CAMBRIDGE LATIN LOSES TO JUNIORS

Tech, '14, Wins Exciting Game in Ninth Inning Rally

Score 7 to 5

The Junior baseball team opened their season Saturday by winning from Cambridge Latin at Ridge Field in an exciting ninth inning rally. A safe home run, with one man on and the score a tie, was responsible for the win, 7 to 5.

Cambridge started off like winners, scoring the runs in the first and holding the Juniors safe until the fifteenth inning, when the second scoring rally occurred in pushing a run across. Cambridge scored a man in the third and sixth, but a batting rally, mixed with seven other walks, tied the score in the sixth. In the ninth, with two outs left, a man on third, and two out, Gardner connected with one of Missor's curve pitch for what should have been a fly, but the ball took an ugly bound, went away from Missor, and wound up to two runs and the game. Conner holding for the last five innings, shut down in the ninth.

Gardner pitched a steady game for the Juniors, letting Cambridge down with three hits. He had a slow ball, working to good advantage, and mixed them up well.

TALK ON COTTON MILLS

Mr. F. W. Reynolds to Address Mechanical Society.

This afternoon, at 4 o'clock, Mr. Frank W. Reynolds, of Lockwood, Green & Co., will lecture before the Mechanical Engineering Society on "The Modern Cotton Mill." Practice in these same lectures given by Mr. Reynolds before the American Society of Mechanical Engineers. He will use many interesting slides to show his talk, and is said to be an excellent speaker. Because of the extreme interest of the subject and its importance to those about to enter this kind of work, the officers of the society have extended a cordial invitation to the students.

MONITOR PLANT.

News Men to Inspect Plant of Big Publication.

Practically all the men in the various departments of the News-Building and Staff of THE TECH have been looking forward to the proposed trip to the plant of the Christian Science Monitor in Back Bay with considerable interest and curiosity. The Monitor extended the invitation to the men of THE TECH publishing a few days ago, and those men who are to take the trip have arranged to go tomorrow.

The men in charge of a publicity committee of THE TECH will take every extreme interest in a trip through the plant of such a paper as the Monitor there. This will be an educational visit and most helpful as it will be instructive, and it is quite certain that much benefit will be derived from it.

NORTHCOLD STUDENT CONFERENCE IN JUNE

Effort Being Made to Send Big Tech Delegation This Year.

The annual Northcold Student Conference will be held this year from June 20 to 19, at Northcold, Mass. This conference is conceived of delegations from all the leading colleges of the East, and a particular effort is to be made this year in sending a large and worthy Tech delegation to the conference.

The conference offers many novel and appealing features aside from its educational work. The outdoor life is a principal attraction, tents being provided for all in the remains of the dance quilts. Athletes play a prominent part; an exciting baseball series is annually played for the Conference exemption point; good tennis courts are available at all times, available, tennis tournaments also being featured; the surrounding country offers unlimited opportunity for long and interesting walks, and excursions.

A BALL GAME AT THE NORTHFIELD CONFERENCE.

CHAUNCY HALL SMOKER

Mr. Yeh Entertains Members With Puzzling Tricks.

Saturday evening the Chauncy Hall Club held its annual smoker in the Union. The evening was a decided success, everyone apparently having a good time. Mr. Yeh, who is always in good demand on such occasions, gave a very interesting, skilfully managed performance, and light refreshments were served in one of the small upper rooms of the Union.

The members of the club have instituted a plan for helping the next year's Freshmen from the Chauncy Hall School. Every Senior who is in charge to Technology next year will be looked for by some member of the club, and assisted in making out the registration materials.

CHESS TOURNAMENT.

In the Tech Chess Club tournament, being held just now, C. E. Foxworth, '14, has extended the invitation to the third game, after playing 1½ hours. D. E. Woodbridge, '16, won the fourth game. The present score is 2 to 2.

EXCITING HANDICAP MEET SATURDAY

Many Close Races Feature the Informal Meet—Bylund Runs Great Half.

Tech Field was the scene of many exciting races yesterday afternoon in the informal handicap meet held by Coach Kennel for the men more experienced. The long mechanic were favorably in the handicapings, and as a result, four new records were established. The men who won the race or more than had been expected of them, C. W. Loewin, '16, was the particular star of the meet; he won both the 200 and 220-yard dashes fairly fast. In the shorter dash, L. A. Wilson, running from scratch, was a close second; but the strain was too much for the lightweight which he injured last year, and he will be unable to compete again until the Worcester meet. Cook, '13, who sprung into prominence a week previous by winning the two-mile very easily, again captured this event. He ran the scratch man and finished in 10.14½, or nearly fifteen seconds faster than his previous mark. T. H. Gostling, as scratch man in the 400, had a large field to overtake; the handicaps proved too great and he was unable to place in an extremely close finish of a fast race. The fastest race of the day, however, was the half in which W. R. Bylund, '15, running from scratch, finished six inches behind Pollard, '15, who had fifty yards handicap and was the favorite in the handicapping, and although not the winner, ran the fastest half-mile that he has ever run on the track at Tech Field.

In the first heat of the 100-yard dash Loewin, Rosenthal, and Wilson finished within a yard of each other in the order named. Wilson won the 400-yard dash without much difficulty, with Hine, '16, second, and Cranston third. Loewin won the

FOUNDARY CLASS TRIPS.

Blake & Knowles’ Foundry to Be Visited Today.

The foundry class will take trips to Blake & Knowles’s foundry on Third street, Cambridge, to-day. This Monday class will go today. The Thursday and Friday classes will go next week. The trip promises to be an interesting one as the foundry is a modernized plant, equipped with all the modern improvements. All of the members of the classes are expected to be at the office of the foundry at 2:15 o’clock on the day assigned to the trip, Mr. O’Neil in charge of the trip.

ARCHITECTURAL ENGINEERS TO MEET

Society to Elect Officers
For Next Year This Afternoon.

The Architectural Engineering Society will hold an important meeting this afternoon at 2 o'clock, in Room 42 Pierce, for the nomination and election of officers for the coming year.

The officers to be elected are a president, vice-president, secretary, and treasurer. In addition there is the Executive Committee to choose. All committees should be prepared to report fully as this is to be one of the last meetings of the term. All outstanding business is expected to be cleared up and the affair put in good condition for next year.

THE ADVANTAGES WE OFFER

Progressive methods, large resources and two conveniently located, thoroughly modern bank buildings, combine to make this institution the most desirable depository in New England.

Interest-bearing accounts subject to check may be opened either at Court Street or Temple Place, and the two offices used interchangeably for the transaction of your banking business.

You are cordially invited to inspect the modern Safe Deposit Vaults at either office.

DUPONT CUP SCORES

SHOW IMPROVEMENT

Alt, the Winner, Gains Fifty Points Over His Fall Score.

The complete scores on the Du Pont Cup competition, which was won by E. B. Alt, '15, have been computed by Coach Keaney.

In the fall Alt chose the 220, the broad jump and the discus as his events, and scored 159 points, doing the 220 in 23-2, jumping 19 feet 6 inches, throwing the discus 100 feet 6 inches. His events this spring were the 100, the broad jump and the discus, and this time he netted him 202 points, a big improvement in the discus causing most of the increase. The hundred was done in 11-2, the jump was 19 feet 11 inches, and the discus sailed 104 feet, 4 inches.

The record score for this contest is held by Seeley, 1911, with a total of 489, made in 1910-11.

SOPHOMORES DEFEATED

Game With Tufts' Second Ends

With Score of 16 to 5.

The Sophomore baseball team lost a weird game saturday, the Tufts' second team taking them into camp by the score of 16 to 5. The Tufts' men got the best of the first inning, and these, with three passes and some errors, netted ten runs and put the game on ice.

Tufts was restored after the dam was done, Pike and Parmelee finishing the game. They were both hit hard, a home run off Pike, with the bases full, being one of the features of the game.

Golden, the Tufts' twirler, sent the Sophomores down with two hits, their runs being the result of errors. This score by itself was as follows:

R.H.E.
Tufts' 2nd...10 1 0 1 6 -10 1 4
M. 1. T. 15 .. 1 4 0 0 0 6 - 5 2 6

MAP ENGRAVERS SCARCE.

No finer maps are made than the engraved topographic atlas sheets of the United States Geological Survey. With accuracy of detail as well as in quality of printing the Survey assures, with little fear of contradiction, that its maps lead all others, wherever printed. Great advances have been made in recent years in various phases of the printing art, but for fine map engraving, it requires a fine copperplate engraver who cuts on his metal base the thin linear which reproduces the map as it is destined to appear, exactly the same process that it was generations ago. The skilled copperplate engraver who cuts on his metal base the thin linear which reproduces the map as it is destined to appear, was he was during the middle of the last century. Not everyone can be a successful engraver. It requires a fine touch and a good eye. Announcement recently made by the Civil Service Commission indicates that the profession of copperplate engraver is no longer a monopoly of the skilled engraver, who cuts on his metal base the thin linear which reproduces the map as it is destined to appear. A man in the middle of the last century. Not everyone can be a successful engraver. It requires a fine touch and a good eye. Announcement recently made by the Civil Service Commission indicates that the profession of copperplate engraver is no longer a monopoly of the skilled engraver, who cuts on his metal base the thin linear which reproduces the map as it is destined to appear. It is hard to read some of those scratchy notes after the ink grows cold. What's the solution?

RENT A TYPEWRITER. What Typewriter?

THE OLIVER;

which has been in use exclusively in THE TECH offices for the past two years and has satisfactorily fulfilled every condition that has been imposed upon it. You can see Estalbrook, the Oliver man any time you like in THE TECH office. Make a date with him.
