GLIDDEN WINS SHOW
POSTER COMPETITION

Senior Gets Ten Dollar Prize for Best Poster-Copies On Sale Soon.

The poster competition of Tech Show, 1912, was described yesterday, as on sale. On or Mr. Glidden, 1913, and to him will go the annual ten dollar award for the winning poster. After careful consideration of the ten posters handed in, this one was finally given the decision. The entire lot were excellent, and it was exceedingly difficult to make a choice.

The central figure of the poster is a football player, so skilfully drawn, that you might think a blue-plate in reality. She is surrounded by a band of students, and her costume carries out very well the idea of the title of the show, "Money in Flight." The poster is a "Tech Show" number, and the lettering has been exactly in the general theme of the show. The poster has been declared by experts to be the best that has ever been drawn, for the Best Poster Exhibition.

In printing various communications concerning the new constitution for the college we have to depart somewhat from our rule of printing no communications on the front page of an issue. In doing so we feel that we are perfectly justified; that we will take advantage of the opportunity for placing our ideas before the student body. All communications will please be sent to the same place the last hand column of the front page, and to so far as it is possible the committee in charge will answer the criticisms on the next day after a communication appears.

The Tech Man and the Opera

As the opera season nears its end, how many of us are satisfied that we have taken in the most of our winter's wonderful opera within walking distances, of one of the two finest opera companies in the country? For many of us, coming from the smaller cities and towns, out of reach of almost all dramas as well as operas, and doomed to be our own critics, we have been fortunate in having the opera town or construction camp after graduation; these winters here at the very home of this wonderful company presents a golden opportunity, which, once gone, may never be retraced. The company here will cooperate favorably with any in this country and through the interchange of shares with the Metropolitan Company of New York, the best singers are obtainable by Mr. Paul Weinsheim, one of the finest conductors of Wagner in the world completes a long engagement here this week.

You have only to read the daily annals of the opera to realize the high standard of the performing artistes. With all this at our door, have we used it to the best of our ability? Are we not loyal Tech fans and love the Tech man all that he education does for us? Let us within our limits; the city itself offers a broad education for all; let us see how much they will see and start no better than by hearing some of the finest music that has been written. Let us hear more opera talk among Tech men and see more of them in the audience.

PROF. HARVEY SHIMER SPEAKS ON "EARLY MAN"

Stages of Man Are Reckoned By Kind of Implements They Used.

Last evening at a meeting of the Society of Arts, in Huntington Hall, Harvey Shimer, associate professor of Paleontology at the Institute, gave an interesting lecture on "Early Man." The speaker was chosen by President Macfieur, who also made some announcements of the organization, also offered a same for admission to the membership of the society.

Professor Shimer started his talk with the lowest form of man which has been discovered in archaeological researches. Man has always been in need of tools in self-defense and weapons which could be chipped and shaped from rough stone. Still higher comes man who used instruments which had been made so smooth as to have a cutting edge.

The next age represents man who made tools of iron and later of steel. This type of man formed a mental picture of his tools before constructing them. At this stage of civilization is the race who are found during the changes occurring in the skull of man, especially in the brain case. The age of the highest type of man produced the most prominent, his forehead higher and more rounded than ever before. His speech was well illustrated by slides showing the places where skulls and remains of primitive man have been found, and also showed the changes in the shape of the skulls themselves.

WRESTLING MEET.

Team Will Grapple With Beverly Y. M. C. A. March Ist.

The wrestling team will have a bout with Beverly Y. M. C. A. at Beverly, on the 1st of March. The full team of nine men will compete. The make-up of this team has not yet been decided, because of this meet there will be no men entered in the open meet at East Woburn, Y. M. C. A. on the same night. The team has a second bout scheduled with the Boston Y. M. C. A., which lost to Harvard last Thursday. This meet is set for the 2nd of March.

PROGRESSIVE MEET.

The Prefect Pipe

O. P. M. is perfect because it is mild, fragrant, slow burning, free from artificial flavoring, and does not bite the tongue.

CHARLES H. JOHNSON, M. I. T. '05

NEW ENGLAND MUTUAL LIFE INSURANCE CO.

CHARTERED 1835

TELEPHONES (Main 557) 176 Federal St. BOSTON, MASS.
H. ABRAHAMS NEXT T. C. A. SPEAKER

Prominent Labor Leader Will Speak on "Labor and the Church."

This week's meeting of the T. C. A. is to be unique, and should prove of interest to the men who gather in the Boston Central Labor Union, at 128. The speaker for that day is Mr. Henry Abraham, and his topic is "Labor and the Church."

Mr. Abraham is a leader among the International Typographers, the Cigar Makers' Union, and is an authority on the history of the labor problem, and his advice and help are constantly sought on matters pertaining to industrial labor legislation. He is well-versed in the various sides of the social problem. He is an able and convincing speaker, and is in great demand at all kinds of meetings.

Grades in his positions of influence in labor circles, Mr. Abraham is able to speak with authority as to the laboring man's attitude toward vital problems of his time, and to say on this rather unusual theme of "Labor and the Church" is sure to be welcome, interesting, and the T. C. A. is confident that one of the largest crowds of the year will attend this meeting.

INDOOR TRACK WORK.

Only Two Meets Still to be Held. Except 1916 Meets.

The indoor season has now practically ended as far as varsity meets are concerned. The relay teams have been very successful this year, and have not won a single race. However, the mile team and also the two-mile team will remain practically intact for next year's indoor season. The future, then, will show the results of this year's work, even though at present it seems to have been a dismal failure. Moreover, the outlook for the outdoor season is very good, especially in the track events. The crop of runners for this year's season is a very remarkable one for the Institute, and if the field events can be taken care of, this outdoor season should prove to be of championship caliber.

There will be one more chance indoors, that is, the N. E. A. U. championships this week. Many of the meets will be entered and, from the work which some of the individuals have been doing, several places will be won by Tech men. T. H. Goering, Huff, Palmer, Williams, Wilson and several others can be looked upon to make a good showing. The teams being entered are "Cyclone" Burns, and is expected to be a formidable combination. In addition, a team will be sent to Brown University, to take place about April first. The track team has the best part of its schedule before it, and the individual "Cyclone" isn't sure to be as high as it was at Milton in March.

Negotiations are under way to bring about a meet with Andover Academy. This team is being coached by "Cyclone" Burns, and is expected to be a formidable combination. Together we can work with Brown University, to take place about April first. The track team has the best part of its schedule before it, and the individual 'Cyclone' isn't sure to be as high as it was at Milton in March.

SENIOR OFFICERS MEET.

Proposed Union Bulletin Board Acted Favorably Upon.

Yesterday afternoon the officers of the senior-class held a very important meeting. At this meeting it was decided that the senior class would pay its share of the expense for the class bulletin board recommended by the Class Committee. This bulletin board is to contain the names of all the students at the Institute, and the names of those who have paid their 75-cent dues will be checked off on that list.

In reference to the Class Day Committee, which is to come off on Wednesday, March 5th, it was decided that only names of those who have at some time paid dues to the class shall appear on the bulletin board. This will become eligible to candidates for the Class Day Committee.

THE OLIVER TYPEWRITER CO.
BOSTON OPERA HOUSE

SATURDAY, 8 to 10.45. HOG- LETTO. Bond, Leyveau, Scatte- cchi, Blanchard, Cond. Moranzoni.
