COMMITTEE ON THE WALKER MEMORIAL AND GYMNASIUM REPORTS TO ALUMNI COUNCIL

Recommendations Made Propose Many Comforts and Pleasures For Future Students--Large Field For Athletics.

The summary of recommendations of the committee follows:

1. The Walker Memorial should be located on the campus but for those living outside on their way home, and for persons attending, evening affairs in it.
2. As a memorial it should be a conspicuous site and an architecturally impressive exterior.
3. The gymnasium should be convenient to rooms for students on the campus.
4. The Walker Memorial and the gymnasium should be located with reference to permanent use; the athletic field for occupancy for not less than 55 years.
5. The athletic field should be located as to admit of expansion and not to interfere with direct passage between the buildings.
6. The location preferred for the Walker Memorial is on the Esplanade near Massachusetts Avenue. The Walker Memorial should be near the Dining Hall and the two should be connected by an Arcade. The location preferred for the gymnasium is the corner of Massachusetts Avenue and Vassar Street, eastward from the gymnasium. It is assumed that the space along Massachusetts Avenue between the Walker Memorial and dining hall at the one end and the gymnasium and swimming pool at the other end is to be used for dormitories of student houses. The interior of these dormitories and other available space should be shared for tennis courts.
7. The Walker Memorial and gymnasium should be approximately as follows:
   - Walker Memorial: 15,000 square feet.
   - Gymnasium: 4,000 square feet.
   - Other: 1,500 square feet.

The problem now is to make at the New Technology an adequate provision for the social needs of at least two thousand students in the future (future, including the Walker Memorial and gymnasium when built). There should be established the great area of Massachusetts Avenue or Massachusetts Avenue, the Walker Memorial building should provide for the student activities, clubs and societies, recreation, library, music, lectures, with arrangements for games and many other activities. The indoor area for simple architecture and in harmony with the educational buildings, and have a basement and three stories, and the great lounge or dining room, extending through the building, should have an area of at least 2,500 feet. The Walker Memorial and the gymnasium in the Walker Memorial and gymnasium should be located as to admit of expansion and not to interfere with direct passage between the buildings.

MASONIC CLUB.

Regular Business Meeting to Be Held in Union Tonight.

The two trips will be personally conducted by Mr. Keating, and all the men are to meet in front of the Telephone Company's offices on Mill Street, at 8 o'clock, on both days.

PLANS FOR STUDENT CO-OPERATIVE SOCIETY

Report of Men in Prof. Pearson's Class to Be Put Before Students Soon.

Professor Pearson's class in Argument and Debate is planning to present to the Institute the fundamental plan of a student co-operative society. Four men have been asked to draw up a comprehensive report and to present it at the boat, meeting of the class, which comes on Saturday at 12 o'clock. Then the same report will be presented a week from Monday to all members of the student body who are interested in the matter.

The class has been studying the form of co-operative society that is used at Harvard. There the annual quotas are divided among the stockholders in proportion to the amount of purchases that they have made during the year. The price of goods is higher than in any other buyer, but stockholders have the privilege of special discounts at other stores throughout the city.

THE TECH

WEKNDAAY, APRIL 22, 1914

We have made appeals to the students for their support of every event which has taken place this year. A crowd went to the Technology floor yesterday and the school that trains most needed, have been attended by the average man, with an adequate amount of mental and physical exercise. The school that trains too subordinate. There aren't enough

IMPORTANT SHAKE-UP IN THE VARSITY CREW

Men Working Under Direction of Coach Stevens—Chance Good for New Men

Yesterday afternoon at 4 P.M. the Varsity Crew held its regular practice on the Basin. There was an important shake-up in Varsity crew, and the following men were placed: Robertson, 1; Duff, 2; MacDonald, 3; George, 4; Marlon, 5; Herrick, 6; Affel, 7; Herrick, stroke, and Carr, cox. The other men who reported and worked out were placed in the fourth shell: Pleming, 2; Blake, 3; Lamont, 4; Herrick, 5; Carr, 6; Affel, 7. Coach Stevens has recently assumed the responsibilities of coach and it is hoped that a large majority of the team will show up for practice. At the present time the crew management is fixing up for the principal season.

floor should contain a general lounge, smoking room, reading room, billiard room, robing room, waiting room, club room, kitchen and closet. These rooms are to be located on the second floor above the basement and first floor should have entrances from the Arcade, as well as from the outside. The building should contain a auditorium, seating from 400 to 500, with cut out of order. Its strength lies in its very simplicity. The model is easy to get out of order. You can give your fountain pen the best service when it is in the right condition.

MACULLAR PARKER COMPANY

attracts special attention to clothing boys and young men for school and college. Their styles and fabrics are of the latest and the clothes—ready for immediate use, or made to order—are designed and manufactured by experts in workrooms on the premises.

THE ADVANTAGES WE OFFER

Progressive methods, large resources and two conveniently located, thoroughly modern bank buildings, combine to make this institution the most desirable depository in New England.

Interest-bearing accounts subject to check may be opened either at Court Street or Temple Place, and the two offices used interchangeably for the transaction of your banking business.

You are cordially invited to inspect the modern Safe Deposit Vaults at either office.

Lineup For Game With Rindge Not Definitely Decided.

Yesterday afternoon was ideal for baseball, and a large squad of candidates for the Sophomore baseball team turned out at the Field. The weather was good, and the sun shone after the work. After the usual batting and fielding two nine-man teams were picked, and the work finished up with a game. Captain Caffery is finding it hard work to pick the team to face Rindge tomorrow, the men are showing up uniformly, but he has to pick the team in order to start the game in the box, and either Pike or Delano will relieve him if necessary. The following lineup will probably start the game, although Captain Caffery is not willing to make any definite selection.

The lineup:

Bower, 1st; Frank, 2nd; Captain Caffery, c.; Lander, 3rd; Place or Thomas, r.f.; McIntyre or Holway, LF.; Morse, 1st.

This is not the batting order, which will not be announced until just before the game. The game promises to be a close one, and should prove a good test of the strength of the team.

On next Saturday a second game will be played with the Wellesley High team, at Wellesley.

M

ELECTRICAL AND CIVIL ENGINEERS TO MEET

“Delivery and Handling Freight at Boston Terminals” Is Subject of Talk.

At a joint meeting of the Boston Section of the American Institute of Electrical Engineers and the Boston Society of Civil Engineers, to be held Friday evening, in the Lowell Building, Dr. Harold Pender, H. F. Thomas, R. F. McIlvaine and C. P. Eldred will present the report on their motor vehicle research, the “Delivery and Handling Freight at the Boston Freight Terminals.” The research on vehicles which is conducted by the Institute with foods furnished in part by the Edison Electric Illuminating Company or Boston, is of the widest scope. Not only are the performances of the wagons themselves considered, but also conditions of street congestion and kind of paving. The report on freight terminals of Boston is to be made public for the first time Friday evening, and it is hoped that all doing business men who are interested will attend.

WALKER MEMORIAL
(Continued from Page 2, Col. 2)

1500 lockers, the general student waiting and check offices; a new soda fountain room, confectionery and tobacco stands, bar-

The Arcade.

31. The Arcade should contain two floors, or one above the basement, if possible, that they double the exclusive use of rooms by Faculty and Alumni.

30. A special reading room and smoking room should be assigned to the Faculty and alumni; they should share the grill room and special dining rooms with the students. The gymnasium should contain special provisions for the instructing staff and alumni.

(Continued on Page 4)

CHESS TOURNAMENT.

On next Friday, the final match of the Chess Club tournament will be played in the Union by C. E. Norwood, '14, and D. R. Woodbridge, '14, though it is not definitely decided. It is probably that the winner will play with L. B. Hert, the winner last year’s tournament.
WALKER MEMORIAL. (Continued from Page 3, Col. 1.)

5. The interior should be well lighted and well ventilated, the ventilation being especially well arranged near the roof and openings in the walls. 6. The field should be well arranged for large groups of people, to accommodate any number of persons. 7. The gymnasium should be well arranged for investigations, to accommodate any number of persons.

Gymnasium. 22. The gymnasium should be about 150 by 90 feet. The entire floor should be of sand and stone, with a sand truck of 14 feet wide. 23. One-third of the basement floor space should be devoted to lockers and showers. 24. Provision should be made for lighting and ventilation of the basement, as well as the upper part of the building. 25. The floor should contain a main exercising room, 100 by 150 feet; office rooms for the director, library, check room, reception rooms, etc. 26. The main room should be arranged for occasional use for large dances and dinners unless there are provided for elsewhere. 27. This main room should also include lockers, baths and special rooms for wrestling, boxing, fencing, tennis, handball, and other games. 28. On this floor, or in a mezzanine, there should be additional rooms for athletic teams, visiting teams, examining rooms, etc.

Swimming Pool. 40. This should afford the gymnasium on the south side and should have a ground area of 150 by 50 feet. 41. The pool should be 72 by 30, with 9 feet of water at one end, diminishing to 4½ at the other. 42. There should be a gallery around the pool with seats for several hundred. 43. An inclosure in the swimming, or his assistant, should be in constant attendance. 44. Careful attention should be given to the cleanliness and sterilization of the water.

Physical Director. 45. There should be a biological director of medical training and health education. 46. An advisory board should be established to advise daily office hours with the director.

Athletic Field. 47. The field should be accessible, enclosed, and not located so as to interfere with passage between buildings.

For printing and typewriting we have the facilities and experience that put us at the top in the point of speed, convenience and economy in Tech work. We have some over half another's quota, and are ready, before placing an order come to us for our price.
