

THE TECH

VOL. XXXIII. NO. 41.

BOSTON, MASS., FRIDAY, OCTOBER 3, 1913.

PRICE TWO CENTS

FRESHMEN RECEPTION BY T. C. A. TONIGHT

Refreshments, Speakers and Entertainments To Be Provided.

Tonight at 8 o'clock in the Union annual reception to the Freshmen will be given by the Technology Christian Association. This is an annual affair, and it is practically the first opportunity for the Freshmen to come out and get acquainted. The social tonight will not be a strictly Freshman gathering, and it will be attended by men of all classes.

The T. C. A., one of the largest student activities at the Institute, is well capable of giving the Freshmen a good time, and the officers of the Association have been busy arranging the program for tonight. Refreshments will be served, and several speakers will be on hand to hold the attention of assembly. Among these will be Dean Burton, whose friendly talks are always heartily welcomed by the students. Mr. L. R. Talbot, the General Secretary of the T. C. A., will also speak to the Freshmen, and he will very probably introduce to the students Mr. Frederic H. Blair, his new assistant. Mr. Blair, who is a graduate of the University of Minnesota, and who has already had several years' experience in college Y. M. C. A. work, will undoubtedly have a few words to say also.

Of the undergraduates, T. H. Guething '14 and A. C. Dorrance '14 will give talks, telling the new men interesting facts in regard to the various student activities. Plenty of music will be furnished, and the Freshmen will be given their first taste of Tech songs.

The officers of the T. C. A. hope that not only a large number of Freshmen, but also a good proportion of the upperclass men will attend the meeting. The T. C. A. wishes to give the entering class a good reception, and by active co-operation on the part of the other classes, the affair will undoubtedly meet with great success. The social is free to everyone in the Institute.

CROSS COUNTRY WALK

All Cross Country Men Expected To Report.

The first training walk of the year for Cross Country Men will be held this afternoon. There will be two squads, one leaving the Gym at 4.00 and the other at 5.00. Both squads will return to the Gym, so bags, books and coats may be left there. As this is the first walk of the year, and part of the regular training, all Cross Country Men should attend.

FRESHMAN MEETING

A Freshman class meeting will be held in Huntington Hall today at 1 o'clock. All Freshmen are expected to attend as some very important business is to be transacted. Among the matters that will be taken up is the adoption of the class constitution. The meeting will also be for the purpose of getting up some class spirit for the Freshman dinner on Saturday night.

SOPHOMORE FOOTBALL WELL UNDER WAY

Signal Practice Gone Through Yesterday—Meet at Gym Today.

Sophomore football practice is well under way and the indications point toward a strong team. Yesterday afternoon, in spite of the unfavorable weather, the squad ran through easy signal practice under Manager Buxton's direction. There are quite a few men already signed up as candidates for the backfield positions, but the line is sadly in need of new recruits.

Many of last year's team have withdrawn from the Institute and without more material from which to pick a team it will be impossible for the coach to turn out a winning eleven.

Manager Buxton promises to have a coach at the gym for tomorrow's practice, and it is his request that every

RECEPTION BY TECH CHAPTER OF ST. ANDREW

Tech Men Welcomed To Trinity Church—Weekly Conferences To Be Held.

Last evening the Tech Chapter of the Brotherhood of St. Andrew held an informal reception for new students at Trinity House. About forty men attended and were well received by Mr. Van Etten of Trinity and by Mr. Kneeland, director of the Tech Chapter. After the men had started their cigars and had become acquainted with one another Mr. Kneeland gave a short talk of welcome to the new men. He said in part that the reception had been made possible through the kindness of Doctor Mann, rector of Trinity, who had offered the use of Trinity House for the reception.

The house will be open every Tuesday evening to all Tech men. On

1913 FOOTBALL TEAM

available man turn out with football clothes to start work.

TECH CHINESE STUDENTS

Tech Men Take Prominent Part At Cornell Conference.

At the Annual Chinese Students' Conference, which was held this year at Cornell University, Ithaca, Technology was represented by a delegation of eleven men. The following five were elected to office: T. C. Hai, Vice-President; W. G. Loo, Treasurer; V. F. Lam, Chief Manager of the Chinese Students' Monthly; C. C. Chu, Editor-in-Chief of The Chinese Students' Quarterly; M. C. Hou, Chief Manager of the Chinese Students' Quarterly; Z. Y. Chow, Councilman.

In the past five years Tech men have always been the most prominent and useful members of these Conferences. Nine of the Tech men have served on the various committees during the last year.

The annual T. C. A. reception to the new men promises to be interesting.

these evenings there will be a series of conferences, the program for which may be obtained from Mr. Kneeland, 44 Walker. He also emphasized the importance of each man choosing a church to attend regularly, and making himself known to the clergy.

Mr. Kidner of Trinity Church next gave a hearty welcome to the men. Mr. Van Etten seconded the welcome and mentioned the two pews which are at the service of Tech men, Nos 107 and 114. If those who desire to attend will tell the usher that they are Tech men they will be conducted to one of these pews immediately.

After the speakers had finished, everybody adjourned for refreshments.

If you are at all interested in journalistic work THE TECH can see you. Leave your name in the copy box beside the door of the lower office in the Union.

WEATHER

For Boston and vicinity: Fair, with brisk to high westerly winds.

FIRST MEETING OF FINANCE COMMITTEE

Freshman Expenditures To Be Limited—Next Meeting October Ninth.

Last night the Finance Committee held its first regular meeting of the year with twelve undergraduate activities represented. Mr. Litchfield and "Pa" Coburn of the Advisory Committee were also present, crammed with suggestions for the improvement of the student organizations. Reports from the Classes of 1914, 1916, and 1917, THE TECH, Technique 1914 and 1915, Tech Show, 1913, the M. I. T. A. A., the Cosmopolitan Club, and the Architectural, Electrical, Civil and Chemical Societies were informally presented.

The reports from the classes were received with considerable comment. The Class of 1914 had over \$300 on hand from last year, and its treasurer has already collected about \$150 more. The Class of 1916 has kept out of debt during its Freshman year. The Treasurer of 1917 was present, and received many suggestions from the Committee. No debts contracted by members of the class will be paid from the class treasury unless previously authorized by both the temporary chairman and treasurer. A list of authorized collectors of dues will be posted by the treasurer within a few days.

It was voted that the treasurers of all activities have their books at the outside Show Office for an audit by Mr. Greene, the paid auditor employed by the Show. The date of this audit will be announced later.

It was voted that Palmer and Keith constitute a committee of two to report on special receipt books for the use of the classes and activities. It was also voted that a representative from the Boat Club and a representative from the Hare and Hounds Club be asked to attend the next meeting of the Committee, which will come next Thursday night, Oct. 9, in the Union. At that meeting written reports from all treasurers up to Oct. 1 are desired.

In connection with the report from THE TECH it was suggested that a systematic canvass of the whole school be made, such as was carried out by Technique 1914. It was also suggested that the members of the Committee keep in mind the needs of the paper, and try to interest men in the work of the Institute daily.

CALENDAR

Friday, October 3, 1913.

1.00—Sophomore Board Meeting.
1.00—Tennis Meeting—22 Rogers.
4.00—Training Walk for Cross Country Team.
4.15—Boat Club Meeting—Union.
5.00—Training Walk for Cross Country Team.
8.00—T. C. A. Reception to New Students—Union.

Saturday, October 4, 1913.

2.05—Hare and Hounds Run—Leave Trinity Place for Newton.

6.30—Freshman Dinner—Union

Monday, October 6, 1913.

5.00—1914 Board Meeting—27 Rogers.

FRIDAY, OCTOBER 3, 1913.

Tonight the first real Technology social affair of the new year occurs, taking the form of a reception to new students, given by the T. C. A., and it is distinctly the duty of every man, not only of the entering class, but of the school at large, to be present. The evening will not have been a success unless every man is made to feel at home, to feel that he is a Tech man, and as such, is welcome. To accomplish this the co-operation of every man of the upper classes is not only necessary but is imperative.

As regards the attendance of the Freshmen and other new students, we take it as a matter of course that they will be present, for the opportunity is one they can ill afford to miss. Dean Burton, always an interesting speaker, will address the meeting and will be ably seconded by T. H. Guething, '14, the captain of the track team, and A. C. Dorrance, '14, editor-in-chief of last year's Technique. Both of these men are good speakers and can give you an inside view of Tech's activities. Tech songs will be sung and Tech spirit will run high. Get rid of the idea that Tech is a place for work and drudgery alone; come to this meeting and get your first glimpse of the heart and spirit of the school of which every Tech man is proud.

TENNIS MEETING TODAY

Postponement From Yesterday Necessary.

Owing to unavoidable conflicts the tennis meeting scheduled for yesterday was postponed until today. The meeting will take place in 22 Rogers at 1 o'clock. The business will be to elect officers for the year 1913-14 and to announce important plans regarding the fall tournament which will be of interest to all men in the Institute who contemplate sending in their entries.

FRESHMAN DINNER ON SATURDAY

A Large Number Are Expected To Be Present—Sale of Tickets Stops Tonight.

The Freshman Dinner that will come Saturday at 6.30 is the one thing that all 1917 men should attend if they want to get a glimpse of their first bit of real Tech life. Tech spirit will be the one thing that characterizes the meeting. From the very start to the finish there will not be one dull moment and the Freshman is assured that he will not find the evening wasted. Mr. Colton is going to supply the dinner and THE TECH the speakers. Those in charge have picked out a list of speakers that will portray undergraduate life and the different activities at the Institute.

Tickets are on sale at the Cage and at THE TECH office and by the temporary officers of the class. A large number are expected to attend. The sale of tickets closes tonight at 10.30, and all those that have not bought them by that time will be unable to get them.

1912 TECHNIQUE

Technique Board Announces Contributions From Profits.

The Technique Board of the class of 1912 has announced that they have made the following contributions from the profits of the publication of Technique 1912:

On December 6, 1912, a deficit of the 1912 Class Day Committee amounting to \$120,000 was paid.

On April 1, 1913, a deficit arising from the publication "Concerning M. I. T." amounting to \$75.00 was paid.

The balance of the profits was turned over to the class fund of the class of 1912.

CHEMISTS MEET TODAY

Important Meeting Called To Adopt New Constitution.

The Chemical Society will hold an important business meeting, the first this year, this afternoon at 5 o'clock in 23 Walker. The chief object of this meeting is the adoption of a new constitution. One of the main features of the new constitution will be the increase in the Society dues. Formerly the yearly assessment has been only 50 cents, which was not enough to conduct the organization as well as the officers desired. With the dues raised to \$1.00 it is very probable that the Society will become the foremost in the Institute, as well as the largest. There will also be other changes made, which will greatly facilitate the carrying on of business.

Nominations for a new member of the Program Committee, to be elected from the Senior class, must be at the Cage before 4 o'clock, October 8. The election will be held shortly after this date, the new officer filling the place of Watson '14.

CREW MEETING

A meeting for all those interested in crew will be held in the Union this afternoon at 4 o'clock. Everyone that is at all interested in the sport is invited to attend and learn about the Institute crew. An election of officers for the coming year will probably be held at the meeting. The prime object of the meeting will be to discuss the fall rowing and the plans for the spring crew, as well as to get a line on the crew material now in the Institute. There is some talk about entering a four-oared shell in the races on the Charles on Columbus Day, but nothing definite has been decided.

MORE TRACK MEN NEEDED FOR INSTITUTE TEAMS

Captain Guething Makes a Call For
Men For Indoor Relay
Teams.

Candidates for the Sophomore and Freshman Relay teams have turned out in fairly good numbers, although there is still a great need for more men. The Sophomores are few in number, but those that are out, are working hard to turn out a team which will be able to lower the record of 4 minutes, 57 and 2-5 seconds, held by the class of 1914.

Captain Guething is very anxious to see more of the regular track men out for practice. So far but few of these men have turned out, and as Coach Kanaly desires to pick the indoor relay teams as early as possible, the preliminary practice at this season of the year is very advantageous to every man.

The regular Fall Interclass Handicap Meet will be held either October 25 or November 1, and Mr. Kanaly is at the field every afternoon to coach the men.

T. C. A. SOCIAL WORK

Hughes, '15, Outlines Plans For
Settlement Classes.

The T. C. A. is to continue the work in social service which it has carried on for some years past. Plans for the season were outlined last evening at the meeting of T. C. A. Advisors by David M. Hughes, '15, who will have immediate charge of the work.

The work consists in teaching classes at the Italian settlement at 207 North street. There will be classes in English, and instruction will probably be given in civics also. The latter is intended for foreigners who have already taken out their first naturalization papers.

Although the teaching is being undertaken by the T. C. A., the Boston Y. M. C. A. will have general supervision over the classes. Last year the Tech social service workers did not accomplish as much as they might have, on account of failure of those in charge at the Y. M. C. A. to attend properly to the work. This year, however, Mr. Claghorn, head of the Y. M. C. A. social work, is in charge and no trouble is anticipated.

In the course of his talk Mr. Hughes called for volunteers from the students. Up to now six men have responded. The T. C. A. officers consider this a gratifying showing, but there will probably be an opening for several more men.

FRESHMAN TUG-OF-WAR

The 1917 tug-of-war team is practicing every day at the gym. As yet but very few men have shown up for practice. There is a good chance for twenty-eight Freshmen to win their numerals on Field Day if a better team than what the Sophomores turn out can be got together. The numerals are awarded to the twenty-five men that pull the counter and two substitutes of the winning team. Manager Wood urges all men that can to turn out daily at the gym at 4 o'clock for regular practice.

SHOW BOOKS DUE

The time for handing the Tech Show Books expires today at 5 o'clock. The books or outlines are to be handed in at the Show Office and Hughes, the stage manager, will meet the men there.

NO SPECIAL ENGLISH FOR THE TECH CANDIDATES
The Special Section Will Not Be Continued This Term.

Professor Arlo Bates, head of the English Department, stated today that the special English course for Freshmen on THE TECH will not be given during the first term of the school year. Doubtless many of the Freshmen will be interested to know that the Institute last year arranged a special course in English, which could be substituted for the regular course in the curriculum.

The work in the course consisted primarily of instruction in journalism, and of writing news articles for the Institute daily paper. A certain amount of work is required of all the members of the special class, and credit is given for the quality and quantity of work done. Last year enough men entered the course to warrant its continuance throughout the last term, and the work done was of considerable benefit to the men as well as to THE TECH.

The course is conducted by Professor Bates personally, and he made the course extremely interesting and instructive last year. Professor Bates stated that the course could not be substituted during the first term for the reason that the regular first term course in English and logic was absolutely essential, and had to be taken by all first year men.

The Cross-Country Team will shortly be chosen. Many men are in training with a view to securing a place on this team.

The firms who advertise in THE TECH are good firms to deal with. Please mention the paper when dealing with them.

FACULTY NOTICES

Physical Laboratory Reports.

Students desiring to keep their last year's laboratory reports may obtain them by applying to assistant in Room 16, Walker.

Reports remaining uncalled for after October 16 will be confiscated.
 H. M. Goodwin.

Precision of Measurements.

A special course of lectures covering the work of this course will be given to students entering from other colleges, two hours a week for five weeks at 4.05 P. M. in Room 23, Walker. First lecture Friday, October 3. Hours for subsequent lectures will be arranged at that time.
 H. M. Goodwin.

The class in Advanced English Composition will meet on Thursday afternoons at 4 o'clock. The first meeting, however, will be on October 9.

The Short Course in Organic Chemistry (550) will meet for the first time on Friday, October 3, at 12 M., in room 24 Walker. Text book, Moore's "Organic Chemistry." (4t)
