MECHANICAL ENGINEERS
HEAR TALK ON MILLS
Lecture on "The Modern Cotton Mill" by Mr. Reynolds Yesterday.

Yesterday afternoon, the members of the Mechanical Engineering Society were privileged to hear a lecture on the usefulness of the engineering work of Longfellow, Green & Co., mill engineers of Boston, given in illustrated form dealing with some of the problems faced by the company in charge of modern mill construction. The cotton mills of today are an enormous step ahead of those in use in operation a few generations ago. In 1875, an old mill in Massachusetts was given the power to turn its looms by the use of belts arranged around a shafting in the basement. From there belts communicated to the shafting in the third story of the factory. The looms thereabout were given the power to turn their looms, and on the seventeenth of the month is the date of the Harvard meet, which has been arranged, one with Harvard University and the Harvard tennis club.

The Greater Lynn Club will hold a meeting at which Mr. Reynolds, an old graduate of the Lynn and Swampscott High Schools, will be invited, and the members are urged by the Executive Committee to be present. They desire to have a voice in the selection of a suitable site for the new Union.

MECHANICAL ENGINEERS
MUSICAL CLUBS ARE TO BANQUET-TONIGHT
Dinner and Elections of Officers Is the Program at the Copley Square.

The Musical Clubs at Technology are to hold their annual banquet and dinner at the Copley Square Hotel. The banquet is to be held in the Union room, and the officers include the following:

The meeting will be at 6:00 o'clock.

M. A. H. S. BANQUET
Members of Senior Class of School Invited.

The Senior class of the Mechanics Arts High School will hold its annual banquet on Wednesday, May 14, in the small meeting room at 11:30 o'clock. The Senior class of the Mechanics Arts High School will be invited. Head of the Department of Mathematics, Mr. Haas, of the M. A. H. S. Instructing staff, will be guests. All M. A. H. S. men in the Institute are expected to be present and will be seated in the order shown, and may be obtained from the Board of Trustees, 14, C. L. Hall, 78, and G. W. Vreeland.

FRESHMAN BASEBALL
The Freshman-Tufts Dental game on yesterday afternoon ended in a tie, with each team scoring a run in the third time. The game was played between the Freshman and Tufts teams. Tufts has to be called off because of the absence of players. The Freshman's team was victorious.

BOWLING LEAGUE
The standing in the Bowling League is as follows:

NAVALS TO HOLD MEETING THURSDAY
Final Plans For Annual Banquet and Shingles to Be Held—Chew to Speak.

On Thursday afternoon the Naval Architectural Society will hold an important meeting in the Auditorium at 2:00 o'clock. At this meeting the business will concern the members particularly the Naval Plans for the annual banquet and the适合e which are to be made up for the members of the society. Mr. B. W. B. was appointed at the last meeting to the charge of the committee, and the members are urged by the Executive Committee to be present when they desire to have a voice in the selection of a suitable site for the new Union.

WEATHER
Forecast for Boston and vicinity: Tuesday and Wednesday, moderate southerly winds.

CALENDAR
Tuesday, May 6, 1913.
1.30—Lynn H. S. Club Meetings—23
2:00—Architectural Engineering Society Meeting at Copley Square Hotel.
2:00—Freshman Class Trip to Copley Pump Works.
2:00—Musical Clubs’ Dinner at Copley Square Hotel.
7:45—Freshman-Rock Ridge H. S. Game.
7:45—Freshman Class Trip to Copley Pump Works.
THE TECH

THE TECHNIQUES ON SALE
NOW AT THE CAGE

Unclaimed Copies Can Be Had
By Anyone Upon Payment of
Regular Amount.

The copies of Technique, 1914, which had not been sold to the holders of sign-up slips by noon yesterday were put on general sale at the Cage. Although the holders of the slips have, in many cases, already put their books, the results of the general sale were very gratifying. Some of the copies are still left, and may be obtained at the Cage by any person, regardless of whether he had signed up or not. The books will be sold on sale until the supply is exhausted.

The Board requests that all men who have sign-up slips show them in Technique by redeeming them immediately. The books have been kept two weeks for these men, when, if they had been put on general sale, they would probably have been easily disposed of. As the Board has protected the holders of the slips, it believes that they should protect the board by carrying out the conditions. In this way the Board will be insured against financial loss.

The Board respects the fact that some men have not had time to show the slips at the Cage. In these cases the slips will be kept at the Cage, and the men can redeem them at any time during one of the vacations is thought of seriously as the clubs are growing in power each year. The clubs are such an advertising medium for the Institute that they are deserving of the support of the alumni, and undoubtedly these will be appealed to, to support the clubs at its concerts. The prospects for a trip during one of the vacations is thought of seriously as the clubs are growing in power each year. The clubs are such an advertising medium for the Institute that they are deserving of the support of the alumni, and undoubtedly these will be appealed to, to support the clubs at its concerts. The prospects for a trip during one of the vacations is thought of seriously as the clubs are growing in power each year. MECHANICAL ENGINEERS.

(Continued from Page 1, Col. 1.)

The new president of the society, H. W. Trent, presided over the meeting and introduced the speaker.

Mr. Reynolds accompanied his talk by many eloquent slides which showed very forcibly the improvements which have been made in mill construction by the use of reinforced concrete.

Harvard has several millionaires on its faculty. President Lowell is one of these and a botany professor another. Professor Gray, lately retired from the law school, is also to the seven figure class. He "inherited a million, married a million, and made a million." Many other wealthy men are on the faculty.

The lecture on clams made all the members of the Biological Society hungry.

The new men on THE TECH seem to be happy. There is always room for one more.

COMMUNICATION.

(Waiting communications from all parts of the Institute on important subjects. We take no responsibility for their contents but we give every assurance that all will be carefully considered. The name of the author will not appear unless he so desires, but the same words will be published if not signed.

For several weeks I have been ashamed, shocked and disgusted at the tone and undignified manner of some students in University lectures. They have talked, read the paper, and, in fact, displayed a most unsympathetic behavior. This is distressing and annoying to the many who attend these lectures with an idea of deriving as much benefit as possible, and doubly so to Professor Currier, who does his best to make the lectures interesting and instructive.

The last Saturday one member of the class brought a friend to the lecture, and occupied a seat well toward the front, thus taking the room from one of the classes. Is this fair? Should men thus be allowed to trespass on the rights of others? I may add that this man and his friend thrashed around, shouted, giggled, made none too pleasant comments upon the architectural features of the hall, etc. Should men regard this Institution as a sort of entertainment place for their friends?

If you are very glad to see the recent editorial in THE TECH concerning the men who incessantly interrupted the lecture, this shows a lack of control in the spirit of decided meanness and a disregard for the rights of others. This flagrant outrage should continue no longer. In an institution where all should cooperate for the betterment of the class, these men must be put out of place. Outraged.

C. E. SOCIETY BANQUET
AT CITY CLUB THURSDAY

Results of Election Will Be Announced. Good Speakers Promised.

The annual banquet of the Civil Engineering Society will be held Thursday, May 8, at 8:00 o'clock, in the room of the Boston City Club. The officers of the society have succeeded in securing several excellent speakers for the evening, all of whom are well known engineers. Mr. J. F. O'Brien, the secretary of the corporation; Mr. J. E. Ballon, of Holbrook; Mr. E. W. Prouty, of Greenfield; Mr. R. W. Foster, of Acton; Mr. C. M. Smith, of Cambridge; Mr. C. M. Forbush, who is in charge of the department, will be the principal speakers.

The results of the election of officers for the coming year will be announced after the dinner. The booths have been distributed and will be due at the Cape Wednesday, at 4 o'clock. It will be necessary for all the members to pay their dues before the dinner is served.

Tickets may be obtained for $1.00, although the cost, including the dinner, will be $1.25.

Trinity Court Bowling Alleys
TECH BOWLING HEADQUARTERS ESTABLISHED 1881.

Two minutes walk from all Tech Buildings. Exquisite facilities; the most fashionable boys can enjoy this fascinating and enjoyable pastime. Alleys reserved and screened for private parties.

Come in and enjoy a little fun and exercise between periods.
