LAST CHANCE TO GET
RESERVED TICKETS

ALL SEATS FOR SHOW TO BE TURND
OVER TO HERRICK AFTER
TONIGHT.

Tickets for Tech Show, applied for
last week, will be held until 5 o'clock
this afternoon. After that they
will be turned over to Mr. Herrick,
and the men will have to get them
through his agency.

Up to this time very few reserved
tickets have been applied for, al-
though there was a notice in THE
TECH last Monday morning to the
effect that they would be on sale from
1 to 3, and from 5 to 6 o'clock every
afternoon this week, and that the
Treasurer Price will be in the Show
Office from 1 to 5 o'clock. This will
be the last opportunity to get tickets
from him. At 5 o'clock the office will
be closed and the remaining tickets
will be turned over to Mr. Herrick.

This afternoon and evening the
entire company and the Orchestra
will have their last rehearsal.
The men are to report there at
3 P.M.

All men who fail to attend will be
fined $1.00, and all who are late will
be fined $0.50. There will not be
a dress rehearsal tonight, as stated
before but all men will meet at the
office from 1 to 3 o'clock. This
rehearsal will be suspended at 6 o'clock,
and the men will be allowed an hour for din-
ner.

This rehearsal is exceedingly im-
portant since it will be the last prac-
tice of the entire show before the
first performances—at Northampton
on Friday night.

BIOLOGICAL MEETING.

Dr. Page Addresses Society On
Bacteria Identification.

Yesterday afternoon, at 4:15 P.M.,
Dr. Page addressed the Society on
Bacteria Identification. After
dividing the Biological Society into
Rooms 28, 29, and 30, the Speaker
said: "The Permanence of Different
Species of Bacteria is of so much
importance that it is necessary to have
a basis for identifying them.

Dr. Page has spent a great deal
of time in studying Bacteria, and has
recently published a paper on the
subject. He believes that there are
about 10,000 different species of
Bacteria, and that each species has
its own special characteristics.

The audience was much interested in
the lecture, and many questions were
asked by the members. Dr. Page
then called for the adjournment of the
meeting.

THE TECH SHOW.

The All-Technology smoker, held
last night in the Union, proved a
very successful demonstration of Tech
Spirit, and was also a splendid
occasion for Tech men to do what
they do best. When the program
began, the boys rose and sang the
ものです歌, which started things
off in the right way. Only the Shing,
not one of the guests experienced
a full meal. Songs, instrumental
numbers, recitations, speeches,
and drinks, cats and smokes fol-
lowed in rapid succession, not to for-
to the interesting athletic features of the
program. The best part of the
show was the unanimous Tech cheer
shown by all present. About one
hour after the show was over, the
audience were so enthusiastic, that
they agreed that the celebration was
the last, but that Tech has seen in a
long time.

The festivities began with a speech
by Mr. Weeks, who was introduced
by W. R. Mattson, the major domo
of the event, who stated that the
programme was to consist of a
soliloquy by Mr. Weeks, a recita-
tion by Mr. Page, and a musical
number played by Mr. Bates. The
speakers were introduced, and the
audience were so pleased with the
programme that it was decided to
have a encore to pacify the audience.

Dr. Galvin G. Page, of Harvard, ad-
ressed the society on the subject.

He said the former method
of associating with men of the same
school. He said the former method
was tried in rapid succession, not to for-
to the final singing of the Stein.

The speaker then called for the
advice of the audience, and asked
them what they thought of the
night's work. Most of the audience
said that the performance was
successful, and that they were
looking forward to seeing more
shows in the future.

Dr. Page then turned the
floor over to the audience, and
asked them to give the
speaker a hearty round of applause.

The speaker then turned the
floor over to the audience, and
asked them to give the
speaker a hearty round of applause.

The speaker then turned the
floor over to the audience, and
asked them to give the
speaker a hearty round of applause.

The speaker then turned the
floor over to the audience, and
asked them to give the
speaker a hearty round of applause.
The affair was a great success.

We thank them for the evening and are sure that we are expressing the gratitude of everyone who was present.

The scene was supposed to be laid in a real cafe, and began to call for "beer." Besides singing some of the regular songs, they got on some jokes that made the audience roar with laughter. Several of the songs were in the form of an extemporaneous speech, delivered by Mr. P. O. Cahn, called "The Father of the New Constitution," next in order. He was one of the prominent speakers of the afternoon, and his popular appeal to the great mass of the people was effective.

A speech by Mr. Cahn, called "The Father of the New Constitution," was next in order.

The affair was a great success. We thank them for the evening and are sure that we are expressing the gratitude of everyone who was present.

This need was said to be "like the river 'like a baby needs its mother's breast,' and a great deal of interest will be shown in the outcome of the match. Any one who is interested in chess, and particularly in the match, is invited to attend the tournament.

The engines are growing. This is the point where the playing is strongest. We have been active in instituting the "Wayward Trio" of coin singers. The scene was supposed to be laid in the Cafe-Wayward, which was once the Shubert's own, but is now a public house. The players, composed of Messrs. Knowles, Sabich, and Lowenberg, gave a cabaret stunt which was so realistic that some of the fellows actually thought they were in a real cafe, and began to call for "beer." Besides singing some of the popular coin songs, they got on some jokes that made the audience roar with laughter.

The engine is being exhibited as to which will be the victor in the decisive tournament. Harvard will send eight men to meet Tech, and Tech will send eight men. The following men chosen to represent Tech:

The opposing team is composed of very strong men but a good fight will be put up and the two teams are so well managed that at the end of the evening there will be no one who is interested in chess, and particularly in this match, is invited to attend the tournament.

**AL-Tech SMOKER**

(From continued Page 1, Col. 3)

Each man had to look after himself. Fortunately no one was bathful, so all managed to get at the eats and drinks some way. The Committee had thoughtfully provided glasses so the glasses did not see much service.

Sometimes more than just the enjoyment should be spoken of. The Union was more crowded than it has ever been before at any such gathering. Loyalty to the Institute through the activities is growing. This is the point where we wish to emphasize. Other activities tell the same story. More Tech men are taking applications. Many students of the Institute are attending with the "Wayward Trio" of coin singers. The scene was supposed to be laid in the Cafe-Wayward, which was once the Shubert's own, but is now a public house. The players, composed of Messrs. Knowles, Sabich, and Lowenberg, gave a cabaret stunt which was so realistic that some of the fellows actually thought they were in a real cafe, and began to call for "beer." Besides singing some of the popular coin songs, they got on some jokes that made the audience roar with laughter. A parody which expressed the eagerness of Tech to combine with Harvard brought much applause, for said, among other things, that we needed the institution across the river "like a baby needs its mother's breast," and a great deal of interest will be shown in the outcome of the match. Any one who is interested in chess, and particularly in the match, is invited to attend the tournament.

When the guests had obtained their refreshment and had returned to the big room to enjoy it, they were entertained by the "Wayward Trio" of coin singers. The scene was supposed to be laid in the Cafe-Wayward, which was once the Shubert's own, but is now a public house. The players, composed of Messrs. Knowles, Sabich, and Lowenberg, gave a cabaret stunt which was so realistic that some of the fellows actually thought they were in a real cafe, and began to call for "beer." Besides singing some of the popular coin songs, they got on some jokes that made the audience roar with laughter. A parody which expressed the eagerness of Tech to combine with Harvard brought much applause, for said, among other things, that we needed the institution across the river "like a baby needs its mother's breast," and a great deal of interest will be shown in the outcome of the match. May Be-Had by Men Who Have Paid Up at the Cage Any Day Next Week.

A meeting of the Junior Prom Committee was held yesterday, at which it was decided that invitations for the Prom might be obtained at the Cage every day during the week. This idea was given out to men who have not paid their six dollars. This may or may not be paid at the time of getting the programs. Tickets may also be obtained them.

An innovation will be introduced this year. Those depending upon the committee to notify one of the members as soon as possible.

CROSS-COUNTRY RACE.

Freshman and Sophomore Teams
Meet This Afternoon.

The annual Freshman-Sophomore cross-country meet will be held this afternoon. The team will leave Buck Hall at 3 o'clock for the cross-country track. From past performances it seems safe to give Benson '19, the first place, unless he is again the victim of an unfortunate accident like that of last Saturday. The second place should go to Wall, '20, who has been working regularly at the Field. To most of the other runners the course might be fatal, but Wall's experience should effectually counteract the difficulty.

A Course IV Student.

PROM, INVITATIONS

The Prom Committee is also busy. Last week, the decision was made to hold the prom at 5 o'clock on that day of days, Saturday, April 9.

The committee has been trying to secure an excellent speaker for this meeting. It is not an easy matter to get someone who can talk on this subject, but the committee has decided to give the best talk they can get. The guests will be entertained by the students who will be present at the meeting.

SPRING TENNIS MEET.

Arrangements for the Annual Tournament Being Made.

With the coming of warm weather the tennis enthusiasts are busy planning for the Spring season. The tennis courts in the Field are being repaired, and it is hoped that some arrangements will be made for a fine day of play. The tennis club may be a little busy with the number of players.

A Spring tournament consisting of preliminary rounds will be held this year, as usual, to determine the eight men who will be eligible to compete in the final tournament. This will be a successful event, and it is expected that the best known tennis players in the world will be present.

The winners of this tournament will be invited to participate in the Intercollegiate at Longwood. Meetings have been arranged with Harvard and Tufts.

MINING SOCIETY.

Professor Lindgren to Address Meeting on April 9.

Wednesday afternoon, April 9, at 4:15 P.M., Prof. Wadsworth Lindgren, the head of the Department of Geology, will address the Mining Society at its meeting in Room 11, Blue, on "Mining Interests of Mexico." Prof. Lindgren has just returned from Mexico, where he was engaged in making a study of the mining industries of that country. His report will be brought about by the late revolution, which has greatly affected the mining interests. The report will be of great importance to the students of the Mining Society, and it is expected that it will be a very interesting and informative meeting.

COOK is handicapped.

The track meet between the Tech and Tufts Freshmen has been indefinitely postponed. This meet was to be held on the Tufts track on the afternoon of April 9.

Embarrasments have arisen which have prevented the meet. It is expected that the meet will be held later in the season.

Wireless Men Hear Interesting Talk

Mr. A. A. Merrill talks on Use of Wireless for Air Crafts.

Yesterday afternoon the Wireless Society had a meeting in Room B, English building, at which Mr. A. A. Merrill, who gave an informal talk about the application of wireless telegraphy to flying was present.

Mr. Merrill first explained how an aeroplane is equipped with long thin wire below the aeroplane and long thin wire to the dirigible. He explained how the dirigible offers many advantages for wireless communication. The installation of wireless apparatus has been satisfactorily accomplished, and the dirigible offers many advantages for wireless communication.

Announcement was made of the giving of an exhibit of the Institute Wire
crafts which is to be held in Pierce Hall, Harvard, Saturday evening, May 1.

WRESTLING MEET.

Novice Entry List Gradually Increasing—Big Crowd Wanted.

Friday, April 11, there will be held at the varsity court among the Freshmen. This meet is distinctly a novice meet, and everyone is invited to come out because of a lack of knowledge of the sport. These men are the ones who have not attended wrestling matches. They are the ones who have not attended wrestling matches. These men are the ones who have not attended wrestling matches. These men are the ones who have not attended wrestling matches.

So far few entries have been received, except from a few who are close friends of the individuals. The entry list closes on Thursday, April 11.

In Wireless, Nothing Is Learned, but Everyone Is Entertained.

The story of the counterman who blow up his hand when the lid of the stove doesn't sound strange now to the burner, in the MSF MP WSMF WWF, is a story that has been told to attempt to blow out the burner burned his hand. He lit another burner, in the Chem Laboratory.

TECHNIQUE SIGN-UPS.

Seven hundred and fifty of the total of one thousand applications have been received by the chairman. Signups for the remainder will close Thursday afternoon at 5 o'clock.

PICTURE of the Commissioned Of-

icers of the Cadet Corps will be taken
in the center of the room and mats
were laid down for a wrestling bout.

The contestants were: H. W. Treat,
captain of the Wrestling Team, and
A. U. Walter. After the six minute
match no snapping wrestler neither
man seemed to have the advantage and
a third bout was necessary for a dec-

tion. The bout got the decision by a fall
after two minutes of the third bout.

The two men were then matched in a
"Chinese" bout. For this form of con-

test the men are blindfolded and

made to lie down on the mat, each
groping the same way with his left hand

and having a roll of newspapers in the

other hand. When "Time" is called

each wrestler with all his might, trying
to lead a falling blow on some part of

his opponent. This bout may be enter-

tainingly to students as well as the

spectators. No one was seriously hurt,

as most of the blows landed on the mat.

The last to the number was a select-

tion by a sextet from the MAphonic

Club, which rendered "In My Harms," and

gave a realistic imitation of a bagpipe

concert. One of the mem-

bers played a novel instrument re-

sembling a 'cello but having only one

string, which produced some unusual

sounds. The singing of the "Stein Song"

closed one of the most successful social

gatherings ever held in the Institute.

The first tennis enthusiasts were

asked to leave the court.

after two minutes of the third bout.
