YISH-KA-BIBBLE.

Final preparations for "Yish-ka-bibble" are now going on. A full fledged dress rehearsal with all of the acts included is to be held some time in the next three days and by the time Saturday night comes everything is sure to be in shape to give the large audience that is sure to be present.

The two singers are about rounding into the pink of condition. The two singers are doing all in their power to make the tiny skit go without a single hitch. Numerous rehearsals in the past two weeks have very nearly accomplished this. There is no doubt that after the dress rehearsal the little skit will go over with a clean bill of health.

The next act is to be a monologue by a student and is expected to be one of the funniest of the evening. The dialogue affair so that this does not reach the "blue mountains" will be letter perfect.

In order to have the participants be able to carry on the conversation at the speed which is essential for the success of the act, everyone is expected to know the whole dialogue by heart.

Mr. Charles B. Sawyer, one of the members of the Prom Committee and Messrs. Urquidi and Howard, would-be aspirants for musical honors, played their compositions for the Prom Prize Waltz competition. The following Juniors and Seniors are given the first opportunity, and the Sophomores will be allowed the opportunity of taking their composition.

The Mechanical Engineering Society was addressed yesterday afternoon by Mr. Charles B. Sawyer, of the Dodge Manufacturing Company. This company is the originator of the well known system of rope drive for power transmission, which Mr. Sawyer took as his subject.

Mr. Sawyer briefly outlined the different methods of transmission of power. He then started on the discussion of transmission by rope driving. In particular, rope transmission was first introduced in England about 500 years ago and the system as it was then developed has since been called the English system and it is characterized by the use of individual rope in separate grooves, with no tension device. This system has many faults. The ropes could never be made to lay flat in the groove and when several are used, they tend to stick together.

The rope drive system for power transmission was declared by Mr. Urquidi to have great possibilities for the orchestra as a whole. The rope drive system for power transmission was said to have the following advantages:

1. It is not affected by the weather.
2. It is not affected by the quality of the rope.
3. It is not affected by the size of the pulley wheel.
4. It is not affected by the tension of the rope.
5. It is not affected by the speed of the motor.
6. It is not affected by the temperature of the air.

Mr. Sawyer declared the winner of the competition to be McDaniels and Knig, second was Calder, third was Kingslbury. The first trial eliminated all but McDaniels and Klng, and Calder. Upon second trial the latter was declared the winner of the competition.

Mr. Charles L. Calder, 15, to whom the first prize of five dollars will go, has achieved musical prominence before he reached the high school. He has played the piano since he was six years old and has been a member of the orchestra since he was a junior. He is a member of the Prom Committee and is expected to be one of the officers of the Prom this year.

The dance trials for the pony ballet were in charge of Mrs. Adams. The following men are requested to report at 11:45, when another cut will be made:

The cast rehearsal will start at 4:15. Those who were out for the cast were forced to withdraw their subscription.

DANCE TRIALS FOR BALLET HELD—NO CHORUS REHEARSAL TODAY.

Mr. C. B. Sawyer explains rope drive system for power transmission.

ROPE DRIVE EXPERT ADDRESSES SOCIETY.

Dance Trails for Ballet Held—No Chorus Rehearsal Today.
The athletic young man doesn’t carry much baggage as a general thing, but you will most always find a package of Fatima Cigarettes somewhere on him! This is the cigarette that only a few years ago was introduced in the college towns—it was a try-out for pure, good tobacco, and the success that happened you all know about.

Today Fatimas are the biggest selling cigarettes in the country—a triumph never before equaled in cigarette annals—which simply goes to show that real quality is the true winner.

In an unpretentious package—quality the best—quantity generous.

INTERNATIONAL NIGHT DEFINITELY ARRANGED

Cosmopolitan Club Meets—Date of Banquet Set for Twenty-fifth.

Yesterday afternoon at a meeting of the Cosmopolitan Club it was decided that the Tech Club will hold its own banquet on March 25th, unless some new thing is heard from the Harvard Club. At the last meeting a joint banquet with the Harvard Cosmopolitan Club was discussed, but as nothing definite has been arranged the Institute Club will probably hold the dinner alone, which will probably take place at the Westminster.

On March 25th, an International Night will be given in Huntington Hall and this will be one of the biggst events that the club has ever given. One of the principal features in the entertainment will be an International Conference which is supposed to be held in the year 1926, the fiftieth anniversary of the opening of the Panama Canal. The funds raised by the proceeds of this day are to be used by the Cosmopolitan Club in the New Technology.

A picture which was taken some time ago has been finished up, but, since the day on which it was taken was very cold, the picture is not as good as was expected. Any member who desires to see it may come to Mr. Z. Y. Chow, who will be in 41 Engineering R every afternoon. The next meeting of the Cosmopolitan Club will be held April 1st.

To the editors of THE TECH:

Before coming to the Institute, I looked forward with great anticipa- tion to the Friday Night Events described in "Concerning M. I. T." To quote: "The Friday Night Entertainments. Is there such a com- mittee? You would oblige me greatly if some proposed amendments to the Constitution were furnished opportunities for de- veloping the social side of the Institute." To the Friday Night Entertain- ments. Is there such a com- mittee? You would oblige me greatly if some proposed amendments to the Constitution were furnished opportunities for de- veloping the social side of the Institute Club was discussed, but as noth- ing definite has been arranged the Institute Club will probably hold the dinner alone, which will probably take place at the Westminster.

The Men Who Put The Fun Into Your Daily Life

WITs well sharpened and minds in good humor. The man who has these generally knows what he is talking about. Read the testimonials on this page. Here are some of the greatest cartoonists in the country. They all smoke and endorse Tuxedo.

They wouldn't smoke Tuxedo if it didn't keep their minds alert and cheerful all day long, day in and day out. A tobacco that can do that stands in a class by itself.

Tuxedo is made of the very highest grade of choice, mellow, sweet Kentucky Burley leaf—treated by the original "Tuxedo Process," which removes the stinging juice so that it cannot bite your tongue—granulated so that it smokes freely and uniformly—packed 40 pipefuls to the 10c tin.

Tuxedo deserves everything that has ever been said of it—and to prove it Tuxedo sells by the millions upon millions of tons annually.

You Can Buy Tuxedo Everywhere

Consistent quality of pipe tobacco. "Tuxedo" is the original pipe tobacco.

FREE for selecting, with your name, are mailed to you.

In class Humidors, 50c and 90c

Send us 2 cents in stamps for postcard and we will mail you a momentum, with gold lettering, your name and address on it. A tobacco that can't be beat.

The Men Who Put The Fun Into Your Daily Life

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

T. A. DORGAN ("Ted")

"Tuxedo can't be equalled in nothing, refreshing qualities, its mildness makes a pleasant smoke, its costume removes all chance of tongue bite.

T. A. DORGAN ("Ted")

E. L. GOLDBERG

creator of "Foolish Questions" 1.

"I find in Tuxedo a good tobacco. Its fragrance and flavor are rare, if it is regularly and uniformly. It is the only tobacco I smoke.

T. A. DORGAN ("Ted")

R. L. BECKMANN

creator of "Bluff and Jeff." 1

"Tuxedo has no bite, and its flavor, its smoothness, and its mildness make it a pipe smoking a real pleasure.
