All Answers Must Be at Cage Tonight at Five for Free Tickets.

Well, how does everybody like the puzzle announced yesterday in connection with "Yish-Ka-Bibble"? It is expected that there will be many answers waiting for the Contest Editor when he calls at the Cage this afternoon. Remember that any answers received after this time will not receive any credit.

Also the reward that is offered is worth trying for. Think of it! Two of the almost priceless blue tickets that numerous students are striving every nerve to procure, it will only take a few minutes' thought to write out an answer to this puzzle and the lucky winner will be the proud possessor of that which will cause his comrades to turn green with envy.

The question of what to do about the lack of supply to satisfy the demand for the blue tickets is being very carefully thought over. Not realizing that there would possibly be such a demand for a dance it was at first thought that it would be hard to get the three hundred people that would be necessary to fill the Union.

It was with little regret that many students learned last night of the untimely death of Harvey Field Dewson, of the Sophomore Class. Dewson died of paralysis Tuesday evening at the Quincy City Hospital after a brief illness. Dewson, who was Captain of the 1916 basketball team, played with his team last Saturday in a game with the Quincy YMCA team, and shortly after was stricken. His illness was at first thought to be injuries he received in the game, but physicians afterward stated that the attack and consequent death were not caused by these injuries.

Dewson was the son of Mr. Edward Dewson of New York City, and lived in this city.

INSTITUTE COMMITTEE

Important Committees To Report—Point System.

The Institute Committee will meet this afternoon at 4:15 in Room 8, Eng. C. The Executive Committee, which met yesterday, announces the following matters of business:

- The Point System Committee, the Union Committee, and the Bulletin Committee will make reports.
- The "Yish-Ka-Bibble" Committee will report on the sale of the tickets and refer to the meeting the matter of composing an Institute Committee again.

Program Committee of the Chemical Society again offers a treat in the Institute for 50 cents. Rogers’ Corridor at fifty cents apiece.

Next Monday at one o’clock it will place before the sale in the Union the Rogers’ Corridor at fifty cents apiece.

The regular price was two dollars but after careful deliberation it was decided to make the reduction so that everyone might get one. Think of it! Seventy-nine different parts of the Institute for 56 cents. Rogers’ Corridor, Huntington Hall; General Laboratory; pictures of each separate building; pictures of all the drawing rooms, both engineering and architectural; pictures of the Physics Lab.; Heat Lab.; Chemical Lab.; Naval Architecture, rooms and apparatus; and of so many more that they can not be enumerated. Wouldn’t you like to have pictures of every place where you had been in the? They are in the 1910 Technique—everything from the boilers and furnaces to the President’s office. And the price is only fifty cents. It seems incredible.

This is only one part of the 1916 Technique—Read the “Grinda,” they are the best ever! And the “Letters of a Japanese Schoolboy” by Hashkey Gotlo! They are a scream.

Keep your eye on this space. More to come tomorrow. Remember: On sale Monday in the Union and in Rogers at one o’clock. And the price is only FIFTY CENTS.

WALTZ COMPETITION

Prize Waltzes for Junior Prom Due March First.

The competition for the prize waltzes to be written for the Junior Prom closes March 1st. The prize offered for the Committee is $4 and the waltz is to be played at the Prom. About ten waltzes have already been submitted and are in the hands of the Committee.

SPECIAL PORTFOLIO

What is the matter with the Fourth Year men? There are still many who haven’t made appointments for fittings for Senior Portrait pictures. This is the last week of opportunity, so DO IT NOW. A representative of the photographer will be in the Union at one today, tomorrow and Saturday only.

MR. A. D. LITTLE TO SPEAK TONIGHT

Will Address Chemical Society on Technical Reports—Seniors Invited.

Continuing its policy of securing the very best speakers available, the Program Committee of the Chemical Society again offers a treat in the person of Mr. Arthur D. Little, who will speak tonight in the Union at 7:30 on the subject of "Technical Reports."

Mr. Little is a pastmaster in this art, his reports as head of the A. D. Little Co., having won him a worldwide reputation. He is a graduate of the Institute, class of ’85, and is now a member of the Institute Corporation and President of the A. D. Little Co., the largest independent chemical organization in America. Last year he was President of the American Chemical Society.

The talk will be of special interest to the many Seniors now engaged in preparing thesis. The power to convey ideas and facts in writing, in such a form that the reader is favorably impressed and can immediately find the essential points, is one which is an invaluable aid to the engineer, and a power which only too few engineers possess. The talk will be illustrated by slides showing actual work done by Mr. Little, and demonstrating the possibility of combining attractiveness and information in a Technical Report.

Smokes and refreshments will be furnished. The Chemical Society extend a cordial invitation to all Seniors and men in the Chemical Courses to be present tonight, in the Union, at 7:30.

WRESTLING TEAM

The picture of the Wrestling Team will be taken next Saturday at 1:15 at Notreman’s.

WEATHER

Fair and somewhat warmer; light to moderate westerly winds.

CALENDAR

Thursday, February 26.

1.10—Portfolio Committee in Union. 1.15—1916 Cross Country picture at Noteman’s.

4.15—Institute Committee. 6 Eng. C. 7:30—Chemical Society Talk. Union.

Saturday, February 27.

1.15—Wrestling Team Picture at Noteman’s.

6.00—1912 Summer Camp Banquet. Rooms A and B, Union.

8.00—Open Wrestling Meet. East Waymouth.

The picture of the Hockey Team will be taken next Monday at 1:15 at Noteman’s.
THE TECH

SPAKES.

The wrestlers are now practicing for the Dec. 11 meet. Yesterday they tackled the broad and high jumps, weights, six lap runs and thirty yard sprints. If they keep it up they will soon have Jimmy Thorpe beat a mile. Norically, the good fellowship and fun displayed by the men may have something to do with their success. They thoroughly enjoy their work and their fellow workers and this spirit fosters progress.

Doc Leslie and five other men took a turn at the shot put last night. Doc's put, shot with the 16 lb. shot in very gratifying, considering that this is his first practice this season.

The weight men have trained their put shots down so fine that it has lost a pound in the last few weeks.

Penn's four man mile relay beat Cornell last Saturday in 1 minute and 40 seconds.

The Penn management expects that over three hundred teams will compete in the annual relay carnival to be held April 26th. Over a hundred teams, including Harvard and Chicago, have already sent in their applications.

In place of the annual intercourse cross country race that has been held every spring in Dartmouth of recent years, the Midtown Club proposes holding an informal run in which two teams will be chosen from the entire squad. This is to give any upperclassmen who have out for track a practice of the fun of a race and will give the undergrads a little stiffer practice.

Prices will be given to the first six men to finish.

Harvard is happy in having Teachner, formerly of Exeter, to fill sector's shoes next year. There are prospects of having a still faster team in 1914-15 than she has at present and this year's quartet is not exactly slow.

The indoor season is now practically at an end and Tech can congratulate herself on a decidedly better showing than last year. The beating of Dartmouth and the closeness of the longer relay race with Harvard are both to our credit. It is now necessary to develop a Track team that will place a second and a third to every one of Dartmouth's firsts and we shall show her a clean pair of heels in the New Englands.

1912 SUMMER CAMP

The Course I Summer Camp of 1912 will hold a reunion banquet next Saturday in Rooms A and B of the Union. Those registered names were included in the list published in THE TECH yesterday are requested to be on hand at 4:15.

The event will rehash in the Union Dining Room, instead of in B Engineering C, as was announced yesterday. The event will be hearded until further notice is given in THE TECH.

THE TECH, BOSTON, MASS., THURSDAY, FEBRUARY 28, 1914.

THE VENDAGE IN

Yes, it happened only a few years ago—we had made a choice cigarette—purest and finest of tobacco—Fatima Cigarettes. We decided to place it on sale in college towns. What happened, you know—a popularity that grew by leaps and bounds and mushroomed and today Fatima is the biggest selling cigarette in the country.

Plain package—good tobacco—20 cents.

HARE AND HOUNDS CLUB

Officers Elected—Upperclass Race To Be Held.

A good majority of the members of the Hare and Hounds Club was present at the meeting held yesterday afternoon in Eng. C. The report of the treasurer was read and showed a very favorable balance in the treasury.

Several suggestions in regard to the policy of the club were made, among them that of an annual dinner to be held after the cross country work in the spring is over. No definite action was taken in regard to this, it being the consensus of opinion that the matter should be laid over until later in the year when a special meeting can be called to decide upon it.

It was decided that the intercourse race that is usually held the week previous to the Freshman-Sophomore race should not be run this year. To take the place of this and stir up more interest in the upper classes it was decided to run a Junior-Senior race on the same day as the Freshman-Sophomore race which comes off this year on March 28th.

After a few remarks by Captain Cook of the Cross Country team the meeting adjourned.

T. C. A. SPEAKER

Dr. Gifford of Brookline To Speak on "The Rich Fool."

Dr. Gifford, of Brookline, will address the students at the T. C. A. meeting tonight. His subject has the interesting title, "The Rich Fool." Dr. Gifford is very well known to Tech men as he has addressed them several times before and has always received enthusiastic applause. Dr. Gifford is pastor of the Brookline Baptist church and one of the most prominent ministers in the city. Last year he spoke twice in the Union, his subjects being "Understanding the Times" and "God's Bidding." Mr. Talbot, the general secretary of the Technology Christian Association, hopes to have a record attendance at this meeting.

Come in and enjoy a little fun and exercise between periods.

COMING ELECTRICAL SOCIETY MEETINGS

Two Meetings Scheduled for Next Month—Tech Graduates Will Speak.

On next Monday evening, March 2nd, the Electrical Engineering Society will hold a meeting at 7:45 p.m. in the Union at which Mr. Gerard Stowe, of the Western Electric Company will speak on "The Automation of Engineering to the Sales Department."

Mr. Stowe is a Technology graduate and was a member of the Class of 1896. He has just recently been promoted to the head of the Sales Department of the Western Electric Company and because of his experience in this Department is exceptionally well fitted to speak on this subject. Although Monday night is apt to be inconvenient for many of the fellows, it is the only night on which Mr. Stowe will feel keenly his love for dress the society, and as he is a very interesting speaker the officers believe it will be well worth the while of opportunity which can attend the meeting is open to the members of all the Professional Societies of the Tech, with other interested technical students.

On Wednesday evening, March 17th, Mr. D. S. Keen, '18, who has just returned from South America, will give an illustrated talk on conditions in that section of the globe. Slides illustrate the development of electrical projects there will be shown.

Photographs taken on the Mid-year trip will be shown for the benefit of those who did not go on the trip. All men who have any photographs which they think may be of interest are requested to bring them to Fres. Richmond of the Electrical Engineering Society.

DEWSON DIES

(Continued From Page 1.)

with his grandfather, Mr. George H. Field of 162 Franklin street, Quincy. After Saturday's game, he returned to his home apparently in good health. On Sunday, however, he complained and on the next day his condition became so serious that physicians in whose care he was placed, immediately ordered his removal to the City Hospital. He died several hours after being placed in the hospital.

Dewson was one of the most popular men of his class. His many friends among the students at the Tech knew him well and knew him intimately. He was a Course XI man, and a diligent, serious and conscientious student. He had every prospect of a successful career. He was an under-graduate Football star, and Dewson was active, particularly in basketball. In his freshman year, he captained the class team through a successful season, receiving his numerals in that sport. This year, his team-mates again elected him captain, and the right-handed pitcher was one of the best and strongest players on the team.

Captain Dewson, the Tech Football Captain, pulled on his class top-captain's team, and recently he was elected to the 1910 Technical Executive Committee.

MELBA ATTRACTION OF NEXT WEEK'S OPERA

Prima Donna Will Be the Mimi in "La Boheme"—"Don Giovanni" Again.

While the outstanding event of the week at the Boston Opera House will be the first appearance of Nellie Melba, the rest of the performances scheduled for the week will be of but little interest and will, order, and will yield interest only to Mme. Melba's impersonation of Mimi.

The week will begin with a concert at the Opera House on the evening of Sunday, March 1st. Maria Gay will be the principal soloist, and with her will appear Miss Scoatney, Mr. M. Grand and Mardones, and Mr. Hovave Britt, cellist. "Don Giovanni" will be the first opera of the week, beginning at 7.30 on Monday evening. This performance will be directed by Horace Britt, our manager, and sung by the same splendid cast, with one exception, as that of last season's performance of the same opera. Instead of Miss Tebye, Alice Nielsen will sing the role of Zerlina, one of her most famous and her most celebrated impersonations. Enny Destina will again be the Donna Anna, and Miss Ameden the Dona Elvira. Vanni Marocco for the first time this season will be the Ayepovalant Don, and Jose Mardones the Commander. The cast is completed by Paolo Ludikar as Leporello, Raffaele Calabro as Ottavio, and Mr. Tavecheza as Masetto.

"Tomeo of Julitte" will be given as the first performance of the Boston Opera Company on Wednesday evening, March 4, at 7.45, with Mr. Striny conducting. The title role will be taken by Alice Nielsen and Lucien Muratore, names which in themselves are sufficient warrant that Gounod's music will receive worthy and satisfying interpretations.

Hendu Duaghe will be the Mercutio, and Vanni Marocco the Pietro. Falz. opera is comparatively little known in Boston, as it has never been given in the Boston Opera House, and indeed has not been sung in America for nearly twenty years. It is known to most people by its one work, "Faul," and many will welcome the opportunity of acquainting themselves with another side of the great Frenchman's genius.

On Friday evening "Die Meister singer" will be repeated, for the first time under the baton of Felix Weilgartner. The cast will be that of the last performance of the Wagner opera, with Miss Laffitte as Wotan, Paulo Ludikar as Hans Sachs, Robert Leonhardt as Beckmesser, and Eliza-

Great Singers Must be “Tobacco Wise”

Tuxedo is the Tobacco Chosen by Opera Stars

MEN who depend upon their voices come to know tobacco as the ordinary smoker never knows it. A sensitive throat or mouth feels the slightest sting, bite or scorch of tobacco.

Tuxedo is the one tobacco which singers, actors, public speakers—all men who guard their throats zealously—and can smoke with pleasure and safety.

Tuxedo tobacco cannot sting, bite or irritate the delicate membranes of the mouth or throat.

The Perfect Tobacco for Pipe and Cigarettes

Tuxedo tobacco has made thousands of men converts to the pipe, because it has made pipe-smoking possible for them. Under the famous “Tuxedo Process” the mild, tender leaves of the highest grade Burley tobacco are so skillfully treated that Tuxedo burns slowly and affords a cool, mild, thoroughly enjoyable pipe smoke.

Leading men in all walks of life—well-known doctors, lawyers, ministers, lecturers, etc.—came to Tuxedo and testify to its soothing influence on the throat.
