

THE TECH

VOL. XXXIII. NO. 39.

BOSTON, MASS., WEDNESDAY, OCTOBER 1, 1913

PRICE TWO CENTS

WRESTLING TEAM AT GYM FOR PRACTICE

All But One of Last Year's Team Return—Meet With Yale a Possibility.

In an effort to make an even better record than that made last year the wrestling team has already begun work, and the mats at the gym have been busy from four to six for the last two days. A coach has not yet been secured, but Mr. Gracey, Captain Kelley, Manager Smythe-Martin and the other members of last year's team will aid any new men who come out.

All of last year's team have returned to the Institute with the exception of Saier. The splendid record made last year should be improved upon with the added year's experience and the aid of new material from the incoming class. All men who intend to come out for the team should begin work now if possible, as the added time will get them into better shape. The regular call for candidates from the Freshman class will be made immediately after Field Day, but all those who intend to substitute wrestling for gym work after that are requested to start work now.

Manager Smythe-Martin is busy arranging a schedule, and now that the team is a recognized Varsity one several big meets are hoped for. It is intended to have several good trips as well as short ones to nearby towns. At least half a dozen meets will be held at the Technology gym. Negotiations are under way with the following teams: Malden, Quincy, Needham Heights, Salem, Beverly, Marblehead and Boston Y. M. C. A., Boston Y. M. C. U., Yale, Brown, Harvard, Tufts, Amherst, Worcester P. I., Boston University, Clapp Memorial Gym of Weymouth, Columbia Road Gym and the Allston Swedish Gym.

EPISCOPAL RECEPTION

The Technology Chapter of the Brotherhood of St. Andrew cordially invites all Episcopalians entering Tech to attend the annual reception, to be held at Trinity House, 22 St. James avenue, on Thursday, October 2, at 7.45 P. M.

The Rev. Alexander Mann, rector of Trinity Church, and the Rev. Edwin H. Van Etten will be present to welcome the new men. All Tech men are welcome and they may be assured of a pleasant evening.

MAIL ACCUMULATION

A large amount of mail matter has accumulated at the Cage in the Union during the last few days, and as the home or city addresses are not definitely known until some time after registration, when they are obtained from the Registrar, the mail cannot be forwarded. Students are requested to call at the Cage for mail matter at frequent intervals, and as such a large quantity of mail has piled up in the office, and as many of the letters are doubtless of considerable import, the men at the Institute will do well to look after this matter at once. By so doing, much time and trouble will be saved the men at the Cage.

FRESHMEN ADVISORS TO HAVE DINNER

Report to Be Made—Dean to Speak—T. C. A. Makes a Busy Start for Year.

This evening at 6 o'clock, all the men who had been appointed Freshmen advisors and who have helped the incoming men during registration and in other ways, will meet in the Union Dining Room. After the dinner, which will be regular 25-cent one, Dean Burton will address the men. The Dean, as well as the officials of the T. C. A. is very much pleased with the work the advisors have done. The fact that the work this year has been a success has already been shown by the splendid and thorough work the advisors have done, and it will be further evidenced by the reports which the men will make this evening.

This evening's gathering of the advisors will be primarily to simplify matters in the way of making a definite report on the work done. Special blanks will be furnished, and these will be filled out with the required information. By these means, considerable unnecessary time and trouble is spared any body or committee which would otherwise have to look after the report.

Dean Burton will explain the proposed plans to have the upper-class men keep in touch with the Freshmen during the school year. The Dean will go into detail and outline the work as it is expected to have it continued.

The meeting and dinner will be held in the lower dining room of the Union, and all business will be transacted as quickly as possible, as it is planned not to detain the men longer than 7.30 at the latest. In this way, the meeting will not interfere with any plans already made, and the T. C. A. expects a full attendance.

The Technology Christian Association has made an excellent and encouraging start for the ensuing year. Up to Monday night, 101 men have joined the association. It has not been ascertained just what number has joined in the intervening time, but enrollment cards are coming in at a pretty good rate. All new men at the Institute were furnished with the small handbook, or "Tech Bible," and the upperclass men will have to do without this valuable booklet. The reason for not supplying all men with the handbook lies in the fact that the book, which is given by the B. Y. M. C. A., did not receive the proper support from the student body. The publication of the book depends primarily on the advertisements contained therein, but the students last year did not succeed in procuring ads. The B. Y. M. C. A., therefore, undertook the financing of its publication.

The officers of the T. C. A. request that any new man who has not received a handbook, call at the office of the association in Room 5, Eng. B. In case there are any books left over, they will probably be distributed among the men acting as advisors. General Secretary L. R. Talbot and his assistant will generally be in (Continued on page 3.)

FRESHMEN HOLD SUCCESSFUL MEETING

P. E. Hulburd of Phillips Exeter Chosen Temporary Chairman.

The Freshman mass meeting held in Huntington Hall yesterday at one was attended by a large number of enthusiastic Freshmen, as well as many interested upper classmen. President McWerlich of the Junior class opened the meeting with a few remarks and then introduced Dean Burton. The Dean spoke strongly in favor of general participation in Field Day and praised the alumnae for their wisdom in giving us this sensible substitute for the childish pranks indulged in by some colleges. He also spoke of the fact of this being a professional school and that therefore the men should have more of a feeling of responsibility than in the regular non-professional type of college.

President McWerlich then spoke on the need of a goodly amount of class spirit, and the benefits of good cheering. To see how the new class ranked in this respect the regular Tech cheers were given and given with such strength that McWerlich said that he had no doubts that the new class would live up to the standard of the odd numbered classes and win both Field Days.

The meeting then proceeded to the election of temporary officers. The following men were elected:

For Chairman—Phillip E. Hulburd.
For Treasurer—P. C. Leonard.
Hulburd comes from Malden High, where he was on the track and relay teams. From there he went to Phillips Exeter, where he was on the track squad. Besides his athletic activities Hulburd has distinguished himself through his studies.

Leonard spent one year at Chauncey Hall, after which he went to the Moses Brown School in Providence. While there he was active in football. For the last four years he has been in business for himself as a broker in gas engines and yachts. Leonard is from New Bedford.

The meeting then voted, after some discussion, an assessment of \$1.50. Then the several men of the Junior class interested in the different sports of that day addressed the Freshmen.

Scully spoke for the football team, mentioned the fact that the winning football team scores more points than the other teams in the Field Day competition. He urged all men to come out as there are few other teams against which they can practice, so that there should be at least enough men for two teams.

Curtis tried to impress on the men the fact that to win the relay race it is absolutely necessary to come out early and train hard.

Hanchett then spoke for the tug-of-war, telling the men how this event was often the deciding feature of Field Day and therefore not to be neglected. He sketched the manner in which the team is chosen, thus showing that strength or weight are not all the battle, but that grit and hard practice play a not unimportant part.

After this the Freshmen elected their Field Day managers.

Atkins of Newton High was elected to run the football team. At high (Continued on page 4.)

FRESHMAN MANAGERS CALL FOR CANDIDATES

All Teams to Start Work at Once—Relay Candidates at The Field.

The different Freshmen managers having been elected to run the Field Day teams, work can start right away and preparations be made for the big contest.

Manager Wood of the tug-of-war asks all the Freshmen who have real Tech spirit to turn out at the gym today at 4 o'clock. The manager hopes to get a good number of gritty men together with the hope that only two pulls will be necessary on November 7th. He wants to emphasize again that exceptional strength or ability are not necessary and that the steady man wins.

Manager Atkins of the football team wants all football candidates to meet in the Union at 4.15 today. Coach O'Brien will be on hand to address the men and Captain Scully of the Juniors and Manager Atkins will both have something of interest to say.

Track practice for the relay team will take place at the field regularly. To reach Tech Field take any Brookline Village car and get off at Pond avenue. Both Coach Kanaly and Manager Friend will be on hand every afternoon and will be glad to help in any way they can.

BOAT CLUB MEETING.

Next Friday there will be a meeting of the Boat Club in the Union at 4.15. Besides being the occasion of the election of the officers for the coming year this will be an excellent opportunity for those interested in rowing to get together. The Freshmen will find it greatly to their advantage to attend this meeting and get an idea of the plans.

Last year this club forced itself from an almost unknown position right to the fore of our sports and the prospects are bright for a still more successful season this year.

CALENDAR.

- Wednesday, October 1, 1913.**
4.00—Freshman Relay—at Field.
4.00—Freshman Tug-of-War—at gym.
4.00—Freshman Football—at Union
4.00—Sophomore Football—at Gym.
4.00—Wrestling—at Gym.
4.30—Institute Committee—8 Eng. C.
6.00—T. C. A. Advisors' Dinner—Union.
7.30—Tremont Street Church Reception.
Thursday, October 2, 1913.
6.30—Finance Committee Dinner—Union.
7.30—Finance Committee Meeting—Union.
7.45—Episcopal Reception—Trinity House.
Friday, October 3, 1913.

WEDNESDAY, OCTOBER 1, 1913.

We are very sorry to see that all the hard work which the Union Committee has expended during the summer for the good of the student body as regards the Union lounging room is practically unappreciated. To a stranger entering the room it appears to be a sort of mediocre combination of bar-room and shambles, and, to say the least, it is not a beautiful and pleasing sight. Cigar and cigarette ashes are contending with candy wrappers and other such members of the paper tribe for the right of possession of the floor. Coats, hats, books and pamphlets are strewn over the chairs. Taken all in all the whole room is in miserable shape. And whose fault is it? Obviously the students. The room is cleaned out every night after everyone has gone home and presents a very respectable and inviting appearance up to about nine-thirty in the morning.

It is usually the custom to blame the Freshmen on the grounds of ignorance for any damage done, but in this case it seems not to be the Freshmen, but upper-classmen, who are abusing the Union. The members of the class of '17 have not yet become accustomed to lounge in the Union, and if the room remains in its present condition they will never be attracted to it. Fellows! Brace up and give the Union a fair deal! Treat it as you would your den at home. We do not ask that it be kept scrupulously clean, but we do demand that you deposit your cigarette stubs and waste-paper in the receptacles provided for them. Let's all pull together for a better, more pleasant, and habitable Union!

WEATHER.

Forecast for Boston and vicinity:
Unsettled, probably local rains. Moderate easterly winds.

The annual N. E. I. C. A. A. cross-country race is to be in Hanover this year.

PHENOMENAL INCREASE IN REGISTRATION

Men From Several Continents and Many States Come Here In New Class.

Although the time allotted for registration is passed the number of students continues to increase. Already there are 1,668 registered, which is fifty-seven more than last year. This makes it over a hundred more than two years ago, an increase which shows the trend of the young men of today.

The Institute is far ahead of any other college in the country in percentage of students from foreign lands, and the large number will this year be increased by sixteen. Still another interesting feature is shown by the registration, the number of students who return year after year to continue their studies.

There are now registered at Technology about 190 students from other colleges, and 33 men who are taking graduate courses, 215 in all. Besides this there are 35 men who are entering the school in one of the advanced classes, so that besides the regular group of students who are following the courses from the beginning there are not far from 275 new students, and this does not count the entering Freshmen.

Of this number of advanced students Massachusetts furnishes about 70, the rest of New England about 25 more, and the states from New York to Texas about 84. It is interesting to note that strong centres of interest have been developed in Baltimore and Texas. This distant state furnished 21 students last year and six or seven new ones are in this advanced group alone.

The West send 39 of the advanced students and the West coast 14 new men, with its new centres of interest in Wisconsin. More than a score of foreigners are included in these new students above the Freshman year, six from Canada, and one each from Cuba and Honolulu; four from Europe, representing Denmark, Greece, Russia and Turkey; from South America, Brazil has two and Chile one; while China sends six new high grade students.

With references to the colleges represented by this group of students, it may merely be said that hardly any strong college is slighted and men with degrees are plentiful.

The regular Freshman class numbers a little short of four hundred, and bids fair to surpass this number. As is usual about, one-half—205—come from Massachusetts, not including the 73 from Boston. New England is represented by 25; New York to Texas by 53, and 10 from the West, three from the West coast and the 13 foreigners.

Six women are included in the list of students.

TECH SHOW BOOKS DUE

To Be Handed in Friday at Five to
The Show Office.

The show management calls attention to the fact that the books are due, as it is especially desirous of having them in early this year. Accordingly all men who are now writing books are requested to bring them down to the Show Office at five o'clock Friday afternoon, October 3. It is not expected that any of the books will be finished, but all authors are urged to hand in what they have completed, with an outline for the remainder of the libretto. These will be sent on to Coach Saenger in New York for criticisms and suggestions and returned to the authors in the middle of next week. It is thought that this plan will be a great aid to the authors and will mean a large saving of time.

PHELPS CALLED TO GOVERNMENT SERVICE

Institute Professor Accepts An Important Position at Washington.

The resignation of Mr. Earle B. Phelps, Assistant Professor of Research in Chemical Biology at the Institute, has recently been submitted. This is a result of a call from Washington, where he will take the important position of sanitary engineer for the U. S. Public Health Service. Professor Phelps is well qualified for his new position, and the call is a gratifying and well deserved recognition of his success in the field to which he has devoted the larger part of his career.

Mr. Phelps was graduated from the Institute with the class of 1899. Immediately after graduation he entered the service of the Massachusetts State Board of Health. In 1903 he was called to Technology as chemist and bacteriologist of the Sanitary Research Laboratory. During the following eight years he was in charge of researches into the purification of sewage. The results of these researches led to the development of the modern process of purification of water supplies.

In connection with his work in sewage purification, Mr. Phelps became interested in the purification of shellfish waters. His success in this line is shown by the fact that he has been retained by many oyster growers in different parts of the country as consulting sanitary engineer.

Professor Phelps has been employed in many parts of the country in a private capacity, in connection with sewage problems. He has superintended the construction of many municipal and private sewage disposal plants, and has also been retained as consulting sanitary engineer for several state boards and municipalities.

As Professor Phelps' resignation was handed in after the last meeting of the Corporation, his successor has not yet been appointed. It is understood, however, that Robert S. Weston, M. I. T. '94, is recommended by the Biology Department for the vacant position.

T. C. A. DINNER

(Continued from page 1.)
the office in the afternoons, and will be glad to hear from any of the new men. Later these two officers will have regular hours daily.

The T. C. A. wishes to announce that the first Bible Discussion Group meeting will be held in the office in Eng. B. at 130 next Monday. Full information regarding these discussion group meetings can be obtained from the Secretary, or from the circular cards found in the T. C. A. handbook. Other groups will be arranged according to the number of men who come out and show any interest in this kind of work. The book used in this work is not found in the curriculum, and it is not necessary to buy one in taking the Bible Study course offered by the T. C. A.

Next Friday evening, the annual T. C. A. reception to the new men will take place in the Union. The various committees of the association are already making extensive preparations for these receptions. Refreshments, entertainments and speakers will be on hand to give the Freshmen a real reception. Dean Burton will be one of the principal speakers.

Subscription books for THE TECH are now on sale.

SOPHOMORE FOOTBALL

Manager Calls For Candidates to Meet in Gym. at Four.

Yesterday at one, sixteen men interested in the Sophomore football team met in Rogers. The men will all report at the gym at four this afternoon and it is hoped that those that were unable to attend yesterday will also be on hand.

The first game will be played on Columbus Day, October 13, with Wellesley High. Manager Buxton is looking for a coach and will probably have one tomorrow afternoon.

The men should either bring their football suits or old clothes today, as there will be short practice to get the men into shape. The regular times for practice will be announced later. Towards the end of the week, when the men will have things well in hand, a captain will be elected.

FRESHMEN MEETING

(Continued from page 1.)

school he was prominent in athletics. First he was assistant manager of the track team, then he managed the football team and played on the tennis team, and the last year he ran on his class relay.

Friend of Hyde Park won the track manager election. At Manual Training High, Brooklyn, from which he graduated in 1911, he was prominent on the track team, which is one of the best in Greater New York.

Wood of San Francisco is to manage the tug-of-war. Formerly of Berkeley High, Wood later went to Denver High for three years, where he was president of the Junior class.

A motion was then passed to refrain from any ducking of Sophomores in the frog pond.

After this the meeting broke up, and as they went the new secretary-treasurer showed great promise in his new duties.

FACULTY NOTICES

The first meeting of the First Year section in English for Foreign Students will be held in 11 Rogers, on Tuesday, October 7, at 4 P. M.

The first meeting of the Second Year section in English for Foreign Students will be held in 11 Rogers, on Friday, October 3, at 4 P. M.

All students who belong in either section and who find the assigned hour impossible must report at once to Professor Seaver in Rogers 11. The English Department wishes to emphasize the fact that there must be no delay in registration.

Second Year—Courses III, V, VIII, X, XIV. Wednesday at 10.
