

THE TECH

VOL. XXXII. NO. 6

BOSTON, MASS., SATURDAY, OCTOBER 5, 1912

PRICE TWO CENTS

T. C. A. RECEPTION PROVES GREAT SUCCESS

Peck, Germain and Talbot
Speak — Quartette
Entertains.

Four hundred men attended the T. C. A. reception to the entering students in the Union last night. President Brett of the Association opened the affair with the introduction of H. D. Peck, president of the Class of 1913.

Mr. Peck delivered an instructive address on the activities of the Institute. He emphasized the point that one could take more away from participation in the various student activities than from books. Contact with other men, with all their different phases, he said, was a valuable agent in the rounding out of an education such as one acquired at the Institute. Mr. Peck then explained the details of the various activities, such as THE TECH, Tech Show and Technique. He spoke of the Freshman dinner tonight and pointed out that it

(Continued on Page 3.)

BUSINESS OPPORTUNITY.

Chance For Sophomores to Make Managing Board.

The General Manager of THE TECH will meet candidates for the position of Advertising Manager of the paper at 1 o'clock today, in the upper TECH office in the Union. This will mark the opening of a competition for Sophomores for a position on the Managing Board of the paper, and is an unusual opportunity for a competent man.

The recent promotion of B. E. Adams to Business Manager has left the advertising position vacant, and it will be filled by a competition closed to all but Sophomores. The competition will last until November 10, when the election of the successful man will occur.

Previous business experience of some kind will be a material aid to the candidate, but it is not necessary to have had experience in obtaining advertisements. Since the election will depend solely on the work accomplished, every Sophomore has an equal opportunity at the start.

GOLFERS MEET MONDAY.

Men Interested in the Sport Will Assemble in Rogers 21.

President Howlett of the Institute Golf Club calls a meeting for all men interested in the sport on Monday, October 7, in Rogers 21 at 1 o'clock. This is the first meeting of the club and many plans for the year will be discussed. Various things of importance are to be brought before the members, among which are the formation of a team to compete with outside teams, the election of officers and the renting of a suitable course.

It is greatly hoped that other trophies will be forthcoming from the Athletic Association again this year—two cups if possible, one for match

FRESHMEN PLAY SOMERVILLE TODAY

Football Team to Play Strong
Somerville Squad at 3
O'clock.

At 3 o'clock this afternoon the Freshmen will line up against the Somerville High School eleven for their first game of the season. Coach Cuddy has prepared in such a short time a team of very good standing and he hopes to bring home victory in the first game. Somerville High School always turns out a strong team and a large number of rooters and the Freshmen will have to exert all their knowledge to score. Many enthusiasts have already said that they will be on hand to root and more will be necessary to overcount the home rooters.

The line up of the Freshman team: Moody r. e., Jewett r. t., Kaula r. g., Warren c., Mann l. g., Forte l. t., Duff l. e., Murphy g. b., Leeper i. h., captain, Roper r. h., Maier f. b.

Substitutes — Nelson, Ellsworth, Rett, Besly, Dewson, Burton.

The game tomorrow will start promptly at 3 o'clock. The men and the rooters will take a car from Park street and transfer at Haymarket for Sullivan square, where they will take a car marked Clarendon Hill and get off at North street.

FRESHMAN MEETING.

Constitution Is Adopted — Men Wanted For Teams

At a rousing Freshman meeting which occurred yesterday afternoon. Dean Burton gave an excellent talk on Athletics at the Institute. The Constitution was read and adopted and Captain Germain of the Track Team and Managers of all teams urged the men to come out for athletics. Sawyer, the Freshman track manager, resigned and a general call was issued for more in the three big events which take place on Field Day.

Dean Burton urged every man to indulge in athletics and hoped that nothing but harmony would mark the record of the present season.

After the Dean's talk the Constitution of 1914 was read and adopted as suitable for the needs of 1916. Then followed talks by Captain Germain of the Institute Track Team and Managers of all other teams, in which they spoke of their respective activities, all stating that there are plenty of chances for good men.

Upon the resignation of Sawyer, manager of the Freshman Track Team, Lieber was appointed. Lieber stated that only a dozen men are now trying for the relay team and hoped that many more would make their appearance at the Field at once, stating that any man who can do 26 is sure of a place.

Class dues were arranged as usual at \$1.50, to be collected before Field Day.

Have you got \$2.00? If so, have you subscribed for THE TECH? Hurry up while you have the chance.

THE TECH CHANGES CLASSIFIED "ADS"

All Classified Ads That Concern
Ten Men or More to
Be Free.

In its usual custom of assisting the various activities by giving them work sufficient publicity to bring upon them notice from students here at the Institute, THE TECH has inaugurated a new system with respect to the publishing of classified ads. To such activities as the Musical Clubs, the Rifle Team, the Hare and Hounds and others, this should prove of great importance.

The proposition is to permit the publishing of all classified ads that are of concern to more than ten men absolutely without charge. This new plan will mean a saving for the activities and also, that more advertising of this kind will be printed in THE TECH, subsequently making it more urgent for all men to read this section of the paper, for all will find something in it that may concern them.

It is perhaps well known that all faculty notices are published as classified ads, and this fact alone makes this department one that every student finds necessary to read. The advantage of advertising in a section of the paper that is perhaps read more than any other, is evident. If an article is lost or a suit is to be sold, or if a man wishes to make an exchange, he may be sure that the greater part of the student body will read it as a classified ad in THE TECH, and that he will not be taking the chances of having a few men glance on it in some obscure bulletin board that may only reach a small percentage of the men.

COSMOPOLITAN CLUB.

Plans to Be Made For Coming Year Monday Afternoon.

Monday afternoon, at 5 o'clock, the officers and Executive Committee of the Cosmopolitan Club will hold their first meeting of the year in the Union. It is proposed to determine a schedule for the coming year, and to make plans for a meeting this month. The club has a reputation for having unusually successful socials, and this year will probably show no lessening of this reputation.

MAIL MATTER AT CAGE.

As is usual at the beginning of the school year, it is reported that students are neglecting to call at the Cage for mail. This has resulted in the accumulation of a considerable amount of mail matter, the handling of which soon becomes difficult, causing many delays to students in line, who are obliged to wait while the attendant wades through sixty or seventy letters. Those in charge of the Cage request that mail be asked for oftener by everyone, hoping that the confusion and delay will be in a large measure eliminated.

UNDERGRADUATE TRACK MEET THIS AFTERNOON

"T" Men Barred, But Act As
Officials — Relay Race For
All Last Event.

This afternoon, at the Tech Field, beginning at 2.30, will be held the first of a series of three meets between the athletes who have as yet not won their "Ts." All men in all classes are eligible except the "T" men. The Field has been put into fine shape by Bill Hines and the track is very fast. Several promising candidates have reported in the past few days, which makes it look as if good Varsity material would be unearthed.

The events that will be run off include the 100, 220, 440 and the half mile. The field events will be the discus and hammer throws, high and broad jumps, shot-put and pole vault. It is in these latter events that the present team is very weak. All of the weight and field men with the exception of McLeod, the discus thrower, have graduated, which means that Varsity material for the spring season will have to be developed. The team is especially weak in the pole vault and broad jump, and it is in these events that new men will find every opportunity to earn their letters.

A number of men have appeared for the runs and it looks as if these events will be well represented. The men will be watched carefully for faults by the old men experienced in their distances.

Five points will be awarded to the winner, 3 to the second man, and 1 to the third. These points will be summed up at the last meet and prizes will be given to the greatest point winner and to the winners in each event.

After the regular events a relay race will be held between all the men competing in the previous runs. There will be two teams, one composed of Seniors and Sophomores, the other of Juniors and Freshmen. This race will undoubtedly prove amusing as weight men and field men will be mixed in with runners. After this has finished a short talk will be given by Captain Germain in the dressing room. He desires that the competitors will remain to hear what he has to say.

Pictures of the finishes and other interesting parts will be taken by the official photographer, E. C. Taylor, and will be posted in the Union next week.

THE WEATHER.

FAIR.

Forecast for Boston and vicinity:
Saturday fair; moderate westerly winds.

CALENDAR.

Saturday, October 5, 1912.

2.00—Hare and Hounds—Trinity Place.
6.30—THE TECH Dinner—Union.

SATURDAY, OCTOBER 5, 1912

TEDDY FRESHMAN.

Teddy Freshman made his formal debut last evening in Institute life; his dress was simple, consisting of happy smiles, clothing a well made individual.

Those of the older men who were present at the Union must have been impressed with the splendid showing that the entering class made, and we are certain that the men of 1916 are of the type that the Institute needs.

The Christian Union is to be congratulated on the excellent entertainment it provided. We have been to many of these Freshman welcomes, and venture to say that none have surpassed that of last evening for general camaraderie and bonhomie. The speechmaking was very good and of the type to convince one of the splendid opportunities that attend an Institute life.

Tonight the second large affair of the year is to take place with the holding of the Freshman Dinner. This gathering has always been attended by the majority of the Class, and it is hoped that on the present occasion all previous records for attendance will be surpassed. It is imperative that all 1916 men be present so that they may have an opportunity for getting well acquainted with their fellow classmen. Last night an opportunity was given to meet the Upper classmen, tonight the chance is to meet their own men.

Come, you men of 1916, and make the 5th of October a red letter day in your class history!

TOWELS.

The distinct improvement in sanitation contrivances around the school over those that prevailed last year is a matter that the student body might well congratulate itself upon.

Whoever was responsible for the placing of towels in the various lavatories throughout the Institute deserves the thanks of us all, and from the many remarks we have heard uttered we judge that telephatic waves of gratitude must be reaching him constantly.

We hope the good work will be continued, and several other things that need rectification will soon be the object of the same attention that has attended so excellently to our ablu-tionary needs.

PROGRESSIVE CLUB GETS GOOD SEND-OFF

Organization Committee to Form Constitution—Talk Well Received.

Mr. Russell A. Wood found a crowd of about one hundred and fifty men in the Union waiting for him to speak on the opportunities for the Progressives of Technology to show their interest in the party. He proposed that men who were not able to vote this year might at least help at the polls, while those who were living here last April, and are over 21, can vote for the party candidates this fall. He asked the men who were willing to do this work to give their names to Sandburg. About thirty men signed up to do this work.

The meeting nominated the following men to form a committee to organize the club: C. A. Sanburg, secretary, the other members being O. R. Freeman, M. J. Sayward, T. D. Parsons, L. R. Talbot of the T. C. A.; R. P. Kennard, M. A. Oettinger, T. A. Palmer, A. C. Witherspoon, Dowling and Hastie. These men held a short meeting after the talk, and they will meet again in the Union Monday at 1 o'clock.

MUSICAL CLUBS.

First Meeting to Be Held Tuesday, at 4 P. M.—Open to All.

At a quarter past four next Tuesday afternoon the first meeting of the Musical Clubs will be held in the Union to discuss plans for the coming season, which promises to be the biggest and best the clubs have ever had.

This meeting is an open one and all men interested in the clubs in any way, especially new men, are earnestly urged to be present. The managers of the separate clubs will outline their plans, and the qualifications for membership will be fully explained. The number of men to be admitted this year has been greatly increased, so that anyone who has any musical ability whatever stands a good chance of making one or the other of the clubs.

The trials will be held next week, Wednesday and Thursday, as follows:

Mandolin Club—Wednesday, Oct. 9, at 4 P. M.
Banjo Club—Thursday, Oct. 10, at 5 P. M.
Glee Club—Thursday, Oct. 10, at 4.15 P. M.

INSTITUTE COMMITTEE.

First Meeting on October 8th—Important Affairs Arise.

At the first meeting of the Executive Committee of the Institute Committee, yesterday, it was decided to hold the first meeting of the Institute Committee on Tuesday, October 8, at 4.15 P. M. in Room 8, Eng. C. The room of meeting is the same as last year.

At the meeting Tuesday will first be discussed methods of raising money for the support of athletics. A report of the "Concerning M. I. T." Board will be heard, and ideas will be asked for about the holding of an All-Technology dinner.

There will also be discussed the proposed lightening of the duties of the Senior Class President. At this time the suggestion that secretaries of the various activities meet to act on the adoption of uniform minute books will be talked over.

The committee will also consider the standing of the Varsity basketball team.

WE CATER ESPECIALLY TO STUDENTS

SEVERAL SOCIETIES HAVE BEGUN WORK

The Early Birds Have Already Begun Collecting Dues.

At this time many of the professional societies and clubs of the Institute are beginning their year's work. The first meeting of the year will be that of the Rifle Club, which comes this noon at 1. The Chemical Society and the Civil Engineering Society held officers' meetings Thursday, and both are planning meetings in the near future. The Cenopoliton Club is going to make its plans for the year at a meeting Monday.

The officers of the Wireless Society have already been to a meeting of the New England Wireless Association that was held at Harvard last week, and they have arranged to have the next meeting at the Institute. The Association is the result of the agitation last year for a co-operation among the amateur Wireless Clubs, and the M. I. T. Club is represented through its president, H. A. Affel, who is the treasurer of the Association.

The Catholic Club has made plans for a meeting in a little more than a week. The Biological Society is obtaining many members through the activity of its officers in obtaining dues.

There are several other societies that usually begin active work early in the school year, but so far nothing has been heard from them.

T. C. A. RECEPTION

(Continued from Page 1.)

play and one for the best net score. was a royal opportunity to meet Dean Burton, Major Cole, Professor Talbot, and Coach Kanaly. The wearing of the official red and gray buttons, the official insignia of the Institute, was urged upon the new men. He spoke against the politics that have made a few of the elections in the past disagreeable, and expressed the hope that that feature will be eliminated. Mr. Peck ended his talk with the admonition to be sure and mix with other students and in this way become broader and bigger in every way.

The quartet then sang two selections, which were very warmly applauded.

E. B. Germain, '13, gave a talk on athletic activities at the Institute, taking up the different sports and explaining the advantages of each. He urged the new men to try out for the Field Day teams, saying that good material among the Freshmen was very often discovered in this way. He pointed out that the track work, such as cross-country, hare and hounds and relay was especially valuable. His talk was valuable throughout and much appreciated.

After the quartet had again favored the gathering with two more songs, Mr. L. R. Talbot, of the T. C. A., spoke on the aims of the organization. He emphasized the value and need of the development of the religious side of the student, and service to humanity. He urged attendance at the discussion groups which are to meet twice a week. He announced that the speaker at the Thursday noon talk next week would be President Murlin of Boston University. Mr. Talbot heartily welcomed the fellows and extended his help to the men at any time.

Refreshments were then served, followed by an exchange of good humor, cheering, and the Stein Song.

COMMITTEE

(Continued from Page 2.)

All the standing committees will be expected to report and all members will be expected to be present. Any business may be left at the Cage for the treasurer.

WALTER HUMPHREYS,
Registrar.

RIFLE MEETING TODAY.

All Men Who Shoot Are Invited to Meeting This Noon.

The Rifle Club of the Institute is to hold an important meeting at 1 o'clock in 26 Rogers. The men who were members last year would like to have all men, especially Freshmen, who are interested in shooting, to come to the meeting. The principal business will be to elect officers for the coming year.

If the membership of the club becomes sufficiently large and representative there is a possibility that the Military Science Department will turn over to the club all the rifle practice that has in past years been connected with the instruction in military science.

A few enthusiasts have already had outdoor practice at Waltham. Next week the shooting will begin for all those who can get time.

JUNIOR CLASS NOMINATION papers are due a week from Monday. All nominations must have ten signatures. (4-10t)

I HAVE one large, light room, furnished, for two men. Private family. Marble lavatory, with hot water always ready. Near Symphony, Opera, Mechanics' Building and Fenway. Twelve minutes' walk from Tech. Call any time. George T. Matthews, 57 Westland Ave., Back Bay. (4-2t)
