E. E. SOCIETY HOLDS
MEETING TOMORROW

General Discussion of the Trip to New York Will Come
Friday Night.

The Electrical Engineering Society will hold a meeting Friday evening at 8:15 in Y. M. C. A. I. The meeting will be of great interest to the mem-
bers, as an important matter is to be discussed. The speaker of
the evening will be Mr. Blood, a senior member of the Roes & Webster
corporation, and a very interesting talk is expected. He has not yet
been announced, but the talk is ex-
pected to be of a somewhat informa-
tive nature.

The chief business of the evening
will be the passing on the new men
who have applied for membership to
the society. This will be followed by a
general discussion of the big trip
which the society has arranged for the
weekend, as announced in an earlier issue of THE TECH, will comprise a
journey through the principal cities of
New York and New Jersey. The question:
whether members of the Electrical So-
ciety or not, on the payment of the
set of $2.50, is open to all men desiring
to go are requested to make application
at once to the secretary of the society.

The meeting will be the only one
during the first part of January, as the
meeting scheduled for the evening of the
eight will have been called off, owing
to the fact that the speaker, Mr. Growth,
was not available to be in the
city at that time.

PLAN ORGANIZATION.

Technology Clubs Associated to Be
Voted on in New York.

One of the most important matters
that the Electrical Engineering Tech-
convention in New York is
the proposal of the Electrical Tech-
corporation. If the general plan
for the formation of the new organ-
ization is approved, the society will
indicate a place for the annual meeting
in the near future. The acceptance
of this plan will be a big thing for
the technology clubs in the various
parts of the country, and will help to
bind them together more closely than
they have ever been before. The pro-
gressed organization will hold annual
meetings in various parts of the coun-
try, and in cooperation with the
Alumni Association, strive to promote
social intercourse among the mem-
ers of the local clubs and associa-
tions and develop their activity, thus
not only contributing to the welfare of
the local associations, but to that of the
corporation as a whole.

Union, the Alumnae Association, strive to become
a regular feature of the organization and to cast one ballot, all other
clubs or associations are to be entitled to asso-
ciate membership.

B B O C L M I V NG COMING THIS MONTH

New York to Be Visited by Crowds of Tech Graduates and Students.

Three trains, loaded with six or seven hundred Institute men, are go-
ing down to New York on January 17
and 18. The fellows that are going will have a great time—but why
are they going? Because one of the
greatest reunions that Technology has ever had is going to be held then.

All the old graduates are going to
turn out in large numbers, great
survivors have been arranged, and some-
thing new is to be done in every second.

New York Alumni Association has
charged of this reunion, and it is un-
der the personal direction of Ben-
nov, M. He has arranged a pro-
grand opening from Friday, the 17th,
until Sunday.

Some arrangements have been
made for private trains to take the
students down to little old New
York. The New York Club wants every
student that is going to come to
New York, and they promise that every one
who goes will return with much
more Tech experience than they will be born with.

Be Voted on in New York.

The Architectural Engineering So-
ciety was organized in the fall of 1911
in the Institute, and the Engineering So-
ciety would be of great help to the
Architectural course in a general
way.

Last year’s officers were: C. E. Mor-
row, president; C. W. Somers, vice-
president; L. A. Baller, secretary.

There were four very good talks
last year by Prof. Lawrence.

Both for Salem Y. M. C. A.

The wrestling team, which is pro-
gressing finely, has arranged a meet
with the Salem Y. M. C. A. team to
be held on Tuesday, January 14th.

It is expected that the meet, to come
off about the middle of the winter season,
can be arranged with the In-
stitute team, Friday, at a meeting to be
held in the B. A. A. room. It is ex-
pected that Tech will become a mem-
ber of the Salem S. and A. A. A. N. E.
so that it will be allowed to compete in its meets, but the
members have been taken in. The offi-
cers have been elected as follows:

Music Competition.

Sanger Probably Comes to See
Show Music Talent.

The music competition for Tech
music, is to come in on a close on
Saturday. This will be in Boston on Saturday.

Quite a few successful songs have
been written on this subject,
during the Christmas holidays, and
the reports made by the writers it seems as though there
would be a good variety of work com-
peting.

It is expected that Coach Sanger
will be in Boston on Saturday to go
ever the work that will be submitted
will be shown. TheScope expects all
music writers to have their mate-
rial in such shape that he may be
allowed to compete in it if he is able to
make his selection at the above-
mentioned time.

This part of getting ready for a
choral contest does not seem to be
receiving all the attention that it
should. Student body that its relative value to the show might be expected to
demand, for without good music this
show’s floor would fall far behind the
standard set by former shows.

NEW BANJO MUSIC.

Several Selections to Be Given
Out at Rehearsal Today.

This afternoon, at 5 o’clock, the
Banjo Club will hold its first: re-
hearsal of the school year in the
meeting especially important
the new music for the year will be given
out, and the orchestra with a full atten-
dance, in order that the explan-
tation of the music may reach every
member.

During the selection of all the
music for the coming year was chosen. Among the selection to be distributed today is one of especial interest, because it is one which has never been tried out
before at Tech, being used by the
Banjo Club here.

Next week’s club will have re-
hearsals on Monday and Thursday, at 6 o’clock.

CALENDAR.

Thursday, January 2, 1913.
1:30—1911 Class Pictures Distributed.
4:00—Orchestra Rehearsal—Union.
7:30—Banjo Club Rehearsal—Union.

Friday, January 4, 1913.
1:30—1913 Class Pictures Distributed.
4:00—Electrical Engineering So-
ciety Meeting—Union.
7:30—Show Music Competition Closed.
CHESS TOURNAMENT APPROACHES ITS CLOSE

Semi-Finals Will Be Played Off
By the End of the Present Week.

The chess tournament, which has been progressing for the past few weeks, will be finished soon. The second round is over, and but four men are in the field. These men play in the semi-finals which must be completed by the end of the day. The two high men in these contests will play for the championship during the weekend of Jan. 8th.

The results of the second round were as follows: Brown defeated Mowry by a score of 2:0; Kaufman won from Baker by default; Hoyt took his game from Woodbridge by a 5:0 score, and Paris won from Johnson by a score of 2:5. In the semi-finals the first two victors, Brown and Kaufman, will play together, while Hoyt and Paris will likewise fight for place.

The chess men are also hard at work trying to arrange for outside matches. Games have been requested from Brown, Tuffs and Johnson, but nothing definite in regard to them will be known until next week. The outcome of the Harvard return game is not definite, but it will not be until after the mid-year exams.

CLASS PICTURES HERE.

Those 1914 Class Pictures have come at last. They will be distributed to the men who ordered them at $3.00 in the Union, today and tomorrow. Pictures will be given only to those men who ordered them in advance, but any other man desiring copies can secure them by depositing $3.00 in cash with an officer given today, and tomorrow. A second delivery of pictures will be mailed in a week or two to these men.

Did You See Anything

Alumni Reunion.

(Continued from Page 1, Col. 2.)

weeks. Further particulars about the ranks and the accommodations will appear shortly in THE TECH.

A few of the plans that have been worked upon are as follows:

Friday, January 17.

12.00 M.—Registration at the student headquarters, The Plaza, on arrival.

1:00 P.M.—Luncheon at the Plaza (arranged according to classes and courses).

3.00 P.M.—Big mass meeting at The Plaza. President Maclaurin will speak. Mr. John R. Freeman will arouse enthusiasm and speak about the New Site. Professor D. R. Ewer, Professor A. A. Noyes and Professor W. T. Sedgwick will also speak.

4.00 P.M.—Formation of the Technology Clubs Associated, a new organization to be formed. None of this organization is to maintain a central federation.

5.00 P.M.—Tie at The Plaza. Friday night is left open so that the men can see the city and do as they please.

Saturday, January 18.

8.30 P. M.—Clubs and societies breakfast at The Plaza.

10.00 P. M.—Class reunions, to be arranged by the classes.

7.00 P.M.—Annual banquet of the Alumni Association of the Massachusetts Institute of Technology at The Plaza, presided over by James W. Olliffe, Jr., president.

CHEMICAL SOCIETY
MEETING TOMORROW
Changes in Constitution to Be
Discussed at Afternoon
Meeting.

Tomorrow afternoon the Chemical
Society will hold a business meeting in
23 Walker, at 5 o'clock. The so-
ciety has had no business meeting as
yet this year, and so there is much
to be considered. There are also sev-
eral important changes in the con-
stitution to be discussed, especially in
regard to whether or not the dues
shall be changed for that year.

The Program Commitee have been
arranging for speakers for January,
and it is possible that a definite an-
nouncement can be made as to the
speakers' plans for this month.

As this meeting comes directly
after laboratory it will be easy for
the members to attend. It is not ex-
pected to make the meeting very long
on account of the lateness of the
hour.

CATHOLIC CLUB.

Next Wednesday the Catholic Club
will hold its first meeting of the new
year. The officers of the club have long
planned to have a series of talks on
Evolution as it is viewed by Catho-
lics, and they have secured, with the
assistance of Father Scanlon, the first
speaker for the meeting Wednesday.

COLLEGE NOTES.

Two hundred and fifty candidates
reported at the first meeting of the
musical club of the University of
Pennsylvania.

The first plucentar to be initiated
into Phi Beta Kappa is Webb Van-
debil. He is said to be the first
millionaire's son at Yale to be elect-
to this national scholarship fra-
ternity.

The freshmen at Reserve com-
mittted an unpardonable sin last week
by raising their flag to the top of the
campus flag pole. The halfbars were
out, and it required the services of a
steep-jack to remove the offending
"flag."

The "ad" rustlers and student sales-
men of the University of Utah are
organizing a salesmanship and adver-
tising club for the purpose of study-
ing their line of work, and secondly,
for the purpose of aiding Utah under-
graduate activities.

Michelle Deeman, a Greek graduate
from a college in Constantinople, has
taken the University of Pennsyl-
vania. He is now playing on the
Freshman football team of that insti-
tution. In Greece, he was a famous
sweater; he put the shot forty-four
feet. In 1904, he took second place
for the javelin throw at the Olympic
games.

The newest fashion of the eastern
college world is the formation of a
"riding klub." made up of Columbia
University graduates. Nearly fifty men
reported for the "first practice."

A new department in home econom-
ies has been offered at the University of
Wisconsin. One hundred and sixty
courses in dietetics and household
art.

Old Established Dining Room
Mrs. H. O. Hanson, Prop.

**Write Ideas for Moving Picture Plays**

**YOU** CAN WRITE PHOTO PLAYS AND EARN $25. OR MORE WEEKLY.

We Will Show You How!

If you have ideas—if you can **think**—we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers, such as VITAGRAPH, EDISON, KESSANAY, LUBIN, SOLAX, IMP, RELIANCE, CHAMPION, COMET, MELIES, ETC., are offering $100, and more, for single scenarios, or written ideas. We have received many letters from manufacturers, such as VITAGRAPH, EDISON, KESSANAY, LUBIN, SOLAX, IMP, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication." You will earn $100 MONTHLY FOR SPARE TIME WORK.

**FREE** SEND YOUR NAME AND ADDRESS AT ONCE FOR FREE COPY OF OUR ILLUSTRATED BOOK. "MOVING PICTURE PLAYWRITING." Don't hesitate. Don't argue. Write **NOW** and learn what this new profession may mean for you and your future.
