FRESHMAN DINNER IN THE UNION TONIGHT

Dean Burton, Prof. Hayward and Prof. Miller to be Speakers.

The much-talked-of and written-up Freshman Dinner comes off tonight at 7 o'clock in the Union. The Freshmen expect to celebrate their prospective victory over the Sophomores at this time. The Sophomores, on the other hand, expect that it will be a splendid opportunity for the Freshmen to have a meal. The Sophomore Committee thinks that it has been exceedingly fortunate in securing Dean Burton, Professor Hayward and Prof. Miller to speak at the Union. The Democrats in their opinion, need no introduction to the students, and they claim that the other two speakers will be equal to as good.

One article on the menu which the committee thinks will be sure to interest those who are to attend the dinner is roast chicken. Other features of the program are the chance for the committee to get some good "Tech Spirit," and the orchestra and the copies of the Tech songs which they intend to provide.

Today all Freshmen who have not yet bought tickets to do so at once. Tickets may be obtained at the Cage.

PRACTICE POSTPONED.

Bad Weather Makes Freshman Practice Impossible.

Yesterday's Freshman basketball practice had to be postponed because of the rain. The next practice will be held Monday at 4 o'clock. Despite the lack of practice the team is progressing rapidly. Smart will probably start the first game in the box, with Best, Murphy, the quarter-back on last fall's team, being used as a substitute.

The loss of Comstock, who was cut out for the half-back position, has been very severely felt. On account of this loss Murphy had to send up three substitutes, although he is a much better fielder. The lineup at the present time shows DaMerritt at first, Morse second, Tapley short, and Petit, an especially fast runner, at third. The outfield is composed of Russon in left, field, Stewart in center, and Arnot, who is the former Big Red Intermediate star, in right field. Bunkhard is a close second to Smart as a batter and of course if the rain is over he will undoubtedly take first and Will, if at second base. Russon will probably represent the second plate man. Hine and Connolly are also good men. Yetsone and Townshend have the bat on first and second respectively and are doing well. Above are the high jumpers, Garcia, Ohy and Childs, of the freshman team, who will fight for the remaining places. Laurason and Fehbly will probably be used (Continued to Page 3, Col. 2.)

JUNIOR PROM.

Dance Orders to Be Made Up Today in Union.

Programs for the Junior Prom may be obtained at the Union today, from 2 to 7 P.M. All men who have signed up for Prom tickets, but who do not intend to go, should sign their intention of withdrawing from the list as soon as possible. Those who do not give notice to the committee will be held responsible for the price of their tickets.

A new listing will be started today, as all those on the old list have been supplied. Any one who wishes to add names to the list of those who have signed up, and wishes to become a Junior Prom winner, has a chance to obtain one by signing up on the list on the bulletin board.

It has been suggested that all Freshmen who wish to attend the Prom and are unable to secure tickets can arrange with the Sophomore Committee to exchange dinners held in the Union to- day, at 7 P.M., near the Prom Committee table.

NOVICE WRESTLING MEET SUCCESSFUL

Goodell and Burnap Give Fine Exhibition in Finals of 145-Lb. Class.

Last evening in the Gym, was held a very successful novice wrestling meet. Thirty fellows were present, and all enjoyed the occasion very much. It is one of the Chinese wrestling bouts which has been more a source of laughter than of pain. The bout was in the 140-pound class and was on a handicap count. C. H. Durkee was the victor, as he was not opposed. The Chinaman was very quick, and was given the decision. This was a preliminary bout. In the same class, L. C. Connolly lost to R. G. Berger on decision in the final six minutes.

As only two men were entered in the 150-pound class they were allowed 15 minutes, the time for final bouts. The bout was placed by S. B. Levy. The latter was the victor, and it is probable that he will win in the final six minutes. In the preliminary match in the 140-pound class, R. S. Burnap from Tech, and C. F. Cook from Tech on decision, the bout. The match was closely fought, with Burnap winning because of his greater expressiveness in the second preliminary bout in this class. R. S. Goodell won a decisive fall from L. R. Bouquet on a head change and hold, in 50 seconds.

In the 145-pound class there was but one bout, which consisted of two six-minute periods. E. H. Hibberson was defeated by R. S. Harter. The former showed greater offensive power throughout the match. Harper started almost the entire time, and lost on decision.

In the heavyweight class Om. Russon met R. G. Norton, 15.

(Continued to Page 3, Col. 1.)

SOPHOMORE GAME TONIGHT.

Sophomore Meet All School at West Newton This Afternoon.

Today the Sophomores will play the first game of their schedule with the All School at West Newton. After the games in good shape the team should be able to put up a convincing argument with their opponents. The All School has been coming to the front very rapidly in schoolboy athletics in the last few years, and now they rank among the best teams in the State. The outcome of the game will be interesting to all Tech people, as it is the first of the season with a very good schoolboy nine. The match will probably be a close one, with both sides slightly in favor of the Sophomores. The 1915 squad has been much strengthened by many new men who did not come out for last year's team. The result has been very gratifying and a strong team has been developed. The batting order will be as follows: Third base, J. S. Worth, r.f.; Franks 3b.; Morse, l.f.; O'Keary, 2b.; Connolly, h.; McCarvey, c., Place; B. H. Hill, h.; Sears, p. In addition to the names mentioned in the above list, three other names wishes. H. J. Murphy, Be- line and Langdon to report at the Union 1:30 this afternoon.

SPRING CONCERT PROGRAMS UNION 1-2

The sale of tickets for the Spring Concert, which is to be given next Monday evening by the Musical Clubs, practically closes this afternoon. All the men who have signed up for tickets must call for them this morning, some time before 12:30 o'clock. Tickets will be available in the Union at the committee table. No calls for within the tickets will be permitted. The committee wishes to emphasize the fact that today is the last day to obtain tickets, as no further opportunity to do so will be given. Tickets not sold will be sold at the door. The men on the waiting list who want them must obtain tickets today, at 2 o'clock, in the Union, and on Monday during the noon hour.

The clubs have had very good and attractive programs made and have made many interesting and popular selections. Men presenting their tickets at the Union必将 be able to obtain the program, before leaving today.

One of the features of the musical program will be the performance of the vocal quartet. This quartet in it- self, is exceedingly fortunate in securing four of the best voices in the college. The four men have been singing together for a long time (Continued on Page 4).

LINE-UPS ANNOUNCED.

Tech-Technical Game to Be Played Wednesday.

The final lineup for the TECHNICAL-TECHNIQUE baseball game scheduled for next Wednesday has been announced. The Tech team will be composed of the regular Tech team plus two additional Tech players. The Allen School team will be composed of two Allen School players and one West Newton High School player. The Tech team will be led by C. O. Whitely, who has been selected as captain of the team.

The Allen School team will be led by C. O. Whitely, who has been selected as captain of the team.

In the 145-pound class, R. S. Burnap from Tech, and C. F. Cook from Tech in the preliminary match in the 140-pound class they were allowed 15 minutes, the time for final bouts. THE TECH

THE TECH Show performance at Northampton last evening went off in

SPECIAL MEETING OF INSTITUTE COMMITTEE

Ratification of List Submitted by the Tech Show Referee

The special meeting of the Institute Committee which was called for the

purpose of considering the nominations for the Tech Show Referee was

called to order by Vice-President Wyman. In the question of arbitration, no

certainty at meetings, and of the objections to the accepted Constitution

were considered.

The management of the Tech Show submitted a list of nominees, prepared

by E. W. Brearley for the various sections on the committee. Since the

meeting and asked for the approval of the Institute Committee. In view of

the fact that the representative of the Tech Show was not there and that

there was no determination of the Tech Show, and that the list be re-

turned to the senders.

In general, the objects of advertising, refusal to have printed the

certs which we did not represent the Institute, and asked for the approval of the

Committee. It was suggested that the members of the Committee

slow down and keep back the members of the Committee so that the representatives

might be given a complete report of the objections to the Constitution

that the members of the Committee might be given a complete report of the objections

to the Constitution. It was suggested that the members of the Committee

make a complete report of the objections to the Constitution.

The chairman of the Constitution and By-Laws Committee reported that

he would be able to give a complete report of the objections to the Constitution.

T. H. Lehman suggested that the question of imposing a more serious penalty for non-attendance at

meetings be considered at the next meeting of the Committee.

The meeting adjourned at 5 o'clock.

1915-1916 TRACK MEET.

The Tech Show performance at Northampton last evening went off in

great style, and we congratulate the management and the cast on their

success. They have been through several weeks of hard and discourag-

ing work but have come out with flying

colors.

We regret that a detailed account of the Tech Show could not be obtained in time for this issue, but next Thurs-

day's performance will give everyone an opportunity to satisfy his curiosity.

TALK BY PROF. SEAVER

TALK BY PROF. SEAVER

On Sunday, April 13, at 4 o'clock, Assistant Professor H. L. Seaver, of

the Philosophy Department, delivered a paper on "The Law of

Chardin, in the Department of Western Art, at the Museum of Fine Arts.

The paper is an excellent one and the subject is a novel one. Mr.

Seaver thinks that this lecture will be especially in-

teresting to architects and to students of

Technology. There will be an

other lecture by Mr. Harold H. Hyl-

ton, on the Special Exhibition of

'09 Hyltonings.

Mr. I. K. Pond Speaks
Before Architects

Interesting Architectural Talk Given Under Auspices of Society.

Irving K. Pond, a former president of the American Institute of Architects, gave a very interesting talk before the Architectural Society in the rooms of the department last night. The development of the Higher Ideals of Architecture was the theme of the evening. He illustrated his talk with rough but realistic diagrams on the blackboard.

Mr. Pond classified the principal considerations in the construction of a building of architecture as purpose and order. The basis of all true work, that which makes life worth living, is Art. Art is the reconciliation of the struggle of life with the idea of beauty. Art is not merely building a house, but also making it a work of art. In architectural design every part should express the work it is doing. Illustrations of the firm of Hunt columns shows that the force they are supporting is vertical. There is a great need of developing architecture which will express American ideas; which will express the idea of its Home to give away under the strength of life, nor to ignore it, but to make a thing of beauty of it. The ancient Greeks had in regard to Architecture.

After the talk the meeting was officially adjourned and refreshments were served.

WRESTLING MEET.

(Continued from Page 1.)

Russo had the best of the first six minutes. Norton apparently feeling his rival's rush, he changed his tactics and secured a fall by a head scissors after 4 min. 40 sec. by a fall secured with a head scissors after 4 min. 56 sec. of the second period. Bakeman, in the 135-pound class, won by default from Brooks. He changed his tactics and secured a fall with a head scissors after 5 min. 30 sec. of the second period. Goodell was on the offensive through the first 3 min. of the second period. Norton changed his tactics and secured a fall with a head scissors after 4 min. 56 sec. of the second period. Bakeman, in the 135-pound class, won by default from Brooks. He changed his tactics and secured a fall with a head scissors after 4 min. 40 sec. of the second period. Bakeman, in the 135-pound class, won by default from Brooks. He changed his tactics and secured a fall with a head scissors after 4 min. 56 sec. of the second period.

Competition to Start April 27—Winner to Study Abroad for One Year.

The Department of Architecture of the Institute is to hold a competition to award a traveling fellowship of one thousand dollars. The award is to be made solely on the basis of distinguished merit, as it is felt that the prize would thus possess a greater value for the advancement of architecture than if restricted to benefit only the student working for the Institute degree. Candidates therefore will be received from those students who shall have passed two consecutive years in the department within the last three years and at least one of the years in the graduate class. The candidate must, besides, have proved themselves during these school years to have been constant students and of good ability. A list of a degree, the student to be eligible to take part in the competition from time to time a clear record in entrance examinations and descriptive geometry. No student, however, will be eligible who has already secured opportunities for foreign travel and study equal or even to those conferred by this fellowship.

The competition will begin on April 23, at 9 A.M., and end May 27, at 9 P.M. Competitors are first required to make a sketch "on the spot" within a period of fourteen consecutive hours. The sketch must be carefully finished, and the competitor is required to prove a tracing of it for his own use. The design must conform to the sketch submitted in the competition, and must be entirely the work of the competitor, and must be finished "on the spot" in the department. Any advice or assistance from other persons may disqualify the competitor at the discretion of the judge.

The winner of the fellowship is expected to sail for Europe by April 1, 1923, and to remain abroad a complete term if otherwise authorized. He will travel and study under a program prepared in consultation with the Department of Architecture and the Faculty of the Institute. He will be required to make reports of his work at stated periods, and send to the Department of Architecture from time to time his drawings and sketches in order that the Faculty may have an adequate idea of his diligence. On his return he will be further required to exhibit in the department the work he has accomplished, from which the Institute may reserve an "exhibit" of no more than four drawings. All competitors must notify the Department of Architecture not later than April 17, 1923.

MOGULS DEFEAT MECCAS.

Yesterday afternoon the Moguls won four points from the Meccas by winning all three strings and the total. The individual scores are as follows:

Moguls

Meccas

Maloney ... 88 ... 85 ... 255
Pendleton ... 89 ... 97 ... 354
Mahoney ... 76 ... 96 ... 222
Connor ... 87 ... 81 ... 266
Lee ... 197 ... 64 ... 261
Total ... 426 ... 418 ... 1317
