VOL. XXXIII. NO. 14

BOSTON, MASS., TUESDAY, APRIL 22, 1913

PRICE TWO CENTS

T. C. A. TO HEAR NOTED FOREIGNER

Mr. Privat of Geneva University to Speak On World Peace.

Mr. Edmond Privat, lecturer for the World Peace Foundation, is to deliver the regular T. C. A. talk on next Thursday. He will speak on "The World's Students and Their Power for Peace." Mr. Privat is in a position to know the peace movements of European universities very well. He is a graduate of the Sorbonne in Paris and of the University of Geneva, in Switzerland. As he is a young man he is able to keep closely in touch with the latest developments of the university movements.

In this country the universities and colleges have not taken up the problems of international peace to such an extent as has been done in the educational centres abroad. Indeed, as such activities are practically unknown in many of our educational institutions, the talk should prove interesting to American students. It is expected that Mr. Privat will give a description of the peace work carried on in foreign universities.

The fact that the speaker is endorsed by the World Peace Foundation is a good index of his ability. The Foundation is an international organization which has done much towards advancing the cause of world peace, and would not be likely to select any other than a well qualified speaker as its representative. Mr. Edwin D. Mead, Director of the World Peace Foundation of Boston, says of Mr. Privat: "He is an unusually fine speaker and an accomplished scholar. Though he is a Swiss, his command of English is perfect. I know of no young man more familiar with the student movements of Europe."

Mr. Privat has not only shown his ability in connection with the peace movement, but is also quite well known in other kinds of work. Since his graduation from the Sorbonne he has been employed as a lecturer at the University of Geneva, and is also at the present time a teacher at an important school in England. He has been prominent in the Esperanto movement, and has traveled to many

(Continued to Page 2, Col. 2.)

SOPHS TO PLAY RINDGE.

Warm Contest Predicted For Thursday Afternoon.

Thursday afternoon the Sophomore baseball team will play the strong Rindge Technical team at Cambridge. Both teams have already played one game. The Sophs have defeated the Allen School by the score of 15 to 6, while Rindge was beaten Saturday by Somerville High. The 1913 team is composed of hard hitters and fast fielders, but is rather weak in the battery department. Sears will probably start the game Thursday as the Sophs' hurler. The game is scheduled to begin at 3 o'clock, and everything points to a close contest. There will be practice as usual at the Field this afternoon, and Captain Caffrey hopes that more battery candidates will turn out. A second game will be played this week with Wellesley High, at Wellesley.

CHINESE CLUB MEETS SATURDAY AFTERNOON

Debate Between Six Members of the Society on a Very Timely Subject.

At the next meeting of the Chinese Club, which will be held in the Union at 3 o'clock on Saturday, April 26, six of the members will participate in a debate on the subject, Resolved: That the provisional governors in China should be appointed by the central government. The affirmative side will be upheld by C. C. Tseng, T. K. Yuan and P. Y. Hu; the negative side will be argued by M. C. Hou, C. C. Chu and H. Wu. The judges will be chosen from among those present.

The debate and all the business is to be conducted entirely in the English language. After the debate has been concluded the subject for the next debate will be decided upon and some important business will be transacted. Light refreshments will be served during the afternoon. Anyone who might be interested in the club itself, or perhaps only in this particular subject, is given a cordial invitation to attend.

C. E. NOMINATIONS DUE.

Nominations For All Officers Due at Cage This Thursday.

Nominations for the Civil Engineering Society offices will be due Thursday, April 24 at 4 P. M., in Box No. 1, at the Cage. Nominations must be in writing, and are not valid unless signed by at least ten members of the society in good standing, that is, those who have paid their dues.

The officers to be chosen from the third-year class are: President, Vice-President, Treasurer, three members of the Executive Committee and two members of the Program Committee. The following officers will be elected from among the members of the Sophomore class: Secretary, Assistant Treasurer and two members of the Program Committee. The present officers wish to call the attention of the members to the fact that nominations are due only the day after tomorrow, and they advise that the matter be attended to immediately.

"FACULTY TEAM" WINS.

Pall Malls Defeated Meccas Yesterday Afternoon.

Yesterday afternoon, at the Trinity Court Bowling Alleys, the Pall Malls, or the "Faculty Team," defeated the Meccas by a wide margin. The completed score follows:

Pall Malls.		Meccas.	
Burrison	83	84	75
James	89	83	80
Hall	88	81	94
Arms	82	84	74
Mackenzie	92	88	102
Totals	434	420	425
Fletcher	61	81	85
Osborne	79	56	74
Ruoff	87	74	78
Samson	66	78	74
Smith	80	73	78

THIRTY-FIVE REPORT FOR CREW PRACTICE

W. L. Stevens Secured as Regular Coach For the Crew.

A large number of men turned out for crew practice on the Charles yesterday, the number totaling thirty-five. The regular practice was held in the eight-oar shells. W. L. Stevens, a B. A. A. man, has been secured as a coach, and this should greatly increase the efficiency of the different crews. Mr. Stevens is putting a large amount of time into the work and expects to develop a lot of good men from the material at hand. It is now up to the men of the Institute to take advantage of the opportunity offered and make good on the crew.

Yesterday afternoon Jewett took bow, Wellington 2, Affel 3, Tyler 4, Lipton 5, Macy 6, McRea 7, Berkowitz stroke, Loo coxswain. The men took a four-mile trip this afternoon and showed fairly good form. Last night a large number turned out for practice on the P. A. A. rowing machines at the boat house. Those out for the different positions yesterday were: Stroke, Berkowitz, Sweet, Short; bow, Wellington; Lamson, 2; Roper, Short Morse, Kleinert, 3; Jewett, Mahlman, Affel, 4; Duff, Bousquet, Calver, Tyler, 5; Gere, Robertson, Sifton, 6; Mumford, Duffield, Sabin, Burkhardt, 7; Marion, MacRea, coxswain; Loo, Marquez, Forsythe, Macy.

More men are desired by Commodore Gere as he intends to run an interclass series of races if sufficient enthusiasm is shown by the men of the Institute for crew work.

HARVARD GIVES PLAY.

Some of the students at Harvard have founded an experimental theatre under the direction of Professor G. P. Baker, who recently gave a course of lectures on the drama before the Lowell Institute. The first idea of the playhouse was to give plays so that the authors might benefit by seeing their works produced.

Now the plans for giving public performances of the plays have been completed and a four-act comedy, "Jolly Make Believe," written by Eleanor Hallowell Abbott Coburn, will be presented at the Agassiz house theatre, Cambridge, Friday and Saturday nights. The private performances of the play, which were given two weeks ago, were so successful that it was decided to give public performances, which will probably be followed by others in the near future.

MASONIC CLUB.

Important Business Meeting to Be Held Wednesday.

There will be a regular business meeting of the Technology Masonic Club on Wednesday, April 23, at 6 P. M., in the dining room of the Union. The officers of the club desire a full attendance, as some very important business is to be transacted. All those that expect to be present are requested to notify L. L. Downing, 30 Bowdoin street, Cambridge.

VAGUE RUMOR OF CLEOFAN MEETING

Important and Eventful Tea to Be Held This Afternoon in Pierce.

Although the Institute knows practically nothing of any proposed meeting of the Cleofan, and in spite of the fact that all the news heebers of THE TECH made every effort to ascertain something definite, only the substance of a general rumor that was spread around the Institute yesterday can be relied upon for the exact facts. It was rumored that the Cleofan Society will hold a tea this afternoon in the Margaret Cheney Library in Pierce Building. As far as is known, this afternoon's meeting will surpass any tea yet held by the society. According to reports in general, a special program has been arranged, and undoubtedly the full membership will, therefore be present to participate in one of the most successful and eventful meetings in the society's career. The mysterious vagueness with which the society has of late been surrounded seems to indicate that something unusual will take place at its meeting this afternoon.

RUSH PICTURES SHOWN.

"Movies" of Technique Rush Given at National Theatre.

Yesterday the National Theatre began its weekly program of moving pictures with the complete exhibition of the Technique Rush, starting with the formation of the parade on Rogers steps and showing in order of occurrence the comic band leading the parade, the exciting rush over the barricade, the rush at the window, and the pictures of the winners. The pictures showed all the interesting features of the whole affair and were very realistic. The pictures are to be exhibited the rest of the week. Technology men will have a chance to see them, especially those who were unable to witness the rush itself.

WEATHER.

Forecast for Boston and vicinity: Tuesday, fair, with gradually rising temperature.

CALENDAR.

Tuesday, April 22, 1913.
Physical Examinations—Gym.
Cleofan Tea—Pierce.

TUESDAY, APRIL, 22, 1913

With Junior Week safely past the Tech man collects what remains of his shattered fortune and looks around for a place to rest his weary head, but instead of a soft and downy couch there appears on the horizon a dim shadow that banishes all thought of rest and spurs him to renewed effort. This frightful apparition is found on nearer approach to be fear of the final exams.

But to get down to serious facts, the next five weeks form a very important period for all Tech men. The last lap of the year's race is starting, all the runners are quickening their pace, and from now on it is to be a real battle. Some, notably among the Freshmen, must fight for the right to return next year; others to maintain their standards of former years or to raise them to a more satisfactory level, while with still others it is a question of degree or no degree; in fact, on the success with which one gets down to work and prepares for the finals depends to a considerable extent the showing of the whole year.

But before this last spurt starts let us warn you of the two principal dangers, the same which beset the runner in any long race. You can let loose your sprint too soon, overwork yourself and so be in no shape to make a strong finish. On the other hand, you can hold back too long, overestimating your ability to overtake the leaders, and so finish well in the rear, without having done your best. Both are purely personal questions, depending almost entirely on the man himself. It is half of the game to plan your time carefully so that you will not get stale, but on the other hand keep your work up to date.

PHYSICAL EXAMINATIONS.

Those who took physical examinations at the first of the year and wish to have another examination made will be given the opportunity during the next two days. These measurements will be open only to those who present their physical examination chart at the Gym to Coach Kanaly at the time. The period during which these can be made will extend through Tuesday and Wednesday of this week until noon.

ELECTRICALS TO VISIT TELEPHONE EXCHANGE

Trips to Be Made Thursday and Friday — Ballots Not Counted.

The Electrical Engineering Society has arranged a very interesting excursion for its members to one of the telephone exchanges of this vicinity. As all the men of the society will probably not be able to go on Thursday the society has arranged matters so that there will also be an opportunity for those who are unable to go on Thursday can do so on Friday. On both of these days the men are to meet in front of the office of the New England Telephone Company on Milk street at 2 o'clock sharp. The trips are to be conducted by Mr. Keating.

The results of the elections have not been ascertained as yet, the ballots not having been counted. An announcement of the elections will be given as soon as the results are known.

BRIQUETTING COAL.

Briquetted fuel has passed the experimental stage and is now assuming a more substantial and permanent character, says the U. S. Geological Survey. The quantity of briquetted fuel manufactured in the United States in 1912 showed a gain over the output in the preceding year, and in 1913 the increase gives every evidence of being still larger.

The output at present amounts to about 225,000 short tons annually, valued at \$1,000,000. Out of the 19 plants, seven used anthracite culm, nine used bituminous or semi-bituminous slack, one used mixed bituminous slack and anthracite culm, and one used peat. The largest plant, which is in Superior, Wisconsin, has a capacity of between 35 and 40 tons of briquettes in an hour.

NAVAL ARCH. SOCIETY.

Thursday afternoon at 4 o'clock, the Naval Architectural Society will hold a meeting in Room 32, Eng. C. The speaker has not yet been announced, but full notice of his subject and other arrangements will appear in a later edition of THE TECH.

T. C. A. TALK.

(Continued from Page 1, Col. 1.)

parts of the world in the interests of the universal language.

A talk given by Mr. Privat on the same subject about which he is to speak to Tech men was very successful. The speaker was honored by a specially arranged interview with President Wilson.

Credit for inducing Mr. Privat to address the students is largely due to Mr. Mead. Mr. Privat is so well known that his services are greatly in demand, and the T. C. A. might not have been able to arrange this talk without the assistance of Mr. Mead. In fact, the original suggestion came from him. Mr. Mead himself spoke before the T. C. A. a year ago last January, and expressed himself as greatly interested in the work of the Association. The fact that he has taken the trouble to secure such a well-known speaker for the T. C. A. shows that he believes in its work. The officers of the Association feel that the endorsement of so prominent a man as Mr. Mead is a high compliment to the T. C. A. They hope that the attendance at Thursday's talk will be such as to reward Mr. Mead for his interest in the Association, and Mr. Privat for his kindness in taking time to address the students. They believe that Tech men are offered a rare privilege in the opportunity to hear this speaker, and hope that as many as are able will take advantage of it.

FRATERNITY COUNCIL ON HOUSING PROBLEM

Cost of Building a Serious Question to All Fraternities.

One of the serious problems that the fraternities at the Institute will meet is that of housing when the removal to Cambridge is made. Much trouble is being experienced by the different fraternities in obtaining land. They are denied the privilege of building on the campus as that is now overcrowded. With the proposition before them of housing in the several dormitories there seems to be much objection. The fraternity men are desirous of running their own kitchens after the manner that they have been doing in their houses. Some of the fraternities here have practically agreed that unless this condition is granted that they will not consider the plan of housing in the dormitories. However it looks as if about half of the frats will take quarters in the dormitories.

A committee consisting of one member from each fraternity has been formed to consider this question and consult with the committee on student housing. This inter-fraternity council is acting as expressive of the ideas and feelings of the different frats but no definite action has been taken by it as yet. A suggestion has been made by it, however, to the housing committee that if they (the fraternities) were to take a sufficiently long lease of a dormitory section that they be allowed to plan the interior of the building occupied by them. No action has been taken on this suggestion.

It is known at least one fraternity has made a contract for building off the campus. Its chapter house is to be on the Esplanade just above Massachusetts avenue. This is the only case where any definite action has been taken although some of the fraternities have options on land near the campus and others are known to be looking for situations for their houses.

The cost of building is perhaps the most serious phase of the problem that is met with. Estimates have been made but these run well up into the thousands, the building and equipment of one of the proposed houses reaching a total of approximately thirty thousand dollars. Various plans for raising the required amount have been discussed at length by a number of those who are most actively interested, but the most practical one is of sending out a general appeal to the alumni members of the fraternity. The active members of the frats are not able, except in rare cases, to provide the necessary amount of money and so cannot be counted on to meet the expense.

This question of fraternity housing is a question that a large number of men are seriously interested in as a very large percentage of Institute men are members of fraternities. Out of 1,611 students at the Institute 496 are fraternity men, thus making a total of over thirty per cent. The Freshmen of the fraternities are the ones that will be most affected by the housing problem and they are taking a very active part in the discussions of the questions.

CHESS TOURNAMENT.

In the results of the semi-finals in the Chess Club tournament which were concluded just before the vacation, a surprise was sprung by D. E. Woodbridge, '16, when he got the better of R. D. Brown, '14, by winning five games out of the eight played. C. E. Norwood, '14, defeated W. E. Merrill, '13, winning three games to Merrill's one. The finals of the tournament will be played during the next two weeks, that being the time allowed for the completion of the tournament.

FRESHMEN HAVE GOOD BASEBALL PRACTICE

Will Meet Tuft's Dental Nine at the Field Next Saturday.

The Freshman baseball squad was out for practice yesterday, and the men worked out in snappy fashion that gave every evidence of a good team being produced. The infield is showing up especially well, the men doing good, sure fielding and improving rapidly. The players are working into their positions nicely and play like a team. Smart is doing some good twirling. He has some puzzling curves and plenty of speed, and gives promise of being the mainstay in the box when the team starts on its schedule.

The first game of the season will be played with Tuft's Dental nine at the Field Saturday. Captain Murphy wishes all the men to come out for practice Friday, as those who show up will be given the preference in the game. Captain Murphy will try to work out as many as possible in the first game of the season.

The men who were out yesterday were: Petit, Murphy, Smart, Burkhardt, Townsend, Sweet, A. K. Steward, Woodbridge, Davies, Kenny, Lovejoy and Drake.

LOST ARTICLES.

Several lost articles have been collected during the term and are at the Cage, where they may be obtained by their owners. The list includes Mechanical Engineering Paper, Mathematic Problems, Slide Rule, Calendar Book, Dental Instrument, Note Books (3), Mandolin Shingle, Three Haltenhoffs, Thermo-dynamics Book, Woods and Bailey, Vol. I; Synthetic Chemistry, Jackknife.
