J. M. WHITE CHOSEN
HEAD OF N. E. I. C. A. A.

Names Executive Committee—Will Try To Secure Stadium for Spring Champs.

At a meeting of the N. E. I. C. A. A. held last Saturday morning James Mayne White, vice president, was elected president for the coming year. White has represented Technology two years now in the Association, and last year he was the manager of the Tech track team. He is a senior in Course VI and comes from New York.

W. R. Stillman of Wesleyan was elected vice president and P. A. Warren of Maine secretary. For treasurer E. J. Graves of Dartmouth was elected.

At a assessment of $10 was held on the several colleges to cover the running expenses. It was also decided that the executive committee try to hold the Spring Championships at the Stadium this year. This year takes place on May 23 and 24.

President White's final official act was to address the other members of the executive committee of which he and the treasurer are members or officers. The other four members are S. J. Patten of Brown, F. I. Curry of Holy Cross, F. R. McCook of Williams, and the manager of the Colby team.

TECH SHOW POSTERS

 Competition Closing Tomorrow—Final Choice Next Week.

The poster competition for Tech Show, 1914, will close tomorrow, and the posters will be due at 4.30 in room B, The Union. Of those handed in, the four which are selected as being the best will be returned to the artists for revision and completion.

It has been something over three weeks since the competition opened and several good posters are expected. The final decision will probably be made about Wednesday of next week.

Posters handed in later than this time stated will not be considered but is it not necessary that those handed in be entirely complete.

1916 RELAY PICTURES

The men on the 1916 relay team may obtain pictures of the team from Nottman's for $1.25. This picture is the third one, but the first in which all Chemists have a vital interest.

The men of the Tech relay team have made up their minds to make this season's one in which all Chemists have a vital interest.
The Exonian in commenting upon
the college track prospects for the
spring says that Penn has the best
outlook for the intercollegiates consid-
ering the number of old men lost by
graduation. Out of twenty-four points
scored last year they have nineteen
still in college.

President Wilson has announced
himself decidedly in favor of the sum-
mer military camps for college stu-
dents. The approval was expressed
in a letter to Henry S. Drinker, presi-
dent of Lehigh University and of the
Society of the National Reserve Corps
of the United States.

Several students were badly injured
when the bleachers at the Michigan
Agricultural Armory gave way, spill-
ing over 500 people on the floor.

The writer, with
the statement that “all health is the
one plausible excuse for admission to
a lower class,” advocates that all
men who fail to meet the college re-
quirements for admission should
aim to bring out the highest
worthiness for college than our friend

FACEITY NOTICES

Third Year R. R. Engineering.

Professor Breed's section in Railroad Engineering, Course I, will meet on Tuesdays at four o'clock in 47 Engineering A.

Fourth Year.

Mechanical Engineering, Course II, fourth year, sections 1, 2, and 3 will meet on Mondays at four o'clock in 53 Engineering A. Section 3 will meet on Tuesdays at four o'clock in 53 Engineering A. Section 4 will meet on Thursdays at four o'clock in 53 Engineering A. Section 1 also meets on Thursdays at four o'clock in 53 Engineering A. Sections in Engineering Laboratory: Sections 1, 2, 6, 7, 9. Section 3a. Section 3b. Option 3. A. L. Option 3. B. WALTER HUMPHREYS. Registrar.

TECH MEETS COLUMBIA

Arena Leased for Hockey Game Next Friday Night.

At 8:30 p.m. next Friday, in the Arena of Boston Tech, the Harvard Hockey Team will meet Columbia. This is Columbia's first appearance here, and a fast contest is promised. The proceeds of the game are to be used for paying the coach for the team, so the management hopes all Tech men will endeavor to be present. To encourage a large attendance, it is announced that the price of seats for Tech men: 75c will sell for 50c, and 75c box seats will sell for 50c.

VARSITY RELAY TRIALS FOR PROVIDENCE MEET

Close Competition for Varsity Relay—Freshman-Sophomore—Freshman Schedule.

Interest in the track this week is centered about the time trials for the short and long distance teams. The teams selected are to run Harvard at the Providence Armory meet a week from tomorrow. The tryouts are to be held around the track on March 14. Each man is to run 532 yards instead of the usual 590—this distance being equal to two laps on the Providence track. Several men who will make O'Hara, Dow, Fox, and Gimbel's host to keep their places, so that the make-up of the short relay will likely not be changed. Each man is entered for the Providence meet that they will have to step this best to get a place.

The Freshman-Sophomore team is composed of the following: Brandt, who has always been one of the chief attractions at the Providence meet, and the men feel sure that there will be a stiff race for the first place. The record-breaking Harvard athletes. Nearly all the men who have entered the meet on their own responsibility and two additional to the two relay teams by the M. T. A. A. After the Providence meet these are as yet no definite dates for the varsity in the near future. A. A. A., however, is proposing a relay carnival to be held in New York City, about the first week in March. If such a meet is finally decided upon there are chances that we will be represented.

A distinguished visitor to Technology last week was Dr. H. Abraham, director of the physical laboratory of the Institute of France, one of the divisions of The College de Paris. He is making a tour of the country in the study of institutions for the study of physics and has included in these the Bureau of Standards at Washington.

The Library of Technology acknowledges the receipt from the Federal Technical Institute of Zurich of twenty-five Theses for degrees of recent graduates of the school.

The freshmen at the Purdue University are now wrecking their brains to devise some new method of handling the next entering class to take the place of the annual tank scrap which has been abolished.

A small pamphlet called the 'Prance Course' appeared on the campus at Purdue last winter, and it has been the subject of much comment because of its lack of taste and decency.

MINING ENG'N DEPT.

Professor H. G. Hoffman of the department of mining and metallurgy at Tech has been made the secretary of the Mining Engineers on the mining board at the meeting in New York in February of the American Institute of Mining Engineers. Professor C. R. H. Hayward will present at the meeting a paper on "The Constitution of Copper and Nickel Sulphides," which is the setting forth of experiments in the Technology laboratories during the past three years. There is in this paper the explanation of a number of phenomena common to both minerals which have not been hitherto understood.

Experiments under way with a new oil filtration separator for use with sulphides have given ninety percent separation. So far the few weeks the department has been working with an experimental electric roaster, with temperature indications through electric couples.

BIG WAGES FOR C. E.'S

The Public Service Commission of New York has shown its realization of the importance of civil engineers by raising the salary of Alfred Craven, chief engineer, to $50,000 a year. Craven is now the highest paid official in the service of the city, receiving twice as much as the governor.

The salaries of the other engineers range from $7,500 to $12,000 a year.

SENSATIONAL ROBBERY

During the mid-year vacation the forging laboratory was broken into and things messed up in general in "Pa" Lambart's office. Drawers were broken open and tools scattered all over the place. One man, however, was missed—a large, blue polka dot hammer which, "Pa" said I should worry—and has since become the proud possessor of another, a large, brilliant red one with half-inch white polka dots.

1916 TECHNIQUE

The 1916 Technique ballots have been issued, and will be mailed today: a number will be left at the Cage for those who do not receive a copy by mail. All dues must be paid if the ballots are to be valid. The ballots will be closed at 4:00 on Saturday afternoon, Feb. 14.

1917 DINNER TICKETS

The dinner committee of the class of 1917 desires to announce that tickets may be obtained from the fellows appointed last term for the college clubs at this price. Each person is requested to get his from the collector of the section he was in at that time. No tickets will be sold at the Cage or through any other source.

FRESHMAN BASKET BALL
CONFIDENT OF SUCCESS

17 Team. Recovered from Slump. Eager To Meet Sophs on Feb. 25.

The Freshman Basket Ball team has finally recovered from the slump which overtook it about the time of the first game with the Sophomores, and now promises to make the Sophomore team work to hold them down when they meet for the second game on February 25. The 17 team started off well by winning the first two games of the season, but a slump followed, in which four games were lost in a row. Since then, however, several changes were made. Richardson, who had been playing guard, was shifted to left forward, and Gehrell was changed to guard. Fine team play was developed 'between the forwards, Richardson and Hanch. The forwards generally managed to total 12 to 15 points between them, as in the Tufts' game. Richardson got 10 and Hanch 6, while at Dunmer game Hanch got 11 and Richardson 6. In consequence of the better team play, five straight games were won, over Boston H. S., Tufts' College (VT) 15 to 10, St. John's Preparatory 34 to 19, and Winchester H. S., 8 to 7 and Richardson 6. The Tufts' game, January 31, was with curious, Tutton, Academy, where the 17 team gave them the first defeat that they had received in two years, the score being 24 to 23. The Freshman team, therefore, in good spirits and expecting to put up a stiff fight when they return from their trip to Dummer and Colby to play against the Sophomores, will, as was the case when left upon the Tufts' game, Richardson got 10 and Hanch 6, while at Dummer game Hanch got 11 and Richardson 6. Thus the coats of students will be well covered with Alexandria's best work.

THE TECH, BOSTON, MASS. FEBRUARY 10, 1914

THE GERM OF THE GREAT RUBY

Students' Cast-Off Clothing and other personal effects bought by KEEZER 360 Columbus Avenue Near Dartmouth St.

Two minutes' walk from all Tech buildings. Unexcelled facilities; the most fastidious Bowler can enjoy this fascinating and healthy pastime. Alleys reserved and screened for private parties. Open Evenings to 9 o'clock.

ROLLING HIS OWN

America is the land of self-made men. It is characteristic of Americans to rely on their own efforts— to do things themselves. The millions of "Bull" Durham smokers are of this energetic, self-reliant, American type in all walks of life. These men like to make their own cigarettes, to their liking, from ripe, mellow, "Bull" Durham tobaccos—prefer these cigarettes, made by their own hands, to any ready-made kind they can buy.

GENUINE "BULL DURHAM"
SMOKING TOBACCO
(Enough for forty hand-made cigarettes in each 5-cent sack)

Particularly notice the unique and pleasant aroma of "Bull" Durham. It is as distinctive to "Bull" Durham as the cocked hat is to Napoleon.

"Bull" Durham aroma is produced by a secret process known only to the makers of this tobacco. You put this delightful fragrance only in "Bull" Durhams.

FREE An illustrated booklet, showing how to "Roll Your Own," and a book of cigarette papers, will both be mailed free to any officer in U. S. on post request.

Address "Bull" Durham, Durham, N. C.
