HARE AND HOUNDS' CLUB
HOLDS GOOD MEETING
A. F. Peaslee, '14, Elected Chase Captain—To Hold Inter-
class Meet.

A meeting of the Hare and Hounds' Club was held yester-
day evening at the Union. This meeting was very impor-
tant, as one more member was elected to the list of the
members of the club. The members of the club were
present and discussed the affairs of the club.

The officers elected were: Chase captain, A. F. Peaslee, '14; assistant
chase captain, L. B. Best, '15. Both of these men have been running for
some time and have displayed great interest and ability in this work. They
will endeavor to keep the work of the club up to the standard.

The work has been planned for this term, and the first run will be held
on March 8. The place to which the club will run has not yet been decid-
ed, but will be announced shortly. The committee appointed to arrange
the meeting of the succeeding run has not been decided upon, but will be
决定了 for the time.
The road work of the members will be immediate, and the club will
begin the run as soon as possible. The men will start about 4.15 or 5.15 P. M.,
and is destined to be a very successful one, as the men are anxious to run these runs as possible.

The following important changes which will be made in the holding of an
inter-class race will be first organized by the Inter-Course race. This feature met with the
approval of the majority of the members of the club, and the Inter-class race will
do away with the Inter-Course race. It is intended to hold this race about the last
Saturday in March. Therefore, all the men intend to enter and begin their
preparations for the same.

The meeting was very well attended and all the men showed great interest.

TECHNIQUE ELECTIONS

Exact Function of Electoral Committee Explained

The following extract from the last circular of the Committee on Elec-
tions, printed in order that the Sophomores in voting on the Technique-Electoral Committee will have a clear idea of the function of this committee, its
history and general work.

"In March of the Sophomore year the class holds the election for the
Technique-Electoral Committee. This committee was first organized by the
Committee of 1897 for the purpose of electing the Technique Board, the idea be-
ing that such a committee would select a more responsible board than
would be elected by a popular class election. The idea worked out so well that it has been used ever since. The Board of Di-
rectors prepare a ballot with the names of all the men in alphabetical order, and mail one to each member. The twelve men on the ballot receiving the highest number of votes constitute the Elec-
toral Committee."

"At the first meeting of the committee the members who are the
most interested are elected, and a committee is appointed to
frame a charter. At the next meeting the constitution is
brought up for adoption, and when it shall be adopted the board will
resort to discussing and electing candidates on its own account."

**NEW VICTROLA RECORDS**

Mr. Berliner, Donor of Victor-
ola, Offers New Records

Mr. Edgar M. Berliner, '96, who
has so generously placed the Victorola in the hands of every student, has
now begun to make records. These are for the entertainment of the
students, has proposed to donate fifteen new records every year. At the
meeting of the Bursar at the Annual dinner in New York, he made this remark.

"I am going to make a catalog of these records for each year, and will
make them as interesting as possible."

Mr. Berliner was present at the first meeting, and with the help of his
acompanions, he will make these records suitable for the Victrola.

**REGIMENTAL RACE A GREAT SUCCESS**

**INTERESTING TALK ON COAL TESTING**

Mr. Buhler Explains Methods of Analysis to Chemical Society

Last night about half the members of the society turned out to
hear Mr. H. W. Buhler, a graduate of Cornell, talk on "The Burning and Testing of Coal." Mr. Buhler brought with
him a collection of interesting slides, with which he made
every point in his talk.

When he had called the meeting to order and disposed of the
business of the evening, he began by saying that he had been con-
ected with coal chemistry over a period of years, and that he was
familiar with the methods employed in the analysis of coal.

Mr. Buhler began by explaining how samples were taken. He said that it has
been proved that by following the usual method of sampling, samples between
grindings that the analysis of one gram of coal can be considered to
to represent a shipment of coal.

Then he told how coal was analyzed for the heat units, for water, volatile
matter, ash and sulphur. The heat units were determined by the calor-
imeter or in a bomb calorimeter. Mr. Buhler gave a clear and simple
explanation of both forms, saying that the calorimeter was preferred
result.

The determination of water has been standardized by a research made
by the American Chemical Society. This society has also fixed standards for ash and sulphur.

**JUNIORS AND SENIORS**

The Junior Committee wishes to announce that there are only fifty
sign-up slips left. Those Seniors and Juniors who wish to sign up may do
so with the members of the committee or at the Union with D. G. Crow-
nington, this evening, from 1 to 2 o'clock.

If there are any blank slips left after the Seniors and Juniors have signed up these will be open to all members of the Union on Monday, from
1 to 2 P. M.

**CALENDAR**

Saturday, March 5, 1913
8.00—Wrestling Match, M. T. T. vs. Beverly T. M. C. A. At Beverly Gym. Open to all.

NAVY TRAINING FOR COLLEGE STUDENTS

Not Required To Enlist But Must Observe Requirements of the Navy in Order to Win an Appointment. By M. E. Townsendl, 1910.

...that the students may have further information concerning the training of men on board the battleship, and after the argument given, the following excerpt from the General Orders of the ship is given below:

A Limited number of third and fourth-year men will be chosen for this training. These men will be chosen from those recommended by the authorities of the Naval Training School, and will be compelled to enlist, but they will be required to agree to serve the laws of the Navy and of the ship, and to obey the orders of all officers present. We therefore urge that our students consider this important matter.

The men will have opportunity to receive training in all the departments, as well as in the medical part of the work. They will also be allowed to specialize, and as far as practicable the choice of the specialty will be left to the student.

The men will be required to pay for the use of their clothes and food. The cost of the food will amount to about forty cents per day. The outfit, consisting of one blue dress uniform, two white uniform uniforms, two white caps, two pairs of undershirt of uniform pattern, one blue flannel shirt, one suit of undress uniforms, two white hats, two mattress covers. These will cost about $22.00. Books and articles of clothing not previously maintained need not be of uniform pattern.

The Wired Club announces that a tournament will be held among the members of the organization. The entries for this tournament close at 3 o'clock on March first. Those who enter must play their second game term day before any match can be played.

The drawings for the match will be published in Monday's THE TECH. The club will be divided into four brackets, and the rounds will be played as long as the brackets are left open. The entries in each bracket will be drawn on March first.

The winners of this tournament will be invited to play in the annual tournament to be held in May. The winners of this tournament will be invited to play in the annual tournament to be held in May.

FRESHMAN SCHEDULE.

Three More Meets Before Close of Indoor Track Season.

The schedule of the indoor meets for the Freshman track team has been finally settled. The next meet is Wednesday, March 12, with Medford High School. Saturday, March 8, with Beverly Y. M. C. A. This evening at Beverly. The Tech team beat Salem 4 to 2. Since the Freshman team has been high, the Institute athletes did remarkably well, considering the extraordinariness of the men with whom they competed. The big meet of the indoor season, however, for both Freshmen and Sophomores, is the annual dual Sophomore-Freshman contest. This is always a source of great rivalry, and bids fair to be one of the most exciting meets of the season. It also gives an opportunity for the Freshmen to win numerals, something which very few of them have been able to do so far. The meet is to be held on Saturday, and the teams desire a large attendance of their classmates to help them, especially as there is usually no cheering because of a scarcity of spectators.

COMMUNICATION.

Editor of THE TECH:

Dear Sir—Friday noon, while playing bridge in the Union, I noticed a disturbance. The disturbance increased in volume to such an extent as to interrupt the game we were playing. Cheers of various descriptions and calls of "Votes for Women" were particularly noticeable. The whole affair was of a very turbulent character.

Not being of a very inquisitive turn of mind, I paid but little attention to the affair and thought but little about it until, after finishing the game, I started to leave the room. Then I noticed that the cause of the disturbance was a young lady who was attempting to subscribe for several magazines.

Her presence in the Union was, or should have been, a guarantee that she would be received as a lady by a gathering of inappropriately dressed gentlemen. Instead, the department of many was disgruntled, into the display of which it is unnecessary to go.

The crowd in the Union at the time mentioned was large, and might be said to be representative of the student body. The damage wrought by this incident can not be overestimated and it cannot be eradicated.

It is, indeed, time that some strenuous steps were taken toward better conditions in the Union.

Yours very sincerely,

H. M. Lawrence, 1913.

Write Ideas for Moving Picture Plays
YOU CAN WRITE PHOTO PLAYS AND EARN $25. OR MORE WEEKLY
We Will Show You How!

If you have ideas— if you can think—we will show you the secrets of this fascinating new profession. Positively be experienced or literary excellence necessary. No "rowdy language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply their ever increasing demand. They are offering $100, and more, for single scenarios, or written ideas.

We have received many letters from the film manufacturers, such as VITAGRAPH, EDISON, ESSANAY, LUBIN, SOLAX, I.R.P., REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication."

YOU WILL EARN $100 MONTHLY FOR SPARE TIME WORK.

FREE SEND YOUR NAME AND ADDRESS AT ONCE FOR FREE COPY OF OUR ILLUSTRATED BOOK, "MOVING PICTURE PLAY WRITING"

Don't hesitate. Don't argue. We need your help. Learn what this new profession may mean for
