The third set was won by Harvard when E. R. Bate scored 2/2 to 1/1. The deciding set of the series was played last night, and eight men participated. The match started early, and the first victory went to Woodbridge when C. H. Bates defeated D. W. Grant 4/1. The second was won by Harvard when E. H. Taylor defeated P. H. Sackett 4/1. The next game, which was between L. E. H. Hart of Tech and D. H. Harris of Harvard, resulted in a draw. This made the score 2/2 to 2/2, so that neither team could have the I. T. Boat Club's eight points which are engaged in maling surveys and determining boundary lines, and was thus engaged in many other ways, including the construction work along the Panama Canal. These pictures were taken on the screen and were very interesting as they gave one a fine idea of the nature of the country and the work which is being done in connection with the fruit industries.

A. Kitz and R. A. Allen then gave an encore, declaiming on the guitar and mandolin, which had to be supplied by a sophomore. Mr. T. C. Polley sang the Scottish song and the Norwegian National Anthem on his flute. These were very well appreciated because it showed that the performer was not confined to music of his native land.

This week will also be a busy one for the Boat Club, who conducted the rest of the program. During the song rehearsals some of the men were very well appreciated because it showed that the performer was not confined to music of his native land.

CONCERT AT EVERETT. Next Wednesday, April 9th, the Student Club will give a concert at the Everett High School on Union Street, in Everett. A special car will leave Cambridge Centre at 7.25. It is planned that all the members will be on hand that evening, as this is the last concert of the season, and the new music will be given a try-out.

PROGRAMS AND INVITATIONS CAN BE OBTAINED IN UNION TODAY. Programs for the Junior Prom can be obtained in Union today from members of the committee at table. These programs, invitations, and tickets, will be issued at different times for the different classes. This year the programs were made by E. E. H. Wright of Philadelphia, and they are entirely new in design and are quite novel. Programs may be obtained every day from 2 to 2 o'clock, except Saturday, when they are obtainable from 12 to 12, in the Union. The committee has made special arrangements for chaperons, and it hopes to have as many attending as possible.

CALENDAR. Monday, April 7, 1913.
12:00-2:0, B. Society Meeting-Masons Hall.
4:00-Freshman Baseball—Mandel.
4:15-M. B., Freshman Affiliated.
6:00 — Meeting of News Staff of THE TEC.H—THE TECH LOVER OFFICE.
Tuesday, April 8.
10:45—Class Meeting—Mandel.
11:30—Meeting of News Staff of THE TEC.H—THE TECH LOVER OFFICE.

M. E. SOCIETY MEETS THIS AFTERNOON

Mr. Ralph E. Curtis of the Edison Co. will address Meeting in 11 Engineering B.

This afternoon at 4 P. M. in 11 Eng. Mr. Ralph E. Curtis will address the Mechanical Engineering Majors on "Mechanical Drawings and the Drawing Office." The talk will deal with the purpose of mechanical drawings and how they are made and used in actual practice.

Mr. Curtis is a member of the class of 87, M. I. T. and after his graduation came back here as an assistant, a position which he held for some time. After he left the institute he became connected with the Babcock & Wilcox Co., boiler manufacturers. He is now with the Edison Electric Illuminating Company of Boston.

APPLICATIONS NOW DUE.

Scholarship Applicants Should Present Data by Friday.

All applicants for scholarships for the coming year (excepting State scholarships), should immediately submit all applications to the Faculty House, and send them to the State Board of Education. Applications close Jan. 31.

The Sophomore Baseball team rescued a game with the so-called "All-Stars" of Cambridge Latin School, to be played at tech Field last Saturday afternoon. According to their agreement the Cambridge nine and substitutes appeared at the Field and began practice preliminary to the game. The Sophomores did not appear.

Without being too critical we disapprove of such management. Grammar school teams fail to "show up" remissly, but college baseball is really free from such incidents. It takes but a very elementary sense of justice to see that the "All-Stars" did not get a square deal. They saw it and with the inconvenience that they had undergone, in mind, they formed a poor opinion of the "Tech"Sophia.

The game wasn't a very important one for the tis team, and the men had an afternoon off, so there wasn't much harm done. Very pretty, but how much good did the Institute get out of it? The Cambridge boys went back to their school and the report which they spread gave us at best the impression of "poor sports.

We dislike to have this column written, but we regret that the incident cited has to appear here. The obligation of the activities to the Institute is their first obligation, and an attempt to forcibly present this principle have failed to the above.

Remember the Sophomore-Freshman track meet Saturday. Admission Free.

Sunday afternoon canoeing is becoming more popular as the weather becomes warmer.

Everybody out to see THE TECH in trin techniques.

Some enthusiasm shown at the All-Tech Smoker.

MACULAR PARKER COMPANY

gives special attention to clothing boys and young men for school and college. Their styles and fabrics are of the latest and the clothes ready for immediate use, or made to order—are designed and manufactured by experts in work-rooms on the premises.

HERBERT H. BARNES, Proprietor
REV. N. VAN DER PYL
Next T. C. A. Speaker
Haverhill Pastor Will Speak On
"Phases of the Industrial Problem." Thursday.

At the regular weekly T. C. A. talk in the Union last Thursday, Rev. Nicholas Van der Pyll will be the speaker. Rev. Van der Pyll is pastor of the Congregational Church in Haverhill. The subject of his talk will be "Phases of the Industrial Problem."

Mr. Van der Pyll is a widely known speaker and is a recognized authority on social problems in general. He was one of the members of the commission appointed by the Congregational Churches of Greater Boston recently to investigate the great Lawrence strike situation. Mr. Van der Pyll is very active in all kinds of social work; he is one of the official lecturers of the Twentieth Century Club of Boston, a well known organization, noted for its extensive work in civic betterment. These facts are ample evidence that the officers of the T. C. A. have secured a prominent, and excellent speaker, one well worthy of the support of the student body.

The talk should be of some importance to Tech men, since, as engineer, they will some time be faced by difficult problems of the nature of those upon which Rev. Van der Pyll will speak.

COSMOPOLITAN CLUB.
(Continued from Page 1.)

Mr. Cadenas then introduced T. L. Custer, a student at the Institute, whose home is in Dayton, Ohio. On hearing the vague and indefinite reports as to the condition of the country in the South regions, and not being able to obtain any definite news from his parents or Mr. Custer decided to go home and investigate for himself. Accordingly, he made his journey on the train, during which time he faced by difficult problems of the nature of those upon which Rev. Van der Pyll will speak.

FRESHMEN WIN.
(Continued from Page 1.)

for the evening.

The baseball season is upon us. Get out and root for your class teams.

At last the six weeks' reports have arrived, and many and numerous are to be seen among the Freshmen.

MINING SOCIETY TO MEET ON WEDNESDAY
Professor Lindgren, Head of the Department of Geology, to Speak.

On next Wednesday afternoon, at 4:15, Professor Waldermar Lindgren, the head of the Department of Geology at the Institute, will address the Mining Society in L. Eng. B, on "The Mining Interests of Mexico." Professor Lindgren has just returned from Mexico, where he has been detailed for the last three weeks because of the late revolution. It is expected that the talk will not be confided wholly to the subject of the mines there, but will also deal to some extent with the news of the revolution which he has acquired during his stay in Mexico.

Professor Lindgren was formerly Chief of the U. S. Coast and Geodetic Survey and is one of the best known economic geologists of the present day. In his professional work he has carried on a great deal of research work which has been of much value to the science of Geology.

The meeting is open to all courses and the officers expect a large attendance, for Professor Lindgren is well known as a speaker at the Institute, and his subject is one of interest to all.
