REV. W. BUTLER GAVE
T. C. A TALK YESTERDAY

"Spiritual Efficiency" Subject of Address Given at Annual Talk In Union.

At the fourth T. C. A. meeting of the year held yesterday noon in the Union, the Rev. Willis Butler, assistant pastor at the Old South Church, spoke on "Spiritual Efficiency." A large number of men attended the meeting.

Mr. Butler in opening his talk, said that the most efficient life, the type of life that is most generally talked and written about, is not such because of what it does, but mainly because of its resources. Such a life might be compared to the small college, receiving large endowments and having comparatively few students enrolled. The small college, and having comparatively few students, is much more efficient than the large college, also with its resources, is able to announce that this year the price of grandstand tickets has been reduced from $1.00 to 75 cents. The regular admission to the Field will be fifty cents. Special sections will be arranged in the bleachers for members of the Freshman and Sophomore classes as has been the custom.

The tickets for Field Day will be put on sale Monday in Rogers Corridor at 1 o'clock. Manager Thomas of the Track Team, after a conference with Major Briggs of the Advisee Council on Athletics, is able to announce that this year the price of grandstand tickets has been reduced from $1.00 to 75 cents. The regular admission to the Field will be fifty cents. Special sections will be arranged in the bleachers for members of the Freshman and Sophomore classes as has been the custom.

Can You Give Us Suggestions That Will Improve THE TECH In Any Way?

It is the earnest wish of the Managing Board to make THE TECH better in every department, to fill the wants here at Technology more fully, and to become absolutely alive to every phase of Institute life that falls in the least way under the scope of a daily paper. YOU can help us with your suggestions and criticisms, and we sincerely hope you will do so frankly.

Write your criticism on a piece of paper and drop it in the mail box near the door of the Lower Office at the Union, or in the mail office in Rogers Corridor.

FIELD DAY TICKETS
ON SALE MONDAY

Price Of Grandstand Reduced To Seventy Five Cents—Commission Fifty Cents.

Field Day tickets will be on sale Monday in Rogers Corridor at 1 o'clock. Manager Thomas of the Track Team, after a conference with Major Briggs of the Advisory Council on Athletics, is able to announce that this year the price of grandstand tickets has been reduced from $1.00 to 75 cents. The regular admission to the Field will be fifty cents. Special sections will be arranged in the bleachers for members of the Freshman and Sophomore classes as has been the custom.

SUNDAY LAST DAY
FOR TECH NIGHT TICKETS

Tickets Must Be Redeemed Either Thursday or Tomorrow In Rogers Corridor.

The tickets for Tech Night are selling steadily. The Freshmen are still backward in taking up their section. One Freshman was so far behind the doings of the Institute as to inquire of the agents in Rogers Corridor what they were selling. It is officially announced that tickets may be redeemed today. Tomorrow will be the last day of the sale and all tickets must be redeemed by that time.

The Sophomore Football squad now comprises two full teams.

INSTITUTE COMMITTEE
Election of Officers—Reports From Various Committees.

There will be an important business meeting of the Institute Committee this afternoon at 3:30 in Room C. A large amount of business is in hand including the election of officers and executive committee for the coming year. At this meeting reports will be heard from the Union Committee and the Sophomore Tech Night Committee. All members of the Institute Committee are requested to be present.

M.S. OWEN TO SPEAK

Mr. George Owen, a noted yacht designer, will speak to the Juniors of Course XIII this afternoon at two o'clock in Room C. The subject of Mr. Owen's talk will be the desirability of racing yachts. After the talk Mr. Owen will suggest methods of improvement in the designs which the men are now making.

CROSS-COUNTRY WALK

About twelve of the cross-country men went over the course yesterday afternoon at a walk. Considerable attention was given to fence jumping, a part of the work that has been rather neglected.

RED HEADS, ATTENTION

"Reddy in the woods can't catch a butterfly!" If you can't catch the butterfly, turn to your name and class and L. F. Hamilton 1914, at the Cage, and watch THE TECH.

COMMUNICATION

What is the matter with the Union House Committee this year? Do they intend to place any magazines in the Union? If they do they should get busy, for there have been none in since the beginning of the term. Last year the Union was fairly well supplied with reading matter, but now all that one may do in the Union is to study and talk. According to a recent communication, talking seems to annoy those who wish to study. Magazines should be supplied for the benefit of those who wish to do neither.

A Reader.

MANDOLIN CLUB

The Mandolin Club held its regular rehearsal yesterday afternoon in the Union. Coach Langis was present and helped the men considerably in the preparation of their parts. New strings were tuned out on the bass. The next rehearsal will be held at 5 o'clock Monday in the Union.

MEN FOR FRESHMAN RELAY TEAM CHosen

Nine Men Picked Yesterday After Trials—Five Must Run Over Again.

The following men have been chosen for the Freshman Relay Team: Bowers, D. M. Donley, Brock and Parker of the Cross-Country squad will try out. All relay men, particularly those who have been permanently chosen, are urged to meet Manager Friend for a few minutes at Rogers steps at 1 o'clock today.

1915 Relay Trials.

The trials for the Sophomore Relay Team will be held at the Field this afternoon at 2.30. About twenty-five men are expected to take the trials, of whom about twenty have been out regularly for practice. Some new men were put at the Field yesterday, and these may report calculations if any turn out to be last men. The work yesterday consisted of sprints and short dashes, not any over 120 yards. The make-up of the team that will be picked today is about five or six men that are sure of positions, but the remaining twenty will have to fight it out for the other places on the team.

1916 Tug-of-War.

The Sophomore Tug-of-War Team held a busy practice at the gymnasium yesterday. A fair number of candidates were present, but there does not seem to be so much interest as the Freshmen show. The team is starting to take its starts from the pistol, and does not intend to be outdone by the Freshmen who have used this method from the start.

1917 Tug-of-War.

The 1917 Tug-of-War candidates are putting in some real work at the present time.

CHESS TOURNAMENT

Results Of The Drawings For Chess Club Opponents.

The following drawings have been made for the chess tournament: West 16 vs. R. E. Stringfield; B. L. L. Bartlett vs. W. R. Johnson '15; T. Paris '14 vs. R. H. Ross '17; L. R. Sears '17 vs. D. Dunning '15; E. H. Neuman '15 vs. T. A. Saladin '16; A. L. Higgins vs. P. P. Jones '14; J. M. Phillips '16 vs. H. M. Backer '17; Donata '17 vs. S. Lewin '17; and E. A. Weaver vs. L. Nome '16.

The winner of the best two out of three games to be played is to have notice of the result for D. E. Woodbridge at the Cage. The members of the Chess Team will be chosen largely from the results of this tournament. Two weeks will be allowed for the first round and one week for each round after that, with the exception of the finals.

IMPORTANT MEETING
All Men On THE TECH Meet At 12 O'clock Saturday.

There will be an unusually important meeting of all the men connected with THE TECH in the Lower Office at 12 o'clock on Saturday. For the convenience of anyone who cannot possibly, attend at this hour, notice will be sent between 8:30 and 9:00 in the morning. It is necessary that THE TECH be present at one of these meetings as a very important topic is to be brought before them.
The latter, it seems to us, should not be appointed for this year. The Freshman Committee to elect its officers and executives to do the same. We have received several suggestions in answer to our request, one of which we take pleasure in printing in this issue. The criticism of the cut we think is well taken; these matters will receive better attention when we have a Managing Editor. The intention of the Institute Committee to elect its officers and executive committee at the meeting today, seems to us a rather hasty and ill-advised step considering what a large number of the members are not yet appointed for this year. The Freshman membership is of course lacking until after Field Day, and the Sophomore representation, due to the action of the Committee itself, consists of men who hold over from last year. The latter, it seems to us, should not represent this year's class in such an important election as this.

Some time when you want to "puli off" a good stunt at a house party, and likewise to air your knowledge of second year physics, you might rig up an outfit similar to that used by the Ozone Purifier Company to attract attention to their booth in the International Refrigeration Exposition. For apparatus you will need some sections of steel wire cable.

FALL HANDICAP MEET
TO BE HELD TOMORROW

The Annual Fall Handicap Meet will be held tomorrow, with the exception of one and two mile races, which have already taken place. The meet will start at 3 o'clock sharp and the management hopes to have a large gathering present at the meet promises to be of more than usual interest.

At about 8 o'clock the Technology B. A. A. run will finish at the Field. The B. A. A. expect to have several stars running, among them Oshinsky, Hudlidn, Silva, Cook and Maloney. The race will also decide the M. I. T. Crown and the winner will be crowned champion of the Mass. State.

The race is expected to be one of the closest of the season. The field is strong and a snappy race is to be expected. A full list of the entries, which will be printed in tomorrow's TECH.

FIELD DAY TEAMS

(Continued from page 1.)

All cheers for the 1917 banner offered by the Chauncey Hall Club will be tried out at a class meeting to be held the first of next week. All candidates who have not as yet submitted their cheers are to leave them at the Cage before Monday noon. Realism want one good cheer for Field Day, and this is a good opportunity for 1917 men to use their wit.

Men's Shirts, Half Hose and Gloves

RABBI FLEISCHER
TO SPEAK SUNDAY

First Meeting of Sunday Commons
To Be Held In Huntington Hall.

Next Sunday, for the first time since the days of Dr. Phillips Brooks, Huntington Hall will be used for a meeting of a religious character. The meeting, which will be held at 3:30 P. M., is to be an open one under the auspices of the Sunday Commons, an organization which stands for the expression of the life of the day in the spirit, thought, and speech of this day. The Commons formerly held meetings at the Majestic Theater, but during the month of November they will carry on their discussions in Huntington Hall.

Dr. Charles Fleischer, leader, will speak on "New Revelations" at the first meeting. Later speakers voicing modern thought and practical idealism will be invited from time to time to address the meetings. The Sunday Commons is a practical religious movement of a new kind. It was started some time ago by Rabbi Fleischer on the principle that "The solid basis of life is economical. It is for religion to idealize the economic conditions and to point out the spiritual implications of material results." Dr. Fleischer says of the purpose of the movement, "I shall stand for practical idealism, radical but reverent, sane, scientific, spiritual and social. I mean to infuse moral and social idealism into our material concerns, and to interpret science spiritually. All this is to be done in the thought and speech of our day and country. America is to be our spiritual slogan. American life is to be glorified and our age exalted." He believes that there are many people to whom none of the many types of churches appeal, and who wish to have the spiritual life interpreted in the thought and speech of today. It is to these people that he expects the new movement to seem favorable. Everyone who is interested is invited to attend the meetings of the Commons, and learn more about their aims.

FACULTY NOTICES

The four examination in Second Year English Literature for Courses I, IV, and XIII will be held Monday, Nov. 3; for Course I and XII on Wednesday, Nov. 5; for Courses VI (1) and VII on Friday, Nov. 8.

Precision of Measurements

Students having deficiencies in Precision of Measurements are requested by Professor Goodwin to consult the general bulletin board in Room 16, Walker Building, at their earliest convenience.

Walter Humphreys,
Registrar.

That man Thompson on the 1917 Football Team is evidently a person to be watched.

COMMUNICATION

To the Editor of THE TECH:

One who has had the pleasure of an interview with Major Briggs would recognize the cut of him in Thursday's paper only after careful study, were it not for the caption accompanying it. The cut is devoid of personality, of life and of expression. Although I realize that out of respect to the Major you had to place the article on the front page, it would not have been better to place inside, or else reserve your appeal for criticisms for a later date?

However, as the saying goes, "Outside of that, it is all right." Your paper is much better than it was last year. The ads are live and the stories are better. There is less drool than formerly, and less stories go unnoticed than in previous years. "Scientific Notes" is a valuable addition, but you do not sacrifice news for them. Congratulations, A. P. G.

Soccer contests at Tech will be quite a novelty.

The Cross-Country Team is expected to make a very good showing in all its meets this fall. Its caliber is noticed than in previous years. "Scientific Notes" is a valuable addition, but you do not sacrifice news for them. Congratulations. A. P. G.
