BOSTON, MASS., WEDNESDAY, DECEMBER 31, 1913.

PRICE TWO CENTS

SOPHOMORES WIN CLOSE CONTEST

Basketball Game with 1917 Tied At End of Second Half—
Score 25-23.

In a fast and closely-contested game, that went to an extra period, the Sophomores defeated the Freshman Basketball Team last evening. The tie score at the end of the first half was an indication of the way the game was played. At the end of the second half the score was still a tie, 23 to 23, and it was necessary to play overtime to decide the contest, which finally stood 25 to 23.

The play was at first rather slow, but later both teams did much better work. There was some rough work at the end of the first period, several fouls being called. The Freshmen were good at individual work and shooting baskets, but did not have good team work. The 1916 men worked well together and it was on this feature that their success mainly depended.

At the end of the first half the score stood 11 to 11. Though both sides played well in the next period, neither was able to gain a decided lead, and this half closed with the points still even. In the extra period the playing was fast and strenuous, each team determined to make the winning goal. Captain Dewson of the Sopomores finally shot the decisive basket.

Dewson and Merritt were stars for
(Continued on page 4)

RIFLE TEAM MATCH

Practice Today for Meet with University Of California.

The first regular match of the Tech Rifle Team will be held here next Tuesday with the University of California. At present the members have not yet been picked. Captain Haslam, however, believes that Casselman, Dunn, Parsons, Dupont, Platt, Brandt and Simmons are likely candidates. The men will not be chosen until two practice shoots, to be held at the First Corps of Cadets Armory today and Friday, from 5 until 7 P. M., have been held, thus giving new candidates a chance to compete. The leader of the team says that so far not much work has been done, and that the men must now get busy in order to round into shape for the approaching matches. Another of these is to be with George Washington University the week after next, being followed by a contest with Massachusetts Agricultural College seven days later. The latter college is said to have a very strong team, and if the Tech men defeat them they will have disposed of one of their hardest opponents.

HOCKEY TEAM

Members of the Hockey Team are requested to meet Captain MacLeod at the Gym at 4 P. M. today for running work.

"A little less for dinner and a little variety for breakfast" is wanted at Chattanooga.

TECHNOLOGY GRADUATE TO TALK ON INSURANCE

Work Of Underwriters' Bureau Will Be Described By
G. G. Dana '92

This afternoon at four o'clock in Room, Eng. B, Mr. Gorham G. Dana '92 will give an illustrated lecture upon the subject of fire protection requirements of the Underwriters' Bureau.

Since 1904 Mr. Dana has been the general manager of The Underwriters' Bureau of New England, a concern employing about forty inspectors taking care of the fire risks considered by the Bureau.

There are other bureaus throughout the country, but they are in no way connected. It is interesting to note that a bureau of this kind is not a concern for making money, but is the result of the clubbing together of different old-line insurance companies in order that they may secure a definite and unbiased inspection, standardization and requirement in securing good risks. The work of the Bureau has done a great deal toward getting and enforcing good building laws throughout the country, for its inspection and reports are as to the character of the risks involved.

Mr. Dana will consider phases of the subject which are not touched upon in any of the Institute courses, and no one interested in building construction should fail to hear him.

MUSIC COMPETITION

Few Men Come Out—Final Choice To Be Made Monday.

The Tech Show music competition, which was held in the Union yesterday was not as successful as had been expected. Of the forty men who secured copies of the lyrics only nine were present. More music is needed for the following songs:—

"Tech Men."
"I Hate to Blow About Myself."
"Russian March" (no words).
"Rhokegomossovich."

The final competition will be held next Monday at 4.00 P. M. in the Union, when the music will be chosen, subject to Coach Sanger's approval.

TECH A BENEFICIARY

The will of the late Mr. Seth K. Sweetser of Brookline, which was filed in the registry of Dedham early last week, showed specific bequests amounting to \$137,000. Of these bequests are conspicuous four of \$25,000 each, of which one goes to the Institute, to be added to the permanent fund. The other three beneficiaries of the same amount are the American Unitarian Association, the Museum of Fine Arts in this city, and a Kindergarten for the Blind.

LYNN CLUB MEETING

At a recent meeting of the Lynn Club, Vice-President R. Parsons '14 was elected to succeed President J. R. Stuart '15, who resigned. The Club wishes to announce that dues are now payable and may be left at the Cage for the Treasurer, G. Peakes '14.

CALL FOR TECH SHOW CANDIDATES THURSDAY

Freshmen To Compete For Position Of Assistant Publicity Manager.

There will be a call for candidates for the position of Second Assistant Publicity Manager of the Tech Show next Thursday between 1.30 and 4 P. M. The winner of this competition will be in line for promotion to the positions of First Assistant and of Publicity Manager. The latter is head of one of the departments of the Show, and is eligible, as are the other heads of departments, to position of General Manager in his fourth year. The choice of the General Manager depends only on the relative merits of those eligible, so that the Publicity Manager has as good a chance as any of the others.

The work of the assistant can usually be performed in the time after classes in the afternoon. He must write all Show articles for THE TECH, and put up posters on the bulletin boards in regard to rehearsals, competitions and other matters connected with the Show. He is required to attend to poster advertising in the towns to which the Show goes. At the theatres where performances are given pennants are hung up as decorations, and this work must be attended to by the second assistant.

To offset these duties there are one or two chief rewards. The main one of these is the opportunity to become General Manager, one of the main positions in student activities at the Institute. In the allotment of Show:
(Continued on page 2)

ALUMNI REUNIONS

Boston, New York And Chicago Associations To Meet.

The Technology Alumni Association in Boston is likely to get firsthand accounts of matters in the Philippines, for at its coming annual dinner and reunion Governor W. Cameron Forbes and Martin Egan, editor of the Manila Times, are invited guests and are scheduled to speak. Massachusetts will be represented by Governor-elect David I. Walsh, while the Institute itself will have for its spokesman President Richard C. MacLaurin. The newly-elected president of the Alumni Association, Jasper Whiting '89 will be presented by his predecessor, Frederic H. Fay '93. The dinner will be given at Hotel Somerset on Saturday evening, January 10. The committee includes Walter Humphreys '97 of Brookline, secretary of the Association; George B. Glidden '93 and Lawrence Allen '07, of Boston.

Just one week later, Saturday evening, January 17, the Technology Club of New York is to hold its reunion in Hotel Plaza. It will be an occasion complimentary to President MacLaurin, who will there show for the first time in that city the plans of the new buildings. A car or two of Boston delegates are expected at the meeting.

The All-Technology Reunion in Chicago is set for February 20-21, at which the plans will be shown by Dr.
(Continued on page 4)

SENIOR PLANT TEST STARTED YESTERDAY

Men Work In Eight Hour Shifts—
Test Will Last Until Saturday.

From 8.00 A. M. Tuesday until 8.00 A. M. next Saturday, the Senior members of the Mechanical, Electrical, Naval, Architectural and Marine Engineering courses will conduct the annual test on electrical plant of the Institute. During this time the men will work in eight-hour shifts, which will be from 8 A. M. until 4 P. M., 4 P. M. to midnight, and midnight to 8 A. M.

Each man has his own particular station, and performs the duties of this post and no others. Readings are taken from which will be calculated the efficiency of the plant as well as the consumption of fuel and the energy lost in the several divisions of the plant.

Stations have been established for taking the temperature of the feed water and outside air, as well as for taking the boiler and vacuum pressures, taking samples of the flue gas and analyzing the gas. Indicator cards are frequently taken on the different engine tests, the condenser water weighed and the losses calculated. The customary ammeter, wattmeter, and counter readings are the only ones taken in the electrical tests

HOLIDAY OPERAS

Three Operas To Be Sung For First Time This Season.

The second week of the holidays will be observed at the Boston Opera House by repeating two popular operas, giving three other works their initial hearing for the current season.

On Wednesday night, New Year's eve, Offenbach's "Tales of Hoffman" will be sung. The character of the performance is indicated by the names announced for the leading parts: Evelyn Scotney as Olympia, Elizabeth Amsden as Giulietta, and Louise Edvina as Antonia, besides Leon Lafitte in the role of Hoffman, and Henry Danges in the four-fold part. Mr. Strongy will conduct.

"Madama Butterfly" will be repeated on Friday night, with several new figures in the cast. Mme. Edvina will sing the part of Cio-Cio-San, for the first time on any stage. Mme. Edvina has lived in Japan and has studied the role from the Japanese point of view. The rather ungrateful part of Pinkerton will be assumed by Vincenzo Tantonio, who promises to bring out some new traits in the character. Ramon Blanchart will be the
(Continued on page 3)

WEDNESDAY, DEC. 31, 1913.

In Charge of This Issue
Editor—Ralph Millis '16.

Lack of financial support has been a big factor in preventing the unqualified success of the hockey team. The men have no professional, and practically no amateur, coaching, which is just what is needed to combine our collection of individual stars into a harmoniously working whole. Minor expenses have in some instances been paid by the players themselves. Above all teams will not come from a distance to play Tech on account of the lack of a suitable guarantee, while our team is prevented from taking profitable trips by the pressure of work at the Institute.

The team should not be allowed to finish the season under these discouraging conditions, for the remedy is evident. It would pay to hire a coach without delay, even if nothing more important than practice were to be held this year. The hockey prestige we have established among schools of our size and type is in danger, and is too valuable to lose.

Most matters of finance troublesome at the Institute. We can never be financially on a par with the big classical colleges, nor draw the crowds of outside spectators which the latter are able to attract. Visiting teams have expressed admiration of the manner in which Tech students turn out at the games; but cash is as necessary as noise. If a little financial aid will tide us over this time of transition, and keep the team in good working shape till we enter the New Tech, the investment will be well worth while.

COLLEGE NEWS

Chinese students at Pennsylvania, in order to pay their expenses to the Student Volunteer Conference in Kansas City, gave addresses in Philadelphia churches last week. They dwelt mostly upon the social and economic changes which Christianity has wrought in their native land.

Despite rules to the contrary, Illinois students danced the tango at their Junior Prom. The dancing was done in such a refined manner, however, that the venturesome ones met with no interference.

Purdue engineering students were excused from classes a little before vacation to listen to Bishop Williams on "Man or Craftsman." The speaker dwelt upon the danger which engineers face of becoming narrow, and urged that his hearers do all they could to offset this danger by engaging in student activities.

The Committee on Student Affairs at Cornell has decided to modify the punishment originally intended for the editors of the Cornell Widow for their publication of a supposedly offensive Temptation Number. The Faculty, upon consideration of a petition from the two upper classes, has decided that the men may be allowed to remain for the present term, but will then be suspended for one term.

A senior at Chicago has been ducked because of failure to live up to the tradition that all seniors shall wear moustaches.

The rule about cutting classes before and after vacation is not peculiar to Tech. College papers the country over are commenting editorially upon its existence and its justice, most of them seeming to consider that the rule is good and should be carefully heeded.

The student conference at the University of Wisconsin has ruled that freshmen may not enter the saloons of the city in which the University is located. Violations of the rule are to be followed by a "running out" and sending home of the offender.

SHOW CANDIDATES

(Continued from page 1)

tickets, the managers and assistant managers are considered before any outsiders at all, and consequently have their choice of seats. Aside from this there is the experience gained from the work.

In the competition certain things will be given out to be done, and the man who obtains the highest percentage will be awarded the position. There will be two calls on Thursday, so as to allow those men taking gymnasium on that day to be present, as well as the men who will be able to be on hand at 4 in the afternoon.

TALK ON NEW TECHNOLOGY

Mr. John Ritchie, Jr., the head of the news service of the Institute, will address the Boston Master Builders Association Friday noon of this week. The occasion is a "Kaffee Klatsch" at which the Chas. R. Gow Co. will entertain its fellow-members in the Exchange Rooms. Mr. Ritchie will talk on "The New Technology" and will make the builders of Boston acquainted with the plans and prospects of the Institute for its new home on the Charles.

A sorority at Illinois entertained forty waifs at a party.

Tables For Steel Detailing And Designing

By J. A. AUBINGER, C. E., A. B. CO. ENG'R.

These Tables are for the draftsman and designer of steel structures compiled from the AMERICAN BRIDGE CO.'S Green Book of Standards, with new added material. It is just the book for the detailer, designer, architect, engineer and steel company, and will save the user time, expense and worry and would soon pay for itself in any drafting room. Bound in a Black, Flexible Leather, Loose Leaf Book. It is fully indexed ("Angles" is found under "A"; "Beams," under "B"; etc.) and thus any table or diagram is readily turned to (the draftsman's chief point).

Price in Black Leather Binder, Indexed, \$7.00 Net
Price in Red Leather Binder, Indexed, \$6.00 Net

T. C. A. WORK SUBJECT OF DEAN BURTON'S TALK

Influence on Student Life Will Be Discussed—Langley Leaves Institute.

The next regular T. C. A. talk, which comes on the first day of the new year, will be a sort of review of the work of the Association during the past twelve months and an outline of what it should do in the future. Dean Burton will speak on "What the T. C. A. Can and Should Accomplish." In treating this topic he will probably give an idea of the plans for the work next year.

The Dean is a member of the T. C. A. Advisory Council, and so is well qualified to discuss the work of the organization. He is also in a position to know the students intimately, and should be well versed in the religious and social needs of the Tech man. His knowledge of what the students require and of what the T. C. A. can give is good preparation for speaking on the subject chosen.

President Miles E. Langley will be unable to introduce the speaker, as has been the custom formerly, as the death of his father has obliged him to leave the Institute.

HOLIDAY OPERAS

(Continued from page 1)

Sharples, and the rest of the cast will be the same as earlier in the season. Mr. Moranzoni will conduct.

On Saturday will occur the revival of Puccini's "La Boheme," and a notable performance is promised. The Mimi will be a wholly new figure, as Maggie Teyte will sing the part, making her first appearance in opera in Boston. Giovanni Martinelli, who won his laurels here in the season's first performance of "Tosca," will return to sing "Rodolfo" at this matinee. Mario Ancona will be the Marcello, and Jose Mardones the Colline. The role of Musetta will fall to Margarita Beriza, a new soprano from the Opera Comique in Paris. Mr. Moranzoni will conduct.

The operatic performances of the week will be drawn to close with Saturday night's production of the spectacular "Aida," at the regular Saturday night scale of popular prices. The title part will be sung by Ada Androva, who will make her debut as a member of the Boston Opera Company. The Amneris will be Elvira Leveroni; and Giuseppe Oppezzo, Taddeo Wronski, and Ramon Blanchart will assume respectively, the roles of Radames, Ramfis, and Amonasro, while Michele Sampieri will again be heard as the King. The entire Opera House ballet will appear in the various elaborate ballets called for by the brilliant Verdi opera. Mr. Schiavoni will conduct.

Editors have been chosen for the new publication at Radcliffe.

Trinity sends five delegates to Kansas City.

INSTITUTE COMMITTEE

The regular meeting of the Institute Committee will be held Thursday, January 1, at 4.15 P. M. in Room 8, Engineering C.

In addition to the regular reports of the standing committees, the principal business will be the report of the committee investigating the M. I. T. Co-operative Society.

FACULTY NOTICE

The Political Economy Exercises will not be given between December 29th and January 3d, inclusive.

ALUMNI REUNIONS

(Continued from page 1)

Maclaurin for the first time in the Mississippi Valley. The occasion will be an important one from the engineers' point of view, as well as from the social, since the Keokuk dam, Gary Stel Plant, and the works of the Universal Portland Cement Company are to be visited. It is proposed to send five cars of Tech men to Chicago from the East, and from Albany out there will be twenty hours of consecutive reunions as the groups from the various large centres take the special train.

Carnegie Tech calls Al Jolson a "really funny" comedian.

Purdue, like Harvard, feels that its minor sports are being neglected. The Exponent, like the Crimson, has called attention editorially to the situation.
