The second meeting of the special TECH English section for Freshmen was held Monday afternoon. The class has grown to an appreciable extent, but there are still a number of places to be filled before the full quota of twenty will have been obtained. The work is taken on new interest as it advances, and the choice comes to be one of the most interesting and absorbing in the whole Freshman year. Professor Bates in bringing out the best that is in each individual, and so we would do his evaluation first. They call the sympathy of all of the students of the State in solving this perplexing problem. Briefly, the manifestations are as follows:

On or about February, the twenty-seventh, a change standard and enthusiastic student has been floating around the lower TECH office. It must have been in a different mood and another mood, for it would speak with the two coins which served as its eyes toward the silicon. It clapped the chateau into the upper office, and, with, a long speech, الأولى. He entered and through the opening into the editorial committee. The President was So startled that he could not bear to speak of the story in the office. It was the mystery solved. Since that time the staff has sold nothing. But that favorite source seems to be, "Dear The Fourth of March." The rumors frequently heard the biography of fellow Cesar and had adapted one of the most vivid sentences from the life of that famous Roman to warn the students of Technology of some portion of the story. The President was so startled that he was unable to make head or tale of the story in the office. Thus was the mystery solved. Since that time the staff has sold nothing. But that favorite source seems to be, "Dear The Fourth of March." The rumors frequently heard the biography of fellow Cesar and had adapted one of the most vivid sentences from the life of that famous Roman to warn the students of Technology of some portion of the story. The President was so startled that he was unable to make head or tale of the story in the office. Thus was the mystery solved. Since that time the staff has sold nothing. But that favorite source seems to be, "Dear The Fourth of March." The rumors frequently heard the biography of fellow Cesar and had adapted one of the most vivid sentences from the life of that famous Roman to warn the students of Technology of some portion of the story. The President was so startled that he was unable to make head or tale of the story in the office. Thus was the mystery solved. Since that time the staff has sold nothing. But that favorite source seems to be, "Dear The Fourth of March." The rumors frequently heard the biography of fellow Cesar and had adapted one of the most vivid sentences from the life of that famous Roman to warn the students of Technology of some portion of the story. The President was so startled that he was unable to make head or tale of the story in the office. Thus was the mystery solved. Since that time the staff has sold nothing. THE "M. I. T. UNDERGRADUATE ASSOCIATION"

The proposed Constitution and by-laws of the new "M. I. T. Undergraduate Association" have been published and discussed at several potts of view, but as yet there have been few opinions on the question of its adoption or rejection. Those not familiar with the questions under discussion should investigate the matter at once, as it is in the interest of vital importance to the student body as a whole and to each individual as well. When the Constitution is presented to the student body for ratification each man should be in a position to vote intelligently.

As a means of giving the Institute Committee a firm foundation for increasing its efficiency and widening the scope of student activities, a Constitution and by-laws were drawn up and presented to the student body for the inspection and approval. The constitution wishes to hear the opinion of as many students as possible on any suggestions that may be offered. It is the duty of each man to show a lively interest in this matter and to investigate the issue thoroughly.

UNDERGRADUATE NIGHT.

Alumni Council to Discuss Student Activities.

The M. I. T. Alumni Council, which has already effective work in aiding student activities at the Institute, has decided that one of its meetings shall be an "Undergraduate Night." The Council desires to be enlightened in regard to the character, amount and variety of the student activities at the Institute, and at this meeting representatives from the various student organizations will briefly describe their work.

The active interest shown by the Alumni Council in undergraduate affairs has proved an invaluable source of aid to the student organizations, and it is hoped that the Undergraduate Night, to be held on March 31, will be of equal benefit to both the Alumni Council and the Institute.

The suspense is awful.

THE TECH, BOSTON, MASS., FEBRUARY 16, 1913

STONE & WEBSTER

Ballots Not Issued Until March 5th, at 4 o'clock. All of the names appearing on the ballot, but not more than 35 names will be drawn. All other names appearing on the ballot for the positions, but not more than 35 names will be drawn.

In order to be eligible to vote, each class must be present. Ballots will be mailed to all persons chosen by the registrar. The student body for ratification.

FRIED LAST CHANCE.

Positively No 1913 Ballots Will Be Sold After Feb. 28.

The Technic, 1913, Board wishes to announce that there will be no opportunity to secure copies of Technic, 1913, after February 28. The Board desires to wind up its affairs by that date, so no later sales will be served. The Technic office in the Union will be open from 1:30 until 4 P. M. each day until February 28 inclusive, for the benefit of those who still want to get their books.

A considerable number of those who signed up for books and paid the item deposit have not yet appeared to fulfill their agreements. The Board believes that it is only fair to those who have paid to the Technic Office to carry out the terms of their pledges, and therefore urges all who have signed up to come and get their books.

A few extra copies are still on hand, which will be on sale at the regular prices. Postpaid books will be sold at a reduced price. Last year there was a reduction sale, but the 1913 Board refuses to follow this precedent. Copies of Technic which cannot be sold at regular prices will remain unsold.

NEW COURSES OPEN.

Boston School Offers Opportunity in Foreign Languages.

Special courses in Spanish, Portuguese and Italian, designed to be of special and immediate value to men engaged in commercial life of the countries where these languages are spoken, or to those intending to use these languages in business here in America, are being offered by the Institute in the Coming School Session. The courses are taught at 45 Boylston street, and provide free instruction to any who desire such knowledge.

Instruction is given by native teachers, who thoroughly understand what a practical working knowledge of languages is. Those desiring to supplement any that are given at the Institute, and can be of great service as much as special attention is given to a careful training of the teachers. The courses are conducted by the city of Boston and the Institute, and are open to both beginners and advanced students, and are to be continued from 3:30 to 4:30 P. M.

The classes have been in existence since December, and pupils having knowledge of the languages may be admitted. Applications should be made at the office of the principal, Paul V. Donovan, Room 21, 45 Boylston Street.

You must vote for Moore's.

The Prefect Pipe Tobacco

O. P. M. is PERFECT BECAUSE it is mild, fragrant, slow burning, free from artificial flavoring, and does NOT BITE the tongue.

NEW CLASS ORGANIZED.

Prof. Cross Will Conduct Class in Radio-Activity Weekly.

Yesterday afternoon, in 22 Walker, one of our new classes of the last title was inaugurated, which, according to the rules, is in a position to know and to become one of those important classes in the future. This class which is under the personal direction of Professor Cross, will deal exclusively with Radio-Activity and Electrical Discharges in Gases. The importance of these factors in present day science can hardly be exaggerated. Furthermore, the future seems to have no number of other enticing places for Radio-Activity of one sort or another.

The new class will meet every Tuesday at 4:15, in 22 Walker. No registration is necessary and there will be no examinations.

FRESHMAN TRACK.

The next scheduled to take place this afternoon at 3 o'clock, between the Freshmen and Boston College High, at the Tech Gym, has been postponed.

Start Your Tech Year Right.

Your equipment for the year is not complete unless it includes the Oliver Typewriter, Model Number Five.

Regardless of the work you may take upon you, the Oliver Typewriter will be a necessity. Why not take advantage of the opportunity to get one now while you are studying? It is cheaper to do your own typewriting than to hire a stenographer.

You can Rent the Number Five Model Oliver at the rate of $5.00 per month and when you have paid twenty consecutive months' rental, your Oliver will be presented to you without further expense.

Call at 146 Congress St., or
Telephone Main 192 or 193
