B. A. A. COUNCIL
FINALLY COMPLETED

Tech vs. Dartmouth With 390 Team—
no Team Runs Dart-
mouth and Harvard.

The schedule of relay races for the B. A. A. meet has been arranged to the satisfaction of all concerned. Tech is to meet Dartmouth in the 200 yard.

Professor Jackson’s
TRIP TO ENGLAND

Describes Details of Appraisal of
English Telephone System.

Professor Jackson made a trip to England recently to aid in appraising the property of the telephone system while he is consulting for the company that they would buy. The entire property and service on the land service was appraised, and the license was transferred for a sum of money. The telephone company placed their entire concern and all the plant and apparatus at a price of ten million pounds, or one hundred and fifty million dollars. The telephone company estimated that it would cost five million dollars to pay but twenty million pounds, however, but delayed action until an appraisal of the property could be made.

The inventory and valuation of such an extended concern, which included buildings, real estate and other telephone property, was by no means a small task, and a large amount of time and money was spent in securing a value to the whole. Great detail was necessary in the valuation and may be used as the guide for the appraisal of the New England Telephone Company if an agreement is reached. At first slight there was none which had an entire knowledge of the government and company could get together. Finally, when an agreement could not be made on labor and material costs, the government gave the ease to the telephone company, but the telephone company was not under government authority which made such a matter just such affairs.

On January 1st, 1912, the government took charge and began to pay off the company to get their money back. Last Monday the commission placed the value of the company at about twenty million pounds. This was the value made by Professor Jackson, and was over a million under the cost.

FRESHMAN DRILL.

"Step! Step!" "Guia-awwyed a little!" "Step! Step!" "Guia-awwyed a little!" "Step! Step!" "Guia-awwyed a little!"

The procedure for the first drill of the year was announced by Mr. Hoffman, Mr. Hoffman, Mr. Hoffman. The first drill of the year was announced by Mr. Hoffman.

The drill was held in the armory hall. Every Monday, Wednesday, and Friday the drill was held, except for the first practice, which was held on Wednesday, January 15, 1913.

YALE HOCKEY GAME.

The manager of the hockey team has recently written to see if some arrangement cannot be made with Yale for playing the game which was to have been played at New Haven on Friday.

The scheduled game between Tech and Yale was necessarily postponed on account of the weather.

Yale has an outdoor rink and is to play the Connecticuts at home. The postponed warm weather of last week and early snowing, so postponement was necessary.

Yale was down to nine men and all would be excused from the eighth drill of the month. Accord- The manager of the hockey team has recently written to see if some arrangement cannot be made with Yale for playing the game which was to have been played at New Haven on Friday.

The scheduled game between Tech and Yale was necessarily postponed on account of the weather.

Yale has an outdoor rink and is to play the Connecticuts at home. The postponed warm weather of last week and early snowing, so postponement was necessary.

Yale was down to nine men and all would be excused from the eighth drill of the month. Accord-
Entered as second-class matter, Sept. 15, 1879, under the act of Congress of March 3, 1879.

We should like to ask all Tech students if they are aware of the fact that the student body is not supported by the attendance of the students at the Institute even to the extent of meeting the expenses of the lesser needs in any branch of education.

The few lines which we reprint from the column of the Tech paper are given very justly the point in question:

"0 and to the excessive crowd of eight paid admissions to the inter-school games at Friday the Athletic Association will force to build new bleachers for the next meet. It is said that the former bleachers were not able to stand the strain of bearing so much weight.

"It is surely a wrong state of affairs, and one which needs the immediate attention of the Institute, for all the Tech students to think that it is through the visiting teams that our reputation is largely kept up among those colleges. Because we are students and have that reputation generally does not mean that we cannot support the men who are doing their best to support and represent us. With the advent of another new leaf in the calendar we should read International Law and Current Public Problems examinations omitted. The examinations in Political Economy will be given according to schedule.

"The examinations in Political Economy will be given according to schedule.

\[\text{AMUSING RACE IN GYM.}\]

Monday afternoon Coach Kanaly gave an interesting entertainment for the track candidates in the form of a relay race between teams picked from the Freshman Gym class. An enormous crowd gathered to witness the race, and cheered the performers to the echo. The participants themselves seemed to enjoy the race as much as the spectators. Each man was eager and although several of the men went off before they were finished, and the rest cut the corners, they showed good spirit and got some real exercise. Some of the stars of the event were looked on by Coach Kanaly and Captain Germaine were Kraus, the wiry little German, the silent Swede, and Duggan, the red-headed speed boy.

\[\text{WRESTLING TEAM TO MEET SALEM Y. M. C. A.}\]

\[\text{Men in Excellent Condition—Events Likely to be Contested.}\]

On Thursday evening of this week the wrestling team is to have a match with Salem Y. M. C. A. team comprised of one of the best teams in this section of the State. The men have all been showing up in good shape and are in excellent physical condition, so that the meet is expected to be closely contested.

\[\text{Saver, 106, an Andover man, is entered in the 115-pound class, and although this is his first meet here, he is expected to show up well, judging from what he has done in practice. Means, also a new man this year, is entered in the 135-pound class. He was scheduled for the East Weymouth meet, recently held, but was laid up at the time. J. G. Kelley, who won his match at East Weymouth, is entered in the 155-pound class. Mr. Kelley is probably the best man on the team, as he has had considerable experience before coming here. Smythe-Martin, in the 145-pound class, will probably meet his old opponent, Sullivan, who was defeated last year in a closely contested match. It is also worthy of note that Martin was the only man who won at Salem last year. Alexander, S. Kelley, and Low, and Crowell, heavyweight, are also expected to show up well.}\]

\[\text{The team is scheduled for a meet with Marblehead on Saturday of this week. A meet was also expected from Brown University, but owing to the fact that all of the Brown men are beginners, the coach has decided not to allow them to go out until next year.}\]

\[\text{CORRECTION.}\]

In the issue of THE TECH of January 14, the article entitled "Politicul Economy" should read International Law and Current Public Problems examinations omitted. The examinations in Political Economy will be given according to schedule.

\[\text{TECHNIQUE BUSY.}\]

Grinds, Drawings and Material Coming in Fast.

The Technique office is very busy these days, as there is an immense amount of material to be put into shape in the next few weeks. In the 150 committees that are in session as possible, the board requests that the Secretaries of all the Professional Societies, Clubs and Fraternities send in a complete list of all members in good standing before the twentieth of January. This is the date that the material must be ready for the printer. These lists may be left either at the Technique office or at the Cage.

Quite a number of grinds have been received during the last few days in response to the request which was published in THE TECH, but many more are desired, so that the number to be chosen from, this department may be kept up to the standard of previous years.

\[\text{OTHER COLLEGES.}\]

The intercollegiate rifle meet will take place next week in New York. An unusually small number of candidates have held back Freshman crew practice at Columbia.

The police were summoned at a church in Wisconsin last week to help enforce the ban on the "turkey trot" and "tango."
A meeting of the College Entrance Examination Board was held recently, at which it was voted to materially change the character of entrance to our largest universities in the near future. The following paper was submitted as an example of how the questions are to be treated next year:

**Entrance Examination Questions:**

1. Who discovered America?
2. Outline a situation where the exchange of goods to the advantage of one side, and disadvantage of the other, must be in by January 22, 1913.
3. What is the best position for throwing the discus?
4. Draw a freehand sketch of a baseball field, showing positions of the players on the team.
5. What is the best position for holding a bat?
6. Outline a situation where the exchange of goods to the advantage of one side, and disadvantage of the other, must be in by January 22, 1913.
7. Name the eleven positions on the baseball team.
8. Outline a situation where the exchange of goods to the advantage of one side, and disadvantage of the other, must be in by January 22, 1913.
9. Name the eleven positions on the baseball team.
10. Who discovered America?

The Constitution of Technology Masonic Club Adopted.

Last evening, shortly after 10 o'clock, a good representation of the Masons at the Institute sat down in the Union to enjoy the dinner prepared by Stewart Colton. After the dinner the men adjourned to the smaller room in the Union where the meeting was called to order by the president, G. H. Haines.

The most important business of the evening was the reading of the report of the committee appointed to draw up a constitution. This committee consisted of Professor Vogel, of the Faculty, A. D. English and L. L. Custer. After much careful consideration and discussion the articles of the constitution proposed by the committee were adopted.

The association will be called the "Technology Masonic Club," and its purposes are set forth by its new constitution to be presented at the next meeting of the Masonic Club.

**The ADVANTAGES WE OFFER**

- **Progressive** methods, large resources and two conveniently located, thoroughly modern bank buildings, combine to make the Old Colony Trust Company the most desirable depository in New England.

- Interest-bearing accounts subject to check may be opened either at Court Street or Temple Place, and the two offices used interchangeably for the transaction of your banking business.

- You are cordially invited to inspect the modern Safety Deposit Vault at either office.

Write Ideas for Moving Picture Plays

YOU CAN WRITE PHOTO PLAYS AND EARN $25. OR MORE WEEKLY

WE WILL SHOW YOU HOW!

If you have ideas—if you can think—we will show you the secrets of this fascinating new profession. Positively no experience or literary ability necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering $100, and more, for single scripts, or written ideas.

We have received many letters from the film manufacturers, such as VITAGRAPH, EISON, ESSENAY, LUBIN, SOLAX, IMP, REX, RELIANCE, CHAMPION, COMET, MAELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of this new profession. Write your name and address at The Original
