This afternoon the cross-country team was to make a run over the regular Tech course, which starts at Highland. All men should be present if possible and the practice of being somewhere near the finish is a necessity. The handicap also extends to the seniors, and all the undergraduates are thus engaged.

Yesterday afternoon the Naval Architecture Society held its first meeting of the year. The purpose of the meeting was to arrange plans for the future, including its various activities. The subject of the Editorial in the Monday issue of THE TECH was discussed. The members after viewing the matter from all sides unanimously decided that the question of class elections should be left to the individuals as it had nothing to do with either the Course or the Society. After the new meetings was held an informal dinner at the Union, Wednesday evening.

The ballots for the junior class elections are due at the close of this week. Class dues may be handed in with the ballots.

The ballots for the junior class elections are due at the close of this week. Class dues may be handed in with the ballots.

The Naval Architecture Society has made arrangements to visit the new re-enforced concrete building now being erected by the Paine Engineering Company at the corner of Arlington street and St. James avenue. The trip is to be taken in two sections; the first will be on Saturday afternoon, October 28. Only a small party can be taken Saturday afternoon, but all those who are unable to go Tuesday are advised to make it a point to be on hand Saturday afternoon.

Mr. George R. Taylor, a graduate of the Institute, will address an assembly of the Geology and Public Health tomorrow at 3:30 in the Union. Mr. Taylor is at present with the U.S. Biological and Water Company of Scranton, Pennsylvania.

Anyone interested is invited to attend.

The trip is to be taken in two sections; the first will be on Saturday afternoon, October 28. Only a small party can be taken Saturday afternoon, but all those who are unable to go Tuesday are advised to make it a point to be on hand Saturday afternoon.

A list has been posted in 41 Engineering A, the fourth year drawing room. All who wish to take the trip Saturday must sign their names to the list before Friday noon. Notices will be posted concerning the Tuesday trip, in the Sophomore, Junior and Senior drawing rooms, later in the week. Those who are taking the trip Tuesday must sign these.

This new building will be of special interest to the students because of its style and construction. It is what is known as the mushroom type of reinforced concrete. The work on the lower floor has been practically completed and the upper floors are now being covered by Cinder concrete. All stages of the construction can be studied.

Those who take the trip Saturday will meet on the steps of Engineering A at 2 P.M.

Office hours of Managing Editors: 8 a.m. to 12 m., Daily, Monday to Thursday and Saturday.

Subscriptions, 25c per year, in advance.
Subscriptions within the Boston Postal District, and also of the United States, must be accompanied by postage at the rate of one cent a copy.

WEDNESDAY, OCTOBER 23, 1913

While the action taken yesterday by the Institute Committee is cer-
tainly a constitutional way out of the
difficulty, in our opinion it leaves
something to be desired in the way
of justice. With the decision to hold
complete new nominations we have
no fault to find; it is clearly the only
solution in strict accordance with the
constitution. The totally needless
trouble and delay which will it cause
to be laid at the door of our system
of adopting class constitutions with-
out, as it were, giving the matter a
second thought. This was discussed
in this column two days ago.

But there is another matter which
should have received the attention of
the meeting: namely, the specific ex-
eration of the balloting committee
from the suspicion under which they
were placed by the action of the gov-
erning board. They have proved
to be truthful and just. It is incumbent
on Engineers to be-
time for repairing drill suits
ordering that OVERCOAT you're going to
manufacture for immediate use.

The time for repairing drill suits
is almost past.

THE TECH BOSTON, MASS., OCTOBER 22, 1913
Senior Election
(Continued from page 1.)

A member of the Theta Delta Chi fraternity.

The men elected to the Institute Committee are E. D. Dawson and L. W. Snow. Dawson belongs to Delta Gamma Epsilon Fraternity, and comes from Winthrop, Mass. He was on the tug-of-war team and the Technique Electoral Committee and was Treasurer of Technique. Snow is from Rochester, N. Y., and is Treasurer of the Cosmopolitan Club and belongs to Theta Delta Chi fraternity.

Below is the summary of the votes received by each man:

For President—A. C. Dorrance, 30; E. E. Fox, 40; C. P. Fisher, 35.

For Vice-President—F. W. Williams, 62; H. M. Doremous, 34; H. B. Pease, 34.

For Secretary—H. W. Treat, 67; H. D. Mayer, 39; D. R. McElroy, 25.

For Executive Committee—E. W. Mason, 90; George Beach, 63; L. F. Hamilton, 50; E. M. Newlin, 57.

For Athletic Association—A. P. Pantale, 84; A. D. Miller, 62; W. L. McKerrin, 55; H. A. Morrison, 48.

Physical Laboratory Note-Books
Students desiring to obtain their physical laboratory note-books are requested to call for them at once in Room 16, Walker.

All books remaining unclaimed after November 1st will be confiscated by the contractor at rates which are reasonable and probably cheaper than those charged elsewhere. This work should be attended to at once when the new uniforms arrive the workmen will have all their time occupied by work on them and excuse will not be accepted for work delayed through carelessness. The address of the tailor employed for this work is James Grant, No. 27 Causeway St. You can go there, but will save trouble by turning in the articles at the Armory not later than October 29th, and better still on the 22d.

Edwin T. Cole.

To the Editor of THE TECH.

"The Sophomore nominations are unsatisfactory." That is the statement which appeared in THE TECH in the last week. The motion was made by A. H. Wood, proposing that the Undergraduate Committee be directed to consider the nominations. The nomination committee had been appointed as to whether the Governing Board would have any right to dissolve a nomination committee which had been regularly appointed.

It was finally decided that the question of the constitutionality of accepting any nominations at this time was thus in doubt. There was also a discussion as to whether the Governing Board had any right to dissolve a nomination committee which had been regularly appointed.

1916 NOMINATIONS

(Continued from page 1.)

Yesterday about thirty Freshmen took the preliminary trials for the Relay Team. The showing made was quite satisfactory. There is much room for improvement. Still there remain ten days before the final try-outs, so that any new men who wish to make the team have an opportunity to do so. About ten men who have been out for practice did not take the trials. The performances of these men may change the outlook, but they are not likely to have as favorable weather as there was yesterday.

Dear Madam,

That the barbershop be located at 386 Boylston Street will mean the most perfectly ventilated shop in the Back Bay. We are cutting by skillful barbers. The best hygienic and handy to the institute.

Tables For Steel Detailing

By J. A. AUBINGER, C. E., A. AS. C. E.

Those Tables are for the draftsman and designer of steel structures compiled from the AMERICAN BRIDGE Co.'s green book of standards, with new added material. It is the only book for the detailer, designer, architect, engineer and steel company, and will save the user time, expense and worry and would save you for itself in any drafting room.
