

THE TECH

VOL. XXXIII. NO. 12

BOSTON, MASS. TUESDAY, APRIL 15, 1913

PRICE TWO CENTS

TICKETS OF PLAYERS AT SPRING CONCERT

Members of Musical Clubs and Orchestra Must Present Own Tickets.

At a meeting of the management of the musical clubs it was announced that all members of the clubs and the orchestra must present their tickets to gain admission to the hall. This action was thought necessary in order to keep the concert and dance strictly limited to Seniors, Juniors and the members of the clubs. The rule will be strictly enforced, and any man who does not have his ticket with him will be absolutely refused admission. As was previously announced, there will be no tickets sold at the door, so every man who is entitled to go must secure his ticket beforehand.

Special arrangement for the handling of the carriages have been made, as in previous years no small amount of inconvenience has been caused by neglect in this particular. The management has been particularly careful to guard against any possible confusion.

All members of the clubs and of the orchestra are to be at the hall promptly at 7.30 o'clock, Wednesday evening, in order that the concert may start without delay at 8 o'clock. All men who have instruments to tune are requested to report earlier so that there may be no confusion or noise while the guests are entering. The management has put a vast amount of time and effort in making all these arrangements, and all who attend are asked to help make this concert the most successful in the history of the Combined Clubs.

RUSH TICKETS.

All Sign-Up Slips Must Be Exchanged This Morning.

The Technique Board wishes to call the attention of all those who intend to go into the Rush that the "sign-up" slips must be exchanged for Rush tickets and the entire price of \$2.75 paid up. A member of the Board will be in the Union all this morning to exchange the sign-up cards for the others, of which there are quite a number left that have not been called for.

FRESHMAN BASEBALL.

Despite the soggy and muddy ground, the Freshman baseball candidates put in an afternoon of hard practice at the Field yesterday. The feature of the drill was sliding to bases. Under the direction of Captain Murphy the men worked hard and much improvement was noticeable. The usual batting and fielding practice was also performed. Although the team lost two days' practice last week on account of the bad weather, the candidates showed up in very fair form.

There are a number of men who pride themselves that the Freshman dinner poster on the Union bulletin was drawn with their features in mind.

I should worry and raise a misplaced eyebrow.

TECHNIQUE 1914 MAKES ITS INITIAL APPEARANCE AT BIG RUSH

This Year's Book to be Unique in Many Features
New Departments, Interesting Articles,
Side Splitting Grinds.

The work of this year's Technique Board is now practically at an end, for today they present the edition to the student body for their approval. The members of the Board have awaited this day with impatience, for they are anxious to turn over to the class, to whom they are responsible, a book which they feel will please even the most critical. It is true there has been no attempt to produce a volume which would be modeled after the books that have gone before. On the contrary, the plan has been to adhere to those characteristics of books of preceding classes which have come to be the traditions in the publication of this annual. Each

ARTHUR C. DORRANCE

editor in compiling his section has gone ahead with the idea of making improvements and changes where such changes would add originality and interest. Annuals published by other colleges have been frequently consulted and many valuable suggestions obtained in this way.

In offering a de luxe edition at the price of \$2.75 the copy, the Board assumed great responsibility, for this means lowering the price 75 cents. Subsequent results have shown that they made no error in their calculations, for the advertising total has excluded by a large margin the total attained in the past. When the plan of publishing an all de luxe edition was being considered it became evident that the soft ooze leather cover would not be suitable, as such a binding does not stand rough usage. It was then decided to bind the book in heavy grain leather mounted upon a stiff back, as the members of the Board felt confident that the additional expense would be more than balanced

by the handsome appearance of this leather binding.

The eight increase in size has considerably improved the appearance of the volumes. Each year a few pages have been added, while the page size has remained fairly uniform. As a result the last few books published have presented a stubby appearance, due to their disproportionate thickness. The increase in the page dimensions has added to the general attractiveness and is an admirable departure from the text-book size used previously.

The colors used in the various cuts have been well chosen and are in extremely good taste. Flashy, brilliant colors have been, for the most part, avoided. Deep, rich colors have been used in many of the color plates, and the effect produced is, indeed, most pleasing to the reader as he looks through the book.

There are many pages which will be of particular interest to athletes, to naval architects, and more especially to the men who attended the summer camp in Maine last year. Photographs produce individuality, and Technique, 1914, is certainly not lacking in this quality.

The art staff added by the generous assistance of others, not members of the Board, early showed their ability by completing much of the work during the summer vacation, and consequently they were not forced to hurry when the date of publication drew near. The general style of the drawings shows more forcibly than words can tell, that time was not considered when the art work was being done.

Grinds that strike home every time will produce many a laugh from even the gronchiest. The jokes are, without exception, purely local ones, that concern all those connected with the Institute. There are snatches of humor from every class, from every course and in addition a few witticisms at the expense of some that have neither class nor course. This department, which, in a way, concludes the book, is sure to leave the reader in a good humor, for the whole spirit of the grinds is to produce a laugh with someone not at them.

SOPHOMORE BASEBALL.

In a very loosely played game the Sophomores defeated the Allen School at Newton last Saturday afternoon by a score of 15 to 6. The game was called at the end of the fifth inning, owing to the poor condition of the grounds. The team will play the second game of the year with Waltham High on Wednesday afternoon. The men are to meet at the Union at 1 P. M. There will be no practice to-

CADET CORPS TO MARCH IN PARADE

Will Assemble in Uniform at Rogers at 1.05, or Gym at 1.15.

The Cadet Corps will turn out today in uniform to march in the parade from Rogers, and to later aid on the side lines during the Rush. Major Cole has given his permission to have them appear in uniform, but they will march without arms.

The regiment will assemble in two sections, the first meeting between Rogers and Walker at 1.05, promptly, and the second will be for men that cannot get to Rogers at that time. The second section will form at the Gym at 1.15. This section will march directly from the Gym to the Rush grounds, while the first will take part in the parade.

The Corps is to appear in complete uniform, with breast cords and gloves. Since they will be assigned to duty in front of the crowd they will have every opportunity to see the Rush, as well as appear prominently in the "movies." Col. Taft will be on hand at Rogers before the starting time to arrange the companies.

ARCHITECTURAL SOC.

Reception, Drawing Exhibition, Music and Dancing Tomorrow.

The Architectural Society will hold a reception and exhibition on Wednesday afternoon. The exhibition, which will include a drawing by each man in the department, will be in Exhibition Hall. There will be music and dancing in the Studio during the afternoon. Mrs. MacLaurin and Mrs. James K. Taylor will be the matrons for the dance.

The mothers of the students in this department have been asked to assist as patronesses, and in all about four hundred invitations have been sent out.

The Exhibition Hall and Studio will be decorated with palms, blooming plants and other appropriate flowers. The officers have made every effort to make the reception a great success, and they expect that a large crowd will be present.

O you TECH—Technique game!

WEATHER.

Forecast for Boston and vicinity: Tuesday generally fair; moderate northerly winds.

CALENDAR.

Tuesday, April 15, 1913.

TUESDAY, APRIL, 15, 1913

THE TECH wishes the Institute the very best kind of a vacation. Whether the drawing rooms and laboratories are open or not, we hope that they will be empty. Forget that Technology exists except for the good times that it affords, and remember that the marks don't come out for some time. Have a good time at the Spring Concert, the Show and the "Prom," and don't forget that there will be a little life at the Field on Wednesday morning.

When the All-Technology Smoker proved such a success we were thoroughly convinced of the existence and enthusiasm of real wide-awake Tech Spirit; the fact was proved beyond a doubt; we accepted the proof and were happy. But today we must again get out the big stick and shake it at the Freshmen and the Sophomores, for the events of last Saturday indicated a sad and serious lapse in enthusiasm.

While the weather conditions at the track meet left much to be desired, they did not altogether excuse an absolute non-attendance of spectators. But that, Freshmen, was not the strongest proof that you were napping. Imagine a class dinner with only fifty (50) present—fifty (50) out of a class of more than three hundred. As the Dean remarked, it was a small and distinguished gathering; the emphasis, however, was too much on the small.

Those Freshmen who attended, while possibly among the distinguished, and surely a little better than those who stayed away, are not to be entirely excused. It was the duty of each and every one to see that the class turned out; it was particularly the duty of the dinner committee to make sure of this. Now, Freshmen, make your next class affair a howling success, and show us that we may bury our big stick forever so far as you are concerned.

The Sophomore track team had evidence enough of its condition by the result of the meet and it wouldn't be right to rub it in, but they ought to "buck up."

We never knew you knew anyone at Smith.

LINEUP FOR THE TECH-TECHNIQUE GAME

Both Teams Are in Fine Trim For Game—Bursar Rand to Umpire.

The biggest baseball game of the year will take place at the Field on Wednesday morning, at 10 o'clock, sharp, between the two world-famous teams, THE TECH and Technique. These two teams have just returned from their Southern training camps and are in the pink of condition for the opening game. The final lineup for the teams is as follows:

The Tech.	Technique.
H. D. Peck, c.....c. Gordon White	F. B. Goodell, p.....p. Morrison
Lawrence, 1b.....1b. Peaslee	Gray, 2b.....2b. Dorrance
Loomis, 3b.....3b. Sutherland	Carr, s.s.....s.s. Beach
Jewett, l.f.....l.f. Dawson	Best r.f.....r.f. Salisbury
Kaula, c.f.....c.f. Whitten	Umpires—Bursar Rand and Dean Fales.

A big crowd is going out to the Field. All seats are free. Everybody come and bring a femme.

IMPORTANT REHEARSAL.

A rehearsal of the Show will be held this afternoon in the Union, at 4.15 sharp. Owing to a few rough spots in the performance at Northampton it is necessary that all should come prepared to stay late, if necessary, in order to get these smoothed over. The rehearsal is to consist largely of songs, and the management states that the orchestra must also be present.

FINAL REHEARSALS.

Mandolin and Glee Clubs to Rehearse Wednesday Morning.

Wednesday morning, from 10.30 till 12 o'clock, the Mandolin Club will hold a rehearsal in Copley Hall. This rehearsal will be the last one before the concert that evening, and it is absolutely essential that all the members be present.

On the same morning, from 11.30 till 1 o'clock, the Glee Club will hold its last rehearsal. This will be just as important as the Mandolin Club rehearsal, and all men in the club must be on hand at that time. Both rehearsals will be held in Copley Hall.

PROM DECORATIONS.

The final preparations for the Junior Prom are practically completed. The committee has made provision for the decorations with Galvin, and something new and novel is expected in this line. A large amount of time has been spent relative to this part of the arrangements, and the very best is promised by the florist to whom the contract has been awarded.

The committee has also made arrangements for the refreshments for the large crowd that is expected, and promise that they will be of the best quality and quantity obtainable.
