PRICE TWO CENTS

YALE MEET OFFERS GREAT INDUCEMENT

If Tech Wins Wrestling Match Will Be Intercollegiate Champions.

When the Tech wrestling team meets Yale tonight there will virtually be a battle for the intercollegiate championship, as Yale has beaten some of the best college teams in the United States. Tech already holds, and has held for two years, the club and college championship of New England, having defeated all the prominent teams. Next Saturday night Tech wrestles the Boston Young Men's Christian Union for the team championship of New England, which title Tech holds at present. Neither team has lost a match this year and the coming contest promises to be a hard fought one.

Tonight's meet will undoubtedly be the hardest Tech has had this season, for Yale has always put out a good, strong team. The team will be picked from the following list:

- 115-pound class, Loo.
- 125-pound class, Captain Kelly and Means.
- 135-pound class, Smythe-Martin, Durkee and Rounds.
- 145-pound class, Treat.
- 153-pound class, Walter and Goodell.
- Heavyweight class, Crowell and Leslie.

This will be the last year on the Tech team for four of the men. Treat, Smythe-Martin, Means and Leslie will graduate and will not return. Captain Kelly also graduates, but is expecting to come back as a post-graduate. There is good material, however, for next year's team and there is every prospect that Tech will continue to capture championships. Loo, who has never been defeated by a man of his own weight, will occupy the 115-pound class next year. Assistant Manager Morse will probably be back in the 145-pound class. For the heavyweights Crowell will lead the list.

The Freshman class has also shown some excellent material. Goodell, Rounds, Durkee, Hoffman, Bone,

(Continued on Page 3.)

SHOW MEN ACTIVE

Ballet, Cast and Chorus Busy—Cast Rehearse Today.

Yesterday afternoon all three departments of the Tech Show were busy, and the candidates for positions in the stage department were kept on the jump taking care of the mechanical details. In the Union Dining Room Mrs. Adams had charge of the terpsichorean artists, who are improving wonderfully, while in one of the smaller rooms above both the cast and chorus did their best to

POSITION OF THE NAVAL ARCHITECT

Prof. Everett Shows Relation of Naval Architect to Ship Owner.

The ideal position of the Naval Architect and the tremendous aid he can be to the ship owner were outlined in Prof. Everett's talk to the Naval Architectural Society yesterday afternoon on the "Relation of the Naval Architect to His Client."

The term "Naval Architect," said Prof. Everett, has been much misused, especially in America. Any man who has been on a boat a few times can add the letters "N. A." to his name. On the other hand the titles of "Doctor" and "Lawyer" are carefully protected. This is due largely to the fact that these latter professions are much older. People have had pains and lawsuits much longer than they have had steel ships. The time is coming, however, when the true position of the Naval Architect will be recognized and his title will be respected.

A good Naval Architect should combine these three qualities, a sound technical training, wide experience, and irreproachable character. If he is lacking in any of these three essentials he cannot act efficiently and satisfactorily as the confidential agent of the ship owner. He must be able to get his problem in shape from the data given him by the owner, to calculate the strength and stability of the ship, the entire responsibility of which rests upon him, and to advise the builder which contract to accept when the competing companies have submitted their respective contracts.

While the ship is being built, the Naval Architect has general supervi-

(Continued on Page 2.)

drown out the Glee Club, which was shaking the walls of the adjoining room. Mr. Howard, who had charge of the singing, was well satisfied with the afternoon's work.

There will be a rehearsal of the cast at 2.15 today in the Union. The men must be prepared to rehearse any part of the play as well as any of the songs in which they are supposed to take part.

MUSICAL CLUBS

There are two concerts scheduled for the Musical Clubs for next week, one in Lynn and the other in Natick. A special car will leave from the corner of Causeway and Canal streets, at six-thirty Monday evening to carry the members to the High School in Lynn, where the first concert will be held.

LOOMIS EDITOR-IN-CHIEF OF TECHNIQUE

Shepard Elected Business Manager—Both Men Prominent in Student Activities.

At yesterday's meeting of the Technique Electoral Board Charles W. Loomis, '16, of Boston, was elected Editor-in-Chief and Henry B. Shepard, '16, of East Derry, N. H., was chosen Business Manager of the 1916 Technique.

Loomis is a graduate of the Newton High School, class of 1909, and is at present President of his class and a member of the Track Team. He has been on his class relay teams both years and captained it last year. He also held the position of Associate Editor-in-Chief of THE TECH. He is a member of Beta Theta Pi.

Shepard is a graduate of Andover, '12, and is at present Treasurer of the Musical Clubs. He has also held other important positions at the State, and is a member of Phi Gamma Delta.

JUNIOR PROM SIGN-UP

Today Last Day for Sign-up for Upper Classmen.

Today is the last day for the Seniors and Juniors to sign up for the Junior Prom. Sign-ups will be made before two o'clock today. Next Tuesday the lists are to be opened up to the Sophomores for the rest of the tickets that are left. After the tickets are exhausted, a waiting list will be established. Those on the waiting list will have the opportunity of getting any tickets that are turned back by the original subscribers.

SOUTHERN CLUB COMM.

There will be a very important meeting of the Southern Club Dance Committee at 1.00 today in 21 Rogers. The following men must be present: A. R. Williams '15, J. T. Bauer '15, J. D. McIntyre '15, and J. A. Steere '15.

SENIOR PORTFOLIO

Today is the last chance for Seniors to have their pictures made to go in the Senior Portfolio. If any member of the class has not had his sitting with the official photographer, he should go directly to Hearn's Studio, 727 Boylston street, this afternoon.

The committee also urges that the men return their proofs to the photographer immediately, as the work of the committee is seriously handicapped by the failure to do this. It is also important that the "dope" sheets be left at the Cage for the committee, as the material for the book is now being arranged.

SENIORS ENJOY SMOKER AND SING TECH SONGS

President Dorrance Starts Movement To Have All Men Learn Tech Songs.

Last night the Senior Class held one of the most successful smokers in its history. The band started playing at 8 o'clock sharp and played for fifteen minutes, when a short address by A. C. Dorrance, the class president, started things rolling.

Next on the program came "Tom" Duffield, Chairman of the Portfolio Committee. He told what the Committee had done and how the men were getting a book for \$5.00 that actually cost \$4.92. He stated that there are 300 pictures in the book, 30 more than in any other previous portfolio book. "Boggs" Morrison then gave a few humorous talks which were well applauded. A humorous quartet composed of Sherman on the banjo and Shoepe, Dickson and Mayer who played harmonicas, gave several popular selections.

The entertainment committee were fortunate in securing two varsity wrestling men, A. E. Dowell and Jack Woods. These men gave a pretty exhibition of wrestling and neither succeeded in getting a fall in the two periods of 6 minutes each.

H. W. Barker, the wonderful Course IV story teller brought roars of laughter, especially when he spoke of his latest hunting adventure. It was rather unfortunate that he had so few to tell.

The smoker then concluded with the singing of Tech songs. Tallman led the singing and several of the songs were rehearsed over and over again. The president expressed the hope that other classes would follow the example of the Seniors and get to know more of the Tech songs.

CHESS CLUB

The Tech Chess team will meet the Brown University team at four o'clock this afternoon in the Union. Brown belongs to the Triangular League and is expected to send up a strong team. The following men will represent Tech: Jones, '14; Woodbridge, '16; Dean, '17; Kenigsberg, '17; Newman, '15; and Johnson, '15. The Brown men are: Mitchell, '15; Durfee, '14; Woolley, '15; Sperry, '16; Lucas, '16, and either Leonard, '17, or Palmer, '17.

It is hoped that a simultaneous chess match can be arranged with Mr. Kennard, who beat the Chess Club last year, 3 to 4.

CALENDAR

Saturday, March 14th.

- 1:45—M. E. Trip to Watertown Arsenal.
- 2:05—Hare and Hounds—Trinity Place.
- 8:00—Yale Wrestling Meet—New Haven.
- 8:00—Freshmen-Lowell Meet.

IN CHARGE OF THIS ISSUE

B. N. Stimets '16, W. F. Johnson '17.

Every man within a mile of Tech this noon should come to the Back Bay station and give the wrestling team a rousing send-off. Their excellent work deserves a better reward than the half-dozen hand-shakes that sped our equally plucky Cross-Country team on their way to New York last year. These Tech men are showing the truest Tech Spirit—the spirit we come here to learn and spread—the spirit which meets great obstacles and overcomes them in glorious victory. To spend hours each day at consistent training, and at the same time to maintain the standard of scholarship necessary to remain in M. I. T., is no mean task and deserves a higher reward than we are able to bestow.

Since we cannot go to New Haven with them, let us at least see them off at the station, and join in a rousing "We Are Happy" that will ring in their ears until the hour of victory.

The hour spent by the Seniors last night in singing over the dear old Tech songs presents an idea which the other classes would do well to take up. These songs are heard ridiculously seldom among us considering what a great deal they mean to every son of Technology. This is partly due to the lack of suitable occasions, but could be largely corrected by a little enterprise on the part of the various classes.

Each class should take the responsibility of making every one of its members not merely acquainted, but intimately familiar, with these precl-

COLLEGE NEWS

The Congress of Argentine is considering sending a hundred students, picked from its four national universities, to study two years in this country at the expense of the Argentine government.

Within a week or two the University of Illinois can boast of having the largest armory in the world. The building will accommodate two thousand cadets with ample room for maneuvers.

New York University claims that its increase in enrollment this year is greater than that of any American college.

The compulsory athletic fee at Iowa State College has been abolished. The attorney general of the state of Iowa claimed that such a fee was contrary to the educational laws enacted by the legislature.

The ban on dancing after basketball games at Minnesota was lifted some time ago. At the last examinations over fifteen hundred students were conditioned.

Co-eds at the University must learn to swim before they receive their diplomas.

To advertise the Iowa State College plans have been made to place a large panorama picture of the campus in every large high school in the state.

Freshmen at Lehigh will stage a vaudeville show on April 10th.

Professor Washarn Anesaki of the Imperial University, Tokyo, will speak this afternoon in the University Museum at Penn on the subject of "Japanese Art."

The demonstration train consisting of seven cars sent out by the Colorado State College of Agriculture visited twenty-eight towns on the Santa Fe. Exhibitions and lectures were given in all places.

The ancient custom of the King Cook Carnival was celebrated at McGill this year. The program consisted of a coronation parade, the crowning of the new king of Mexico and a large banquet. The ceremony was in keeping with the spirit of the times below the Rio Grande. After the generals had sworn allegiance to the king the whole army lined up and shot at "His Majesty" as a pledge of sincerity.

ous inheritances of Technology. The students are sure to respond with enthusiasm; the spirit is there in plenty; opportunity for expression alone has been lacking. If this can only be remedied during the present year, the entering freshmen will not, as in the past, go through one, two, or three years before they ever learn all of their own songs.

FRESHMEN MEET AND ADOPT CONSTITUTION

Manager Stevens Speaks for Baseball Team, and A. H. Waitt for THE TECH.

The Freshmen turned out at the class meeting held yesterday in Huntington Hall in greater numbers than the other classes, about one hundred being present. The new constitution was read by the president and accepted without opposition. The dance which is to be held later was mentioned.

The president called on Manager Stevens to speak on the outlook of the team for the coming season. A motion was passed to levy an assessment on each member of the class for the expenses of the baseball team. The president is to appoint a man from each section who is to collect from each member of the class whatever he cares to give.

A. H. Waitt, '14, spoke in behalf of THE TECH. He said, in part, that there were many advantages gained by working for THE TECH and he wanted all men who could to come out for one of the three departments. More class spirit was shown by the Freshmen than in the other classes. If this same spirit is manifested by the men going out for THE TECH, there will be no further need for more candidates. The meeting then adjourned.

NAVAL ARCHITECT

(Continued from Page 1.)

sion over the construction, usually making a certain number of specified trips to the yard. He is still acting as confidential agent to the builder and should immediately report any defects or other faults in the construction. All the payments that the owner makes to the builder should be subject to the approval of the Naval Architect.

There is another class of individuals, who come under the name of Naval Architects, whose work is very different from the kind of work that has just been described. These are the builders of yachts. In order to make their business pay, most of them find it necessary to combine with their profession the yacht brokerage business. Thus a man often finds himself in the double capacity of buying and selling agent on the same piece of property.

"Never change plans" is a rule that cannot be too strictly followed. Be sure that your plans are right at first and then go ahead and build your ship. One change involves a whole family of changes, and before the designer is through he will have gone to an increase of expense that will very often amount to a considerable figure.

The Naval Architect is indispensable to the business man who requires the building of ships to carry on his work. And yet there are today many who will take the word of the agents of a shipyard against the word of a competent Naval Architect, who is in no way prejudiced, and who is in every way better fitted to act as the confidential advisor of the shipowner.

NEW TERM MEMBERS OF TECH CORPORATION

Well Known in Business Circles and Experienced in Organization.

At the meeting of the Corporation yesterday, three new term members were elected, Frederic H. Fay, '93; Franklin W. Hobbs, '89, and Gerard Swope, '95. These members are a portion of the representation of the Alumni in the Corporation the whole number being three elected each year for the term of five years, fifteen in all. Mr. Fay has been in the employ of the city of Boston practically all the time since he graduated, being now the head of one of the three divisions of the Public Works Department. Last year he was president of the Alumni Association. Mr. Hobbs in about two years after leaving Tech went with the Arlington Mills, of which he is now president. He was in 1910 vice-president of the Alumni Association, and among his outside duties may be mentioned the chairmanship of the School Board of Brookline. Mr. Swope is settled in New York. He entered the service of the Western Electric Co., in his graduating year, and has been at different times in responsible positions or work of organization in Chicago, St. Louis and New York. He was elected a year ago vice-president of the company.

The retiring members whose places are thus filled are Charles R. Richards, '85, Director of the Cooper Union, N. Y.; Theodore W. Robinson, '84, vice-president, Illinois Steel Co., Chicago, and Walter B. Snow, '82, publicity engineer.

STRUCTURAL DRAWING

Winners of Mentions Announced Yesterday Afternoon.

Blue prints of drawings of a steel girder and of a steel roof truss made by the members of the class in Structural Drawing are now on exhibition in room 40 Pierce Building. Prof. W. M. Lawrence and Mr. Morrow, who comprised the jury, selected the following winners:

- First first mention, Mr. T. J. Barry.
- Second first mention, Mr. A. F. Nye.
- Third first mention, Mr. Charles Wilbur Fry.
- First second mention, Mr. G. F. Nixon.
- Second second mention, Mr. E. R. Brigham.
- Third second mention, Mr. C. M. Rannels.

The winners of the mentions were announced at the meeting of the Architectural Engineering Society yesterday afternoon in Room 42 Pierce.

HARE AND HOUNDS RUN AT WELLESLEY

Train Leaves Trinity Pl. at 2:05
Pace Slow, Especially for New Men.

This afternoon the Hare and Hounds Club will hold its first run of the season at Wellesley Hills. As it is the first outdoor run for the regular men the pace will be held down and no one, even if it be his first run, will find it hard to keep with the bunch. Only one squad will be run so that there will be less competition. The distance to be covered will be about four miles over the most favorable country for this kind of work.

The squad will leave the Trinity Place station at 2.05, arriving at Wellesley Hills at 2.38. The men will then walk to the Country Club, from which the run will start. The return trip for those who do not care to stay over will be made on the 5.01 train which reaches Boston at 5.40.

As several men, new to the game, have signified their intentions of coming out and have asked about equipment it may be well to say that most Cross Country men use a short indoor spike although some prefer "sneaks". The greatest objection to the latter is that they are hard on the feet. A regular gym suit will do for the rest of the outfit. A long-sleeved sweater can be worn if it is at all cold, which, the pace being slow, will not be a hindrance.

Tickets can be had at the station from Chase Captain Best and the round trip fare will be \$0.35.

YALE MEET
(Continued from Page 1.)

Stebbins and Wood form a combination that will be hard to beat.

Tech's record during the past season has been successful in every way. The team has won every meet, and has even defeated some teams twice. Beverly Y. M. C. A. was defeated twice, the first time by a score of 6 to 1; the second, 6 to 0. Marblehead Y. M. C. A. lost to Tech twice, the scores being 7 to 0 and 6 to 2. Clapp Memorial Association also lost a match, 6 to 2. Clapp is one of the strongest teams in New England, so that this victory reflects extra credit on the M. I. T. men. Other Tech victories this season are: Harvard University, 6 to 1; Brown University, 13 to 1; and Allen school, 7 to 4. The season has also been a financial success, Manager Martin emphatically states. The meets held at the Tech gym have been very well attended while Tech's reputation has drawn well out of town.

CHEMISTS WILL VISIT WORCESTER

Date for Trip Announced—Sign Up Immediately—Original Pin Designs Wanted.

The Chemical Society announces that the date for the projected trip to Worcester has been set for Wednesday, April first. The party will start about eight in the morning, and will probably spend the entire day, visiting the plants of the American Steel and Wire Co., the McGratton Leather Belt Co., and the Norton Alundum Products Co. Sign-up sheets will be placed on the front bulletin boards of Walker Building Monday, and those intending to take the trip are requested to sign up at once, as it is necessary to make arrangements with the various companies to be visited.

The business meeting held yesterday afternoon was devoted to the discussion of the proposed trip, and of the matter of pins and shingles. The reports of the committees on the latter were heard, and the wording of the shingle was decided upon and the committee empowered to act. The designs for pins caused a lively discussion, and decision was deferred in order to give the committee a chance to design pins following suggestions given. Meanwhile an endeavor will be made to find out how many men will buy pins, and any men who have any suggestions as to designs are requested to give or leave them at the Cage for M. S. Brandt. A meeting will be held sometime next week to make final decision.

VISIT ARSENAL TODAY

Large Party of Mechanicals To Journey to Watertown.

This afternoon at 1.15, fifty-ones members of the M. E. Society will leave Rogers to visit the United States Arsenal located at Watertown, special permission having been granted by the government. The party will be accompanied by Mr. A. F. Holmes of the M. E. Department and by several other members of the instructing staff who have not as yet signified their intentions. As considerable time will be required to make the trip, an attempt will be made to leave Rogers on schedule time.

Captain J. J. Holmes, who is in charge at the Arsenal, has arranged to have a series of tests in the Testing Laboratory carried on while the party is at the works. This will doubtless prove very interesting to the members of the Society.

FRESHMAN-LOWELL HIGH TRACK MEET TONIGHT

1917 Track Team Favorite To Defeat Lowell—Leave North Station at 5.37.

At 7.30 this evening the Freshman Track Team meets Lowell High School at Lowell. The men will leave on the 5.37 P. M. train from the North Station and are requested to get their dinners before leaving as there will be no opportunity later. The meet will be held indoors on Lowell's 100-yard track. Fast times are not expected as the banks are very steep and the men will be handicapped by this somewhat. Although the team will be without the services of K. H. Day, the hurdler, and F. P. O'Hara in the dash it ought to win easily as Lowell is not as strong by comparative times as the Andover team which the freshmen defeated Wednesday.

Manager DuPont has announced the following entries:

- 600-yard run, D. C. Thompson, L. Williams.
- 35-yard hurdles, E. D. Sewall, D. E. Bell.
- 300-yard run, R. C. Erb, L. Cady.
- 1000-yard run, M. C. Brock, J. J. Donnelly.
- Mile run, H. Allen, A. C. Litchfield, T. Z. Haviland.
- 12 lb. shot put, E. W. Curtin, Seymour, E. D. Sewall.
- High Jump, Capt. W. A. Sullivan, J. W. Doone, M. W. Gokey.
- 30-yard dash, J. W. Doone, L. Cady, R. C. Erb.
- Relay race; L. Cady, R. C. Erb, D. C. Thompson, M. C. Brock, L. Williams, J. J. Donnelly, K. H. Day.

NOTICE

The following men are requested to meet W. L. Graves on Thursday or Friday at four o'clock in the Show office: C. W. Brown, R. D. Brown, M. B. Lewis, Jr.
