistake in the printer, the invitations have not yet been sent out, and the Executive Committee of the club have not discussed the program, but it will probably be in tomorrow's TECH. The affair is to be informal.

These entertainments are given by the Chinese students at Harvard and other universities, each nationality being represented at one of the evenings. There were over one hundred present at the last entertainment, which was given by the Arabian students. The club has been very prosperous this year, and the Executive Committee are endeavoring to make the program the best possible.

THE Copley Plaza Hotel

The Copley Plaza Hotel is located at 130 Massachusetts Avenue, Boston. It offers a wide range of amenities and services, making it a convenient choice for travelers. The entry book for this meet is now located at the entrance of the Union living rooms, and all men who expect to enter any of the events should sign up at once so as to assist Coach.

Many are the applications of the University of Harvard to the Institute yesterday, the Agricultural Society and thanks and a “regular M. I. T.” Mr. Conrad Rueter was then requested to address he was given a rising vote of thanks at the meeting.

There will be a meeting of the Architectural Federation at 8 o'clock Tuesday evening, December 17, when Mr. Samuel Crowell, M. I. T., 1880, will speak. It is requested of those who have arranged for this exhibition rooms and stalls, and to each group of the chest cavity. Of course so doing by handing their names to him. If done by injection and inhalation. The word injection may, perhaps, need a little explanation. Injection is simply the taking of the bacilli into the system through the walls of the intestines, which they reach by means of food infected with the human variety of tubercle. This is only possible if the food has been in contact with substances having the forms of consumption upon them.

The method of inhalation is by far the most common. It consists, of course, of inhaling the germs directly and thereby introducing them to the lungs, which are their final destination, no matter how introduced. It is estimated that a person having tuberculous discharges about 1,000,000,000 bacilli in from four hours. Consequently the only method for the absolute prevention of tuberculosis in the case of small pox.

E., before Monday night.

MEETING POSTPONED.

Architectural Society to Hold Regular Meeting Today.

Owing to the visit of Professor Duesque of the Agricultural Department of Harvard to the Institute yesterday, the Architectural Society has postponed their scheduled meeting, at which the members were to consider the applications of the University of Michigan and the Carnegie Technical School for membership, and the formation of the Inter-University Architectural Federation. Professor Duesque visited the General Exhibition rooms, which featured the fourth and fifth year designs. There will be held this afternoon, and all members of the society are urged to be present.

Writing His Thesis

Strenuous work—old man, but that pure, wholesome Fatima will help.

With each package of Fatima you get a free copy of our booklet, "Dr. T. J. Horn's complete system of Tarads," 15 cents.

"Distinctively Individual"
