TAG DAY FINANCIAL STATEMENT

More Than Two Hundred Dollars Raised for Support of Athletics.

The Tag Day financial statement is as follows:

<table>
<thead>
<tr>
<th>Receipts</th>
<th>$217.87</th>
</tr>
</thead>
<tbody>
<tr>
<td>Expenses</td>
<td>5.50</td>
</tr>
<tr>
<td>Net receipt</td>
<td>$212.37</td>
</tr>
</tbody>
</table>

Although this is not as much as the committee thought they would raise, the Tag Day, yet the result is very gratifying, and the aid thus given the track team is great. The expenses of the season will be lessened by the fact that the Tag Day was expected to be sent to Springfield, so the money received from Tag Day is expected to keep the team on its feet financially until Tech Show can come to its aid.

PRIZE DRILL COMING.

Cadet Corps Holds Contest Next Week in South Armory.

The annual Interclassical prize drill will be held Wednesday, April 30, at 1 P.M., in South Armory, on Irvington street.

Invitations have been sent to all the High and Laboratory Schools within 25 miles of Boston. Teams of three officers and 12 non-officers are to be formed, and such teams are to drill in the manual of arms. The prizes will be two medals, one gold and one silver, for the two best men; and one trophy, for the best company. A drill for companies will be held Wednesday, April 30, in the drill shed. The officers and Freshman and Sophomore material for the few teams that are practicing hard to repeat. Many questions were asked, and some discussion on the results. The pictures are very well rendered.

The art editor of Technique said, "I think the Technicians have shown a great deal of improvement in this year's work. The pictures were over entirely too soon to achieve the full effect, it was the best hit of the week at the National Theatre, Tremont and Berkeley streets.

Yesterday a private exhibition of the pictures was given, and everyone who saw them was delighted with the results. The pictures are very well done, and show all the interesting characters of the show. This is the first opportunity the fellows will have to see the pictures, and anyone who sees them will certainly see ten minutes of real enjoyment.

The pictures show the parade before the show, the Comedy Band, Rush over Humboldt, the national anthem, the window of the River, and the winners on the Borden's.

CALENDAR.

Monday, April 21, 1913.

8.00—Tech Show—Providence.

10.00—Technical Society Nomination Day—M.E. Society.

12.00—Meeting of News Staff of TECH—Lower Office.

The rest of Tech Shows is the enjoyment of the audience. It was quite evident at both of the performances of "Money in Sight" that the first act, with its plot complications and local setting, was the more popular. The dancing and other specialties entered into the audience heartily. It was equally evident that the third act, in which the specialties were merely noisy and the final catastrophe was trite, was received with tolerable satisfaction.

The piece opened with an amusing situation, and throughout a whole act situation was developed with much emotion. But the complication was abandoned when the spectators were most expectant, and specialties—excellent in themselves—were introduced. The story was revolved to finish with a somewhat conventional finale to the second act.

The last part grieved freshly for a way to close, and becoming frontal, perhaps, at the rapid approach of 11 o'clock, rushed in a stupid expedition—and the curtain closed. Good shows, it may be remarked, like good operas, should generally pant for an extension of time. "Money in Sight" was a Ritz musical comedy, one-third "musical mêlée," and one-third humanity.

The act openings were all effective—especially so was the automobile climax and hesitation of the automobile. It is evident that its different movements were seen entirely too soon, and to have the full effect, it was the best hit of the week at the National Theatre, Tremont and Berkeley streets.

M. I. T. BOAT CLUB
DUES ARE REQUESTED

All Members Are Asked to Pay at Once—Practice Held All Junior Week.

During the past week the Crew have been out every day, practicing, and they are reported to be getting into fine shape. Saturday morning a number of new candidates reported, some of whom are said to show considerable form. There are several races with local crews being arranged, and an account of several minor details the dates are not yet determined upon.

There are still a great many fellows who signify their intention of joining the Boat Club who have not yet paid their dues. These men are asked to see R. C. Greene, who can turn to and do something; you are not possible as the money is needed to help cover some of the recent necessary expenditures.

Practices will be held every afternoon this week, at 4:15, and all candidates are urged to report regularly.

Already this year a large amount of fine material has come out, and if these men will continue to show up every day the Crew management promises to turn out a Crew of which we may well be proud.

COMMUNICATION.

To the Student "Activists".

I have established for the Institute a lithograph plant which can turn out very high grade work at prices very much lower than any commercial house will do them. As an advertisement to the various activities desiring to advertise by posters, as well as for the purpose of giving the young man in charge of the work practice in various kinds of work, I will, for the present, print posters in small lots at very low prices. We have had so little experience as to actual cost that I can give only an approximation of what the actual charge will be eventually, but in the beginning will work to very low schedules who will adjust to subject change later on as dictated by experience.

We can reproduce any poster of which the original is drawn on tracing paper, or cloth, and vary it any way you like. The process will not reproduce variations of weight in solid tones, or any regular tinted or photographic effect, which would add greatly to the expense. To get good results, drawing should be made with "Process black," or good, rich India ink. It does not matter how fine lines are if made with ink of good body, but fine lines made with bottle ink have not enough body to them to make good negatives.

The present limit of size of plate is 14 x 18 inches, but this in the limits of drawing and the paper can be made of any desirable size larger.

As to price. Suppose for the proposed advertisement of your entertainments you wish to allow a couple of dozen posters. The plate will cost one dollar. Twenty-five prints of a white board paper will cost a dollar more if the paper is 14 x 18 inches. Larger paper and fancy coated papers will cost somewhat more, depending on the paper used, as prices quoted are as nearly as can be estimated about cost. Most papers should be purchased, the process would not very materially increase the cost.

These prices are minimum and temporary. If you want to know how they can turn to and do something; you have more chance to redeem yourself and let us see you do it. That chance will not come out of their shells and do something, too ashamed of themselves to appear before their classmates.

Now all you Sophomores, let's see you turn to and do something; you have more chance to redeem yourself and let us see you do it. That chance will not come out of their shells and do something, too ashamed of themselves to appear before their classmates.

Prescott, '15.

HERBERT H. BARNES, Proprietor
THE TECH DEFEATS
THE TECH IN BIG GAME

After Many Years Succeed in Winning from Daily Men—
Score 4 to 3.

At last Technique showed something and won a game of baseball for the first time in its history. The editors of the annual have every reason to be proud of their efforts to defeat before THE TECH team time and again, but for poor umpiring, and injuries to members of THE TECH team would have again been resoundingly defeated. Not only was THE TECH thus weakened, but Technique obtained several players not in any way connected with their publication, and by this means strengthened their naturally weak team.

Then too the game was very close, and was only won by a majority of one point, and thesecured for the game a tie, but was overruled by the Technique bullies. The score, as finally accepted, by a majority of both teams, was 4 to 3 in favor of Technique. The latter team made most of its runs in the early innings, and those of THE TECH were the result of a batting rally started by Leonida in the ninth inning. In the ninth inning, with Jewett on third, and two out, the situation was critical, and the members of Technique were shivering in their boots. Burkhardt, however, kept his head, and struck out the next man for THE TECH. This disposed of the last chance to win.

The fielding was remarkable, considering that the members of the teams had no practice for the game, and were never meant for ball players anyway. Smith, at second, made some fine stops for THE TECH. Goodell pitched a steady game, and with better support would have held Technique to one run. For Technique the bat was Burkhardt, in the box, Possee on first, and Beach at short-step.

The regular was on third, or rather near third, in the shade of the grand stand despite the fact that the leg sent out in preparation for the game Wednesday had been tapped. The members of two fraternity teams, while not actually guilty of tapping the leg, did their share towards discrediting the game. As a matter of fact, the actual criminals were not known, otherwise they would be summarily dealt with by the original purchasers, namely, THE TECH and Technique baseball teams. Very few of the players in the game Friday approached enough to allow their ability to see one ball at a time, although some of the Freshman candidates for THE TECH, who established themselves as official caretaker of the ball, became more or less happy.

The lineup:

THE TECH

Ike, 2b........... 3rd, Sutherland
Gray, 3b........... 3rd, Peaslee
Jewett, 3rd........ 3rd, Evening
Lehman, r.f........ 3rd, Sutherland
Spalding............. 3d, Johnson
Clark, c............. c, G. Newton
Watson............. r.f, Root
Best, l.f............. l.f, Dorrance

TECH

guaranteed success, but I can guarantee you that you must have to pay unless you get your work for a very small fraction of commercial rates, which will be very novel for the first comer and will have to carry on.

Very sincerely,

Edwin T. Cole, Professor of Military Science.

THE ADVANTAGES WE OFFER

PROGRESSIVE methods, large resources and two conveniently located, thoroughly modern bank buildings, combine to make this institution the most desirable depository in New England.

Interest-bearing accounts subject to check may be opened either at Court Street or Temple Place, and the two offices used interchangeably for the transaction of your banking business.

You are cordially invited to inspect the modern Safe Deposit Vaults at either office.

SHOW CRITICISM.
(Continued from Page 3, Col. 2.)

"Money in Sight" is free from the uglities that have defaced its re-
cent predecessors. It is wholesome and virile, and entirely young in its
assumptions that men and women love at once and forever without rivalry
and without conflict. The plot is a series of suggested and quickly aban-
donned possibilities, of aged expediency and happy ends. It would have
been raised by having fewer personages. It made a commendable effort to get
its humor from undergraduate life, and it gave opportunity for dances
which were original and diverting—and were, besides, not without
grace and paw. There was no doubt that the audience enjoyed them greatly.
Which, let us repeat, is the ultimate test in shows.

"Marry in Sight" is free from the uglities that have defaced its re-
cent predecessors. It is wholesome and virile, and entirely young in its
