PROMISING OUTLOOK FOR TRACK SEASON

Team Is Strong in Running Events—Wilson, German and Byland Should Star.

The interest in track athletics is now increasing, and as the Institute are beginning to wander out to the track occasionally to watch the progress of the team. The prospects are the best in several years, and for this reason much interest has been aroused, and the discussion of the prospects of all the different meets has become general.

There are many veterans out for the team, and also several promising freshmen. In addition to these men there are several who were out for the team last year, but failed to make it. Many of these have improved greatly since that time, and Coach Kanaly expects much of them.

To date only three inter-collegiate meets have been arranged. These are a dual meet with Worcester Polytechnic Institute, the New England Inter-collegiates and the big Inter-meets held here. It is desired, of course, that the dual meet result in a victory, but this should not bias the effort. The efforts of the team must then be bent almost entirely upon the big Inter-meets, a search run in a desperate effort to win.

Tech's strength, and hope of victory, rests with its sprints, high jump, running, vaulting, throwing, and pole vaulting.

ELECTIONS TO MANAGING BOARD OF VOLUME XXXIII OF THE TECH ANNOUNCED

S. H. Taylor Chosen General Manager For Coming Year—Successful Close of Vol. XXXII After Many Hardships.

With the publication of this issue of THE TECH, Volume XXXIII is succeeded by the new staff of Vol. XXXII, the elections to which are published in this editorial column. As was enacted last year, the old board gives place to the new on the first of April for the purpose of giving the man a chance of getting assistance from the former members. Under these conditions the paper may continue publication next year with experienced men.

Volume XXXII retraces trying the publication in excellent condition, both financially and with respect to men. The elections are over, and the old board commenced the year very far from favorable. There were only a few men working on the news end, and it was with difficulty that the daily editions were published. Calls for men brought little result, and the strain on the few who did the work was great. Publication was suspended.

It was not until then that the students and others realized the importance of the paper. Activities, especially athletics, found that the bulletin boards were totally inadequate for their necessary publicity, and at a mass meeting held in Huntington Hall the Dean, German, captain of the track team, H. D. Peck of the Advisory Council of THE TECH and General Manager A. T. Gibson all expressed the same feeling that the publication was an absolute necessity and that more student support was essential.

This radical step did its work, and a score or more men came out to work on the paper. Both the news and business departments were considerably strengthened, but there still exists a chance for new men. The board made several innovations that helped in arousing interest in this phase of work on THE TECH, and many of the participants in the contest are now members of this staff.

Fortunately THE TECH retained the importance of a closer section with the students and it is hoped to place itself under the supervision of the institute Committee.

The latter was appointed by the Advisory Council made up of the General Manager of THE TECH, an undergraduate member, and two graduate members. This committee has done much to improve the standing of the paper. It sees first of all that all the men on the paper are standing well in their studies so that this work shall not impair their chances of passing their courses at the Institute. Former years this was a great objection, for the men neglected their school work for work on the paper. It advises on all matters of importance and acts much in the same way as the Advisory Council of Tech. This year for the first time in the history of THE TECH (Continued to Page 2, Col. 2.)

WRESTLING MEET

POK BEGINNERS

Opportunity For All Novices to Prove Their Ability Next Friday

A novice wrestling meet is to be held in the Tech Gym on Friday evening, April 19th, at 8 o'clock, when all Institute men who have not competed in "Varsity" meets are eligible. There will be preliminaries, semi-finals, and finals in all the classes for which there are enough men entered. All entries should be left at the Cage immediately for H. G. Morse '16. All ready-made entries have been received by the management, and very close matches are expected. Freshmen have substituted wrestling for gymnastics work, and some of these men should make a very good showing after their season of work.

TRACK TEAM PROSPECTS.

(Continued from Page 1, Col. 1.)

will be closely pressed in both the 100 and 220 yard dashes by H. W. Wilson, '16. The latter has been developing remarkably since last spring, and may possibly beat Wilson. Both of these men are at least the equal of any sprinters that can be put on the track by other New England colleges. F. J. Barry, '15, and Adams, '16, are also fast men and are working from the Institute in the sprints.

J. Barry, '15, and Adams, '16, are rack by other New England colleges, and may possibly defeat Wilson. Both are capable of taking care of the mile runner in New England, and if he runs the mile this year, Bolton, '14, and Ogden, '14, are capable of taking care of Wilson. If Captain Germain should have a good chance for winning this event is most a certain win,

F. Nye, '14, and C. S. Lee, '14, are capable of putting up a good fight against the W. E. Inter-Collegiate. L. E. Best, '15, and Leonard, '16, are capable of giving any sprinters that can be put on the track this year a good crack. If Captain E. B. Germain should defeat the Brown crack, any event a race between these two would be well worth watching. If Brown wins against Worceston, the mile in the New England Inter-collegiate will be very well taken care of by Norman Taber, Hill, '15, and Krif, Dean, '16, may improve sufficiently during the season to score in some of the meets.

In the dual meet, it is possible that would defeat the Brown crack. If Captain Germain should defeat the Brown crack, any event a race between these two would be well worth watching. If Brown wins against Worceston, the mile in the New England Inter-collegiate will be very well taken care of by Norman Taber, Hill, '15, and Krif, Dean, '16, may improve sufficiently during the season to score in some of the meets.

If Brown is to run the two-mile race, as he did in the New England Inter-collegiate, he would have a very good chance to win the race. Norman Taber, Brown, should have a good chance against Dietz of Dartmouth in the two-mile race. He has a very good chance in the mile run, but it is doubtful if he could run in the mile race.

R. E. Pielow, '16, has been running well during the year, and can be looked upon a likely winner against Worceston in the mile run. He may also run in the New England Inter-collegiate. If Captain Germain should decide to run in Brown, he will prove a formidable opponent for Taber, and it is possible that they would defeat the Brown crack. If Brown wins against Worceston, any event a race between these two would be well worth watching, as Brown must be well taken care of by Norman Taber, Hill, '15, and Krif, Dean, '16, and all the possible points scored, especially in the competition in this event is most a certain win.

In the field of Tech Track is very weak indeed. Sick wins may be scored in the W. E. meet, but it is difficult to see any first place can be won in the Brown meet, and it is doubtful if any points scored in the W. E. meet will be good enough to give the team any points towards first place in the New England Inter-collegiate. It is possible that they would defeat the Brown crack. If Brown wins against Worceston, any event a race between these two would be well worth watching, as Brown must be well taken care of by Norman Taber, Hill, '15, and Krif, Dean, '16, and all the possible points scored, especially in the competition in this event is most a certain win.

The telephone rings Back Bay 5527, and your pipe is waiting, "Hello, they're the limit, they make us so tired, I'll go to the Dean, and have them all fired." When the messenger goes there at 1:45, Dan feels somewhat better and hits a good stride. The bell rings again, it's the same number I'm sure, and Dan with a swear word he opens his jaw. "Well, I don't know; get your copy down in time and quit this here late stuff; what do you think, I'm a sinner. Get on your job, it's now almost the limit. And you don't think I can plug all your types up in a minute." Without any doubt Dan stands it right well, but sometimes we'll excise him if he says "Go to . . . well, now that he's married and settled right down well never look for a cross word or fear his frown. We hope that his pathway thro' life will be pleasant, and we all join hands in giving him a present! To show him we feel that he is a good fellow, and that his helpmate will make his life mellow. So all join together and drink to a long life and a pleasant one and children a host.

MANAGING BOARD.

(Continued from Page 2, Col. 2.)

Coaches have spent most of their time training athletes for the various meets. There are of about equality, and both are able to do something for one of the teams. The men, with the Stone & Webster Co., and the value of statistics in engineering work. Captain Germain will be announced. Nominations for officers of the society should be preferred by five active members and forwarded to this committee when the names of the members are announced next week.

THE ADVANTAGES WE OFFER

PROGRESSIVE methods, large resources and two convenient-

ly located, thoroughly modern bank buildings, combine to

make this institution the most desirable depository in New

England.

Interest-bearing accounts subject to check may be opened

either at Court Street or Temple Place, and the two offices

used interchangeably for the transaction of your banking business.

You are cordially invited to inspect the modern Safe Deposit

Vaults at either office.
