CAMBRIDGE LATIN LOSES TO JUNIORS

Tech, '14, Wins Exciting Game in Ninth Inning Rally—Score 7 to 5.

The Junior baseball team opened their season Saturday by winning from Cambridge Latin at Rindge Field in an exciting ninth inning rally. A fluke home run, with one man on and the score a tie, was responsible for the win, 7 to 5.

Cambridge started off like winners, scoring three runs in the first and holding the Juniors safe until the fifth, when 1914 succeeded in pushing a run across. Cambridge scored a man in the third and sixth, but a batting rally, mixed with some rather weird baseball, tied the score in the sixth.

In the ninth, with the score tied, a man on third, and two out, Gardner connected with one of Siebert's curves for what should have been a single, but the ball took an ugly bound, got away from the fielder, and went for two runs and the game, Comber holding the Latin School sluggers safe in the ninth.

Comber pitched a heady game for the Juniors, letting Cambridge down with three hits. He had a slow ball working to good advantage, and mixed them up well.

Summary:

(Continued to Page 2, Col. 2.)

TALK ON COTTON MILLS.

Mr. F. W. Reynolds to Address Mechanical Society.

This afternoon, at 4 o'clock, Mr. Frank W. Reynolds, of Lockwood, Green & Co., mill engineers, will speak before the Mechanical Engineering Society in 11 Eng. B, on "The Modern Cotton Mill."

Practically this same lecture was given by Mr. Reynolds before the American Society of Mechanical Engineers. He has some very interesting slides to show with his talk, and is said to be a very eloquent speaker. Because of the extreme interest of the subject and its importance to those about to enter this kind of work, the officers of the society have extended a cordial invitation to the student body.

MONITOR PLANT.

News Men to Inspect Plant of Big Publication.

Practically all the men in the various departments and on the News Board and Staff of THE TECH have been looking forward to the proposed trip to the plant of the Christian Science Monitor in Back Bay with considerable interest and curiosity. The Monitor extended the invitation to the men on THE TECH publication a few days ago, and those men who are to take the trip have arranged to go tomorrow.

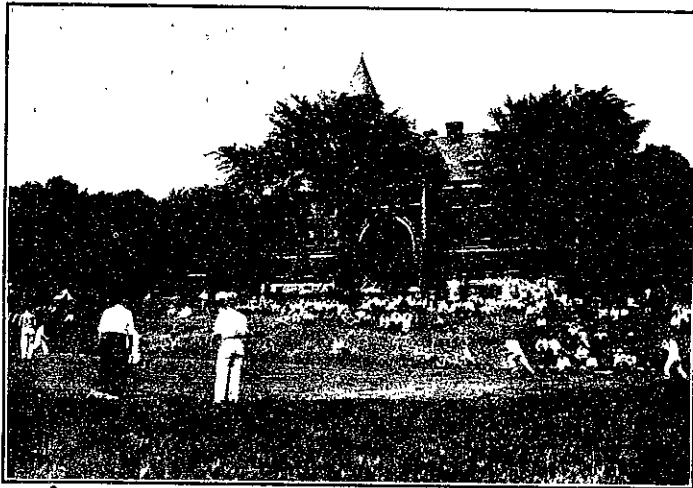

That the men in charge of a publication like THE TECH will take extreme interest in a trip through the plant of such a paper as the Monitor there is no doubt. The trip will be as helpful as it will be instructive, and it is hoped that much benefit will be derived from it.

NORTHFIELD STUDENT CONFERENCE IN JUNE

Effort Being Made to Send a Big Tech Delegation This Year.

The annual Northfield Student Conference will be held this year, from June 20 to 29, at Northfield, Mass. This conference is composed of delegations from all the leading colleges of the East, and a particular effort is to be made this year to send a large and worthy Technology representation.

The conference offers many novel and appealing features aside from its work. The outdoor life is a principal attraction, tents being provided for all who wish them; this camp life appeals strongly to most of the delegates. Athletics play a prominent part; an exciting baseball series is annually played for the Conference championship; good tennis courts are at all times available, tennis tournaments also being features; the surrounding country offers unlimited opportunity for long and interesting walks, and ex-

A BALL GAME AT THE NORTHFIELD CONFERENCE.

cellent swimming facilities in the Connecticut are provided. A Field Day, consisting of a track meet in the afternoon, with unique intercollegiate events in the evening, followed by a huge camp-fire, marks the close of the athletic season at Northfield.

The real purposes of the Northfield Conference is to bring together the men from the different colleges for the discussion of questions of vital importance to the student and to the world at large. On the basis of good fellowship in this normal outdoor life,—a life of work, play and general good fun,—an opportunity is offered to work over these debatable questions and so far as possible to settle them in one's own mind.

REV. MR. S. G. TREXLER.

The Rev. Mr. S. G. Trexler, a student pastor of the German Lutheran Church of this city, will be in the T. C. A. office from 1 to 2 o'clock today and tomorrow. Mr. Trexler will meet any students of his parish, and he will also be very glad to confer with any others who might wish to see him.

The Electrical Engineers learned all about the telephone on their trips to the Milk street office of the N. E. T. & T. Co.

TECHNIQUES TO BE SOLD THIS AFTERNOON

Public Sale of Year-Book Begins On Expiration of Time Limit.

This noon, at 1 o'clock, the public sale of Technique starts, and the book will be sold to all comers. Preference will be given to those on the waiting list, these men being served first. It is, of course, very essential that these men be on hand. Men who have sign-up slips can present the same at the general sale and will be given credit for the value of the slip. The slip represents a deposit of seventy-five cents. Those men who have sign-up slips and do not use them to purchase books will not be given a rebate for the slip, this being merely an expired option.

Professors and alumni are writing in for the book, advertising fees and accounts are being paid up, and the management feels that the financial success of Technique, '14, is practically assured.

EXCITING HANDICAP MEET SATURDAY

Many Close Races Feature the Informal Meet—Bylund Runs Great Half.

Tech Field was the scene of many close, fast races Saturday afternoon in the informal handicap meet held by Coach Kanaly to give the men more experience. The long mark men were favored in the handicapping, and as a result the few scratch men who won were obliged to do better than had been expected of them. C. W. Loomis, '16, was the particular star of the meet; he won both the 100 and 220-yard dashes in fairly fast time. In the shorter dash, L. A. Wilson, running from scratch, was a close second; but the strain was too much for the ligament which he injured last year, and he will be unable to compete again until the Worcester meet. Cook, '15, who sprang into prominence a week previous by winning the two-mile very easily, again captured this event. He was the scratch man, and finished in 10.14 3-5, or nearly fifteen seconds faster than his previous mark. T. H. Guething, as scratch man in the 440, had a large field to overtake; the handicaps proved too great and he was unable to place in an extremely close finish of a fast race. The fastest race of the day, however, was the half, in which W. R. Bylund, '13, running from scratch, finished six inches behind Pollard, '15, who had fifty yards' handicap, in 1.59. Bylund, although not the winner, ran the fastest half-mile a Tech man has ever run on the track at Tech Field.

In the first heat of the 100-yard dash Loomis, Reed and Wilkins finished within a yard of each other in the order named. Wilson took the second heat, with Hine, '16, second, and Crankshaw third. Loomis won the

(Continued to Page 2, Col. 2.)

FOUNDRY CLASS TRIPS.

Blake & Knowles' Foundry to Be Visited Today.

The foundry class will take trips to Blake & Knowles' foundry on Third street, Cambridge, this week. The Monday class will go today. The Thursday and Friday classes will go next week. The trip promises to be an interesting one as the foundry is a good-sized plant, equipped with all the modern improvements. All of the members of the classes are expected to be at the office of the foundry at 2.15 o'clock on the day assigned to them. Mr. O'Neill is in charge of the trips.

CALENDAR.

Monday, May 5, 1913.

1.00—Limit of Time for Getting Techniques.
2.00—Architectural Engineering Society Meeting—42 Pierce.
4.10—M. E. Society Meeting—11 B.
5.00—THE TECH News Staff Meeting—Lower Office.

Tuesday, May 6, 1913.

1.30—Lynn High School Club Meeting—22 R.
2.00—Foundry Class Trip—Blake Pump Works.
THE TECH Trip Through "Monitor" Plant.

CHAUNCEY HALL SMOKER

Mr. Yeh Entertains Members With Puzzling Tricks.

Saturday evening the Chauncey Hall Club held its annual smoker in the Union. The evening was a decided success, everyone apparently having a good time. Mr. Yeh, who is always in great demand on such occasions, gave a very interesting sleight-of-hand performance, and light refreshments were served in one of the small upper rooms of the Union.

The members of the club have instituted a plan for helping the next year's Freshmen from the Chauncey Hall School. Every Senior there who is coming to Technology next year will be looked for by some member of the club, and assisted in making out his registration materials.

CHESS TOURNAMENT.

In the Tech Chess Club tournament, being held just now, C. E. Norwood, '14, won the third game, after playing 5½ hours. D. E. Woodbridge, '16, won the fourth game. The present score is 2 to 2.

THE TECH

Entered as second-class matter, Sept. 15, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.

MONDAY, MAY 3, 1913

At this time of the year it is well to have some outside interests other than athletics, or social meetings. It is in the Spring, more than at any other time, that a person is apt to feel the numbing influence of brain-fag. Up to a certain point this tired feeling can be overcome by lots of outdoor exercise, but when this fails it is necessary to look around for some other diversion to take the weary mind off the eternal school work. Herein lies the value of a "hobby."

A hobby may be briefly defined as the "playing of an idle hour" and is used to supply a needed change of thought in spare moments. In childhood it consisted of a "hobby" in the literal sense of the word; but after a man has reached an age sufficiently advanced to allow him to enter college he is supposed, at least, to have put away childish things and must needs look around for some more dignified method of diverting his mind from assigned tasks. He should decide upon some one thing in which he is interested which is entirely different from the work of the course which he is pursuing in the Institute, and should hold it in reserve as a subject for reflection when he reaches the point where he feels that he cannot put another moment on his lessons without going insane. This condition of affairs generally occurs at a time when he cannot get out and play a game of ball or run a quarter-mile, and when all his friends are either asleep or at the theatre. He has no recourse, ordinarily, but to go to bed, and this is a thing which he is loath to do before finishing his work. If he will but stop five or ten minutes, clear his mind of all thoughts of lessons and think of his hobby, which may be, by the way, coincident with his ambitions, he will find that he is able to return to his school work with renewed vigor and a clear brain. Get a hobby, fellows, and see how it will help rather than hinder your studies.

C. T. Guething and K. Dean were matched in a close 600-yard race Wednesday. The former won by about two yards.

ARCHITECTURAL ENGINEERS TO MEET

Society to Elect Officers For Next Year This Afternoon.

The Architectural Engineering Society will hold an important meeting this afternoon at 2 o'clock, in Room 42 Pierce, for the nomination and election of officers for the coming year.

The officers to be elected are a president, vice-president, secretary and treasurer. In addition there is the Executive Committee to choose. All committees should be prepared to report fully as this is to be one of the last meetings of the term. All outstanding business is expected to be cleared up and the affairs of the society put in good condition for next year.

TRACK MEET.

(Continued from Page 1, Col. 4.) final by a foot from Wilson. Wilkins and Wilson started side by side in this event, and had a pretty race, the latter drawing ahead at the 75-yard mark. Wilkins and Crankshaw finished almost abreast, the former getting the third place.

In the mile, Benson and Wall were on scratch, with Palmer two yards back. Gray and Sayward were many yards in front. Benson and Wall alternated in leading the last bunch, and gradually cut down on the long mark men. On the third lap Palmer passed Benson and Wall, and gained rapidly on the leaders. He increased his pace in the final 200 yards, and finished 10 yards ahead of Benson, who was a like distance in front of Sayward. Wall almost passed Sayward, but his sprint was begun too late.

Huff led in the high hurdles until forty yards from the finish, when he was slowed up by striking a hurdle, allowing Curtis to take the lead. Foster, '15, finished a close third.

Lawrence led for 200 yards in the 440, but was then passed by Gagnon. (Continued to Page 4, Col. 2.)

DUPONT CUP SCORES SHOW IMPROVEMENT

Alt, the Winner, Gains Fifty Points Over His Fall Score.

The complete scores on the Du Pont Cup competition, which was won by E. E. Alt, '15, have been computed by Coach Kanaly.

In the fall Alt chose the 220, the broad jump and the discus as his events, and scored 159 points, doing the 220 in 25-2, jumping 19 feet 6 inches, throwing the discus 79 feet 6 inches. His events this spring were the 100, the broad jump and the discus, and this time netted him 202 points, a big improvement in the discus causing most of the increase. The hundred was done in 11-2, the jump was 19 feet, 11 inches, and the discus sailed 91 feet, 8 inches.

The record score for this contest is held by Salisbury, 1911, with a total of 438, made in 1910-11.

SOPHOMORES DEFEATED.

Game With Tuft's Second Ends With Score of 16 to 5.

The Sophomore baseball team lost a weird game Saturday, the Tuft's second team taking them into camp by the score of 16 to 5. The Tuft's men got to Sears for five hits in the first inning, and these, with three passes and some errors, netted ten runs and put the game on ice.

Sears was removed after the damage had been done, Pike and Parsons finishing the game. They were both hit hard, a home run off Pike, with the bases full, being one of the features of the game.

Golden, the Tuft's twirler, let the Sophomores down with two hits, their runs being the result of errors.

The score by innings was as follows:

										R.H.E.	
Tuft's 2nd	10	4	1	0	1	0	..	16	10	4
M. I. T. '15	..	1	4	0	0	0	0	..	5	2	6

MAP ENGRAVERS SCARCE.

United States Geological Survey Would Like to Get Some.

No finer maps are made than the engraved topographic atlas sheets of the United States Geological Survey. In accuracy of detail as well as in quality of printing the Survey asserts, with little fear of contradiction, that its maps lead all others, wherever printed. Great advances have been made in recent years in various phases of the printing art, but for fine map work, strange as it may seem, no process has yet been found equal to the original hand engraving, which is still essentially the same process that it was generations ago. The skilled copper-plate engraver who cuts on his metal base the thin lines which reproduce the map is as necessary now as he was during the middle of the last century. Not everyone can be a successful engraver. It requires a fine touch and a good eye. Announcement recently made by the Civil Service Commission indicates that the profession of copper-plate engraver is by no means over-run. The Geological Survey wants competent map engravers at salaries ranging from \$3 a day when actually employed to \$1,600 a year, and is having difficulty in finding applicants to compete for the positions. No regular examination is required, but samples of work, properly authenticated, must be submitted. The Chief Engraver of the Survey at Washington will be glad to hear of anyone who wants such a job and who can measure up to the high standard of engraving work required. May 5 is the date set for picking the right men for the places.

TRACK MEET.

(Continued from Page 2, Col. 2.)

who had a handicap of 26 yards. Gagnon retained the lead to the finish. At the 300-yard mark Reed, Bolton and Guething came up together, but the record holder was unable to last the distance, and dropped back to sixth. The other three finished close together in the order named.

C. T. Guething, with 20 yards, soon overtook Dean, who had 35, and Bylund and Captain Germain, the scratch men, soon did likewise. Pollard and Goldstein were far in front. Bylund passed Guething after 600 yards, but Germain weakened and was unable to stay with Bylund. Pollard took the lead from Goldstein 100 yards from the finish, and Bylund immediately set sail after the pair, finishing half a foot behind Pollard, after a terrific sprint down the straightaway. Guething took fourth from Germain by a yard.

Only three men ran in the 220, all starting from the scratch. Loomis easily took first, with Bolton second. Huff took third in a canter.

Huff and Munch, with six and a half yards each, ran neck and neck in the low hurdles, the former taking honors. Curtis, from scratch, finished third.

Cook ran a good race in the two-mile. The first half was very fast, the position of the men being unchanged. Then Cook, running from scratch, gradually overhauled the leaders, and was out in front at the seventh lap. He ran easily, and finished 50 yards ahead. C. H. Wilkins sprinted the last hundred and passed Nye at the finish. Holway, with 120 yards, finished fourth.

S. Ober, '16, with five inches handicap, won the high jump. Friebus took second, while Hall and Teeson, jumping in poor form, took third and fourth, respectively.

Porter, '16, won the shot-put, McEwen and Conway taking the other places. Leslie, the scratch man, did not go in the event. McLeod, Conway and Porter were close in the hammer throw, the former winning.

The discus throw was won by Conway, with Fox, McEwen and Porter the others to place. McLeod was unable to overcome the handicaps against him.

The broad jump was won by McLeod, scratch, but he was closely pressed by Alt, '15, who had two inches handicap, and by Fox, '14, also scratch. Fletcher, '16, with a large handicap, was fourth.

Laurason received a serious injury last week and was unable to participate in the pole vault. Friebus won this event, with Mangan, '13, second, and Clarkson, '16, third. The summary:

One hundred-yard dash—Won by C. W. Loomis (3 yards); second, L. A. Wilson, '14 (scratch); third, C. S. Wilkins, '14 (scratch). Time—10 2-5s.

Two hundred and twenty-yard dash—Won by C. W. Loomis, '16 (scratch); second, J. W. Bolton, '15 (scratch); third, T. H. Huff, '14. Time—23 3-5s.

Four hundred and forty-yard run—Won by E. E. Gagnon, '13 (26 yards); second, C. S. Reed, '16 (11 yards); third, J. W. Bolton, '14 (16 yards). Time—51s.

Eight hundred and eighty-yard run—Won by R. F. Pollard, '15 (50 yards); second, W. R. Bylund, '13 (scratch); third, E. J. Goldstein, '16 (65 yards). Time—1m. 59s.

WEDNESDAY, MAY 28,
Is the first day of final examinations and

THESES ARE DUE.
It in no way pays to delay this important part of your last year at school.

Plan to finish your first writing at least two weeks ahead, so that the final form, which is a large factor in the effectiveness of all work, may be well done.

If you wish to have it typewritten at as low a cost as is consistent with careful, painstaking work, bring it in early to those who have had three years' experience with Tech Theses.
