PRICE TWO CENTS

## NEW DEPARTMENT IN TECHNIQUE 1915

Alumni Will Contribute Largely  
To Review of Interesting  
Facts.

Technique 1915 has introduced a new department to be known as the Review Department. Technique has for so long been looked upon as merely a book, the chief literary part of which was a short write-up of Field Day or perhaps some extra brilliant class history, that it may seem strange to refer to Technique as maintaining a high literary standard, but such must be the case if the books of the future carry on the work so well started in Technique 1915.

To this new department the Alumni have this year contributed the greater portion, telling the reader many things of interest and value. The undergraduate may have an idea that Tech has illustrious alumni and may well appreciate the fact that there is much to be met with when he goes into actual business, but in a majority of cases he does not have the opportunity to hear the successful graduate tell exactly the part which his Tech education has played in his success or the problems to be solved. As a book of information for the undergraduate body Technique has felt that it was the place for the student to gain such knowledge.

This year has been a big year in the development of the 'Stute and in a way Technique 1915 occupies a position unique in the history of that publication. It stands, so to speak, on the very threshold between the new and the old. Bearing the numbers of the year in which the bullings are to be completed and coming out at the time when the dream of all true Tech men is becoming actually visible as the buildings rise, this year's book has the opportunity which no other Technique ever had or ever will have to present to its readers, both the new and the old Technology, to trace the wonderful work of the past and give glimpses of the future.

A perusal of possibilities and an assurance of the fact that Technique 1915 has left nothing undone along the line of search for and presentation of good material will suffice to convince one that as a literary production, both from the standpoint of interest and expression, Technique 1915 has successfully opened up a new field which bids fair to make this year's book one to be long remembered in the development of Technique.

## RECENTLY RETURNED FROM MEXICO

Mr. Eugene B. Sanger To Be at  
Tech Show Rehearsal  
Today.

Few men in the Institute are aware that the war in Mexico seriously endangered the success of this year's Tech Show. Nevertheless such was the case, for the man upon whom the greater part of the responsibility for its success rests, Mr. Eugene B. Sanger, has only recently returned from

EUGENE N. SANGER

the scene of action. Before taking the trip Mr. Sanger signed a contract to stage the Tech Show once again, and it is possible that the staging of the battles there have given him valuable suggestions.

Mr. Sanger was first connected with the Tech Show in 1911, when he staged "Frenzied French." He was chosen from among those who were considered for the place because of the able manner in which he had staged other productions, particularly several of the more successful of Daniel Frohman's musical comedies.

He has had charge of a large number of the more important amateur plays which have been given throughout the country. Of late years he has made a specialty of college dramatics. Some of the better known of the college dramatic clubs with which he has been connected are: The Princeton Triangle Club, the Columbia Club of New York, the College of the City of New York, the Barnard College Club, the well known "Jest and Song" Club at Union and the "Hasty Pudding" Club at Harvard.

(Continued to Page 2)

## THE REAL PURPOSE OF INTERNATIONAL NIGHT

Cosmopolitan Club Is Giving  
Entertainment To Equip  
New Rooms.

Much has been said about the International Night which is to be given by the Cosmopolitan Club on March 28th, but the purpose of this entertainment is probably known to only a few people. It is the intention of the club to raise a fund for the equipment of its new rooms in the Walker Memorial Hall at the New Technology in Cambridge.

Three years ago the Cosmopolitan Club had a clubroom on Boylston street but, owing to the large expense of maintaining such a room, it was given up. At present the large number of foreign students in the Institute necessitates a room where the fellow Cosmopolitans,—people of other nations as well as Americans,—can gather to gain a better knowledge of other nations and to cultivate a closer friendship. The authorities of the Institute have realized the need of such a place, and have promised the Club a big room in the Walker Memorial Hall.

The Cosmopolitan Club has been one of the most active organizations of the Institute, and has given a series of entertainments each year with the main purpose of giving a better understanding of foreign nations. With such a purpose in view, all such entertainments have been given at the expense of the Club to all the

(Continued to Page 2)

## SENIOR CLASS DAY

Ballots Due at the Cage on Tues-  
day at 5.00 P. M.

All ballots for the Senior Class Day Committee must be handed in at the Cage not later than five o'clock tomorrow. As the ballots so far have been coming in very slowly, the committee in charge of the election has extended the time limit from today at 5, as was printed on the ballot, to tomorrow, Tuesday, at 5.

The committee in charge of the election again wishes to emphasize the importance of this election, as the results will largely determine the success of Class Day. Only the names of those men who have paid their dues for this year were included in the list of names on the ballot, and only those ballots signed by men who have paid their dues will be counted. The dues, however, may be passed in with the ballot and in that case the ballot will be valid.

## PREPARATION FOR SPRING MEET BEGINS

Varsity Squad To Discontinue  
Practice Until Field Is  
Opened.

Beginning today all track work for the varsity squad will be discontinued until the Field at Brookline is reopened. This step is deemed advisable on account of the present inclemency of the weather and in order to afford the men a definite rest up between indoor and outdoor seasons. All Freshmen who are substituting track for Gym, however, with the exception of those who participated in both the Andover and Lowell meets, will be required to report at the Gym as heretofore.

When the frost is finally out of the track at the Field the work for the spring will be pushed forward with an eagerness and a vigor which is calculated to culminate in the most successful season that Track has yet enjoyed. The Spring Meet this year is to be one of the chief attractions of Junior Week, coming on the morning of Friday, April seventeenth, at ten o'clock, and the survivors of the Spring Concert and the Show, male and female alike, will witness a most superb exhibition of Technology's Mercuries in the prime of their existence.

The added attraction this year will be the four class relay race over the Field Day distance, one and one half miles, each team composed of twelve men, each man to run two hundred and twenty yards. All the heroes of past Field Days will compete. Nineteen fourteen's ancient record breakers will be there, many of them old, obese and infirm, but some of them

MONDAY, MARCH 23, 1914.

Next Saturday evening an entertainment and dance deserving of every Tech man's support will be given by the Cosmopolitan Club in the Union. The object is to start to raise a fund which will provide for comfortable quarters for the Club in the Walker Memorial on the new site. This is one of the largest and most important clubs in the Institute, and means a great deal to many students here. Without quarters no club of this kind can reach its greatest efficiency in providing entertainment and carrying out its various activities. Since there are so many men in the Institute who enjoy the benefits of the club, and since there is so large an opportunity for a club of this kind in the Institute, it seems that the student body should heartily support it. The entertainment will be enjoyable and, if for no other reason than to spend a truly pleasant evening, we heartily urge every man to attend.

Last Thursday posters advertising the Freshman Glee to be given the same evening as the Junior Prom were placed on the boards in Rogers and the Union; Friday they had disappeared. An act of this kind is nothing short of vandalism, and a man who would stoop to do it certainly can lay no claims to being a gentleman, and is not the type of man the Institute wants to turn out. If a man would but stop to think that in order to satisfy a selfish desire, he is hindering an Institute activity, destroying the usefulness and bringing to naught the painstaking work of those who got up the poster besides committing a low and mean theft! Let us hope that thoughtlessness was the cause and that in the future a little more thought as to the consequences to others will be given such an act.

The cold weather did not prevent a large squad from taking the Hare and Hounds Run at Newton on Saturday. Next Saturday the Hare and Hound Club will hold its Spring Run over the Tech course in West Roxbury. All those who go out will be divided into two teams under captains chosen by lot and every man will score on his team. It is proposed to call one team the "Reds" and the other the "Greys." Prizes will be given for the first six places.

Both the University of Chicago and Penn started outdoor running this last week. Our teams did some work on the Oval but this week we go to the Field.

At the Conference Indoor Champs held last Saturday in the Patten Gymnasium in Northwestern the men had the advantage of a cinder track.

The holding of the Spring Meet on the 17th of April in the midst of Junior week festivities is certain to help make a success of the Event. With the house parties being held in several of the fraternities, and the number of men participating in the various attractions of the week a crowd rivalling that of Field Day should grace the stands when the Track team makes its debut in the outdoor season.

The men of the University who have received an "I" have formed a club to foster good fellowship among the athletes and advance athletics in general.

A book called "Athletic Training" has just appeared at Penn. It is a collection of various articles by the late Mike Murphy compiled and edited by Edward R. Bushnell, sporting editor of the "Press." The book contains thirty illustrations and is especially devoted to the study of Track.

Oberlin suffered a defeat at the hands of Wesleyan to the tune of 54 to 39 in a track meet held on the 15th. The score was tied at 36 with only three events to be run off, but the Methodists came through in fine shape and won a handy victory.

Hail to the Wrestling team! What a record to be proud of! Now let M. I. T. show its appreciation by supporting en masse the Interclass Wrestling meet to be held next Saturday night.

Jim Rice, coach of the Columbia crews, came out unreservedly Saturday against the four mile race for college oarsmen. He maintains that the crews do not have time to train for such a race.

Oberlin now has a news service similar to the one at Technology.

## TECH SHOW

(Continued from Page 1)

Mr. Sanger is well fitted for the work. With a natural ability for acting, his years of experience and practice enable him to take any part in a play and act it to perfection. He is very versatile, and after working with the cast and chorus can give the ballets instruction in the finer points of dancing. The annual Tech Show gives him an excellent chance to exhibit this versatility, for he has charge of every important detail of the production, from the choice of the book to the direction of the final dress rehearsal.

Since his return from Mexico he has been at the Institute a number of times, but he starts the real cast and chorus drill this afternoon at 4.15. All members of the cast, chorus, and ballets are expected to be on hand.

## COSMOPOLITAN CLUB

(Continued from Page 1)

members of the Institute and their friends. This coming International Night will be the first entertainment at which admission will be charged, but the executives of the Club feel this is necessary in order to be able to equip the new clubroom. Those in charge are working most energetically for the good purpose for which this entertainment stands, and they expect that a large number of the faculty as well as students will help out. Even Dean Burton has kindly volunteered to sell tickets. These can also be obtained at the Cage, Supply Room at Eng. A, or from the members of the committee, R. Alfaro, F. E. Stern, T. C. Hsi, L. W. Snow and E. Horbakowsky. The admission is fifty cents for the entertainment and dance.

## PORTFOLIO SIGNS UP

All Seniors who have signed up books for the Senior Portfolio are requested to be in the Union this noon at one o'clock. This meeting will not take more than five minutes but is important to the Portfolio Committee.

The first educational institution in the country to be heated entirely by electricity will be the "Electric High School" at Rupert, Idaho.

**TECH WRESTLERS END SEASON UNDEFEATED**

**M. I. T. Takes Last Meet—Kelly Wins from N. E. Amateur Champion.**

By winning the meet with the B. Y. M. C. U. last Saturday evening, the Wrestling Team established its record of remaining for two seasons undefeated. The team has wrestled Harvard, Brown, Yale, and all the strong teams in the vicinity.

The feature of the meet was the bout in the 135-lb. class between Kelly of Tech and O'Hara of the Union. Captain Kelly has a fine record, and is well known for his skill, while O'Hara is the 135-lb. amateur champion of New England. This match was eagerly looked forward to by the spectators, and it fully came up to expectations. O'Hara had evidently looked for an easy win, but Kelly soon threw his man to the mat, and worked on top of him. Kelly had no trouble in remaining on top, and kept on the aggressive throughout. During the second round, he strained his wrist somewhat, but for all that he held his man at even odds, and won the decision easily.

The first match was between Means of Tech and Karavas of the Union. It ended unfortunately when Means threw his opponent heavily, dislocating his elbow. It was not thought that Karavas was badly hurt, however.

Treat of Tech met Davis of the Union in the second match. He outgeneralled his man from the start, and was never in danger. He won the decision easily, as he was on top all of the time.

In the third bout Loo of Tech defeated Rosenthal. They worked upon their feet for some time, until Loo secured a body hold and tripped his man. Loo also kept on top and won the decision because he was more aggressive and skillful.

In the 135-lb. class Manager Smythe-Martin lost to Green of the Union. Green is a hard man to beat, and has abundant endurance. Martin fought hard, but could not get him.

In the next match, Rounds lost by decision to Parker, B. Y. M. C. U. Rounds seemed to have the advantage in the first round, but Parker came back strong in the second. This match was mostly footwork.

The seventh bout was a win for Ryan of the Union over Goodell. Ryan has much experience, and a fine reputation. Goodell worked hard, and kept from being thrown.

Walter lost to Inness, although he seemed to be the better man. Up to the second round, he had everything his own way, but luck was against him.

The only fall of the meet was in the match between Durkee of Tech and Mintz, in which Durkee threw his man in 2.20 with a double arm hold.

Leslie decided the meet by winning from Mallock in the heavyweight class. His determination was a large factor in winning the event. The summary:

115-lb. class—Loo, M. I. T., gained decision over Rosenthal.

125-lb. class—Bout stopped on account of injury to Karavas.

**SOUTHERN CLUB DANCE VERY SUCCESSFUL**

**Excellent Music and Program Combine To Please Large Attendance.**

Saturday evening the Southern Club held its second dance of the year at the Copley Plaza, the affair proving a great success in every way. Contrary to the usual program, all the dance cards were practically completed by eight o'clock, with the result that at 8.15 nearly fifty couples were upon the floor.

The music was extraordinarily good, and much favorable comment was expressed on the excellent choice of selections. Calls for encores were numerous, to which the orchestra responded very graciously.

During the encores "breaking in" was allowed, much to the chagrin of a number of fellows who were unwilling to yield up their fair charges to less fortunate comrades.

The floor was not overcrowded, there being just about the right number present to insure a very enjoyable occasion without the drawbacks of an overly sufficient number. Although considerable leeway was exercised in the character of the dancing, at no time did it exceed the bounds of propriety.

Refreshments in the shape of charlotte russe, cake, and coffee were indulged in during the course of the evening, and proved so popular that the demand shortly exceeded the supply.

At about five minutes to twelve the gathering was of necessity broken up with regret, and the hope was expressed that another dance would be given at as early a date as possible.

**SHOW BLANKS OUT**

Application blanks for seats at this year's Tech Show were mailed today to faculty, Alumni and students. Tickets will be allotted this year as usual and to receive the benefit of the reservations, the show management requests that the blanks be filled out and returned as soon as possible.

Professor Joseph Schumpeter of Graz University, Austria, sailed Saturday after a six months' tour of American colleges. He announced that he thought American students gained more in their four years than those of European schools.

Columbia crews will begin outdoor practice this week.

135-lb. class—Kelly, M. I. T., gained decision over O'Hara. Green, B. Y. M. C. U., gained decision over Martin. Durkee, M. I. T., threw Mintz, in two minutes, twenty seconds. Parker, B. Y. M. C. U., gained decision over Rounds.

145-lb. class—Treat, M. I. T., gained decision over Davis. Time, twelve minutes.

158-lb. class—Inness, B. Y. M. C. U., gained decision over Walter. Ryan, B. Y. M. C. U., gained decision over Goodell.

Heavyweight class—Leslie, M. I. T., gained decision over Mallock. Referee, Dr. Provan.

**A TALK ON CONCRETE HIGHWAY CONSTRUCTION**

Civil Engineering Society To Hold Meeting on March 27 in Huntington Hall.

While this is the concrete age it is not generally known that concrete is being successfully put to use for the construction of country roads. Mr. G. H. Perkins of Warren Bros. Co., in his talk next Friday under the auspices of the Civil Engineering Society at 8 p. m. in Huntington Hall will make special reference to bituminous concrete mixtures for roads. He will tell of the process in detail and by means of lantern slides will illustrate the difference between various mixtures in use by contractors and manufacturing concerns. The result obtainable from the use of different constructions are not all the same. It will be of interest to note the contrast in the completed roads.

Mr. Perkins will show slides of completed streets and roads both at the time of construction and ten years later, illustrating the effect of wear on them. This feature should be of particular interest to Juniors in Course I, taking Highway Engineering and others interested in this subject, as there is a great deal of speculation as to the causes of rapid deterioration of supposedly good roads. Roads built for heavy trucking cannot stand automobiles, and a road should be built especially for the particular use for which it was intended. Mr. Perkins will tell these details and explain why certain methods of construction will not hold good for roads used by automobiles, in fact he will explain all causes for the failures of many types of roads and the remedies for them.

But the actual details of construction, the operation of the paving plant and the laying of pavements and country roads is even still more interesting. Come and hear all about it on March 27 at 8.00 p. m. in Huntington Hall. Remember, free movies and Ladies' Night.

seasoned runners from constant training, ever ready to make up the deficiencies of the disabled. Nineteen fifteen, with ranks somewhat depleted, but with the proud record of two relays won in glorious time, will be on hand when the Clerk of Course calls the roll. Nineteen sixteen, the fastest yea produced, will be there to defend its record, and the Freshmen, eager to mix up things with anyone, will exhibit, if only to limber up for the tangos and maxixes of the "Glee."

All heroes of note, all mediocres of some note, and all latent talent of any possible mention are urged to sign up with their class captains now and hold themselves in readiness for that momentous instant when "Bill," the Tech Field chanticleer, flaps his wings and announces the Spring Opening.

All ye who cannot or will not run, remember the famous dictum of Gale Shedd, Jr., save your money for Junior Week and lay aside twenty-five cents for yourselves, as many multiples of this as there are members of your harem, and take in the Spring Meet if you have to walk to the Field.

Warriors of 1917, sign up with Sullivan, your captain and star defier of gravitation; ye of 1916 with Loomis, the editorial athlete; 1915 with Tommie Huff, the rail leaper; and 1914 with L. A. Wilson, the speedy chemist.

Sandpaper your spikes now and wait for the call.

**SHORT STORY CONTEST**

This afternoon at four o'clock the Short Story Contest closes. All manuscripts entered must be turned in to the Cage or to THE TECH office before that time. None will be accepted after five.

A prize of five dollars was offered for the best short story entered in the contest accepted for publication in the next issue of The Technology Monthly. The Managing Board of The Monthly will act as judges in the contest.

**HARE AND HOUNDS RUN OVER NEWTON COURSE**

Squad of Twenty Out Despite Cold Weather—Annual Spring Run Next Saturday.

A large number turned out at Newton Saturday for the Hare and Hounds Club run. All the men were well pleased with the course and the nature of the country as it was well adapted for cross-country work. About twenty fellows followed the trail laid by A. F. Peaslee, '14, and D. S. Milliken, '14.

The chase started at the Newton Y. M. C. A. and led away from the town out into the country over the golf links. Here the men got a fine look at a real hill up which the trail led. From then on there was considerable down hill with plenty of good road work. Considerable difficulty was found in locating the trail as it had been picked up and scattered in several misleading directions by a group of fellows in an automobile who went ahead of the hounds.

"Cy" Guething and Benson, being somewhat familiar with the country and the general direction of the old course which the hares were trying to follow, led the crowd for a distance until the pack chanced to cross the trail. The work from then on was mostly on the roads, owing to the soft condition of the fields.

About a mile and a half from the finish the squad, which had been holding together until that time, separated into two bunches. Guething and Benson, who had been setting the pace and kept it down to that of the slowest man, started out to lead the first delegation, along with Brown, Parker, Gray, Dodge, and Whitall formed the rest of the first bunch. The last quarter mile the squad broke out into a moderate sprint, winding up again at the Y. M. C. A.

Here all the men enjoyed the privilege of the large swimming tank which was turned over to the use of the fellows. The tank is about fifty or sixty feet long and thirty wide. At one end it is about three feet deep and the other is approximately seven. The tank was equipped with a good diving board that all the fellows took advantage of.

Among the men running were: L. E. Armstrong, '15; M. J. Sayward, '14; J. H. Murdough, '16; E. J. Goldstein, '16; B. F. Dodge, '17; D. S. Milliken, '14; "Carbuncles" Guething, '16; J. Gagnon, '16; R. G. Brown, '16; C. W. Whitall, '15; H. P. Gray, '16; D. H. Parker, '17; A. F. Peaslee, '14; H. S. Benson, '16; J. N. Burford, '16, and B. N. Stimets, '16.

On next Saturday the club will
