

THE TECH

VOL. XXXIII. NO. 19

BOSTON, MASS., MONDAY, APRIL 28, 1913

PRICE TWO CENTS

SCHOLASTIC DRILL NEXT WEDNESDAY

**M. I. T. Regiment Holds Contest
For High School Cadets—
Many Entries.**

The Interscholastic prize drill, a contest which is conducted by the M. I. T. Regiment for high schools in the vicinity of Boston, will be held next Wednesday, at 3 P. M., in the armory. Entries have been received from the high schools of New Bedford, Mansfield, Gloucester, Wakefield, Medford, Stoneham and Lowell. As these schools usually turn out teams of good drillers an interesting contest is expected, and the winners will probably have to do very good work to get the prize.

The competition consists of drill in the manual of arms. Each school is represented by a team of three men. To the best team a shield, suitably engraved, is presented, and gold and silver medals are awarded to the two men who show greatest individual proficiency. Lieutenant P. I. Steere, Coast Artillery Corps, U. S. Army, has been selected as one of the judges. The others have not yet been named.

The prize drill takes the place of the regular Freshman drill, but all the members of the Regiment are required to be present in uniform, so as to give an exhibition parade. The M. I. T. Cadets will give a regimental parade before the contest, as well as a regular evening parade after it. If time permits the visitors will also be entertained with some regimental evolutions. Col. Taft is especially anxious that the Regiment make a good showing before the high school cadets and other visitors, and asks that all the officers and men co-operate to make the exhibition drill a success.

The committee in charge of the prize drill, consisting of the Regimental Adjutant and members chosen by each company, has been working hard to make the affair attractive to visitors and promises that no one will be disappointed who attends. To pay the expenses of the drill it has been found necessary to charge an admission of twenty-five cents. The committee hopes that all connected with the Regiment will be loyal enough to bring their lady friends, but this does not mean that any others who attend will not get their money's worth.

SOPHOMORES WIN.

**Defeat Wellesley H. S. 16 to 7
in Saturday's Game.**

The Sophs defeated Wellesley High, Saturday, by the score of 16 to 7, in a one-sided game. In the second inning the Sophs started a batting rally and before the side was retired ten runs had crossed the plate. During the melee Keefe, the Wellesley twirler, was taken out and replaced by Curry, who had recently made a record of 18 strikeouts against Arlington High. He was unable, however, to stem the tide, four runs being secured off his delivery in this inning. Although Wellesley settled down somewhat after this inning, they were unable to overcome this lead.

Pike started the game for the Sophs and pitched a steady game while he was in the box. The opponents could do little with his delivery and he was relieved in the sixth by Parsons, a new man. The latter had the Wellesley batters at his mercy, but

(Continued on Page 2, Col. 2.)

WRESTLING SQUAD HAS BANQUET AT PLAZA

**Kelly, '14, Elected Captain—
Smythe-Martin Manager—
Good Speeches.**

Saturday evening the Plaza Hotel entertained twenty of the wrestling squad at a banquet, characterized by the strong enthusiasm to make wrestling a leading sport at the Institute, and the unanimous expression of thanks to various men who have helped make the sport what it is today at Technology. Cabaret entertainers and singing by the men are reported to have had the effect of making the dinner a social success, and the election of Kelly, captain, and Smythe-Martin, manager, and the unanimous pledging of the support to these men, and the welfare of the sport stimulated a spirit that is expected to bring results next year.

Captain Treat, of this year's team, acted as toastmaster, calling first upon Smythe-Martin, who gave a history of the growth of the team from an aggregation scarcely heard of two years ago to one which is as well known as any in the Institute today, and one which has held the cardinal and gray high by an unbroken string of victories. He was optimistic regarding next year's outlook with the entire team back. Treat, at the request of Smythe-Martin, then gave an account of the meeting of the Advisory Council, where wrestling was recognized as a 'Varsity sport.

J. G. Kelly was strong in expressing his appreciation of the work done by Smythe-Martin and Means in building up wrestling at the Institute. But for the persistent efforts of these men there would be no wrestling team at the Institute today. Votes of thanks were given to C. A. Blodgett for his efficient work as manager, and to Mr. Gracey and J. Puller for their invaluable assistance as coaches. These men were called upon to speak. Blodgett said that he regretted but one thing, namely, that this year's schedule had not contained intercollegiate meets, and gave the reasons why it had been

(Continued on Page 3, Col. 2.)

MECH. ENGINEERS' TRIP.

The Juniors taking the mechanical engineering course are to visit the works of the International Engineering Company, manufacturers of boilers, in South Framingham, on Wednesday afternoon. The train on which the party will go leaves the Trinity Place Station at 12.25 P. M. Full particulars about the trip will appear in tomorrow's issue of THE TECH.

ARCH. SOCIETY TO MEET.

**Elections to Be Held Tomorrow
Afternoon in 35 Pierce.**

The annual election of officers of the Architectural Society will take place tomorrow. The nominations have been received by the officers, and the members of the society will meet in 35 Pierce, where the elections will be held.

A great deal of interest has been aroused in the drawings of E. I. Williams, '08, which are now on exhibition at the St. Botolph Studio. They are the drawings which he made while at the American Academy of Architecture in Rome, and are said to be excellent productions.

TECH SHOW DINNER PROVES BIG SUCCESS

**Over One Hundred Were Present—Show Scores Given to
All Attending.**

Last Saturday evening Tech Show, 1913, wound up its career with a dinner in the Union. Over a hundred were present and the evening was a grand success.

The first speaker was General Manager Weeks, who spoke of the innovations of this year's Show. For the first time the orchestra was made up of Tech men and was recognized as part of the Show. The evening performance was also given in Boston for the first time. Weeks said that although the expenses were not all met it is expected that the Show was a great financial success and that a large sum of money could be turned over to athletics this year.

Dean Burton was the second speaker, and as he has seen fifteen Shows and dinners he is well qualified to judge the Show. He said he was very well impressed with this year's performance at the Opera House and praised the opening chorus. He was pleased with the local character of the Show and said he believed that in the past there had not been enough college life brought in, and that in his estimation it would make the Show more popular. In turning his attention to the performance, he said that he believed that the limit of the number of performances had been reached and that the trip to New York was inadvisable. The attendance of the Alumni was to be commended and that he believed in future years it would be greatly increased.

C. P. Fiske said he was very glad of an opportunity to do something besides give orders, and thanked every one for the work done. Coach Sanger was unable to be present. In recognition of his hard work he was given a humidor.

(Continued on Page 3.)

GOLF CLUB.

**Tournament Proposed — New
Members Wanted.**

The chief event on the program of the Golf Club for this season is a tournament, at which gold, silver and bronze prizes will be given. Effort has been made on the part of the manager to secure meets with other colleges, but there has been great difficulty because of a general lack of finances. It has also been impossible to secure links. The plan under consideration at present is to arrange an associate membership with the Albermarle Club, by which the fellows will pay only about one-third of the present fee for the use of the links. Several nine-hole courses have been looked over with regard to holding meets on them, but no definite arrangement has yet been made. Some time ago the links of the Albermarle Golf Club were used. This arrangement, however, is not in force now on account of some difficulty with that club.

This year a large percentage of the Golf Club will graduate, and the officers wish to put the club on a firm basis before the summer vacation begins. The membership is open to students of all classes. Manager Brewer hopes that a large crowd of fellows will turn out, and he predicts a big year for next season.

JUNIORS' CLASS TEAM CAPTURES SPRING MEET

**Guethings Win Two Prize Cups
—Curtis, Star in Hurdles,
Gets the Third.**

Those who went to the Field last Saturday were rewarded by seeing one of the most interesting Spring meets held at the Institute in years. The weather was ideal and the track perfect. The score at the finish was 64 for the Juniors, 40½ for the Sophomores, 33½ for the Freshmen and 14 for the Seniors. The Freshmen were ahead of the Sophomores until the two-mile in which there were four Sophomores and but one Junior entered. The meet started with the hundred-yard trial heats. The first was won in pretty fashion by Wilson, '14, with Loomis, '16, a good second, and Homan, '15, third. The second heat was taken by Adams, '16, with Crankshaw, '14, and Hines, '16, second and third, respectively. Wilson won the final in 10.2-5 seconds. The finish was close with Loomis second, and Adams got third.

The mile came next and it was of unusual interest because of the competition for the Batchelder cup. Guething, '16, took the lead at the start, with Wilkins, '14, second, and Wall, '15, third. The first lap was good, and at the start of the second Wall passed to the front, while Benson, '16, who was severely handicapped by his bad leg, passed Wilkins. Wall, Guething and Benson ran the third lap in this order, but then Guething again took the lead and although Wall stuck pretty well, drew away and made a good finish several yards ahead of the latter. Benson finished third, while Wilkins was beaten at the tape after an exciting sprint by Holway, '14, who had been running a steady fifth. The time was 4.41.2-5, which was 10 seconds better than the time at the last meet.

There were only three entered in the high hurdles, but the race between Huff, '14, and Curtis, '15, was exciting. Curtis ran a very good race, winning in the fast time of 16.1-5, a Tech record, which cannot stand, however as he knocked down one hurdle. Ober, '16, scored third.

The 440 was run from the start of the hundred to the start of the 220, thus eliminating one curve and giving a better track for the larger number

(Continued on Page 4, Col. 2.)

CHESS TOURNAMENT.

In the continuation of the annual chess tournament Woodbridge won the second game from Norwood in the finals. The game was played in one hour and one-half, and the score is now 1 to 1. To win the tournament one player must have an advantage of two games over the other.

WEATHER.

Forecast for Boston and vicinity: Unsettled, colder, followed by rain. Light northeasterly to southwesterly winds.

CALENDAR.

Tuesday, April 29, 1913.
6.30—Episcopalian Dinner—Trinity House.
4.00—Chess Club Finals—Union.
1.00—Architectural Society Elections—35 Pierce.

MONDAY, APRIL, 28, 1913

Oliver Wendell Holmes said: "I find the great thing in this world is not so much where we stand as in what direction we are going." The support of the class teams at the Field Saturday was by no means phenomenal, but it is a great improvement. The track management showed perseverance in giving the meet publicity, and they must feel gratified with the long list of contestants and the fair number of spectators who were present. We are going in the right direction, and the good "times" and "distances" made Saturday show us that we have a track team that will be a grater credit to the "cardinal and gray."

The wrestling team is going to be heard from next year. Last year they won one meet and lost three; this season they won eight and lost none, and, entered in the Intercollegiate League next year, they will undoubtedly bring greater honor to the Institute. In Kelley and Smythe-Martin we feel that the team has an excellent captain and manager.

We regret to speak of this here, but when Freshmen exhibit a disrespect and downright rudeness to a professor it cannot be overlooked. To leave a lecture room while the professor in charge is talking is not courteous, but when a group of men leave, making an exaggerated disturbance, they exhibit a rudeness which makes one with the slightest trace of gentlemanly instincts boil with righteous indignation. An apology to Professor Currier by these men is, we feel, required if they count themselves gentlemen.

E. E. SOCIETY TRIPS.

The trips which the Electrical Engineering Society was to take have been postponed from April 24 and 25 to May 1 and 2. These trips will be conducted by Mr. Keating and the officers of the society state that they should prove interesting to men taking Course VI. They hope to see a large number of men take advantage of this opportunity.

PLANS OF STUDENT CO-OPERATIVE SOCIETY

Prof. Pearson's Debating Class to Draw Up Plans and Resolutions.

Saturday morning, in Professor Pearson's debating class, plans were submitted for the formation of a new student co-operative society, and the greater part of the time was devoted to the discussion of these plans and to the final agreement upon the best plan presented. The men who drew up these plans made a complete study of the co-operative society at Harvard, and made a thorough study of the whole situation. As a result several novel ideas were suggested. One of these was the operation of a student shop, especially for the members of the co-operative society, and was, in substance, the affiliation of a chain of stores where members could obtain discounts.

The class finally decided to draw up a set of resolutions, these to be discussed and definitely decided upon at the next meeting of the class, on Tuesday. These resolutions, together with the final plans for the formation of the new co-operative society, will be presented to the student body next Friday night. The place for this public presentation has not been definitely arranged, and the announcement will be made through the columns of THE TECH.

SOPHOMORES WIN.

TECH SHOW DINNER.
(Continued from Page 1.)

The next to speak was Larry Hart, and after speaking of the splendid work of those connected with the Show spoke of the New York trip. He said that he believed the trip could be made a success, for the Alumni in New York would be very glad to back up the Show. He said that the Institute was little known in New York, and that he believed the Show could do a lot in the way of publicity.

Publicity Manager Whitwell spoke of those in the cast, and said that there were men of talent in the Show; that there was excellent material for next year's Show.

Menderson, one of the authors of the Show, thanked the men for their work and their co-operation. He said that much credit was due to Mr. Sanger for his fine work in getting the men together and to work at the first of the year.

Mann, '16, got up and said that the men wished to give something to C. P. Fisk, the stage manager. He then presented him with a gold knife and chain.

The shingles were given out and the men present adjourned to the room upstairs, where the Shedd's and others amused those present for sometime with burlesque on the Show.

The Meccas, still in the losing column, are about to issue a call for some good men.

Nineteen hundred contestants' tickets have been ordered for the Penn relay carnival.

Did you know that the crew had a free ride in a patrol boat the other morning?

**INTERESTING TALK
TO FOREIGN STUDENTS**

**Latin-American Students Hear
Dr. Rua of Argentina on
American Reforms.**

Friday afternoon, at 5 o'clock, Dr. Jose M. Rua, of Argentina, addressed a well attended meeting of Latin-American students, men who come from the various South and Central American countries, and who are studying here at the Institute. The meeting, which was held in the Union, was open to students from these foreign lands at Harvard, Boston University and other schools in the city. The meeting was held under the auspices of the T. C. A.

Dr. Rua is a professor of Biology at a university in Buenos Ayres, Argentina and at present is in this country as a delegate to the World's Student Christian Federation Conference at Lake Mohunk, in New York State. He has been making a tour of the eastern part of the United States and has visited many of the leading colleges and universities in the East and Middle West. Recently he arrived in Boston, and, at the request of the T. C. A., he came to the Institute yesterday and spoke to the Latin-American students.

Dr. Rua spoke in Spanish, and in his talk he made an urgent appeal to his countrymen to make a study of American methods of prevention of evils, so that upon their return to their respective countries they will be well qualified to deal successfully with the numerous problems of evils.

He especially urged them to support the various college Christian associations, which are at present only in their infancy in southern countries. He also laid considerable emphasis upon the necessity of their studying of the student summer camps, which are such important factors in the promotion of school spirit, utterly lacking in Latin-American universities, and of the advancement of Christian work. In closing his talk he extended an invitation to his countrymen to accompany him to the Northfield Student Conference this June, which is attracting so much attention in the various colleges throughout the country.

WRESTLING BANQUET.

(Continued from Page 1.)
impossible to arrange them this year. He saw, however, no reason why next year's team could not be entered in the Intercollegiate Wrestling League of eight prominent universities.

J. G. Kelly, '14, was elected captain for next year. Rosslyn Smythe-Martin was elected manager. Both of these men have been strong on the team this year. "Regular M. I. T.'s" for Treat and Blodgett as efficient captain and manager ended the successful banquet.

People are beginning to worry over the exams.

THE ADVANTAGES WE OFFER

PROGRESSIVE methods, large resources and two conveniently located, thoroughly modern bank buildings, combine to make this institution the most desirable depository in New England.

Interest-bearing accounts subject to check may be opened either at Court Street or Temple Place, and the two offices used interchangeably for the transaction of your banking business.

You are cordially invited to inspect the modern Safe Deposit Vaults at either office.

SPRING MEET.

(Continued from Page 1.)

of starters. Bylund, '13, had the pole and he led the field until they struck the home stretch, when Guething, '14, passed him and won by several yards. Bylund finished second, with Reed, '16 close on his heels. The time was 50 4-5, and this equals the Tech record held by Guething.

Germain, '13, took the lead in the half and held it throughout. The real competition of the race was between Hill, '15, and Dean, '16, for second place. Hill led at first, Dean overtook him, passed him, but again fell back. Hill then opened quite a gap between them, but in the last twenty Dean picked up and took second at the tape.

There was a good deal of interest displayed in the 220 hurdles, not only because of the form shown by Curtis, but also because of the entry of P. S. Platt '14, the former Yale star, who won third in the I. C. A. A. A. last year. Curtis won the event, with Huff second and Munch third. Munch was disqualified because he knocked down several hurdles, thus giving third to Platt, who was not in form because of lack of practice.

The two-mile started in a very polite style, each one offering first place to the others. This resulted in a very slow mile, when the pace was picked up and the real contest began. Burton, '15, took the lead but he was soon headed by Cook, who then showed the results of training by drawing away from the rest. Nye, '14, who had led the first mile, fell back rapidly and finished fourth, while Wall took second.

Leslie, '14, a former Harvard man, won the shot-put, and he should be a valuable addition to the team in the dual meet with Worcester in two weeks. Fox, '14, and McLeod, '14, tied in the broad jump for first place with a jump of 20 feet 3 1/2 inches.

The Summary.

100-Yard Dash Final—Won by L. A. Wilson, '14; C. W. Loomis, '16, second; W. E. Adams, '16, third; A. Crankshaw, '14, fourth. Time, 10 2-5s.

"Keeping a Stiff Front,"

is as good in a man's character as in his shirt. If his laundryman will only keep that shirt front white and stiff he'll be satisfied. Well, we make a specialty of doing Laundry work as it should be done, and for that reason we always manage to keep our customers. We guarantee care, cleanliness and excellent finish to every article entrusted to us.
