Latter Goes to Washington—New Professor at Tech

Dr. E. B. Phelps, who has resigned his Associate Professorship in the Biological Department, is to go to Washington in the employ of the U. S. Public Health Service in the continuation of lines of work which he has carried to such successful ends in his private capacity as a sanitary engineer. He is a man largely responsible for the use in the country of hypochlorites for the purification of water supplies and the treatment of sewage. As a sewage expert he has few if any equals in the country and was called to New York for a survey of the situation there. The whole adjacent country, New York state and New Jersey were about to use New York harbor for a dumping ground for sewage. His report incorporated in that of Col. William Black, U. S. A., presents a practical means of lessening the difficulties and eliminating the dangers to the public health. His latest achievement, that of furnishing co-operative health administration to adjacent rural communities and bringing the public health situation and seems to be one of the most important steps in advance in such matters of the time.

Robert Spurr Weston, who will take Dr. Phelps' place is Head of the Physics Department at the Institute. He entered the Union for D. E. Weston and myself over the Cage telephone to place as a personal favor to have papers, on the ballot for the election that is to be played in the Union to give their views of the situation in order to grant personal favors until Raymond Lowery and Raymond Lowery. The present controversy between certain members of the Governing Board and the Election Committee is a mereUndeserving of the Massachusetts Peace Society, and is an active member of the Filene's Smokefield Committee. The vote of the Sophomore club was held Friday afternoon and the two sets of votes were not for the next Thursday noon. That the American Peace Foundation is a member of the Massachusetts Peace Society, is an active member and is attracting so much attention that present, next Thursday's talk will undoubtedly draw as large a crowd as last year's talk by Mr. Pri-vat.

COMMUNICATION

To the Editors of THE TECH—

This communication is to explain the position of the Sophomore Election Committee with regard to the nominations for the Sophomore Class officers.

Our Election Committee accepted all nominations turned in before the polling closing hour of 5 P. M. Thursday. We have accepted none since our policy has been to take the Constitution strictly, and in justice to all nominees, exclude late nominations. In following this policy, we refused to break the Constitution in order to grant personal favors.

The election results at the meetings in the past have put many difficulties in the way of the completion of the tennis tournament. Major Briggs has announced, however, that the courts at the Field are now in good shape, and the Weather Man promises us a very speedy relief.

Meadows Ready

The inclemency of the weather of late has put many difficulties in the way of the completion of the tennis tournament. Major Briggs has announced, however, that the courts will be open and the Weather Man promises us a very speedy relief.

Mandolin Club Rehearsal

The second rehearsal of the Mandolin Club was held in the Union yesterday at 5 o'clock, and the two selections that are to be played in the first concert that were rehearsed. The arrangements were under way to have the Mandolin Music Club give a concert in combination with the musical clubs of some other college, either Tufts or Maine.

Both tug-of-war squads have been materially decreased of late, largely due to the weather.

MECHANICAL ENGINEERS

SMOKER FIELD FRIDAY

Date Changed From Wednesday To Friday Evening—T. K. Cory

The Mechanical Engineering Society will hold its first smoker of the year on Friday, Oct. 24th, instead of Oct. 22d, as previously announced. It will be called to order at 8 o'clock in the Union.

This smoker will be very informal and the program which has been arranged is expected to be very enjoyable as well as instructive. T. K. Cory, vice-president of the Filene's Smokefield Committee, will be the principal speaker of the evening, and some of the members of the Mechanical Engineering Faculty will be on hand to say a few words.

The program includes music by some of the best talent in the Institute.

Today and Monday evenings, at 7 P. M., the sophomore and junior classes of the Freshman Society, in addition to being present at this meeting, will be a special meeting of the Institute Committee in room 116. At this meeting the Sophomore ballot difficulty will be taken up and straightened out. Representatives of the 1916 Governing Board and Ballot Committee are requested to be present to give their views of the situation.

At this meeting the plans for "Tech Night" and the disposal of the remaining copies of the first issue of "Concerning M. L. T." will also be taken up.

The attendance at the meetings in the past has not been large, but a full attendance is desired today for the subjects to be taken up are of the utmost importance.

1917 RELAY TRIALS

On account of the unfavorable weather, the Freshman Relay trials, which should have been held yesterday, were postponed to this afternoon.

CALENDAR

Tuesday, Oct. 21, 1913.
4.00—1914 Ballots Due—Cage.
4.00—1917 Relay Team—Field.
4.00—1917 Rifle Club—Field.
4.00—1917 Tag-of-War—Oval.
4.00—1916 Relays—Field.
4.00—1916 Ballots Due—Oval.
4.00—1916 Tag-of-War—Oval.
5.00—Candidates for Business Manager—Tech Show Office.

Wednesday, Oct. 22, 1913.
4.00—1915 Ballots Due—Cage.

Thursday, Oct. 23, 1913.
1.00—Rifle Club—Field.
2.00—Cage Telephone.
3.00—T. C. A. Speaker—Union.
4.00—Lowell Lecture—Huntington Hall.
L. P. HOLLANDER & COMPANY

Within an easy five-minute walk of Tech, technology may be found the most exclusive and complete Men’s Clothing Department in Boston. We cater to the man whose taste calls for distinctive clothes and who appreciates quality and value in materials and styles. Yet our prices are all as reasonable as the standard which we maintain allows. A good many Tech men are among our regular customers and we trust that this year will find many more, as we feel sure that everything purchased of us will give full satisfaction.

HANDBOOKS AT UNION

Books of Scientific Interest

To be Distributed Gratis.

Through the kindness of Mr. Wells, assistant registrar, there will be placed at the Cage some tie to-day about two, hundred copies of the "Handbook of the Principal Scientific Institutions of Boston and Vicinity." These books were printed by a congress of the "American Society for the Advancement of Science" which was held in this city seven years ago. The book covers the subject fairly exhaustively, treating such topics as the Metropolitan Park System, the geographical features of Boston and vicinity, etc. In view of the facts that the number of these books is so small and that they have not been printed wholly without expense, it is hoped that nobody will take one of them unless he is desirous of obtaining it. Copies will be distributed free so long as the supply lasts.

COMMUNICATION

To the Editors of THE TECH:

Dear sir—We are supposed to learn in our experimental work here not to accept results which we do not justify. A recent editorial in THE TECH is characterized by a sad lack of appreciation of this fact. The editorial criticized the lack of class spirit, as shown by a certain Course in the matter of payment of dues. This criticism was due to the remarks of a person who is qualified to speak of only a few of the members of the Course. He thinks that because none of those expected to pay dues to his class have paid up (to his knowledge) the same applies to all the rest. THE TECH, greedy for news, reports of accuracy, accepted his statements at their face value without stopping to test them, even though it protests vigorously against the narrow-mindedness of the Tech man.

No effort has been made to collect dues from the men of this Course. The treasurer should have no trouble in finding its members all collected at readily ascertainable hour in the main room devoted to their work, yet they have been consciously absent from that room. One, indeed, sent a deputy to collect the dues from one class and, when the deputy was not received, pleaded lack of time as his excuse for not appearing in person. A very good excuse for failure to perform one’s duty to one’s class, especially when that duty means seeing a dozen men all within a radius of fifty feet. The Course is highly honored by its comparison to the Sophomore Class. THE TECH has shown by its remarks about the Sophomores a remarkable ability to jump at conclusions, and the editorial above mentioned merely serves to further illustrate that ability. Field Day is an interclass affair, the affairs of a Course are not intercourse affairs. Our Course is able to manage its own affairs without outside help or advertising, and we intend to continue to do so.

We hope that before THE TECH'S informant makes remarks about other matters which concern him but slightly, that he will see that his knowledge is not inversely as his interest.

Yours truly,

A. L. T.

Course XIII.

CHANGES ANNOUNCED

Executive Committee Accepts One

Resignation—Several

Appointments.

President Maclean has announced

officially that the Executive Commit-

tee has taken action on the follow-

changes in the Institute's in-

struction force.

RESIGNATIONS—Dr. Earle B.

Phelps, S. B., Associate Professor of Research in Chemical Biology, and

David A. Gregg, Instructor in Pen

and Ink Drawing.

APPOINTMENTS—Robert Soper

Wetson, B. Sc., A. M., M. I. T. '95, to be Assistant Professor of Public

Health Engineering, replacing Pro-

fessor Phelps.

Carl X. Anderson, assistant in Min-

ing and Engineering and Metallurgy.

James G. Russell, assistant in Med-

ical Engineering.

W. L. Whitehead, assistant in Ge-

ology.

Ralph G. Overland, Instructor in Mechanical Drawing, replacing Mr.

Gilson, resigned.

John B. Bird, assistant in Drawing and Descriptive Geometry, replacing

Mr. Duncan.

G.loooney, assistant in Physical Training.

In the department of Architecture

three teachers have been added be-

side Mr. Le Monnier—

Edgar L. Williams, assistant Pro-

fessor of Architecture, and W. T. Ald-

rich and Charles Everett, instructors in Architecture.

The Institute as usual makes use of

its best product, Mr. Weston being

an alumnus of twenty years' stand-

ing. Messrs. Russell and Whitehead in the class graduated in June, while the

three architectural men are of '08, '07, and '06.

TECH SHOW ORCHESTRA

Musical Rehearsal Held This After-

noon at 5 in the Union.

This afternoon at 5 we all men who

are coming out for the Tech Show

Orchestra will meet in the Union for

rehearsal. Candidates are expected to

bring their instruments as music

will be played over.

All new men who play musical in-

struments of any kind will be wel-

comed at this meeting for there is

plenty of room for new material.

Stage Manager Hughes will be

present to direct the rehearsals and

he requests every one to be there

promptly at 5 o'clock.

EPISCOPALIANS MEET

The members of the Brotherhood of

St. Andrew will hold meeting this

evening at Trinity House, 93 St.

James Avenue. The meeting will be

called promptly at 7.15.

All members are earnestly request-

ed to present as the matter of new

membership will be discussed. Mr.

Fredrick Riedel will be in charge.

FACULTY NOTICE

Physical Lab. Note-Books

Students desiring to obtain their physical laboratory note-books are

requested to call for them to Room

10, 19th Floor, MARINUS.

All books remaining after Novem-

ber first will be confiscated.

H. M. Goodwin.

"Keeping in Front"

You fellows know what that means!

We've been very successful in this

regard with Fatima Cigarettes. By

the way, these cigarettes were first

sold in the college towns—and you

agreed with us that they were good.

Then we put out for the big race, to

make Fatimas of nation-wide rep-

utation, and today more are sold than

any other cigarette in this country.

Now your college crew is of utmost

importance to you—so is a good

cigarette, and it's your aim in life to

keep Fatimas in the lead—right up

to their good quality—right up to

where you first found them, and

will always find them.

Success fellows! You started this

cigarette on its successful career—

and you pull a strong one all over

this country.

HOLLIS ST. THEATRE

pects of THE TECH, and the dummy ballot was taken to the printer. About 7 P. M. Carl Guething and Theodore Jewett called on me. They demanded that a name be put on the ballot as candidates for Institute Committee. They felt that Shepard and I had given them a luceat favor and had them broken our agreement but in view of the decision made by the committee, I refused to grant their demand. Guething and I went to interview Shepard and Low. Jewett went to THE TECH office to "hold up" Friday's copy containing Night Editor Gray's account and list of the nominations. Jewett was Asst. Athletic Editor, Gray was Night Editor-in-charge.

(2) Guething censured Shepard, Low, and me for "the plain discharge of our duty." We, however, refused to change our decision. After the discussion he requested us to appear before the Board. We agreed to do so provided an impartial outsider should be allowed to preside over the meeting. Guething would not consent to this. He boasted that the Board would put the names on the ballot as he wanted, and if in proof he named a majority of the Board who would do as he said. We refused to be "grilled" at a one-sided hearing. I asked Guething: "Then the question the Governing Board is going to decide is not whether we are right or wrong but whether the names are going to be put on the ballot, is it not?" Guething answered in the affirmative.

(3) About 9:30 P. M. Guething told Jewett that the names of the nominees would not be printed until after the Board meetings on Friday. Jewett, Asst. Athletic Editor, would not allow Night Editor Gray's account—Institute news—to go to press. The Election Committee, later in the evening, drew up an official report of the nominations to be printed in Friday's issue of THE TECH. This was a signed communication. Jewett said he was the superior of Gray, the Night Editor, and that the report "was not going in THE TECH."

(5) To announce the report of the committee, since the medium of THE TECH had been denied, the Committee made a signed nomination bulletin. These posters were placed on the bulletin boards in Ruggers and the Union, but shortly before 1:00 P. M. Friday Guething removed these.

(6) The Governing Board having only the nomination papers of George Roper, Jr., S. R. Berkwitz and P. H. Duff, then made up a list.

The following notice was sent by the Board to Low, to Shepard and to me:

To whom it may concern: Resolved that the present ballot committee be dissolved, that the Board of Directors assume entire charge of the pending election, and that due notice of this action be prepared by the Secretary, signed by the Chairman and delivered to the members of the present ballot committee.

(Signed) C. T. Guething, Chairman.

The name of P. H. Duff, as printed on the list of the committee's report was a mistake of THE TECH. Nomination papers for Duff have not been received by the Committee, so he is not officially nominated.

(Signed) Olen C. Norris, Chairman Election Committee.
