KNIESZNER SPEAKS ON CONVENTION

Student Volunteer Movement
Talked About by
Speaker.

The Kansas City Convention of the Student Volunteer Movement was the theme of the T. C. A. talk delivered yesterday by W. T. Kalesnzer, '16. Kalesnzer was a delegate to the convention, and so had the opportunity to be in close touch with the exercises there.

He first told of the character of the Volunteer movement. The object is to maintain close relations between the students of the country and the foreign missions, as well as to call on missionary work at home. By it the students are kept informed of the opportunities for service in Christianizing pagan countries. The movement also tries to uplift the people of this country through the efforts of students. For these purposes the Christian associations in different colleges serve as a medium, and the work is furthered by meetings like the recent convention. The ideal is expressed in the slogan or battle cry of "Evangelizing the World in Our Own Time."

Kalesnzer told of the speeches and addresses made by some of the leading speakers at the convention. He devoted some time to the talk of Dr. John R. Mott, to whom he referred as the greatest missionary worker of the present world, and who, he told, refused three times the offer of the position of ambassador to China in order to continue missionary work. Dr. Mott told of his various experiences throughout the world, on his missionary tours, coming in constant contact with the students of many countries, and in every case, he found these students eager and willing to receive the Christianity for which he labored.

The speaker then told of the great problems that confronted missionary workers in Asia and Africa, as presented by workers from those continents, and then dwelt upon the wonderful opportunities that await Christianity and its missionaries, as a result of conditions existing at the present time.

Wm. J. Bryan, the Secretary of State, in an address which was one of the features of the convention, praised the Volunteer Movement, and said that foreign students in our schools should take back western civilization and Christianity to their native countries. Kalesnzer pointed out that this advice applies particularly to the Institute, which has so many foreign students. All Tech men should realize that the ideas of Christianity obtained by men from other countries depend largely upon the general condition.

THE TECH
FIN TALK PROMISED FOR CHEM. SOCIETY

Prof. Whitaker, Head of Dept. of Chemistry, at Columbia To Speak

Tonight at 7.45 at the Chemical Society meeting, Tech men will be given their only opportunity this year to hear Prof. Milton C. Whitaker, Head of the Dept. of Chemical Engineering at Columbia University.

Prof. Whitaker takes for the subject of his talk "The Future of Chemical Engineering." He mentions here the requirement in the course of the third year of six weeks work in some chemical factory, with a report at the conclusion, in addition to the regular two weeks Factory Inspection Trip with its report.

The place which The Journal of Industrial and Engineering Chemistry now holds in the field of American chemical journals, is also largely due to Prof. Whitaker's untiring efforts, and he is well known as a speaker, to Prof. Whitaker's untiring efforts, and he is well known as a speaker, to the American people as a whole. The talks upon which he is to give to the Tech men are of great interest, and it is to be hoped that they will be listened to with the greatest attention.

COMMUNICATION

To the Editors of "The Tech":

As far as we understand there is a committee, whose business it is to see that no serious conflicts occur in the activities of the Institute. Certainly if they were attending to business they would have done something to prevent the quadruple use of Friday night. The Chemical society is to have a meeting, the T. C. A. has just cancelled its social of its own accord, the Glee clubs go to South Framingham, and to cap the climax we have an important hockey game. Not only have we done nothing to prevent the quadruple use of Friday night, but we have not forgotten it. So far as we know that the men of the Institute have not forgotten it. So far as we are to see, the Calendar Committee has absolutely nothing to show that it is in existence at all.

THE TECH
FIN TALK PROMISED FOR CHEM. SOCIETY

Prof. Whitaker, Head of Dept. of Chemistry, at Columbia To Speak

Tonight at 7.45 at the Chemical Society meeting, Tech men will be given their only opportunity this year to hear Prof. Milton C. Whitaker, Head of the Dept. of Chemical Engineering at Columbia University.

Prof. Whitaker takes for the subject of his talk "The Future of Chemical Engineering." He mentions here the requirement in the course of the third year of six weeks work in some chemical factory, with a report at the conclusion, in addition to the regular two weeks Factory Inspection Trip with its report.

The place which The Journal of Industrial and Engineering Chemistry now holds in the field of American chemical journals, is also largely due to Prof. Whitaker's untiring efforts, and he is well known as a speaker, to the American people as a whole. The talks upon which he is to give to the Tech men are of great interest, and it is to be hoped that they will be listened to with the greatest attention.

COMMUNICATION

To the Editors of "The Tech":

As far as we understand there is a committee, whose business it is to see that no serious conflicts occur in the activities of the Institute. Certainly if they were attending to business they would have done something to prevent the quadruple use of Friday night. The Chemical society is to have a meeting, the T. C. A. has just cancelled its social of its own accord, the Glee clubs go to South Framingham, and to cap the climax we have an important hockey game. Not only have we done nothing to prevent the quadruple use of Friday night, but we have not forgotten it. So far as we know that the men of the Institute have not forgotten it. So far as we are to see, the Calendar Committee has absolutely nothing to show that it is in existence at all.

SECOND EDIT

We are in hearty agreement with the writer of the communication which we are running this morning. The conflicts which have occurred this year are notorious for their seriousness and frequency. We have said so much upon the matter that we have honored it by mentioning it at all, and we are glad to know that the men of the Institute have not forgotten it. So far as we are able to see, the Calendar Committee has done absolutely nothing to show that it is in existence at all.

NEWS BOARD MEETING

There will be a meeting of the news board Wednesday night at 4 o'clock in the lower office. It is important that all men on the board are present.

THE GREAT RUBY

TRACK TEAM HAS A
FULL SCHEDULE AHEAD

Dual Meets and Relays To Look Forward to Besides the Intercollegiates.

A full schedule of work is laid out for the track team from now on. There are several meets scheduled for the team among them being the Holy Cross meet and the Bowdoin at Bowdoin. The Holy Cross meet will be held at the Tech Field. There is also the relay at Providence where two teams will be sent. It is still a matter of doubt regarding the Pennsylvania Relay Carnival. This season will end up with the N. E. I. C. A., A. A. and L. C. A. A. A. A. meets in May.

The Freshmen are showing considerable activity in the matter of their schedule. The annual Freshman Sophomore meet will be run, but probably on two successive Wednesdays instead of the usual way. Meets have been arranged with Lowell High and with Andover. The Lowell meet will be held on March 7th and the one with Andover the 14th. In addition to this, the management is trying to arrange Freshmen meets with Harvard and Yale. Yale has never been on the Tech field before and Andover is also the relay at Providence where two teams will be sent.

The team can be secured. The picture taken promptly at 1.15, tire team can be secured. The picture taken promptly at 1.15. Price includes good and cutting down their times. Cook has taken up the longer distance work and according to the schedule will be taken promptly at 1.15, Price includes good and cutting down their times. Cook has taken up the longer distance work and according to the schedule will be taken promptly at 1.15.

FACULTY NOTICE

Third Year.

Argumentation and Debating.

On Saturday, February 14, the Freshmen meet with Harvard and Yale. Yale has never been on the Tech field before and Andover is also the relay at Providence where two teams will be sent. The picture taken promptly at 1.15, Price includes good and cutting down their times. Cook has taken up the longer distance work and according to the schedule will be taken promptly at 1.15.

1917 FOOTBALL PICTURE

Next Monday the Freshman Football Team picture will be taken at Newman’s, No. 3 Park street. The Captains requests that all men be present at the sitting so that a complete photographic record of the entire team can be secured. The picture will be taken promptly at 1.15, February 16th.
