DANCE-A-STEP

There is nothing like something new to attract the average student. The unheard-of announcement that a dance was to be held in the Union in connection with "Vish-ba-Bibble" has aroused more interest in this effort to help support athletics at the Institute than anything else that has ever been done before.

Many on first hearing the plan, scoffed. But when Dr. Crocker, the president, explained the plan, a two and a half day's rest from the troublesome business of the Institute has brought nearly all of the student body around to thinking that such a dance can not only be done, but can be done well and make an excellent evening's entertainment.

Everyone has become certain that the Union with the two adjoining rooms thrown open is of sufficient size to permit of the hundred and fifty couples that will be there dancing without excessive crowd. There was only one doubter and he was seen late one night, when he thought he was alone, carefully examining, house by house, the smallest dimensions of the room. Still later he was seen with calculus book and log tablet figuring out the area whose dimensions he had found and then he was heard to mutter, "The space is sufficient." Is this not enough evidence to prove over any doubting Thomas?

Then the floor will be in the best of condition. It is remarkable what a little soap and water, a broom and a towel will do.

M. E. SOCIETY TRIP

First Party Leaves Rogers Steps At 1:45 Today.

The parties for the Mechanical Engineering Society trip are now completed. The first one will start this afternoon at 1:45 from Rogers steps. Prof. Riley and Prof. Smith have kindly consented to accompany the party and will explain the things of interest to be seen at the power plant. This party will be composed only of those who have handed in their names.

The party will be divided into two groups, each having a conductor who will be responsible for his group. No one must under any circumstances stray away from his section, as the Edison Company has requested that the groups be kept as compact as possible. They granted the Society the privilege of going through the plant under these conditions. It is hoped that the members of the party will bear this in mind.

BIG TIMES FOR ALUMNI AT CHICAGO REUNION

Establishments of Interest Visited - President Maclaurin Speaks at Banquet.

The big Technology Reunion at Chicago has given the hundred of delegates from the Technology Chautauqua from all parts of the country the biggest time of any reunion ever. Just imagine being given something to do continuously. The Association of the Massachusetts Institute of Technology, which is doing the entertaining, has spared no pains in making the short stay of the delegates in Chicago the most enjoyable it is possible to make.

Saturday was spent in several trips to points and establishments of interest.

The big power stations of the Edison Commonwealth Company, and of the Western Electric Plant were two of the several trips. Many of the delegations also went on a tour of inspection through the Fire Underwriters Laboratories where all kinds of supposedly fire-proof materials, springer systems, and the like, are tested as to their non-combustibility and reliability. Electrical and chemical tests are also carried on.

The Engineering Staff of the Laboratorie are about six Tech men. The Union Stockyards and the Sears-Roebuck plant attracted no small number of delegates. A trip to the Gary Steel Mills was also taken advantage by large numbers of the visitors.

Saturday evening, the big banquet of the Tech Convention was held at the Blackstone Hotel. The President spoke on the Technology- Harvard Alliance, saying that the alliance was an entirely natural one, for the reason that both institutions are imbued with the same ideals of machinery, and with this fact, the President said it is natural that it should come about. The President concluded his address by asking all to the next reunion and to spend the next four years at the University of Chicago.

EDITORS CHOSEN FOR TECHNOLOGY MONTHLY

Final arrangements have now been completed for the publication of the new Technology Monthly, E. A. Weaver, '15, has been named Editor-in-Chief and K. D. Kahn, '15, Managing Editor. J. R. Spalding, '17, is Feature Editor; L. E. Boutil, '15; Assistant Engineers; R. F. Kneeling, '17; Art Man. Editor; H. O. Gilmore, '13, Art Editor. Other officers of the temporary managing board are as follows: S. H. Taylor, '14, General Manager; L. E. Armstrong, '15; Asst. Gen. Manager; C. W. Lacy, '15, Advertising Manager; T. C. Jewett, '16, Asst. Adv. Manager; Homer Rogers, '15, Circulation Manager; A. B. Ball, '15, Treasurer. The business staff is composed of F. S. Combs, '17; B. N. Stil

HARVARD BEATS TECH IN BOTH RELAY RACES

Long Distance Closely Contested Loomis and O'Hara Score In Dash.

Last Saturday both of the Technology relay teams competed in the Armory A. A. A. G. H. track. The meet was unfortunately marred by poor management, but the races were such a man's event. The Harvard handicap dash was won by Loomis, '15, with O'Hara, '17, second. The only other Tech man to place in the open events was the look, '15. He got second in the mile run which was won in the fast time of 4:26 3-5 by Atwater, formerly of Tufts.

In the longer relay between Tech and Harvard which was run first the two teams were very evenly balanced. Fox, '14, after holding Abbott for the greater part of the race, barely fell behind at the finish of the first quarter. Box and Altenator almost got him several times but was six yards behind when he touched off C. T. Guething, '15, against Stone. The Tech man managed to take the lead after a good fight but the finish of the third man found that Tech was still about six yards behind. The last men to run were T. H. Guething, '15, for Tech, and McGee and Herring about six yards behind when they touched off G. C. Connor, '15, against Miller. The fact that Harvard ran Blaguss in this race shows that he did not think us such a man's event. These men stayed about the same distance apart throughout the race but at the finish Harvard led by six or eight yards.

In the race with the shorter Harvard relay, which is probably entitled to the championship title, Tech found a still stronger hand. The fact that Harvard ran Blaguss in this race shows that he did not think us such a man's event. These men stayed about the same different throughout the race but at the finish Harvard led by six or six yards.

The summary follows:

OPEN EVENTS.

Mile Run, Handicap - Won by Atwater, B. A. A. (46 yards); second, Cook, M. I. T. (82 yards); third, Langley, Brown (64 yards). Time, 5:28 5-8s.

Hitch-Jump - Won by Chandler, Harvard, right 6 ft. 1 in. (4 in. handicap); second, Whalen, B. A. A. 6 ft. 1 1/2 in. (handicap 8 3-4 in.); third, (Continued on Page 2)
HARVARD BEATS TECH IN BOTH RELAY RACES

(Continued from Page 1)

DAVIS, Boston High School of Commerce, 6 ft. 3 in. (6 ft. 1 in. handicap).
50-Yard High Hurdles, Handicap — Won by Meiux, B. A. A. (7 ft. handi-
cap); second, Pollard (unattached); third, Brown (4 ft. handicap). Time, 6.125; note not made.

RELAY RACES.

Brown vs. Wesleyan — Won by Brown (Eali, Halloran, Dunn, Saunders); Wesleyan (Irvine, Brown, Brook, Haiveron). Second, Time, 2 min. 5 sec.

TECH PLAYS THE B. A. A.

Hockey Game Will Close Ice Carnival at Arena Tonight.

The Tech hockey team with the B. A. A. will furnish one of the attractions at the ice carnival tonight with their hockey game. The ice carnival will include fancy skating and races. The main feature of the fancy skating competition will be an exhibition of pair skating by Mr. and Miss Muller. After the hockey game there will be skating for everyone until 12 o'clock. The seats range from $0.50 to $2.50.

Although Tech has no hopes of winning the hockey game except that Eichorn and Sawyer at left wing.

The lineup will be:

R. A. A.
Osgood, l w 1 w, Fletcher Hickey, e. Winton Foote, r "T" MacLeod Clifford, r w w, Sawyer Huntington, c p p, Cochrane Foster, p p p, Eichorn Chadwick, e g Lowingaud

RAUSCH NOT MANAGER

The Tech has been requested by the 1914 Executive Committee, to cor-
rect the notice which appeared on the last page of the February 19 issue, in which W. W. Rausch was named as Manager of the
Baseball Team. Rausch is not the Manager of the team. The Executive Com-
mittee will meet tomorrow to take up this matter of basketball manager and
other important business.

THE UNION TALK

The talk to be given this noon in the Union is the benefit of all undergraduate who takes any
interest in vital questions of world-
wide importance. Mrs. Stokes is par-
ticularly well fitted to give a new
idea of the subject. The talk is
accompanied by the show of slides
which will be projected into the hall
for all to see.

By a special arrangement with the publisher of the notices for training of teachers, particularly
in agricultural subjects, is assured.

THE TECH

Entered as second-class matter, Sept. 30, 1913, at the post office at Boston, Mass., under the act of Congress of March 3, 1879.

Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.

vancc. Second-class postage is allowed the United States, Canada, and Mexico. and outside of the United States, postage is charged at the rate of one cent a copy.

TUESDAY, FEBRUARY 24, 1914.

Editor in charge of this issue, W. P. Johnson, ’14.

Poster-touting is such a despicable offence at best that we have hereto-
fore passed it over as below the
reach of our censure. But when it
assumes a form which strikes direct-
ly at the heart of good taste, it becomes not only contem-
able but traitorous.

The projected entertainment for the benefit of athletes fills such a des-
perate need in Institute affairs that
no Tech man who has a spark of pub-
lie spirit can begrudge it his heart-
iest support. The organizers have volun-
teered their time and labor, not for
any personal gain, but for the sake of the Institute as a whole. And now, in-
stead of enthusiasm and assistance they encounter underhanded betrayal
for the sake of trifling if not wholly
imaginary private gain.

A Tech man who has a spark of pub-
lie need in Institute affairs that
the benefit of athletics fills such a des-
picable act as this.

Do not let the repetition of the
name of Rausch in Institute news
beget in any way with the organization
of the team. The Executive Com-
mittee will meet tomorrow to take up this matter of basketball manager and
other important business.

TECH DECISIVELY DEFEATS HARVARD

Rifle Team Wins by Score of 97 to 88—Outdoors Work Begins.

The Tech Rifle Team, in last week's match, inflicted a decisive defeat upon Harvard by a score of 917 to 886. The team has been handicapped all year by having to practice entirely in the evening and by the necessity of competing with teams which have the advantage of a professional coach; hence this victory speaks well for the Tech sharp shooters, who have always considered Harvard their greatest rival. This is the first time that Tech has defeated Harvard in a rifle match, and it is hoped it will not be the last.

Another chance will be afforded at the Intercollegiate Outdoor Match to be held on Saturday, March 7. The rifle team will be composed of six men. Of the men out already, two men, Patten and Norton, have been qualified as experts outdoors, and several others have had considerable experience. There is, however, an equally good show for everyone trying for the Outdoor Rifle Team, as the N. R. A. has laid down new match conditions with which the members are as unfamiliar as the new ones.

All men thinking of joining the club should do so at once if they wish to have their names in Technique under the Rifle Club.

The Tech Rifle Team, in last week's match with Harvard were as follows:

DANCE-A-STEP

(Continued from Page 1)

few handfuls of corn meal can do to turn the viscous barn into a wonderful place. It is the best way to use your one-step. Hence the Union can readily be turned into a wonderful dancing palace. It has been seen in Yale as a large smoke-filled room with paper and ashes scattered about and crowds of smoking members will not be able to recognize it on the evening of Saturday, March 7. For then it will be brilliantly lighted and decorated with the floor sparkling invitingly with its newly acquired polish. And the crowd of smoking members will have changed as if a new one was in the place, was responsible for Tech's only loss. In the second bout, Desmond of Tech had hard going with Hopkins of Allen School roll, Alen School. Time, 11m.

The lineup was as follows:

INSTITUTE NOVICES DEFEAT ALLEN SCHOOL

Hoffman Decides Match by Winning His Bout—Exhibition by Professionals.

By winning the deciding bout in the 135-pound class, the Institute novices won their meet with Allen School in the Allen gym Saturday night. The Tech men took four bouts to three for the schoolboys, with one match a draw. The showing of the novices was especially good as they were up against experienced men. All the bouts were fast all the way through.

Norton of Tech and Captain of Allen School started the meet, Guistcaver winning the decision after a slicky light by Norton. In the secondbout, Desmond of Tech had hard going with Hopkins of Allen School roll, Alen School. Time, 11m.

The Tech hockey team was defeated by Hopkins of Allen School, 11m, 10m.

TECH BOWLING LEAGUE

First Matches of the Season Will Be Held Tonight.

With six teams entered in the Tech Bowling League starts this year's matches at the Trinity Court, Allston. Tonight the Pierce and University Teams roll. The lineup of the teams are: "Union team," Peng, Young, Norton, Deaver, Yeh and Hopkins, sub, "Rogers Team," Prof. Herron, Prof. James, Prof. Hall, Isgam, MacKee, and Pendleton, sub, "Dartmouth Team," Voss, Mears, Prouty, Bricker and Bricker, "Walker Team," Rivers, Price, King, McDaniels and Stump, "Lowell Team," Owen Fletcher, Hoyt and Nelson; "Pierce Team," Sandberg, M. I. T., MacLeod, Crandall, and Lewis. The Lowell team is still looking for one more man.

Most of the men called in last year's league which furnished close matches and this season's standing is expected to be close all the way through. Precisely the present outlook, the Garrison and Union teams start favorites, with the Rogers team composed of members of the faculty close behind.

HOCKEY TEAM BEATEN

Williams Seven Scores Victory Over Tech in Williamstown.

The Tech hockey team was defeated 4 to 1 Saturday afternoon by Williams in a rough game. Under the conditions the game was not a fair sample of Tech's ability, as the men were too small for Tech. Ross, who took his place, was responsible for Tech's only goal.

The work of Cochrane and MacNamee, two of the best wingers in the professional ranks, was the most successful that day. Ross, who took his place, was responsible for Tech's only goal.

COMMITTEE MEETING

The 1914 Executive Committee will hold a meeting tomorrow morning at 4:30 in the Union at which matters of great importance to the class will be discussed.

A race has been arranged between the Middle and University of Pennsylvania at Annapolis on April 12.
BIG TIMES FOR ALUMNI AT CHICAGO REUNION

The Chicago Alumni of Dartmouth have just closed a splendid engine will be maintained for the advancement of science.

Simultaneously with the Technology Reunion the Chicago Alumni of Har-
vard held their eighth annual dinner at the University Club. They turned out 250 strong. Dr. A. Lawrence Lowell, President of Harvard, has gone out west especially to address the Har-
vard men. The Alumni of the two institutions agreed to exchange presi-
dents temporarily; accordingly, Presi-
dent MacArthur was triumphantly es-
corted to the University Club after he had given his address to the Tech men at the Blackstone the next day, was Theodore W. Robi-

The delegation from New England to the Chicago Convention numbers about 1500. On their way back to the east, according to latest reports, a number of the delegation, including President MacArthur, President Whiting, President of the Associated Alumni, and Isaac W. Litch-
field, Field Manager of the Asso-
ciation, have gone to New York to look
over the situation at the Associated Alumni.
