HIGH SCHOOL CADETS DO GOOD DRILLING

Wakefield High Wins Team Prize in Interscholastic Scholastic Prize Drill.

Though very poorly attended, the interscholastic Scholastic Prize Drill proved to be a success as far as the drilling was concerned. Seven teams competed and the work of each was so good that it was hard for a man to pick the winners. The execution of the manual was better than shown by most of the entries. It was considered that the high school boys, although untrained, performed the drill so well as to practice (that most of our drill teams were forced to practice) the standard that Technique, 1915; and other places. In the last competition those students who were not up to the standard were forced to sit out a victory for Tech, although they were not in the front rank.

The members of both clubs played several games, and as they were well matched it was difficult for either to win an advantage. The games started at 12:00; H. W. Beresford, a fresh, and J. H. Foster, of Colby, at the Massachusetts Institute of Technology, were placed. These men resulted in a clean win for the Ts. When H. C. Young, of Colby, played against H. T. Chanler, the close check, and the lead that the older could do was to gain a draw after losing the first game. In the last game the first important and interesting match of the series was taken. Neither the S. P. nor T. Fieldbrave, of Tech, could overcome the older and, as a consequence, the deciding game was scheduled for yesterday afternoon.

In the game yesterday afternoon the players were Newton and Field. A very interesting game resulted, and it was full of color and play. The game lasted for two and a half hours. In the last few minutes of playing Newton succeeded in directing several good plays and thereby was able to look out a well earned victory for Tech.

TECH CHESS CLUB WINS FROM COLBY

Yesterday afternoon the Technology Chess Club succeeded in adding one more well deserved victory to its slate for this season by defeating the Harvard team representing the college of Maine. The match between the two rival teams was started at 3:00; in the main, and the playing at this time resulted in a tie score of 1 7/2 7/2. The members of both clubs played several games, and as they were well matched it was difficult for either to win an advantage. The games started at 12:00; H. W. Beresford, a fresh, and J. H. Foster, of Colby, at the Massachusetts Institute of Technology, were placed. These men resulted in a clean win for the Ts. When H. C. Young, of Colby, played against H. T. Chanler, the close check, and the lead that the older could do was to gain a draw after losing the first game. In the last game the first important and interesting match of the series was taken. Neither the S. P. nor T. Fieldbrave, of Tech, could overcome the older and, as a consequence, the deciding game was scheduled for yesterday afternoon.

In the last few minutes of playing Newton succeeded in directing several good plays and thereby was able to look out a well earned victory for Tech.

ECH TECHNICAL EXCITING RACES IN HANDICAP TRACK MEET

Close Finishes and Fast Times Expected in Dashes and Half-Mile.

Next Saturday being an open day for the track team, Coach Kanalv has decided to hold an open class handicap meet. This meet should be of unusual interest, for the races will be ten times longer than those of last Saturday, and they will not be slow any longer. The standard of the half and mile meeting to be the star event of the day. In the races there will be ten men, Loson, and Adams in the first, with Clarck, Irvine, and Homan close behind. All (the men have run pretty regularly, so better running can be expected.

In the half, Captain Gurnon and Hulse will probably have a good race, both men having run into a good form. Gurnon and Dean will also have to take into account for the race, too, as in form, as shown by their running last week.

The mile will probably be won without a struggle, but, on the other hand, it will be less bordered by an opening at the under- hand and will be finished in front, closely followed by Wakefield. However, who it will showed up as last Saturday, and Burton, will also run, and the race should be a good one.

The under-mile will also be run without a struggle, but, on the other hand, it will be less bordered by an opening at the under-hand and will be finished in front, closely followed by Wakefield. However, who it will showed up, as last Saturday, and Burton, will also run, and the race should be a good one.

However, who it will showed up, as last Saturday, and Burton, will also run, and the race should be a good one.

CHAUNCY HALL SMOKER.

The annual Smoker of the Chauncy Hall Club will be held Saturday evening, May 3, at 8.00, in the Union. The meeting will be held in one of the larger rooms of the Union, and light refreshments will be served. Only those in high standing at Chauncy Hall School are invited to this Smoker, held by the Chauncy Hall Club.

NOMINATIONS DUE.

Nominations for president, president, secretary, and executive committee of the Chauncy Hall Club are due at 12.00 to-day. Each nomination paper must be signed by at least ten members of the club. The Executive Committee will then meet, and the names of the three men, one each from the three classes, and nominations shall be made accordingly.

The club exhibit is now in progress, and is all the rage.

MECHANICALS HAVE DELIGHTFUL BANQUET

Several Interesting Speeches—Election of Officers Announced.

The banquet which the Mechanized Engineering Society held last night at the City Club was the most successful affair of its kind which has been held this year. The dinner was excellent, and the speeches were at nothing amusing and serious.

The event was a goodexperimental Tech cheer, and there came such a swell as to be so loud served. Chairman Russell was the toastmaster for the evening, and the services of honor were Mr. Henry R. Whitney, Mr. W. G. Snow, Prof. E. F. Wiley, Prof. Geo. H. Herrick, Prof. W. Peck and Edward Hurst. First after the dinner arose the reports of the officers—Secretary Farrell, Treasurer Carter and the Governing Committee. The regrets of the elections of the officers were announced as follows: Chairman, H. W. Wilcox; Vice-Chairman, C. H. Strout; Treasurer, F. P. Sabin; Secretary, L. L. Downing; Treasurers, F. P. Sabin, M. L. Foster, J. L. Foster, and T. Fieldbrave, of Tech, were of very high standard, but lie was forced to withdraw.}

CORRECTION.

In yesterday's issue of THE TECH, on page three, the incorrect score of the track meet between Colby College of Maine, and the Tech Chess Club was given. The correct score was 1-1, and not 1-3, as stated yesterday. The correct score should be used.

INSTITUTE COMMITTEE.

The Institute Committee will hold a special meeting, Friday, May 2 at 4.15, in Room 8, Engineering C. The object of the Institute Committee is to further the proposed change of the Constitution and By-Laws and accept recent and in the last competition those of H. C. Young were of very high standard, but he was forced to withdraw.

To the Editors of THE TECH:

Mr. Goodell:

As a long time reader of THE TECH, I am writing to express my appreciation of the excellent job you have done as editor. I believe that THE TECH is the equal of any other college daily in the country. I am particularly impressed with the quality of the news stories and the excellent writing of the editorials. Keep up the good work.

Sincerely yours,

[Signature]

P.S. I have referred the students in my class to THE TECH and have received many compliments on my recommendation.

PRELIMINARY THESIS

NOTES NEAT AND READABLE

THE TECH, BOSTON, MASS., MAY 1, 1918

LAST T. C. A. TALK OF

SCHOOL YEAR TODAY

Rev. Allan A. Stockdale, to Give

Answers to Questions by

Students.

This noon will witness the last T. C. A. talk of the year. Rev. Allan

A. Stockdale has the distinction of giving the final talk, and he will

answer various questions asked by students, similarly as he conducted

a "Question Box" last year. Various questions have already been

submitted to the officers of the T. C. A. and have been turned over to

Mr. Stockdale. Some of these queries have been published in previous

issues of THIS TECH, and their answers by the clergyman will undoubtedly

be very interesting.

One of the last questions which

Cambridge is asked was submitted to the association, shows considerable

thought on the part of its author, and Mr. Stockdale's reply will probably

be of interest.

The question is as follows: "Since

religion is nothing but a belief

in an unseen order, inspired by

been running along in about this way for

eral meetings. Admittedly the two

men are the best for the position, and

it is almost universally admitted

that the choice between them is not

hard for the student to make.

in the Union, is faced by this situation:

Two men, Smith and Jones, are nomi-

nated for Athletic Committee.

One imagines himself overtaken and

again, and as we are becoming less

afraid and superstitions even to analyzing this unseen order, unani-

mously understanding it, does it not seem that there is to come an age

when understanding of these unseen phenomena will create conditions

which are absolutely materialistic, and the religion of 'God' unseen

and 'awe-full' will be a relic?"

Another question, whose answer

will very likely draw a large number

of men, is one of vital interest and

cerns to Tech men. This question

regards the use of beer at Tech

functions, and many men will be

cious of securing Mr. Stockdale's opinion on this particular point.

One man submitted a question

which is probably a representative

question of many Institute men. This

student wishes to know whether or

not a man can be a Christian without

going to church and keeping up

vice as to what a man should do if

MR. B. A. BEHREND TO SPEAK AT E. E. SMOKER
Electrical Engineering Society Meets in Union—Ballots Now Ready.

Electrical Engineering Society ballots for next year's officers may now be obtained at the Cage. They will be given out, also, to members of the Junior class in the problem sections on Saturday. Members of the society in the Senior class may obtain the ballots at the A. C. M. lecture on Friday. Each member wishing to vote must have his dues paid to date. Dues may be enclosed with the ballots at the A. C. M. lecture on Friday.

Mr. B. A. Behrend, one of the oldest men in the electrical profession, will speak on "The Historical Development of Electrical Engineering." Mr. Behrend is one of the foremost designers of electrical machinery in the country. Among other things that he has done is the designing of the famous turbine-generators at Niagara. He is a well-known and interesting speaker, and his views on the merits of single-generator at Niagara. He is a well-known and interesting speaker, and his views on the merits of single-phase traction are well worth one's attention.

Today and tomorrow afternoon, at 2 o'clock, the men who intend in suspending the telephone exchanges of the New England Telephone Company may meet on Milk street, in front of the company's offices. Mr. Keating will conduct the trips personally, and the trip will be of great interest to Course VI men.

The Pall Malls continue to hear the following reports of the various committees. The Executive Committee reported that a number of the second-year men had not yet completed their tracings, and would find assignments posted, from which they might choose. As there was no further business before the meeting, the nominations for the office of President were opened. After two ballots Francis Whitman, Jr., 1914, was chosen as head of the society for the coming year. The next position to fill was that of Vice-President, and D. R. desGranges was unanimously elected. The next position to fill was that of Secretary upon the second ballot, and H. T. Sibb, 1915, was elected Treasurer. There remained the Executive Committee to select: L. C. Rosenberg, H. H. Taylor, Jr., and R. H. Harper. From this list the men chosen to serve on It was moved that the new committee elect its own chairman at its first meeting. A motion was then carried to hold another meeting of the society Wednesday, May 7. This meeting is to hear the outstanding report of the committees not given today and to clear up the remaining business of the year. The meeting was then adjourned.

ARCH. SOCIETY MEETS.
Officers for the Coming Year Chosen by the Society.
The annual meeting of the Techenery Architectural Society, for the purpose of electing officers for the following year, was held yesterday in the Pierce Building. The meeting was called to order by President Morgan, and the minutes of the previous meeting were read and accepted. Next in order were reports of the various committees. The Executive Committee reported that it had countersigned all bills submitted to it. The report of the Entertainment Committee was postponed until the next meeting. The treasurer's report was a most pleasing one, for after all outstanding bills have been paid there will still remain a handsome balance to the credit of the society. This condition is a great improvement over the last two years. The report of the Junior Week Committee was also postponed until the next meeting. The Finance Committee reported that a number of the second-year men had not yet completed their tracings, and would find assignments posted, from which they might choose. As there was no further business before the meeting, the nominations for the office of President were opened. After two ballots Francis Whitman, Jr., 1914, was chosen as head of the society for the coming year. The next position to fill was that of Vice-President, and D.
