

# THE TECH

VOL. XXXIII. NO. 141.

BOSTON, MASS., MONDAY, MARCH 2, 1914.

PRICE TWO CENTS

## 1910 TECHNIQUES

Today at one o'clock the 1910 Technique will go on sale in Rogers Corridor and in the Union. If you haven't got one and want something that will bring back Tech as it is today, be sure and be on hand.

If you haven't heard it before we will repeat what has been said. There are eighty pictures of the Institute as it is now, besides pictures of all the presidents of Tech since it was founded up to Pres. MacLaurin. The pictures of the Institute include about everything in all the buildings and laboratories. Every department is represented by photographs of rooms and apparatus. From the basement of Rogers to the top of Pierce, all the rooms are shown in either full view or in part. Pieces of testing machinery in the M. E. Laboratory, apparatus in the Physic Department, models in the Naval Architecture Department and many more photographs are in the collection. Take a look at them today and see for yourself.

The other parts of the 1910 Technique are also very interesting. The Grinds are especially good, the Class Histories are well written and the Athletic Department is very complete with pictures and records. The Letters of a Japanese Schoolboy must be mentioned again as they are decidedly unique in their comments on Tech and Tech customs. They are the kind you can read over three or four times and laugh as much the fourth time as you did the first.

If you want one of these come around today at one o'clock in the Union or in Rogers. Although the 1910 Technique cost two dollars when it was issued the committee in charge of the present books left over from that year feels that it is not cheapening the book by offering it at fifty cents, but that it is serving the best interests of everybody by making the price so reasonable that anyone can obtain one.

Remember there are only about 140 of these left. TODAY, at one o'clock in the Union or in Rogers.

### DUAL CLASS MEET

Tomorrow evening at eight o'clock the annual dual meet between the Freshmen and Sophomores will be held in the Gym. The list of events will include the 20-yard dash, 25-yard hurdles, quarter mile, half mile, mile, high jump, pole vault and shot put. An admission of 25 cents will be charged to help defray the expenses of the 1917 team.

### STUDENTS PATRONIZE OUR ADVERTISERS

## HARE AND HOUNDS TO RUN AT NEWTON

All Interested in Running Urged  
To Attend First Chase  
This Saturday.

Next Saturday the Hare and Hound Club will hold the first run of the season at Newton. The course, which the older members will remember is not very hard, starts at the Newton Y. M. C. A. After covering a variety of country the course finally returns to the starting point, where the runners will have the privilege of a swim.

All those who intend trying for either of the Class Cross Country teams should report for practice at once as the annual run comes on the last Saturday of this month which gives but twenty-eight days for practice. Other men who like the exercise might find it advisable to take a little run from the gym this week as it will prevent any stiffness from the run on Saturday.

On Saturday as usual the men will be divided in two squads, one fast and the other more moderate. The former will be more for those who have taken practice throughout the winter with the idea of making the teams, while the latter will be for those who run merely for the enjoyment of the sport.

At the Hare and Hounds meeting last Wednesday it was suggested that the bags be again left on the course at about a half mile from the finish as was the custom in previous years. The idea of this is to bring in a little spirited competition at the end of the runs. This suggestion will be followed up at the run in Newton as there is a green stretch especially adapted to a slight burst of speed.

### I. C. A. A. MEETING

W. S. Thomas Chosen Vice-Pres.  
Fifth Place To Count.

At the annual meeting of the I. C. A. A. A. held in New York Saturday, W. S. Thomas, '15, manager of the Track Team, was selected one of the two vice-presidents. The much discussed fifth place was passed and starting in the next meet the points will count as follows, first place five points, second place four points, third place three points, fourth place two points and fifth place one point, making fifteen points in each event as against eleven as heretofore.

Harvard has again been awarded the championships, and the meet next spring will be held in the Stadium as it was last year. Syracuse, Pennsylvania and Johns Hopkins were the only other colleges to bid for the meet. Harvard received the award, after Johns Hopkins dropped out, by a close vote.

## SHOW MANAGEMENT TO FEATURE DANCING

Sixteen Men Retained for Cast—  
Dancing Trials This  
Afternoon.

The Tech Show cast has finished with the first act of "A Royal Johnnie" and will start work on the second at quarter past four this afternoon. The following men are being retained, and are expected to be present:—Crowell, MacEwen, Coldwell, Duff, Ogden, Swan, Johnson, H. E. Gardner, Hiller, King, Parkinson, Tabbutt, Ross, Butcher, MacDaniels, Day.

The management realizes that good dancing was one of the best features of last year's show, and intends to make it even more attractive this year. Fortunately, there are many excellent opportunities for all kinds of dancing specialties in "A Royal Johnnie." Since the scene of the second act is in a small principality near Russia, a Russian ballet will be introduced. Men will be chosen for this only by their dancing ability. A good start has been made in the discovery here at the Institute of an expert toe dancer who has given a number of public exhibitions during the last three years.

Dancing trials for those who are to be in the ballet will be held in the dining room at the Union at 4.15 today. Mrs. Adams, who was so successful with the dancing instruction last year, and who is an authority on Russian dancing, will be present to select the men. She will start drilling them immediately. The following men are requested to be present:—Whittemore, Staub, J. P. Gardner, Whitney.

There will be another rehearsal of the chorus tomorrow afternoon. A list of all those who are retained for it will be published in THE TECH tomorrow morning.

### SENIOR SMOKER

Free Blow for 1914 at the Union  
on Friday, Mar. 13.

Who said Friday the thirteenth wasn't a lucky day?

Believe us!! It will be a red-letter day in the history of the class of 1914. Every loyal Senior will be close behind the band-wagon when the matches begin to scratch at the big joy-smoker. There will be an abundance of smokes available for everyone.

The committee in charge of the Pow-wow are at work on the entertainment portion of the program, the details of which will be announced soon. No one need "bibble" about the program. It will be of the "Gold-Seal-we've-played-before-bald-heads-of-Europe" variety from start to finish.

Remember that this is a free blow for 1914. Hence, dig out the little date-book and spatter a little writing fluid opposite Mar. 13.

## DATE FOR JUNIOR PROM DECIDED

To Be Held at Copley-Plaza—  
Sign-Up-Books Will Be  
Out Soon.

The Junior Prom will be given this year at the Copley-Plaza on Friday evening, April 17th. This step, a departure from previous years, was taken in order to assure ample room and a convenient location.

The price will be six dollars (\$6.00) a couple and the number of couples will be limited to two hundred and fifty.

Juniors and Seniors will be given an opportunity to sign-up during the week of March 9th to 16th, inc. After March 16th, if the total number has not been subscribed, the remaining sign-ups will be offered to the student body at large. A deposit of one dollar (\$1.00) will be required upon signing up and the remaining five dollars (\$5.00) will be payable on or before April 7.

The success of the Prom depends upon the support of the student body, particularly of the two upper classes. The committee wishes to urge that Juniors and Seniors sign up promptly, since after March 16 there can be no discrimination between classes.

### COSMOPOLITAN CLUB

There will be an important business meeting of the Cosmopolitan Club on Wednesday at five o'clock in Room 8, Engr. C.

The picture of Elmer Q. Oliphant, Purdue's greatest athlete of the past decade, will be placed in the Memorial Gymnasium. Oliphant has won letters in four sports and is at present a senior in the University.

### CALENDAR

Monday, Mar. 2, 1914.

1.00—1910 Technique Sale, Rogers and Union.

4.15—Tech Show Cast, Room B, Union.

4.15—Tech Show Dancing Trials, Dining Room.

7.45—E. E. Society Meeting, Union.

Tuesday, Mar. 3.

4.15—Technique Electoral Comm. 27 Rogers.

7.30—Officers Club Meeting, Union.

8.00—1916-1917 Track Meet, Gym.

8.00—Cercle Francais, Union.

Wednesday, Mar. 4.

4.15—Candidates for Asst. Circulation Mgr. of Tech Monthly, Upper TECH Office.

5.00—Cosmopolitan Club, 8 Engr. C.

7.30—Meeting of Comb. Musical Clubs.

8.00—1917 vs. Revere H. S. Basketball, Gym.

# THE TECH

Entered as second-class matter, Sept. 15, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.

MONDAY, MARCH 2, 1914

## IN CHARGE OF THIS ISSUE.

J. M. DeBell, '17.

The warm weather has done for us what the Institute did not see fit to do in removing the ice from the steps of Engineering A, and the icicles from over the various sidewalks. Of course there is a pleasant exhilaration about climbing a Mont Blanc of frictionless material on the way to a class, or of fearlessly marching beneath rows of Damoclean swords, but somehow or other we are glad to resume the even tenor of our ways without any loss of life or limb having as yet been reported.

An excellent illustration of what might have been is found in the mass of ice which on Thursday morning fell directly upon the rear entrance to Engineering A. It could not have been aimed more accurately, while in bulk it was sufficient to have extinguished a bronze statue. As no one happened to be in the entrance at the time, only the fragments of ice had to be cleared away.

## COMMUNICATION

Harvey Dewson's parents wish to express their thanks to the class of 1916 and the 1916 basketball teams for their kindness during their recent bereavement.

## TECHNIQUE ELEC. COMM.

There will be a meeting of the 1916 Technique Electoral Committee tomorrow at 4.10 in Room 27 Rogers. The meeting will be a very important one as the balloting will begin for the position of Editor-in-Chief.

We have with us this morning our customary heading. Makes us look more natural, doesn't it?

M. I. T. flashed to the fore again when O'Hara, '17, won the 40-yard dash last Friday night. W. A. Sullivan showed consistent form by jumping 5 ft. 8 3-4 in., which is not at all bad. It looks as if our other high jumpers will have to do some tall hustling if they intend taking the first prize at the Spring Meet. Although Cook, '15, ran a fast race, 9:59 3-5 for two miles, he only got third. Altogether the Tech team seemed to exhibit very little head work. This criticism is an old one, but with the men and the experience they have had in competition, there is really little excuse for any such running. We have a good season and excellent prospects before us. Let us combine both brain and brawn in the work so that we show up well in the Inter-collegiate competition.

Pennsylvania entered eighty men into the open Meadowbrook games held the twenty-first of last month. It would take the whole Tech squad to enter a like number.

In a meet between Ohio State and The University of Illinois, which the latter won by 57 1-6 to 19 5-6, three records were broken. The two-mile was broken by a novice to the tune of 10:01, which on an indoor track is not to be sneered at. The one mile was lowered to 4:39 4-5 and the half mile to 2:03 4-5. Though by no means wonderful performances, for this stage of the game the Illinois team showed good form.

The Harvard-B. A. A. race was a thriller. Some say that Tom Halpin has met his match but ten yards' lead is no slight advantage and Halpin showed that he could come back by running a fine race at the Fordham games Saturday evening.

## SEASON IS ON IN MARS

Dr. Percival Lowell, non-resident professor of astronomy of the Massachusetts Institute of Technology, telegraphs from the Lowell Observatory, Flagstaff, Ariz., that the canals of Mars are now exhibiting striking seasonal developments. The north polar cap of the planet is melting, and the markings of the canals are strongest and darkest near the edge of the polar cap. This is precisely in accord with what the Lowell Observatory has been predicting, the idea being that the melting of snow at the pole produces floods that sweep south through the canals are responsible for the color changes in the canals. Dr. Lowell likens the phenomenon to the regular inundations of the Nile.

A movement is on at Princeton to abolish all student drinking.

**ELECTRICAL ENGINEERS  
VISIT ARSENAL**

**Study Manufacture of Projectiles  
and Taylor System of  
Payment.**

Last Saturday twenty-one members of the Electrical Engineering Society visited the Watertown Arsenal. They first went through the testing department, where they were interested chiefly in a new machine, just imported from France, for testing shear and tension of the steel used in projectiles. The foundry and other departments were next visited, where the casting and finishing of projectiles were studied from start to finish. The men also watched the assembly of a 14-inch disappearing gun to be used in coast defences.

The Watertown Arsenal is one of the first government shops to use the Taylor system for paying workmen. This system, by which each workman gets a bonus for all work done over a certain amount, was explained.

The Society will take its next trip Friday, March 6.

**CHAUNCY HALL CLUB**

The list of Chauncy Hall Club members, as sent to Technique 1915, has been posted on the bulletin board in the Union. If there are any corrections or additions to be made to this list, they should be paid at once. If any members of the Club have not yet paid their dues, they will find the treasurer in the Technique office any afternoon after four o'clock.

**CHESS CLUB**

The following are the drawings for the first round of the second term chess tournament. These matches must be played within two weeks. The best two out of three games decide a match.

Borden, '14, vs. Jones, '14; Paris, '14, vs. Lewiton, '17; Drummey, '16, vs. Baxter, '17; Barker vs. Saladrigas, '16; Kenigsberg, '17, vs. Woodbridge, '16; Neumann, '15, vs. Stringfield, '15; Dunning, '15, vs. Dean, '17; Johnston, '15, vs. Sears, '16.

The results of the matches must be left at the Cage for D. E. Woodbridge.

**FACULTY NOTICE**

The list of candidates for the degree of Bachelor of Science the present year has been presented to the Faculty, and all persons whose names are on it have been notified individually. The list cannot now be changed except by vote of the Faculty, and any student expecting to be recommended for the degree this year should consult me if he has not been notified that his name is on the list.

A. L. MERRILL,  
Secretary.

Ernest A. Alton, Yale dramatic coach, has been selected to direct the annual play given by the "Strollers" at Ohio State.

Ohio State has adopted a new system of grades.

**W. HUMPHREYS ELECTED**

At its meeting in Richmond the American Association of Collegiate Registrars elected Walter Humphreys of the Massachusetts Institute of Technology, first vice-president. The president is George O. Foster of the University of Kansas, second vice-president, Frank A. Dickey of Columbia University and secretary-treasurer, Ezra L. Gillis of the University of Kentucky.

**LIBRETTO WRITING**

Mr. Carb's class in Libretto Writing will meet for the first time on March 11.

**NOTICE,**

If there are any members of the Technology Aero Club now in the Institute would they kindly communicate with J. M. Livermore, '15, by leaving their names at the Cage.

### 1912 SUMMER CAMP REUNION DINNER

Forty Men Had Interesting Time Saturday—Dean Burton There.

Forty men attended the dinner for men of the 1912 summer engineering camp held in the Union Saturday evening. Dean Burton was present, as were Professors Robbins and Allen and Mr. Sawyer, the camp faculty representatives.

The entertainment was all informal. Some of the camp minstrel men did some of their old parts, and everyone either told a story or sang a song. The entertainment was made very interesting from the fact that each man told of his experiences since the camp, dwelling particularly on that part of his experiences relating to some of his work at East Machias. This proved to be so interesting that it became ten o'clock before the crowd left.

It was also suggested that the camp members hold their own luncheons or other special meetings at the regular alumni reunions, although no permanent organization was set up.

### CERCLE FRANCAIS MEETING

A meeting of the Cercle Francais will be held tomorrow evening, March the third, in Room A in the Union. An interesting talk is to be given by one of the professors of the Architectural Department, so that a large attendance is expected. Refreshments will be served.

### HOCKEY PICTURE

The picture of the Hockey Team will not be taken until Thursday at 1.15.

### CLASSIFIED ADS.

**TO RENT**—Double and single rooms for Tech students. House entirely re-furnished, continuous hot water. 154 Huntington Ave.

**WANTED**—Track men to report Track stories, Basketball men for Basketball stories, etc., for THE TECH. Leave note at Cage for L. E. Best, Athletic Editor.

**FOUND**—A copy of Storm's "Geschichten aus der Tonne" was left at the Tech Office last Saturday noon and was turned over to Mr. Smith, Supt. of Buildings and Power at whose office it may be obtained by the loser.

### MR. GERARD SWOPE TO SPEAK IN UNION

"The Relation of Engineering to the Sales Department" His Subject.

This evening Mr. Gerard Swope will address the Electrical Engineering Society in the Union at 7.45. The subject of his talk will be "The Relation of Engineering to the Sales Department." Mr. Swope is a graduate of the Institute, and was a member of the class of 1895. He is now with the Western Electric Company and has just recently been made head of the Sales Department of that company. The talk will undoubtedly be a very interesting one, and the officers are looking for a good-sized audience. Members of the other professional societies are invited to attend.

On Wednesday evening, March 18th, Mr. H. D. Kemp, '12, will speak before the Society on conditions in South America, where he has been for some time. He has made a collection of slides which will show the development of electrical projects there. These and the pictures taken on the mid-year trip will be shown.

There will be no trip next Saturday on account of "Yish-Ka-Bibble," but on Friday the engineers will go to the General Electric Lamp Works at East Boston.

### 1915 TECHNIQUE

The 1915 Technique is almost ready for publication, so it is very necessary that all grinds, humor, pictures and cartoons should be in as soon as possible. They should be left in the Grind boxes or at the Cage for the Grind Editor at the first opportunity.

### FOUND ARTICLES

The following articles have been found. Owners of the same may obtain them at the Office of the Supt. of Bldgs. and Power, 26 Trinity Place.

- Bag.
- Pipe.
- 6 pairs brown kid gloves.
- 2 pairs fur-lined gloves.
- Checkbook.
- Key.
