COPIES OF TECHNIQUE NOW BEING DELIVERED

Sign-Up Slips May Be Redeemed in Union—General Sale Late.

Copies of Technique, 1914, are being given out every day from 3 P. M. in the Technique office, on the third floor of the Union. These deliveries are for only those who are holders of sign-up slips, and will continue until the stock is exhausted. On Friday, at 3 P. M., a general sale of copies of Technique will be started.

Among a large number of men who did not get sign-up slips have applied for books. For these a special waiting list has been started. The alumni have been asked to send in a list of names which has been forwarded to the present year's Technique, and a large number of applications for books have come from these. The applications are being used to increase the size of the waiting list, where they are given proper emphasis, and there is such a demand for the books that sign-up slips cannot be given to these men until the waiting list has been cut down to a certain point. These applications go to the third floor of the Union. These de-

FRESHMAN BASEBALL

Team Meets Tufts' Dental Next Saturday at Field.

The Freshman baseball team will play its first game of the season at the Tufts Dental School on Saturday afternoon at 3 o'clock. This interesting game anachore in as it is the opening one for the season which the Freshmen will have to do their utmost to win, as the dentists have a strong team, including several former college stars and former English players. To beat this aggregation will be quite an accomplishment, but the Freshmen are confident of putting up a good, stiff and fighting and coming victorious. The team is made up of all the regulars and there are many good players among these boys who have been practicing steadily for a while and the players are showing fine form and plenty of pep.

No FRESHMAN TROJANS.

Capitalize Murphy wishes all the men who can to report for Friday's practice. He will endeavor to try out as many as possible and those who do come out will have the best chance of getting into the game Saturday.

CLASS DAY COMMITTEE.

The Senior Class Day Committee will hold its regular meeting today in Room 8, Eng. C, at 5 o'clock. The most important of the business to be considered by the committee is the arrangements for sign-up books for slips for the class of 1914. There are eleven in the hands of different members of the class, so that all will have an opportunity to sign up.

CERCLE FRANCAIS

Owing to the small attendance, yes terday's meeting of the Cercle Francais was adjourned to a later date, when it will be possible to conduct it, which was to be held on the French army. President Lowden would like to have the various members of this class in order that they may be good for meetings.

THE TECH ISSUES NEW CALL FOR CANDIDATES

Meeting in Lower Office Friday Noon—Splendid Chance For Next Year.

On Friday, April 22, 1913, at 1:30 P. M., in the Technique office, a TECHNIQUE meeting will be held for all candidates but it has been found from experience that a meeting coming out now has an excellent opportunity to be held over in May so that when he comes back next year he may know how he stands.

This total work is divided and the burden does not fall heavily upon anyone. During the week just before the exams the paper comes out only the day before, thus giving the men time for their other work.

There is an excellent opportunity for men in all the departments of the paper but this is especially true of the business end. The latter is short of men, and those who would like to have a good opportunity in connection with work on the TECHNIQUE will find it to their advantage to come out at this time. In any case, if any man will interfere with the paper, whether or not he may have a good opportunity, he will be notified at the meeting on Friday, at 1:30 P. M.

The TECHNIQUE will find it to their advantage to come out at this time. In any case, if any man will interfere with the paper, whether or not he may have a good opportunity, he will be notified at the meeting on Friday, at 1:30 P. M.

@ Perez RELAY CARNIVAL.

Many Enter in Both Collegiate and Scholastic Events.

At Philadelphia, next Saturday, there will be held a municipal Relay Carnival under the auspices of the University of Pennsylvania. In this meet over a score of strong colleges from all over the Union have entered teams. Seventy-five colleges and most two hundred schools will be repre sented in these races. In the other events as well, there will be many colleges competing, such as Michigan, Lafayette and Meriden of Connecticut, as well as all the other schools.

The Tech, whose record holds, will compete to take the pole walk. At the high jump there will be Abdullah of Utah, Olympic champion; Birdwood, intercollegiate champion; and Michaelson, champion of the Western Conference in that event.

In the Intercollegiate events much interest is expected to be taken. For instance, as the schools show signs of being especially interested, Boston is to be represented in this division as Com merce, English, Newton and Charming are entered in the various events. In the pole walk, in particular, there will be a strong entry from the various schools and a memory of the past will be rekindled by the many能sentries in this line will not be buck-ward in coming out.

WORLD PEACE TALK TO BE GIVEN TODAY

Well Known Swiss Lecturer to Speak on Foreign Student Movement.

The regular T. C. A. talk for today is to be given by Mr. Privet, a graduate of Genoa University. The students of foreign universities have taken a prominent part in the movement for world peace, but this work is little known in the edu cational institutions of this country. It is expected that Mr. Privet will ex plains the nature of the work done abroad, and for this reason the speech should be presented to a novelty to Tech stu dents. The fact that a conference on the subject of world peace is soon to be held in the United States lends in terest to this talk.

Mr. Privet is a graduate of the Sor bonne in Paris, as well as General University in Switzerland. He is a Swiss, is a Swiss, and has kept very closely in touch with the student movements of Europe. Though still a young man he holds the position of lecturer at the University of Geneva and is also a teacher in an important English school.

The lecture is to be given by the World Peace Foundation, in whose interest he is making a tour of the United States. The Foundation is a world-wide organization which has done much to further the cause of international arbitration, and the fact that such an important organization has selected Mr. Privet as its representative speaks well for his ability. Mr. Privet is also active in attempts to spread the universal language, Esperanto, and has traveled very widely in his line of work.

Mr. Privet is also active in attempting to contact the universal language, Esperanto, and has traveled very widely in his line of work.

The T. C. A. feels that it is a humble privilege to have this speaker give his lecture under its auspices, as no other talk is so well for his ability. Mr. Privet is also active in attempts to spread the universal language, Esperanto, and has traveled very widely in his line of work.

Mr. Privet is also active in attempts to spread the universal language, Esperanto, and has traveled very widely in his line of work. The T. C. A. feels that it is a humble privilege to have this speaker give his lecture under its auspices, as no other talk is so well appreciated, and he is expected to give his time to any attempts that will do it justice. No other talk is so well appreciated, and he is expected to give his time to any attempts that will do it justice. Mr. Mead first suggested this talk, and it was his work that secured the speaker. Mr. Mead himself spoke before the Association last year, and was so impressed with the (Continued to Page 2, Col. 1.)

SOPHOMORES VS. RINDGE.

Team to Meet in Union This Noon—Pitchers Reported Weak.

The Sophomore baseball team is expected to meet today at 1:30 P. M. in the Union, to have its Rindge game. All men out for the team, and are expected to be present on this trip, and although the game will in all probability be a hard one. Captain Caffrey will try out as many men as possible, and the team will go on in the same order. The Sophomore team is expected to be strong in all the positions except the pitcher. The probable order of this one week unit can make it a battle, and the management have not been able to come to a decision as to who any Sophomore whose talent in this line will not be buck-ward in coming out.

TECH SHOW DINNER SATURDAY EVENING

All Men Connected With This Year's Show to Be Guests of Management.

Saturday night, at 7 o'clock, the dinner will hold its annual dinner in the year. Only those men, including the orchestra, connected with this year's Show, are invited by the management to attend. There will be plenty of "eats" and "smokes" and "drinks" all of which will be free of charge to the men present, and the diners of the different departments will give informal reports of this year's Show, telling approximately how successful during the "Shadow in Sight" has been.

FREE FRESHMAN TROJANS.

As the students of foreign universities have taken a prominent part in the movement for world peace, but this work is little known in the educational institutions of this country. It is expected that Mr. Privet will explain the nature of the work done abroad, and for this reason the speech should be presented to a novelty to Tech students. Proposed Changes in Constitution to Be Discussed at Meeting

A regular meeting of the Institute Committee will be held Friday afternoon, April 30, at 4:15, in S Eng C. The purpose of the meeting will be to consider the proposed changes to the constitution that is to be brought before the meeting. A full attendance is greatly desired. All members are requested to be present in order to consider the proposed changes to the constitution of the organization as it was accepted by the student body. The business that is to be brought before the meeting, as outlined by the members of the committee, is as follows:

The report of the committee on the constitution and by-laws of the organization will be presented at the meeting. The proposed changes to the constitution will be considered, especially as regards the representation of the activities. Members of the activities whose right to representation is questioned are cordially invited to present their side of the question.

Attention is directed to the following action aimed towards a more efficient Tech oligarchy. A cooperative School of Mines act was referred to in recent communications to THE TECH, and was one which should be of interest to the whole student body. The Harvard Engineering Society has been fully studied and may be taken as a decided advantage to the Tech society.

Attention at meetings. This is another question which has had considerable publicity through the columns of THE TECH, and has been the cause of some rather sarcastic comments. The Treasurer's report and the report of the Tech School Advisory Council will constitute the remainder of the business. Anyone who desires to attend meetings of the above subjects is requested to be present.

We cater to real men, who want real style, real woolen fabrics and real values in every detail.
