TECH WRESTLERS WIN AT EAST WEYMOUTH

Tech Loses But Three Bouts Loo Puts Up a Thrilling Exhibition.

Tech continued her string of victories in the wrestling field by defeating the Clapp Memorial Association team Saturday night. Every one of the nine bouts was close, and the final outcome was always in doubt. An audience of about three hundred witnessed the matches, and great enthusiasm was shown throughout the evening.

The first bout between Loo and Zeoli was by far the most spectacular. Loo, who is the Tech 115-pounder, was wrestling against a man who outweighed him twelve pounds, and who had moreover won a great reputation as a wrestler. The Tech man, however, was given a handicap to even matters up, and the conditions were that Zeoli should throw Loo in fifteen minutes. Zeoli soon found that he had a hard task before him as Loo proved time and again that he knew how to keep his shoulders off the mat.

At the start Zeoli by a quick rush pulled Loo to the mat, but to turn him over took much longer, for Loo, by his continual wriggling and fighting, succeeded in breaking away repeatedly. Finally with only seven seconds of the allotted time left Zeoli managed to pin his opponent's shoulders to the mat for a fall. The crowd was aroused to great enthusiasm during this match, and Loo received many compliments for his excellent work.

The heavy-weight bout between Doc Leshe and Warren was continued three minutes over time. At the end of the regular fifteen minutes the two men were about even with Leshe making up in strength and aggressiveness what he lacked in skill. Leshe, however, received a sprained ankle, and with this handicap Warren won a decision.

(Continued on page 4)

1915 TECHNIQUE

About two weeks ago statistics blanks for Technique 1915 were sent out to all Juniors and to all unclassified students who are taking a majority of third year subjects. Up to date only about ten per cent of the total four hundred sent out have been filled in and returned. Work on Technique is being pushed along rapidly, and it is necessary to have these statistic blanks in as soon as possible, and they should be returned not later than Saturday, January 10th. The blanks may be mailed to, or left at the Cage for, W. M. Africa, Statistics Editor of Technique 1915.

INSTITUTE COMMITTEE

All members of the Institute Committee are requested to be at Notman's, 3 Park Street, on Tuesday at 1.15, in order that the picture for Technique 1915 may be taken.

MR. SCHERMERHORN TALKS TO CHINESE CLUB

Subject, "Preservation Of National Individuality"—China's Policies.

Saturday afternoon at 3.00 o'clock Mr. M. K. Schermerhorn of Harvard University addressed the Chinese Club on the "Preservation of National Individuality." Before beginning his talk proper, he spoke of the aversion of many men to foreigners. Personally, he said, he is a cosmopolitan, and always likes to get among foreigners and make their acquaintance. Many people, on the contrary, have a feeling, "He's a foreigner; heave a brick at his head," and so act coldly toward the alien, developing bad feeling. He said that today the "brick-heaving" idea has grown until it has become general among all nations, and it has been caused almost wholly by unprincipled men who have gone into one country from another and attempted to "start something."

In mediaeval times, China gladly received Marco Polo and others who came to the country, but this welcoming attitude soon changed because men who went there and tried to change customs and ideas, or otherwise disturb the peace of the country. The Boxer uprisings were a result of these interferences, and he said he believed similar rebellions would occur in this country if others should attempt to interfere with our government and customs.

Coming to the main subject of his talk, Mr. Schermerhorn said that in China is to live for many centuries, she must he believes, maintain her individuality. She has existed three or four times longer than any other country of the earth, and has deeply-rooted customs; like an old tree, she cannot be transplanted without being killed. She can, however, take up new ideas, and he advised the men to go back to China to help rejuvenate the country, but the old principles must not be changed.

Individuality, he said, is the important thing; China should not wish to become like any other country. Her historic teachings include the best in the world, especially regard—

M. I. T. FORUM TUESDAY

Dr. Mackaye To Address Meeting—Everybody Welcome.

The next meeting of the M. I. T. Forum will be held Tuesday Jan. 6, in 8 Eng. C, at 1.30 P. M., and will be open to any who care to attend. The speaker will be Dr. James Mackaye, Chief Chemist for Stone and Webster.

Dr. Mackaye received his Ph.D. at Harvard, is author of "The Economics of Happiness," and has done considerable important research work. Three years ago, he delivered an important series of lectures at Harvard on Political Engineering, which caused much newspaper comment in the eastern section of the country.

M. I. T. ALUMNAE HOLD SUCCESSFUL REUNION

Interesting Speeches By Mr. Monroe, Dr. Norton, Dr. Tyler, Professors Sedgwick and Taylor.

The Alumnae of M. I. T. held their annual reunion Saturday afternoon in the Union. The speakers were Mr. Monroe, Dr. Norton, Dr. Tyler, Professor Sedgwick and Professor Taylor. Their subjects were largely related to the New Technology, and the establishment of a new course leading to a Certificate of Public Health. It was reported that the architects were now considering certain recommendations of a committee of the ladies concerning the space and accommodations to be allotted women in the new buildings.

Mr. Monroe spoke on the inadequate provisions made for the professors here at the Institute and the difficulties which they had worked under in past years.

Dr. Norton spoke of the work of Mrs. Ellen Richards, and the special research work now being carried on in the inspection of sewage and polluted waters. This work is being done through the proceeds of a fund of \$15,000 left by Mrs. Richards.

Prof. Sedgwick told of a new course to be instituted jointly by Technology and Harvard Medical School whereby a person can earn a Certificate of Public Health after a course of one or more years. Women can also receive this certificate, provisionally.

After luncheon the party went to the Margaret Cheney Room, where Prof. Taylor explained the development of the new buildings, now under construction. The plans were hung on the walls.

INTERCLASS MEET

Will Be Held Friday Night—Four Places To Score.

Friday night at 7.30 is the time set for the Annual Indoor Interclass Meet. With the number of men out for track as exceptionally high as it is this year, the meet should be of unusual interest. Four places are to score as usual, and the winner of each event is entitled to his "aTa."

The entries for the 440 yards dash will close Wednesday night, and elimination trials will be run Thursday afternoon. This has been arranged by the management to prevent a repetition of the usual farce that attends this race in the Gym. The track is unable to accommodate the number of men that usually run, and passing is practically impossible. By the elimination an interesting race should result.

The entries for the other events will close Friday noon. The regular events will be run off and the management expects a good crowd of spectators.

The Student Council at Bowdoin is attempting to arouse enthusiasm in college singing.

TRACK MANAGER CONTEST TODAY

Assistant Manager Of Track Team To Be Picked From The Freshman Class.

Today Manager Thomas will meet all candidates for the position of assistant manager of the track team in the Track Office at the Union at 1.05 and 4.05 P. M. At these meetings the nature of the competition will be outlined.

Only members of the Freshman class are eligible for the position, and the successful competitor will be the assistant manager during his Sophomore year. In his Junior year he will manage the team. The manager is entitled to wear an "aTa" and may be awarded a regular "T" at the discretion of the Athletic Association. The manager is the representative of the Athletic Association at meetings of the I. C. A. A. A. and of the N. E. I. A. A., and has charge of all trips made by the track, cross-country and relay teams.

The managership counts nine points, and is one of the important positions in the undergraduate activities.

COSMOPOLITAN CLUB

Business Meeting On Wednesday To Be The Last This Term.

The Cosmopolitan Club will hold an important business meeting on Wednesday at 5 o'clock in 8 Eng. C. At the meeting the British National Chairman will report on the results of British Night, and arrangements will be made for all entertainments to be held next term. A report from Dr. Nasmyth on the Iowa Convention will also be read, and in addition to this several other matters will be discussed.

This is the last meeting of the Club this term and the officers urge every member to be present, especially the National Chairman and the members of the Special Committee.

COURSE I TRIP

On Saturday afternoon the fourth year men taking Railroad Option in Course I went to Winthrop and inspected the signal tower and the working of signals. Professors Breed and Allen conducted the trip.

CALENDAR

Monday, January 5, 1914.

Individuality.

The statements made by Dr. Schermerhorn at the meeting of the Chinese Club yesterday concerning the necessity of a nation's retaining its individuality in order to be truly successful, may be applied equally well to individuals. Nearly everyone is taught at an early age that in some respects he must defer to the customs and ideas of society. This is absolutely necessary, but most of us overdo it and become completely conventionalized, taking our habits and manners from others, our conversation from the daily papers, and our ideas on all subjects from our predecessors. It is this tendency that the Montessori method of education aims to remove, by permitting the growing intellect to develop along the lines it tends of itself to take, stimulated rather than directed and restricted from without.

It is unfortunate that this method has not attained a wider application, for we constantly encounter evidences of the lack of it in ourselves (if we are given to introspection) as well as in others. It is this defect which Kipling points out in his "Tomlinson," a character who, having only second-hand virtues and vices, is acceptable neither to God nor to Satan.

The lines of Emerson which Mr. Schermerhorn quoted may properly be reversed in their application, so as to read, "If you want to make yourself like someone else, don't do it: one is enough."

There was a large squad out Saturday for the trials but many familiar faces were missing. With the prospects so bright for a successful season as they are at present, it is too bad that every man does not put his shoulder to the wheel to make 1913-1914 a banner year for Tech in Track Athletics.

The greatest trouble with the running Saturday seems to be the inability of most of the men to navigate the turns.

Jean Bouin, the French long distance runner, is coming to Boston prior to his meeting Hannes Kolehmainen. He is only 5 feet 5 1/2 inches tall and weight 130 pounds. These men last met in the Olympic games, 1912, when they ran neck and neck most of the way, the Finn winning by inches.

The B. A. A. failed to show up as well as expected in the National Indoor Junior Champs. held at Brooklyn last Saturday. Bob Green, who ran against Tech in cross-country last fall, got second in the two mile.

Moakley, Track Coach of Cornell, has hopes of winning the fifth leg of the intercollegiate cup this year. Pleased with the showing of the cross-country team, he expects a better track team than last year's. The winning of the fifth leg of the intercollegiate cup brings with it permanent possession.

Ninety-five men are out for wrestling at Purdue this year. Wrestling is surely on its way towards being recognized as a major intercollegiate sport.

VARSITY RELAY

Preliminary Trials Held Saturday—Fourth Man Needed.

Last Saturday the preliminary time trials for the 390-yard relay team were held in the Gym. About thirty men were timed for the distance and a fairly good showing was made. No times were given out for publication as Coach Kanaly merely wants them for his own use. The Coach said, however, that three men had made times that were good enough for the team, but that there was no fourth man. After the three fastest, the next man was considerably slower.

On Wednesday trials will be held for the long distance relay in which each man covers 780 yards. If the weather permits, the work will be on the Oval, but otherwise it will be in the Gym.

MUSICAL CLUBS

On Saturday the pictures of the Musical Clubs were taken at Notman's. Several pictures were taken of the Combined Clubs and also of each individual club.

There will be a rehearsal of the Glee Club on Tuesday at 5 o'clock in the Union.

Every cloud has a silver lining. If our vacations are shorter than those of other colleges at least our Track Team has an extra week of practice.

Case Tech has recently purchased a church which is to be remodeled and used as a gymnasium.

TECH SHOW ORCHESTRA IN CONCERT AT Y. M. C. A.

Program Includes Tenor Solos By
Tallman—Hsi And Yeh
Also Assist.

Tech Show Orchestra Saturday night gave a concert under the auspices of the Boston Young Men's Christian Association. The orchestra was assisted by V. M. F. Tallman '14, who sang two tenor solos, and by a mandolin quartette composed of I. B. MacDaniels '15, W. B. Rivers '15, T. H. Small '14, and F. L. Searles '14. Other features of the program besides the orchestra numbers were a flute solo by Turpin Hsi '14, and an exhibition of sleight-of-hand by F. T. Yeh '14, and a violin solo by A. M. Eisenberg '12.

The program follows:—

Chinese Serenade Orchestra
Selection Mandolin Quartette
Tenor Solo V. M. F. Tallman '14
Selection from "The Doll Girl" Orchestra

Intermission

Soldiers' Life March Orchestra
Violin Solo A. M. Eisenberg '12
Tenor Solo V. M. F. Tallman '14
Flute Solo Turpin Hsi '14
Magic F. T. Yeh '14
Good-bye Boys—Medley Orchestra

Nearly two hundred attended the concert and were an appreciative audience. Especial applause was elicited by the solo work of Tallman, which was particularly good.

MR. SCHERMERHORN SPEAKS

(Continued from page 1)

ing international peace. Many countries would like to make China like themselves, but these countries have a great deal to do on their own account, without attempting to make others like them. In nature, he said, no two leaves, no two blades of grass, no two things of any kind, are alike; similarly, no two countries should be alike. In the words of Emerson, "If you want to make someone else like yourself, don't do it—one is enough."

The roots of the Chinese ideas are buried in the teachings of Confucius, and cannot be changed. China might accept new things as long as they do not undermine the ethics of the nation. In closing, he said that if China, or any other country, is to properly maintain her existence, she must keep her traditional principles and individuality.

CHESS CLUB

Alumni Defeat Club By Score Of
Three To One.

In a very close and interesting match Saturday afternoon, the Alumni defeated the Chess Club 3 to 1. Dean was the only club man to win his game, and put up a remarkable exhibition. Hoyt defeated Woodbridge, Merrill defeated Kenigsberg, and Norwood, after three and half hours' battle, defeated Saladrigas.

The result was entirely unexpected, and served to show up the weak points of the players. Woodbridge was not in his best form, and the club hopes to improve before the next Harvard Match.

PUBLICITY MANAGER

At five o'clock today Lucas will meet all candidates for the position of assistant publicity manager of the Tech Show in the office of the Show at the Union.

WRESTLING MEET

(Continued from page 1)

Tech was unfortunate in having one of her men, Rounds, taken sick in the midst of his bout. Rounds outclassed his opponent completely during the first six minutes, but was then so weakened by his illness that he could scarcely move his limbs. He had been feeling out of sorts for several days. Captain Kelly, who usually has a walkaway, found he had an opponent this time who was worthy of his steel. He was unable to get a fall, although he did not have great difficulty in winning the decision.

Durkee showed great form in his bout, which was his first appearance as an amateur wrestler, although he is the champion novice wrestler in the 135-pound class.

Summary of matches:—

125-pound class—Zeoli of Clapp Memorial threw Loo of Tech in 14 minutes, 53 seconds, with a half-nelson and body hold.

135-pound class—Deldonno of Clapp Memorial won from Rounds of Tech by decision. Time, 15 minutes.

135-pound class—Captain Kelly of Tech won by decision from F. Zeoli in 15 minutes.

135-pound class—Manager Smythe-Martin of Tech won from Ahlstedt of the Memorial by decision. Time, 15 minutes.

135-pound class—Durkee of Tech threw Ovagian of the Memorial in 8 minutes, with a half-nelson and body hold.

150-pound class—Treat of Tech threw Drinkwater of Clapp Memorial in 14 minutes, 44 seconds, with a half-nelson and body hold.

150-pound class—Morse of Tech threw Summers of the Memorial in 6 minutes and 30 seconds, with a half-nelson and body hold.

158-pound class—Goodell of Tech won a decision over Siroom in 15 minutes.

Heavy-weight class—B. Warren of the Clapp Memorial won the decision from Leslie in 18 minutes.

Officials—Dr. W. F. Provan, referee; Lewis Loring, C. M. A., and Cady, M. I. T., timers; Joshua Fabyan, scorer.

RIFLE CLUB

Pistol Practice Begins—Rifle Match Tomorrow.

The Rifle Club began practice last week, and invites all those interested in this to join the club. The range is fifty feet, and .22 calibre pistols and revolvers may be used; the club furnishes ammunition and targets free to members. The membership fee is \$1.00, and dues are \$1.00 per year.

Tomorrow Tech will hold the first of its matches in the intercollegiate rifle shot. In these, teams of ten men shoot, and the scores of the highest five count. The loss of Stewart is felt greatly, but Tech still has a good chance to win its match with the University of California tomorrow.

Rifle practice is held every Wednesday and Friday, from four to seven o'clock, at the First Corps of Cadets' Armory. Springfield and Winchester rifles are used.

CERCLE FRANCAIS

There will be a meeting of the Cercle Francais on Tuesday evening at eight o'clock in the Union. All who are interested in French are invited. Refreshments will be served.

The first half of the 22d Annual Chess Intercollegiate were played off in New York on Saturday. Yale won three matches from Columbia and tied the fourth.

An number of the products of Dr Schliemann's excavations at the site of ancient Troy have been recently placed in the museum at the University of Pennsylvania.

FACULTY NOTICES

The problem books for the Physics Heat Course may be obtained in the basement of the Walker Building.

The Political Economy Exercises will not be given between December 29th and January 3d, inclusive.
