

THE TECH

VOL. XXXIII. NO. 34

BOSTON, MASS., MONDAY MAY 19, 1913

PRICE TWO CENTS

PRIZE DRILL ON FRIDAY EVENING

President Maclaurin to Review Regiment—Competition Very Keen.

Next Friday the annual prize drill, the final event of the year for the M. I. T. Regiment, will be held. The competition, which will consist of company and individual prize drills, will come at 8 P. M., in the Armory. Tickets may be obtained from the officers or first sergeants, at 25 cents each.

Before the drills the Regiment will be reviewed by President Maclaurin. Then will come the company drills, in which each company will be allowed ten minutes for evolutions and the individual drills.

The final event will be an evening parade, during which President Maclaurin will present the prizes to the winners in the competitions. The first man in the individual drill is to receive a gold medal, and a silver medal will be presented to the winner of second place. The captain of the best company will receive a gold medal, as in former years, and will also get a special prize, which has been offered by Mr. F. C. Leonard of the Jacob Reed Sons' Co. This consists of a regulation sabre with complete trappings. President Maclaurin will also give all the officers of the regiment their commissions.

The members of the prize company will be rewarded by a dinner at the expense of the regiment.

Col. Taft and Lieut.-Col. Pastene will be at the Gym next Wednesday, from 2.30 o'clock on, to give the competitors in the individual drill some practice. The men who wish to take the practice may get their rifles from the Armory.

TALK ON SOCIALISM.

Rev. J. H. Holmes Will Speak Today in Union.

Today, at 1.30 o'clock, Rev. J. H. Holmes will speak in the Union under the auspices of the M. I. T. Economics Club. His subject will be "Socialism," and all students who are in any way interested are urged to attend.

Mr. Holmes is a Harvard graduate and a Phi Beta Kappa man. He is president of the Unitarian Fellowship for Social Justice, Vice-President of the Middle West Unitarian Conference, author of "The Revolutionary Function of the Modern Church," Assistant Editor of "Unity," a Unitarian paper, and pastor of the Church of the Messiah in New York. Because of this very wide range of experience he is expected to give an exceptionally fine talk, which will be of interest to even the strongest opponents of socialism.

GAME POSTPONED.

The Freshman-Sophomore baseball game, which was to have been played Saturday afternoon, was postponed on account of the track meet. It will probably take place this week.

The Boston Society of Civil Engineers recently entertained the Tech. Tufts and Harvard men in civil engineering courses at the Boston City Club. Whitney, in Tech Show costume, agreeably surprised the crowd by giving a solo dance.

FINANCE COMMITTEE PUBLISHES REPORT

All Activities Shown to Be Prosperous—Show Clears \$1300.

At the last meeting of the Finance Committee the secretary was instructed to make public through the columns of THE TECH the financial conditions of the various activities. The report follows:

Architectural Society.	
Cash on hand	\$29.91
Probable further expenditures.	2.00
Biological Society.	
Cash on hand May 1st.....	\$9.88

MINERS DINE AT LENOX.

Mr. Ingalls Addressed Meeting—Wells Elected President.

Friday evening, at the Hotel Lenox, the first annual banquet of the Mining Engineering Society was held, with about 35 of the members present. Mr. Walter R. Ingalls, editor of the Mining Engineering Journal, was the speaker of the evening. Professors Richards and Hoffman also addressed the gathering.

The elections for next year's officers were announced and received with much enthusiasm. R. E. Wells was elected president, H. O. Maxwell vice-president and treasurer, L. W. Currier secretary, and R. C. Foster and G. B. Hilton as the Senior and Junior members of the Executive Committee.

The members were entertained by several vocal selections by S. H. Taylor, accompanied by S. E. Clark, and all in all, the members of the society feel that their banquet was a huge success.

NAVAL SOCIETY DINES.

Informal Affair Held Friday at Wirth's Restaurant.

The annual dinner of the Naval Architectural Society was held last Friday evening at Charles Wirth's restaurant on Essex street. There were no speakers as the society decided to hold a strictly informal dinner this year. Professor Peabody was the guest of the society. The annual election of officers will take place Thursday afternoon, May 22, at 1 o'clock, in 33 Engineering C.

WORCESTER MEET A RUNAWAY FOR TECH

Final Score 95 to 31—Result Never in Doubt—McLeod Stars For M. I. T.

In Saturday's dual track meet Tech showed itself far and away the superior of Worcester Polytechnic Institute in almost every event. In many of the events W. P. I. was unable to place, and in the half-mile run was not even represented, this race being merely an inter-class affair. Wilson and McLeod starred for Tech, while Captain Keith of Worcester led his team in the scoring in the runs, and Clough and Power did the scoring for Worcester in the weight events. The final score was 95 for Tech to 31 for the visiting team. No records were endangered. The track was in fair condition but was rather soft.

The two-mile was one of the most interesting of the meet. Armour of Worcester took the lead for two laps, only to be supplanted by Wall, who held it until the next to last lap. Cook remained close during this time and when Armour passed Wall on the seventh lap Cook took up his trail and went into second position. With two hundred yards to go, Armour began to sprint, but Cook held on exceptionally well, and finished but eight yards behind. The time was good, 9.58.

In the broad jump McLeod and Fox each bettered their previous distances on the last jumps, and forced Alt into third place.

Teeson and Hall tied for first in the high jump with 5 feet 5 3/4 inches, but Hall later cleared 5 feet 9 inches. McKinnon was third.

The low hurdle race was exceptionally close. All the men were in line until the last hurdle, when both Huff

FRESHMEN WIN RACE.

Defeat Juniors and Sophomores in Inter-class Contest.

Friday afternoon Tech's first inter-class boat race was held on the Charles River, and was won easily by the Freshman boat. The Juniors came in second, a length and a half behind, and the Sophomores were a very poor third, eight lengths to the rear.

The cold, windy day did not keep away about fifty spectators, who were compelled to wait until 6 o'clock before the race started. The river was fairly smooth, but the crews had to row against the wind, which made the time somewhat slower than it would otherwise have been. The race was from the Cottage Farm bridge to the Harvard Bridge, a distance of one mile. The Juniors showed the most speed, but the Freshmen won on account of being in better condition. The Sophomores were neither fast nor in good condition.

FOUNDRY LECTURE.

An illustrated lecture on "Foundry Work and Appliances" will be given in 11 Engineering B on Monday, Tuesday and Thursday of this week, at 2 P. M., for all men taking this subject. As these are to be given in place of the regular exercises in the foundry, attendance on one of the days is required.

KEITH TO BE GENERAL MANAGER OF TECH SHOW

Elections to The Tech Also Presented to the Institute Committee—New Co.-Op.

The Institute Committee held its last meeting of the year on Friday. At this time the Tech Show Advisory Council, THE TECH Advisory Council, and the committee on a new co-operative society reported.

The Show Advisory Council reported that it recommended the election of Walter P. Keith as general manager for next year's Show. The report of the committee was accepted.

The committee on a more efficient co-operative society reported that it had attended the meeting at which the plans of the debating class were presented, but that there was nothing feasible presented. The committee recommends that the total income now devoted to scholarships be devoted to a sinking fund for financing a co-operative store when the Institute moves to Cambridge. This should not commence, however, until the present scholarships have been paid. Furthermore, it is their intention to enlarge the list of affiliated tradesmen so that it will be of greater scope than heretofore. A third thing suggested was that a board of directors, elected by the classes, have charge of the society. This board is to consist of three Seniors, three Juniors and two Sophomores, elected at the beginning of the year. At the end of the year one Sophomore will be elected to make up the necessary number of Juniors the next year. A man when elected remains in office throughout his Institute career. The committee recommended that these men be elected at the beginning of next year.

The results of the elections of the

(Continued to Page 3.)

FRESHMAN ADVISORS.

Volunteers Must Hand in Names to Those in Charge.

Any man who expects to be appointed Freshman Advisor, and who has not given his name to either Ralph D. Salisbury, or the Secretary of the T. C. A., Mr. L. R. Talbot, should do so at once. The Association is taking nothing for granted. The fact that a man was an advisor last summer does not insure his name being placed on this year's list. Neither does the fact that a man received a card asking him to attend the meeting last week, when Dean Burton explained the work, place him on the list.

It is an honor to receive this appointment, and any man who desires it must take the initiative. His name is not on the list unless he gives a definite O. K. to one of the men above mentioned. A postal card to the T. C. A. office will do, but it is better, if possible, to see those in charge personally, so that every man who volunteers will understand just what is expected of him.

CALENDAR.

The importance of exercise to man's physical and mental health is recognized universally. But, out of sixteen hundred students enrolled at the Institute it is safe to say that not one hundred take any regular exercise. An average of fifteen men a day are attending the Gym. Everyone with ordinary intellect appreciates the value of exercise, we say, but very few take any. The reason is simply this, that it is too much trouble. With conditions as they are in most colleges today it will always be hard for a man who is not particularly strong, or who doesn't care to compete for the teams, to get his exercise. Athletics are run for the good of the students who are strong physically and who can make the representative teams, not for the student body.

Take for example a man who is awkward or poorly developed. Under present conditions he doesn't like to go to the gymnasium because he thinks he will be laughed at. He is ashamed of his weakness and his pride prevents him from overcoming it.

A gymnasium that is easily accessible, that is planned to accommodate a large number of students, where they can have semi-privacy and get the best kind of physical exercise, is the type which we believe Technology should have. Everything about the building should encourage regular daily exercise, sets of exercise being printed which are good for overcoming particular weaknesses. Accommodations for many on the wrestling mats—for that is the most beneficial sport that we know of—should be provided.

In short, a study should be made of the most efficient methods of exercise, and the gymnasium should be planned to give every student a chance to get this exercise with minimum trouble.

A movement like this would be better advertising for the Institute than winning track and hockey teams. Technology, above all other schools, needs such a system, and we can only say that for the good of the student body and the Institute we sincerely hope that this will be the stand of the Faculty on the question of student athletics; namely, that athletics will be run for the student body rather than for the athletes, and that the gymnasium be planned with this aim in view.

HANDSOME SENIOR PORTFOLIO OUT

Cover of Black Grained Leather
—Book Dedicated to
"Mr. Smith."

Among the several innovations in the Senior Portfolio which appeared at noon on Friday is the cover. Unlike those of former years, the cover of this edition is of black grained leather with the cover design, excepting the Institute seal, stamped in gold. The second page contains an excellent picture of President MacLaurin. The book is "respectfully dedicated to 'Mr. Smith,' who through his beneficent philanthropy has made possible a new Technology."

Men who have sign-up slips may obtain their copies at the Union daily, between 1 and 2 o'clock, from the members of the committee. As the edition is limited to 225 the holders of slips are asked by the committee to redeem them before the public sale begins on May 23. There is already a large waiting list.

TECH WINS MEET.

(Continued from Page 1, Col. 3.)

and Munch drew ahead. The judges awarded the first place to Munch, although some thought it was a dead heat.

Wilson pulled away from his competitors in both dashes, although ten yards from the finish in the hundred he appeared to be beaten. Wilkins and Loomis were close seconds and thirds, respectively, in both sprints. None of the Worcester contestants were dangerous opponents.

Reed took the lead at the start of the 440, closely followed by Guething, who passed him on the last turn. Guething and Peaslee then came down the stretch close together, the former leading. While Reed gradually fell back and was passed at the tape by Moulton of Worcester, who took third. Captain Germain, Bylund, C. T. Guething and Hill were the only runners in the half, and consequently were not forced to extend themselves. The former won, and Bylund beat out Guething for second.

Palmer did not run in the mile, and Tech's hopes rested in Benson, who led for the first two laps. He was then passed by Keith of Worcester, who quickly opened up a big lead, which he increased to thirty yards at the finish. Benson easily took second, with Hugo, W. P. I., third.

Curtis and Huff of Tech, and Warren and Farnsworth of W. P. I., qualified for the finals of the high hurdles, and Curtis easily took the final by two yards, with Huff a like distance in advance of Farnsworth.

Clough of W. P. I. won the shot-put by over six feet from McNeill, his nearest competitor. Clough was beaten out in the hammer throw by his teammate, Power. McLeod of Tech took third in both of these events.

In the discus McLeod and Beech outdistanced the Worcester weight men, taking first and second, respectively.

The pole vault was a triple tie between Laurason, Friebus and Mangan of Tech. Friebus won on the toss.

The summary:

100-yard dash—Won by Wilson, Tech; Wilkins, Tech, second; Loomis, Tech, third. Time, 10 2-5 sec.

220-yard dash—Won by Wilson, Tech; Wilkins, Tech, second; Loomis, Tech, third. Time, 23 2-5 sec.

440-yard dash—Won by T. H. Guething, Tech; Peaslee, Tech, second; Moulton, W. P. I., third. Time, 51 2-5 sec.

880-yard run—Won by Capt. Germain, Tech; Bylund, Tech, second; C. T. Guething, Tech, third. Time, 2.03 1-5.

Mile—Won by Capt. Keith, W. P. I.; Benson, Tech, second; Hugo, W. P. I., third. Time, 4.37 3-5.

various professional societies for the coming year was also read.

The Advisory Council of THE TECH recommended E. F. Hewins, '16, and C. W. Lawrence, '16, for election to the news staff, and T. C. Jewett, '16, to replace R. E. DeMerritt, '16, as Assistant Athletic Editor. The election of C. W. Lacey to the business staff of THE TECH was also recommended.

A motion was then passed to the effect that if the Freshman-Sophomore baseball game was played Saturday in violation of the ruling of the Institute Committee it should not be counted in the inter-class series.

Chairman Mattson thanked the committee for the support given him during the year, and gave a brief resume of the important things done by the Institute Committee. A. T. Wyman, '14, was elected temporary chairman until next year.

**CHEMICAL SOCIETY
CLOSES WITH BANQUET**

**Hotel Plaza Scene of Dinner—
Elections For Next Year
Announced.**

Friday night the Chemical Society ended its year with a banquet at the Hotel Plaza. The forty odd men who were present were given an excellent dinner, with the orchestra filling the interludes with popular songs. President Albee of the society called on Professor Walker to introduce the speaker of the evening, Mr. Whitney, head of the Research Laboratory of the General Electric Company. Dr. Walker did his part well, putting all the men present in the best of humor.

Mr. Whitney told the men that they should be idealists; that although they were educated in groups for economic reasons they should strive toward an individuality, even accentuating any part of their mental development which seemed different from that of other men. He gave much excellent advice in a heart-to-heart manner, illustrating his points when necessary with stories of the research work at Schenectady.

When Mr. Whitney had finished and the men had vented their enthusiasm in cheers, President Albee announced the results of the election. R. H. Dickson, 1914, X, is now president; B. H. Hale, '14, X, is vice-president; D. F. Gould, '14, X, is secretary; L. F. Hamilton, '14, V, is treasurer, and W. N. Watson, '14, X, and M. F. Brandt, '15, V, are the members of the Executive Committee.

The activity of the Freshman track team surpasses that of previous years.

You've Been The Victim - Yes, You Have.

We all have, of the petty salesman who lost all interest when we stated the price we wanted, or could afford, to pay and this didn't meet with his exalted ideas. We don't employ snobs of this kind. Or any other kind.

The same courteous service rendered in the showing of our \$25.00 suit as in that of twice this sum.

That \$25.00 suit will be a pleasant surprise to you if you are not acquainted with it.

We make a specialty of it, are immensely proud of it, and guarantee its value in every detail.

You don't have to buy, we won't bore you, but it will pay you to see what we offer at this price.
