THE TECH
VOL. XXXIII. NO. 68.
THE TECH, BOSTON, MASS., NOVEMBER 5, 1913.
PRICE TWO CENTS

1914 JOY RIDE.
TICKETS READY.
Will Be Sold In Union Today At Ten Cents Each—Big Time Promised.

The Committee in charge of the Seniors arrangements for Field Day will be in the Union today at 1 P. M., ready to sell tickets for the 1914 Joy Ride. The cost of the ticket is ten cents each. They hope that there will be an enthusiastic crowd of men waiting in line for this price. The small fee charged includes transportation to and from the Field in special cars, sweet music for several hours, and the distinctive 1914 regalia. All this is offered for the same price that the trip would cost by the ordinary cars. The Committee says nothing about the charge for the cheer- ing and the good fellowship, but it is presumed that these will be free. The man who has paid his ten cents needs only his ticket to the Field to take in all events of the afternoon.

The Committee is certain that ev- ery 1914 man should be with his class on Saturday at eleven. He says that the regular 1914 regalia is one which any one would be proud to wear, and that the street cars will be the most comfortable. We understand that the band is to consist of able men under excellent leadership.

In order to ensure good music, the Committee requests all men who played on Sousa Brooks Technique Band last year to report to them at the table where the tickets are sold at 1 P. M. This is by no means intended to exclude others who have any ability at all in playing on a band. Such are urged to hand in their resumes to the committee. The 1914 regalia is a part of the 1914 all-around picture. It is shown by a remarkable bit of stage management which shows the head lights of the auto and the locomotive facing each other, the automobile actually stationary, and the locomotive assumed in high gear. The air is filled with a sound of music, dance and song. The plot, or what there is of it, hinges upon divorce complications of Henri Dubonet and his wife. Yvonne, which come to a climax in a wild auto chase to Reading after the “Honeymoon Express.” Here the notion picture is effectively employed, while the “outlaw” of the chase is shown by a remarkable bit of stage management which shows the head lights of the auto and the locomotive gradually approaching until the life- line is cut. In the picture the 1914 coeds manage the budding stock of a box factory. The Committee is certain that every 1914 man should be with his class on Saturday at eleven to find a copy, and to enter the completed buildings. The total amount was about eleven hundred dollars, more than has ever been cleared by any Technique before.

Such are urged to hand in their cheers. The Committee is certain that everyone who has not purchased it earlier. The books were sold at reasonable price, about the average of former Techniques, so the board attributes the large profit to the fact that the cheer- ads advertisements than usual were sold. The 1914 Techniques contained advertisements worth $700 more than those in the 1913 Technique.

The board has turned $730 over to the Institute Committee, without any restriction or condition. The remaining money is put into a fund started by Technique, 1912, which will be used to purchase furniture for the Technique office in the Walker Memorial Building of the New Institute.

NEW TECH CELEBRATION
Wallace Club Working Hard For Saturday Meeting.

The Walker Club is putting forth every effort to insure that the All- Technology gathering Saturday night shall be as great a success as the importance of the occasion warrants. Numerous slides are being prepared from photographs, plans, diagrams, kaleidoscope views, etc., which will of course add greatly to the effective- ness of the speeches.

The Committee is looking for a good live man to lead the singing, which will be made a feature of the occasion. The souvenir issue of THE TECH will be on sale at the doors, for those who have not purchased it earlier. As this meeting comes immediately after Field Day, and as an event so worth celebrating is not oc- curred since “Mr. Smith” gave his millions to the Institute, the audience will probably be in just the mood for rejoicing, and the affair a supreme success.

CANDIDATES FOR SOCCER
First Meeting To Be Held In Union.
—J. M. White In Charge.

The initial meeting of those inter- ested in establishing a Tech soccer team will be held this noon in Room 201 on the Union at 1 o’clock. J. M. White will be in charge of this meet- ing and will manage the budding stock of a soccer team.

There are several men in the Institute who have had previous ex- perience in this comparatively recent sport, and they will help coach those who have not previously played the game. Practice is to start Mon- day at Tech Field, so it is important that all prospective candidates report to the meeting to ascertain the details of the plans for the practice.

An effort will be made to arrange a schedule (or games if this spring is a success) which will afford a chance of completing the season, if the prospects point to the team being successful at Tech. Further particulars will be given at to- day’s meeting.

SOPHOMORE MEETING

The Sophomore Class will hold meeting at one o’clock Thursday in Huntington Hall. The purpose of this meeting is to practice cheer leading for Field Day, November 21st, at 6:30 o’clock. Detailed information concerning the program of speakers will be announced at the meeting.

SOPHOMORE CLASS DINNER
The Class of 1914 will hold a dinner at Union Tuesday, November 19th, at 7:00 o’clock. Detailed information concerning the program of speakers will be announced at the meeting.

FACULTY APPOINTMENTS

Members of the football and Relay teams of both classes are requested to be at their places of practice as near as possible to the time set for tomorrow in order that the pictures of the teams may be taken.

The pictures are to be taken at the Technological Sat- urday issue of THE TECH.

1916 Football.
The Sophomore Football Team held secret practice at the National Leigh grounds this afternoon. The lineup used was Diff. Le. Krieger 4, Keith 4, Hunt 4, Roper 3, Roper 4, Melville 4, Roper 4, Melville 4.

1916 Relay.
The Sophomore Relay Team is fast getting into form for the next Field Day and shows signs of being a winning aggregation. Yesterday was devoted to flag passing, which has been recognized as an essential part of the preliminary practice. Such bad pass will sometimes result in a loss of several yards and probably could not be made up during the race except by phenomenal running.

Where two teams are evenly matched in speed it has been quick sufficient flag passing that has won the race.

C. W. Loomis has been elected as Captain of the 1916 Relay Team and is one of the fastest men of the squad. He was a member last year's team and was prominent in all the track meets of last year, scoring several times.

He is also connected with THE TECH.

The announcements of several of the officials for the pre-Soph- monore Football game on Field Day were made yesterday. The referee will be John D. Riley and the umpire selected is M. J. Redding.

F. J. Menard, who has been a member of the Institute Schools, will be John D. Riley and the umpire selected is M. J. Redding. F. J. Menard, who has been a member of the Institute Schools, will

2:00—Soccer Football Meeting—Union.
THE ECONOMICS CLUB

We are printing in another column a communication from the President of the Economics Club, whose spirit compels our respect and admiration.

A large number of men was out for practice yesterday. They were divided into two teams and had work on starting quickly with the gun. The teams were evenly matched and neither showed much advantage over the other. After practice the captain of one team was chosen. Nelson McRae, who pulled on the team last year, was chosen.

After the practice this afternoon the teams will be finally selected, the counter will be elected. A short practice will be held Thursday at the field.

1917 Relay.

The final lineup for the Freshman Relay Team is as follows: R. J. Dean, D. D. Doon, F. M. Farnsworth, L. N. Lathrop, G. S. O'Brien, W. C. Patten, W. D. Peabody, W. W. Peabody, L. H. Wood, and D. F. Wood. The substitutes picked were A. E. Tuttle, R. H. Wheatley, and R. B. Tuttle.

The substitutes picked were A. E. Tuttle, R. H. Wheatley, and R. B. Tuttle.

1917 Tug-of-War.

The substitutes picked were A. E. Tuttle, R. H. Wheatley, and R. B. Tuttle.

Dr. W. T. Grenfell
To Give Lecture

Well-known Medical Worker To Tell Of Conditions In Labrador.

Dr. Wilfred T. Grenfell, who has gained fame through his missionary and medical work in Labrador, will give an illustrated lecture on his work tonight at 8 o'clock. He will speak in Jordan Hall at the New England Conservatory of Music. Tickets may be secured at the Conservatory box office or at Herrick's, at fifty and seventy-five cents.

Dr. Grenfell, who is a graduate of Oxford University, has devoted the past twenty years of his life to philanthropic work among the people of Labrador. He has benefited many classes of people, Eskimos, half-breeds, and British fishermen. He has established five hospitals, started industrial schools and orphanages, and sent missionary ships and doctors to the North Atlantic fishing fleets. The support for these undertakings comes almost entirely from voluntary subscribers in the United States and Great Britain, with some assistance from the government of Newfoundland. Much assistance has been given by college men, who work during the summer months without pay.

The principal work has been done at the town of St. Anthony. Before the Doctor went to Labrador this town was a miserable little village, but now it has become a much more attractive place. There is now a hospital in charge of Dr. Little, of Boston, in which 3000 cases were treated last year, and an orphanage. The small public school in the town is the only one of its kind in the whole territory.

In the summer months, when the ice allows, hospitals are established as far north as the Eskimos.

There is also a hospital for the men of the fishing fleets which visit these waters. Before the coming of Dr. Grenfell the educational and medical facilities in Labrador were very meagre, and the fishing fleets were in need of medical attendance and missionary work. By his work and that of his assistants and volunteers, conditions have been vastly improved, but he hopes that still more progress can be made.

Glee Club Rehearsals

The Glee Club is holding its regular rehearsals on Tuesday and Friday in Room B in the Union. The results of these rehearsals are very satisfactory and everything points for success in the first concert of the season. This concert is to be held at the Franklin Square House on Tuesday, Nov. 11.

A time limit has been set for the payment of the club dues. All dues, including regular fee and the initiation fee are to be in by Nov. 11, at the very latest.

A special rehearsal is to be held in the Union from 1 to 2 o'clock Saturday. It is essential that every man be present.

Field Day at hand, and both classes still claiming the victory.

Plans for Field Day celebrations and joy rides are rapidly materializing.

Don't forget the address!

We make a special effort to win the esteem of Tech men.

FRESHMAN CLASS YELL

Chaucy Hall Prize Awarded To C. T. Barnard.

The prize for the best 1917 Class Yell was awarded to C. T. Barnard at the class meeting which was held on Monday. The words are as follows:

Tech! Tech! Tech! N-O-L-O-G-Y
Tech! Tech! Tech! N-O-L-O-G-Y
Tech! Tech! Tech! N-O-L-O-G-Y

Seventeenth Seventeenth Seventeenth
The words are given slowly at first, going faster all the time, in imitation of a locomotive.

The prize was a three foot by six foot Technology Banner and was given by the Chaucy Hall Club. Copies of the yell were handed in to a member of the Club and a class meeting was called on Monday in order that they might be tried out before the whole class.

There were quite a number to be tried, and when they had all been given, a vote of the class was taken. C. T. Barnard's yell received the largest number of votes.

"HONEYMOON EXPRESS"

(Continued from page 1.)

Attention is called to the following extract from the rules of the Faculty:

"All marks of D incurred in the second term must be removed not later than the end of the following November. In case a mark of D is not removed at this time, the student shall be required to discontinue any dependent subjects which he is taking, and can obtain a clear record only by repeating the subject in which the mark of D was given."

A. L. Merrill,
Secretary of the Faculty.

CROSS COUNTRY

The entries for the dual cross-country race with Holy Cross have been decided, and are as follows:

Each entry is accompanied by the name and number of the runners:

Holy Cross will be represented by W. F. Daly (14), S. M. Dowd (15), W. F. May (16), W. O'Brien (17), J. T. Higgins (18), F. J. Donahue (19), F. W. Brannigan (20), S. C. Larche (21), J. T. Holland (22), G. F. Roesch (23), J. J. Murphy (24).

The Technology's entrants are:

The Technology team today had a hard run. They walked a hard run. They crossed the Gym and up the foot Technology Banner and were given the largest number of votes. Seventeenth Seventeenth Seventeenth.
