

# THE TECH

VOL. XXXIII. NO. 68.

THE TECH, BOSTON, MASS., NOVEMBER 5, 1913.

PRICE TWO CENTS

## 1914 JOY RIDE TICKETS READY

Will Be Sold In Union Today At Ten Cents Each—Big Time Promised.

The Committee in charge of the Senior arrangements for Field Day will be in the Union today at 1 P. M., ready to sell tickets for the 1914 Joy Ride at the nominal expense of ten cents each. They hope that there will be an enthusiastic crowd of men waiting in line for this picnic. The small fee charged includes transportation to and from the Field in special cars, sweet music for several hours, and the distinctive 1914 regalia. All this is offered for the same price as the trip would cost by the ordinary cars. The Committee says nothing about the charge for the cheering and the good fellowship, but it is presumed that these will be free. The man who has paid his ten cents needs only his ticket to the Field to take in all events of the afternoon.

The Committee is certain that every 1914 man should be with his class on Friday. They say that the regalia is one which any one would be proud to wear, and that the street cars will be of the most comfortable. We understand that the band is to consist of able men under excellent leadership.

In order to ensure good music, the Committee requests all men who played on Sousa Brooks Technique Band last year to report to them at the table where the tickets are sold at 1 P. M. This is by no means intended to exclude others who have any ability at all in playing on a band. Such are urged to hand in their names, that they may be given an opportunity to prove their worth.

## NEW SITE SPECIAL

Big Eight-Page Issue Saturday To Be Full Of Surprises.

Saturday at eleven appears the first complete dead-sure dope on the New Site, its building, its past, its present, and its future. To make the issue of permanent value there will be photos and plans of the layout of the grounds, in particular a ground plan of the exact location and use of each building.

This issue will contain the most important real news that has occurred around the Institute since Mr. "Smith" gave us two millions and a half for these very buildings, and facts of greater interest to Tech men are not expected before the first class enters the completed buildings.

To give every man a chance to get Special it will be on sale Saturday by so many men of prominence in Tech affairs that no man will have far to go after eleven to find a copy, and to get rid of his dimes.

Just as something more, there will be a complete story of Field Day and Field Day Night, with cuts and criticism of more than usual interest.

Michigan Aggie is causing quite a stir in western football circles, having already defeated many of the Conference teams.

## "HONEYMOON EXPRESS" ARRIVES IN BOSTON

A Spectacular Musical Play—Cast And Chorus Give Much Amusement.

With a rush and a flourish the "Honeymoon Express" arrived in Boston last Monday evening, bringing the Winter Garden Company and their spectacular musical play of two acts and six scenes. From the time the first curtain rises on the opening chorus dance, "The Tennis Tournament," until it finally falls after the finale, the audience is treated to one continuous round of humor, dance and song. The plot, or what there is of it, hinges upon divorce complications of Henri Dubonet and his wife Yvonne, which come to a climax in a wild auto chase to Rouen after the "Honeymoon Express." Here the motion picture is effectively employed, while the "finish" of the chase is shown by a remarkable bit of stage management which shows the headlights of the auto and the locomotive gradually approaching until the life-like machines actually roll up to the station abreast, and the exciting race is over. A general mix-up of identities follows which is finally straightened out to the satisfaction of all.

The parts were all very well played. Al Jolson as "Gus," the colored butler at Dubonet's provoked no end of mirth and received many encores for his songs and dialogues, which abounded in side-splitting humor. Juliette Dika and Anna Wheaton have a long list of vivacious and catchy songs, and Melville Ellis excels. (Continued on page 4.)

## CANDIDATES FOR SOCCER

First Meeting To Be Held In Union—J. M. White In Charge.

The initial meeting of those interested in establishing a soccer team at Technology will be held this noon in Room B in the Union at 1 o'clock. J. M. White is in charge of this meeting and will manage the budding team until some other provision is made.

There are several men at the Institute who have had previous experience in this comparatively recent sport, and they will help coach those men who have not previously played the game. Practice is to start Monday at Tech Field, so it is important that all prospective candidates report at the meeting today to ascertain the details of the plans for the practice.

An effort will be made to arrange a schedule for games this spring if a sufficient number of candidates appear, and if the prospects point to the sport being successful at Tech. Further particulars will be given at today's meeting.

## SOPHOMORE MEETING

The Sophomore Class will hold meeting at one o'clock Thursday in Huntington Hall. The purpose of this meeting is to practice cheers and arouse an enthusiastic class spirit. Every Sophomore should attend the meeting whether he intends to be at the Field on Friday or not.

## TECHNIQUE 1914 DIVIDES PROFITS

\$750 For Institute Committee—Remainder Added To Fund.

The profits of Technique, 1914, were disposed of at a meeting of the board held yesterday afternoon. The total amount was about eleven hundred dollars, more than has ever been cleared by any Technique before.

The books were sold at reasonable price, about the average of former Techniques, so the board attributes the large profit to the fact that more advertisements than usual were sold. The 1914 Technique contained advertisements worth \$700 more than those in the 1913 Technique.

The board has turned \$750 over to the Institute Committee, without restriction or condition. The remaining money is put into a fund started by Technique, 1912, which will be used to purchase furniture for the Technique office in the Walker Memorial Building of the New Institute.

## NEW TECH CELEBRATION

Walker Club Working Hard For Saturday Meeting.

The Walker Club is putting forth every effort to insure that the All-Technology gathering Saturday night shall be as great a success as the importance of the occasion warrants. Numerous slides are being prepared from photographs, plans, diagrams, bird's-eye views, etc., which will of course add greatly to the effectiveness of the speeches.

The club is looking for a good live man to lead the singing, which will be made a feature of the occasion. The souvenir issue of THE TECH will be on sale at the doors, for those who have not purchased it earlier.

As this meeting comes immediately after Field Day, and as an event so well worth celebrating has not occurred since "Mr. Smith" gave his millions to the Institute, the audience will probably be in just the mood for rejoicing, and the affair a supreme success.

## FACULTY APPOINTMENTS

The Executive Committee of the Corporation has announced the following new appointments to the Instructing Staff: D. J. McGrath, of West Roxbury, and Calvin P. Eldred, of Lowell, to be research assistants in Electrical Engineering, and Walter W. Lang, of Roslindale, to be a research assistant in Applied Chemistry. The promotion of Frank A. Brown from assistant in Mechanic Arts to Instructor in Forging was also announced. The first three are members of the Class of '13.

## SENIOR CLASS DINNER

The Class of 1914 will hold a dinner at the Union on Friday evening, November 21st, at 6.30 o'clock. Detailed information concerning the program of speakers will be announced in a later issue of THE TECH.

## OFFICIALS FOR FIELD DAY FOOTBALL GAME

J. D. Reilly, Umpire—Captain For Tug-of-War And Relay Chosen.

## 1916 Relay

The Sophomore Relay Team is fast getting into form for the race on Field Day and shows signs of being a winning aggregation. Yesterday at the Field the men were out until after dark practising their starts and dashes. A large portion of the time was devoted to flag passing, which has been recognized as an essential part of the preliminary practice. A bad pass will sometimes result in a loss of several yards and probably could not be made up during the race except by phenomenal running. Where two teams are evenly matched in speed it has been quick successful flag passing that has won the race.

C. W. Loomis has been elected as captain of the Sophomore Team and is one of the fastest men of the squad. He was a member of last year's team and was prominent in all the track meets of last year, scoring several times. He is also connected with THE TECH.

The announcements of several of the officials for the Freshman-Sophomore Football game on Field Day were made yesterday. The referee will be John D. Riley and the umpire selected is M. J. Redding. Fred J. Hoey will act as head linesman assisted by C. E. Fox '14 and F. C. Scully '15. The complete list of field Day officials will be printed in the Field Day Issue of THE TECH.

Members of the football and Relay teams of both classes are requested to be at their places of practice as soon as possible after four o'clock tomorrow in order that the pictures of the teams may be taken. The pictures are to appear in the special Saturday issue of THE TECH.

## 1916 Football.

The Sophomore Football Team held secret practice at the National League grounds this afternoon. The lineup used was Duff l.e. Krigger l.t., Kaula l.g., Hunt c., Lovejoy r.g., Hill r.t., Stowell r.e., Allen q.b., Roper l.b., Jewett r.h.b., Miller l.h. b. Among the substitutes were Clarkson at center, Reycroft and Hubbard at end, Small at halfback, Dawson at fullback, and Grunnery and Gruford at guard.

(Continued on page 2.)

## THE ECONOMICS CLUB

We are printing in another column a communication from the President of the Economics Club, whose spirit compels our respect and admiration. If, as we understand, the club means to furnish a forum for impartial discussion of economic and political questions from all points of view, rather than to confine itself, like our other political societies, to the promulgation of a single doctrine, it will indeed perform a very marked service to the Institute.

The danger, to which every Tech man is always subjected, of "falling into a rut," needs to be counteracted by just such activities as this. The program which the Faculty sets for our daytimes casts at least the shadow of a program over our evenings and holidays, making it extremely easy if our work is difficult or engrossing to let our lives drift into a machine-like routine which forever shuts out all genuine education.

The past history of this country shows that one of the chief instruments of progress is the assembling of intelligent people to exchange views and discuss public questions. We have even heard the opinion given by a recognized authority, that the most hopeful phase of the life of the masses in Boston today is the free-for-all arguments held on Sunday evenings in the Common. If this is true, how much more important is the getting-together of college men for the discussion of important questions.

We take great pleasure in announcing the election to the News Board of H. W. Lamson '15; to the News Staff of L. E. Best '15 and H. W. Anderson '15; and to the business staff of R. Alfaro '15.

Plans for the soccer team seem to be rather on the quiet.

## COMMUNICATION

To the Editor of THE TECH:

Dear Sir—I should like to call attention to the first real meeting of the year of the M. I. T. Economics Club. Owing to the difficulty of securing speakers for an organization so unpretentious and young as is this one, it has been decided, for the present at least, that the members shall be their own speakers, and that the Club shall thus furnish a forum for discussion and self-education rather than a supplement to the instruction in Economics already offered at the Institute. The Club will be a species of debating society with the emphasis shifted from elocution to ideas.

It is the wish of the club that every one who thinks about the more general world in which we live—who allows himself to be puzzled by the why and wherefore of economic institutions before he accepts them as fate-given—will come and "mix it up" with the rest of us. We believe that that the most real education (outside of technical fields) is the kind that is absorbed by intellectual contact with one's fellow men, and it is with this conviction that we invite each and every Tech student to our meetings.

The Club will meet one week from today, on November 12, at 1.30 P. M. in 9 Engineering C.

Sincerely yours,  
Julius Kuttner, President.

## FIELD DAY

(Continued from page 1.)

### 1917 Football

A hard practice, mainly in signals, was given the Freshman Football Team yesterday at the Field. Today it is expected that drill in team work will be given while tomorrow will be similar to yesterday.

### 1916 Tug-of-War.

A large number of men was out for practice yesterday. They were divided into two teams and had work on starting quickly with the gun. The teams were evenly matched and neither showed much advantage over the other. After practice the captain was chosen. Nelson McRae, who pulled on the team last year, was chosen.

After the practice this afternoon the team will be finally picked, and the counter will be elected. A short practice will be held Thursday at the Gym.

### 1917 Relay.

The final lineup for the Freshman Relay Team is as follows: Day, C. Dean, Darnard, Doon, Erb, Friend, Gardner, Hulburd, O'Hara, Quilhot, Sullivan, Williams; Bond, substitute. Sullivan, the captain, is an Andover man, who won his A in the Andover-Exeter meet of 1913. In this meet he was tied for second place in the high jump. While there he also took part in the pole vault.

### 1917 Tug-of-War.

The Freshman Tug-of-War Team has been finally chosen. The successful candidates in the order of their weight is as follows: G. R. Stevens, H. L. Wood, R. P. Lovenguard, A. R. Althouse, D. C. Dunming, L. E. Schoonmaker, R. F. Brooks, J. S. O'Brien, O. Neilsen, W. C. Cartner, T. E. Hannah, D. S. Kendall, D. N. Swain, L. E. Wyman, W. S. Meddling, R. S. Smith, N. E. Tourtellote, J. R. Ramsbottom, L. W. Perkins, A. R. Peterson, A. P. Sullivan, W. A. Wood, A. E. Tuttle, R. H. Wheatley. The substitutes picked were A. M. Lovenberg and S. S. Batchelder. The officials of the team are: J. S. O'Brien, Captain; A. T. Canby, Counter; and H. L. Wood, Manager.

# Velvet

THE SMOOTHEST TOBACCO

COME, boys, a cheer—All together—V-E-L-V-E-T—smooth.

Velvet cheers you on and cheers you up. It's so smooth. The selected leaf is hung in the warehouse over two years—changing harshness to complete mellowness. Then all "bite" has disappeared—and good taste and the enjoyable smoothness are pre-eminent. This "time process" is not patented—just costs us more—and the result is "Velvet"—smooth and wonderfully pleasing.

Now once more—everybody—V-E-L-V-E-T—smooth! At all dealers.

### DR. W. T. GRENFELL TO GIVE LECTURE

Well-known Medical Worker To Tell  
Of Conditions In  
Labrador.

Dr. Wilfred T. Grenfell, who has gained fame through his missionary and medical work in Labrador, will give an illustrated lecture on his work tonight at 8 o'clock. He will speak in Jordan Hall at the New England Conservatory of Music. Tickets may be secured at the Conservatory box office or at Herrick's, at fifty and seventy-five cents.

Dr. Grenfell, who is a graduate of Oxford University, has devoted the past twenty years of his life to philanthropic work among the people of Labrador. He has benefited many classes of people, Eskimos, half-breed, and British fishermen. He has established five hospitals, started industrial schools and orphanages, and sent missionary ships and doctors to the North Atlantic fishing fleets. The support for these undertakings comes almost entirely from volunteer subscribers in the United States and Great Britain, with some assistance from the government of Newfoundland. Much assistance has been given by college men, who work during the summer months without pay.

The principal work has been done at the town of St. Anthony. Before the Doctor went to Labrador this town was a miserable little village, but now it has become a much more attractive place. There is now a hospital, in charge of Dr. Little, of Boston, in which 3000 cases were treated last year, and an orphanage. The small public school in the town is the only one of its kind in the whole territory.

In the summer months, when the ice allows, hospitals are established in the far North for the Eskimos. There is also a hospital for the men of the fishing fleets which visit these waters. Before the coming of Dr. Grenfell the educational and medical facilities in Labrador were very meagre, and the fishing fleets were in need of medical attendance and missionary work. By his work, and that of his assistants and volunteers, conditions have been vastly improved, but he hopes that still more progress can be made.

### GLEE CLUB REHEARSALS

The Glee Club is holding its regular rehearsals on Tuesday and Friday in Room B in the Union. The results of these rehearsals are very satisfactory and everything points for success in the first concert of the season. This concert is to be held at the Franklin Square House on Tuesday, Nov. 11.

A time limit has been set for the payment of the club dues. All dues, including regular fee and the initiation fee are to be in by Nov. 11, at the very latest.

A special rehearsal is to be held in the Union from 1 to 2 o'clock Saturday. It is essential that every man be present.

Field Day at hand, and both classes still claiming the victory.

Plans for Field Day celebrations and joy rides are rapidly materializing.

**FRESHMAN CLASS YELL**

Chauncy Hall Prize Awarded To  
C. T. Barnard.

The prize for the best 1917 Class Yell was awarded to C. T. Barnard at the class meeting which was held on Monday. The words are as follows:--

Tech! Tech! Tech!  
N-O-L-O-G-Y  
Tech! Tech! Tech!  
N-O-L-O-G-Y  
Tech! Tech! Tech!  
N-O-L-O-G-Y

Seventeen! Seventeen! Seventeen!

The words are given slowly at first, going faster all the time, in imitation of a locomotive.

The prize was a three foot by six foot Technology Banner and was given by the Chauncy Hall Club. Copies of the yells were handed in to a member of the Club and a class meeting was called on Monday in order that they might be tried out before the whole class. There were quite a number to be tried, and when they had all been given, a vote of the class was taken. C. T. Barnard's yell received the largest number of votes.

**"HONEYMOON EXPRESS"**

(Continued from page 1.)

cutes a remarkable pianologue. I. Pernicoff and Ethel Rose have an extraordinary ballet entitled "The Oriental Bacchanale," which calls for some skilful dancing. And last, but not least, the work of the principals is supplemented by the singing and dancing of a large, pretty, and exceptionally well trained chorus. If the "Honeymoon Express" is still running on schedule next Friday evening it should be a popular train for the conveyance of Tech men away from the beakers and drawing tables for three hours into the land of mirth and song.

**FACULTY NOTICE**

November 3, 1913.

Attention is called to the following extract from the rules of the Faculty:--

"All marks of D incurred in the second term must be removed not later than the end of the following November. In case a mark of D is not removed at this time, the student shall be required to discontinue any dependent subjects which he is taking, and can obtain a clear record only by repeating the subject in which the mark of D was given."

A. L. Merrill,  
Secretary of the Faculty.

**CROSS COUNTRY**

The entries for the dual cross-country race with Holy Cross have been decided, and are as follows. Each name is accompanied by the number the runner is to wear.

Holy Cross will be represented by W. F. Daly (14), S. M. Dowd (15), W. F. May (16), W. F. O'Brien (17), J. T. Higgins (18), F. J. Donahue (19), F. W. Brannigan (20), S. C. Lachapelle (21), J. T. Holland (22), G. F. Roesch (23), J. J. Dunphy (24).

Technology's entrants are: H. S. Benson (1), L. E. Best (2), R. G. Brown (3), A. A. Cook (4), J. J. Donnelly (5), M. G. Graff (6), C. T. Guething (7), C. S. Lee (8), E. M. Newlin (9), A. F. Nye, Capt. (10), A. F. Peaslee (11), and C. H. Wilkins (12).

The Technology team today had a cross-country walk from the Gym in order to keep them in trim without a hard run.
