

# THE TECH

VOL. XXXIII. NO. 69.

BOSTON, MASS., THURSDAY, NOVEMBER 6, 1913.

PRICE TWO CENTS

## FAVORABLE PROSPECTS FOR TECH SOCCER TEAM

Several Experienced Players Reported—First Practice Monday at Three.

Yesterday noon the men interested in soccer met in the Union. All the plans so far advanced were outlined to them by J. M. White '14 who has had much experience in playing the game, and is taking interest in the new team here at Technology.

All the men who reported have had previous experience playing soccer, and to judge by the interest displayed a first class team will be turned out. Among the entries are: A. D. Baker '17, who has played in Riverdale, S. Parkinson '15, who has played in Canada; Bagdoyan '15, who has played right half back and as a forward on the American College team in Armenia; W. L. Graves '16, from the team at Carteret Academy, where he played outside right; and also an outside right, D. E. Woodbridge '15, from Chestnut Hill Academy. Beside these there are V. Enebuske '15, who has played in both Switzerland and France; and O. Nielsen '17, who has played in Denmark. T. K. Kao '15 has also reported for practice. Kao has played right half back on the Wisconsin University varsity team.

Practice is to be held every afternoon at the Field, starting next Monday at 3 o'clock. Coach Kanaly is to have charge of the work, but as he will soon be busy at the Gym, it is planned to give some one man of the squad charge every day when Mr. Kanaly is not at the Field. In case there are sufficient entries, and a first-class team is turned out, a schedule for spring games will be made.

## COSMOPOLITAN MEETING

Technology Club Votes To Join American Federation.

An important business meeting of the Cosmopolitan Club was held yesterday in 8 Engineering C at five o'clock. The first business to be brought up was the question of how much the foreign students should be charged who come to the dance, which is to be held Friday, Nov. 14, at 8 o'clock at Hotel Tuileries. It was decided that they should only pay \$1.50 if they had paid their dues, and \$2.50 per couple if they had not. Arrangements are being made for the dance by a committee of American members of the Club.

The Club has also taken a very important step in voting to join the North American Federation of Cosmopolitan Clubs. This federation takes in practically all of the College Cosmopolitan Clubs in the country, and it belongs to Corda Frates, the international chapter of the Cosmopolitan movement, which has chapters in Europe and other foreign countries.

The last business to be brought up was proposals for amending the constitution. Votes were taken and several amendments of some importance have been added.

## CATHOLIC CLUB HOLDS DINNER

C. O'C. Galvin of the Boston American, Speaker—Meeting Held After the Dinner.

The Catholic Club held its second meeting and dinner in the Union last evening. The speaker was C. O'C. Galvin, the Irish correspondent of the Boston American. Mr. Galvin spoke on the Irish Home Rule question. He said that he felt confident that the bill for Irish home rule will

(Continued on page 4.)

## FRESHMAN BASKETBALL

W. W. Rausch Elected Manager of Team—Schedule Started.

After the Freshman Class at its meeting yesterday had decided to support a basketball team, an election was held for the managership. This resulted in W. W. Rausch of West Medford being elected to the position.

Rausch has had a rather extensive experience in basketball during the past few years. While at Mechanic Arts High School he was a member of the team and later played on the Stone and Webster team, which was one of the best amateur teams in the State.

Two games have been arranged already by one of the members of last year's Sophomore team. These are with Rutland High School and Bridgewater Normal School. In addition there will be the three game series with the 1916 Team and any others that can be arranged. Negotiations will be started with Winthrop, Melrose, Winchester and other High Schools, and with Dean Academy, Cushing Academy, and Allen School. It is also possible that if a large number of candidates come out that a game will be arranged with the Dartmouth Freshmen at Dartmouth. With this in view, Manager Rausch wants a large list of men out, as the team cannot be successful without more interest than has been shown so far. The call for candidates will be made soon.

## FRESHMAN CLASS MEETING

Cheers For Field Day Practised—Nominations Due Soon.

The Freshman Class held a meeting in Huntington Hall yesterday at which they practised their cheers for Field Day. The entire Freshman Class is to meet at Brookline Village at 2 o'clock on Friday, and go from there to the Field in a body. It has been voted to hire a band for the occasion.

The nominations for President, Vice-President, Secretary, Treasurer, and Clerk, two members to the Executive Committee, and two members to the Athletic Association will be taken at the Cage, beginning Monday, November 9, and are due at 4 P. M. on Thursday, November 13. Each nomination must be signed by at least ten members of the Freshman Class.

## RIVALRY INCREASING AS FIELD DAY APPROACHES

Enthusiastic 1916 Football Practice—MacRae To Captain Sophomore Tug-of-War.

### 1916 Football

Yesterday the Sophomore Football Team went through the most successful practice of the year. The work was done on the Oval.

All the men seemed impressed with the fact that Field Day will be a victory for 1916, in all probability, only if the football game is won, and all the candidates showed a dash and fire not previously seen. The play was snappy and brisk, and the ball was handled cleanly and with precision. The passes were accurate and well placed.

Although the team has had but one game they have had several scrimmages with Mechanic Arts H. S. and with Boston Latin School, thus getting into good condition. The team work has improved greatly and the added speed which the backs have shown recently cover up the two most prominent weaknesses of the team. Coach Cuddy will give the final touches to his machine today at the National League grounds in secret practice. The lineup of the team which will meet the Freshmen tomorrow will be printed in the Field Day issue of THE TECH.

### 1917 Football.

Yesterday afternoon the team was put through some extra hard practice, and showed up well, especially the backs, in breaking through the centre. A large part of the time was devoted to signal practice and in trying out new formations. After practice the squad met and elected Farnsworth captain. Farnsworth plays the position of quarterback, and will probably have this position on the regular team. Since the team has not been picked out yet, no one will be sure that he has made it until he is told so by the coach this afternoon. The work today will consist mostly of signal practice. Coach O'Brien would like to have any Juniors come out to practice today so that he can give the team a tryout against a heavy lineup.

### 1916 Tug-of-War

The Sophomore Tug-of-War Team held its last hard practice yesterday. There were about 45 men out, so that practically a full team pulled against a full team. Today at 4 o'clock at the Gym there will be a light practice for those men who made the team. At the end of the practice yesterday Manager Apfel announced the team. The following men were chosen: Berkowitz, Bickford, Blanchard, Bourquet, Burnap, Curtiss, Ellis, Fletcher, Freeman, Fuller, Groerer, Hands, Jackson, Jewett, Keith, MacRae, Sweeney, Makepeace, Monroe, Morse, Pinkham, Ross, Russell, Spear, Stimets, Stocking and Woodbridge.

## WEATHER

Fair, warmer, moderat westerly wind.

## SOPHOMORE CLASS MEETING TODAY

Will Hold Meeting In Huntington Hall—Printed Cheers To Be Distributed.

The attendance of every Sophomore is desired by the officers at the meeting of the Sophomore Class today at 1 o'clock in Huntington Hall. The meeting will be short enough so that all will have time for lunch before the 2 o'clock classes. Ten different cheers have been printed, and will be distributed so that they may be practised in the meeting. These cheers are to be taken home so that the men may become familiar with the words.

Practically every Freshman has turned out for their class meetings, and the Sophomore officers hope that the same may be said of the Sophomores today.

## BIG PREPARATIONS

Men Of All Departments Working For Special Issue

Preparations for the big souvenir issue are engrossing the attention of THE TECH Managing Board and such others as they can press into service. The candidates for Managing Editor are busy getting photographs, plans, information, etc., at the scene of operations, chasing down to the electroplaters to see about cuts, and doing such other odd jobs as will tend to show their respective qualifications for the position.

The news men volunteered to "chase ads" for the issue, and results have exceeded expectations. The Board itself is busy writing and arranging the articles on different phases of the New Site, which have already been received, but which are not released for publication until Saturday at eleven.

Particular effort is being put forth to incorporate in this paper such material as will be of permanent value to Tech men, making it above all else a souvenir of the great turning-point in Technology's history.

## CALENDAR

Thursday, November 6, 1913.

1.00—1916 Class Meeting—Huntington Hall.

1.30—T. C. A. Talk—Union.

4.00—1916 Football—Nat'l League Grounds.

4.00—1917 Football—Field.

4.00—1916 Relay—Field.

4.00—1917 Relay—Field.

4.00—1916 Tug-of-War—Gym.

4.00—1917 Tug-of-War—Gym.

4.15—Mandolin Club—Union.

Friday, November 7, 1913.

2.30—Field Day—Field.

8.00—Tech Night—Shubert Theatre.

# THE TECH

Entered as second-class matter, Sept. 15, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.

Assistants—J. B. Carr 1916, R. C. Fellows 1916.

## THE CELEBRATION

Perhaps the most important point in which other colleges have the advantage over Technology is the number of opportunities they have for getting the students together in a body. Their formal assemblies and convocations are only a small part; much more significant are the football games, evening celebrations, and similar informal gatherings.

The former are all too rare at the Institute, and the latter are almost unknown. Largely on this account we are particularly enthusiastic when the opportunity does occur for us all to join in a good old-fashioned celebration, song-fest, and general good time like the meeting to be held Saturday night. Such an opportunity to get out of the rut and learn what Technology really means has not been offered within the memory of anyone now here, the nearest approach to it being the Founders' Day last year.

We are glad of the opportunity to print in this issue a communication regarding the Sunday Commons, from an alumnus who was editor of THE TECH more than a decade ago. We wish we might hear oftener from the "old boys," particularly those who were connected with the paper.

## GYM LOCKER KEYS

All Freshmen should see Janitor Johnson of the Gym at once to obtain locker keys. Cards may be received from him which are to be taken to the Bursar and a deposit made there for the keys. All men who have keys left over from last year should return them immediately if they do not intend to use their lockers.

## MANDIKANE QANDIYANE CELE TO SPEAK TODAY

African Negro Student To Give T. C. A. Talk This Noon. In Union.

Captain Mandikane Qandiyane Cele, Zulu Prince, will speak this noon at 1.30 in the Union, on conditions in his native land in Africa; and on his own life. Mr. Cele, who is a native African negro, has spent the past ten years in this country, in several of the best negro training schools. He is spending a few weeks before his departure to Zululand in visiting some of the leading colleges and universities, and the T. C. A. has made arrangements to have him speak to the students this noon.

Mr. Cele is a full-blooded Zulu; his mother is a sister of the Zulu King, and his father was at one time chief of one of the principal tribes in the kingdom. His father wished to become a Christian missionary, and in accordance with Zulu laws, which did not allow a chief to become Christian and still hold his position, he resigned his chieftainship. He also gave up all but one of his numerous wives. Mandikane Qandiyane is Mr. Cele's native name, and it means "I don't know how long I'll live," and "Give me something to eat."

Captain Cele was sent to America by his father that he might follow his father's footsteps and become a missionary. The last seven years he spent at Hampton Institute, Virginia, a noted negro training school. While there, he was prominent in student activities; he played on the Hampton football team, was captain of the first company of the school's battalion, and was president of the Y. M. C. A. at the Institute. He was one of the leaders of the school.

The Captain is every inch a man and athlete, and is about six and one half feet tall. He is married, and he intends to take his wife, who is an American negress, back to Zululand with him to assist in the education of the natives. Mr. Cele plans to found an industrial training school in his native country, and Mrs. Cele will probably have charge of the domestic science department.

Mr. Cele is said to be a very interesting speaker, and his talks are full of humor, without, however, detracting from the seriousness of the message he conveys.

## COLLEGE NOTES

The Harvard-Princeton game is to be held at Princeton next Saturday. Moving pictures of the game are to be shown at Jordan Hall next Sunday afternoon.

Work will soon begin on the New York City College stadium, the approval of the board of estimate having been obtained. The building, which will cost \$200,000, is the gift of Adolph Lewisohn and will be completed in 1914.

Eight distinct building projects are going on at Harvard, involving a cost of more than four million dollars. Not since the medical school was finished in 1906 has there been such an addition to the university. The most important of the new buildings is the new Widener Library in the college yard, on which two million dollars are being spent. The remainder goes to Freshman dormitories, the stadium bridge, laboratories, and museum extension.

**WARREN '15 AND POLLEY '17 DOUBLES CHAMPIONS**

**Defeat Hurlburt '14 And Fay '14 In Finals—3d Round Singles Close Monday.**

The final round of the doubles in the tennis tournament was played at Jarvis Field yesterday afternoon, and resulted in a victory for R. A. Warren '15 and E. G. Polley '17. They defeated the other semi-finalists, Hurlburt and Fay, in a four set match.

At the start of the match Warren was handicapped by using a new racquet, and the two Seniors soon had the score up to 4-1 in their favor. Warren and Polley then braced and took four straight games. With the score 5-4 and 40-15 they were unable to pull out the game. Hurlburt and Fay then took the next two games for the first set.

After losing the first game of the second set Warren changed his racquet, and aided by phenomenal playing on the part of his partner, they quickly ran out the second set, 6-2. From then on the winners had little difficulty with their opponents winning the third set, 6-2, and the fourth and final one, 6-1. This victory makes Warren and Polley the doubled champions of the Institute.

All third round matches in the singles must be played by Monday night, otherwise they will be defaulted. One more match, Blakely '14 vs. Shedd '16 is to be played in the second round. In the third round the matches are: Carr '16 vs. the winner between Blakeley and Shedd. Curtis '16 vs. Warren '15; Fay '14 vs. Stewart '16; C. S. Makepeace '16 vs. E. G. Polley '17.

**MANAGER OF THEATRE INTERVIEWED YESTERDAY**

**No Streamers, Confetti Or Cards Are To Be Thrown On The Stage.**

Mr. E. D. Smith, manager of the Shubert Theatre, was interviewed yesterday by the Tech's representative. The purpose of the interview was principally to get an idea of how the management of the theatre felt about Tech Night, and to find out just what they desired from the Institute men that evening.

Mr. Smith seemed very enthusiastic about the plans as outlined to him. In regard to the conduct of the men at the theatre, he stated that he had but few things to ask, and said he felt sure that the undergraduates would abide by the wishes of the management. He requests that nothing be thrown on the stage, neither streamers nor confetti, nor cards. Besides the danger of injury to the members of the cast by slipping on the paper or tripping on the streamers, there is the added danger from fire, as these things are very inflammable, and when swept off the stage might easily take fire through some one's carelessness. Moreover, the smoothness of the performance is interfered with, which is a loss to the audience by causing any disturbance. He also mentioned that although it scarcely seemed necessary to say anything about it he hoped that no one would stand on the seats.

It is of course obvious that cards, or anything that might result in injury to whoever they struck, should not be thrown. However, Mr. Smith does not care how many streamers are thrown among the audience so long as nothing whatsoever is thrown on the stage.

Members of the upper classes will see to it that these requests are obeyed and there is little reason to suppose that there will be any trouble.

All tickets have been sent down to the theatre, and all men holding duplicates can obtain their tickets by applying at the theatre.

**CLASS RELAY TEAMS**

The members of both the Freshman and Sophomore relay teams are requested to report in the yard of Eng. B promptly at 1 o'clock today to have their pictures taken. Those taken at the Field yesterday were very unsatisfactory because of the poor light.

Members of the 1916 team are especially requested to report here before going to the class mass meeting, as the picture—provided the men show up in time—will not take more than three minutes.

**MANDOLIN CLUB**

Coach Lansing will be present at the rehearsal of the Mandolin Club at 4.15 this afternoon in the Union. This will be the last rehearsal before the concert on Tuesday. All men must pay their dues today in order to be able to take part in the concert. Some new music will be given out at the rehearsal.

**"Keeping in Front"**

You fellows know what that means! We've been very successful in this regard with Fatima Cigarettes. By the way, these cigarettes were first sold in the college towns—and you agreed with us that they were good.

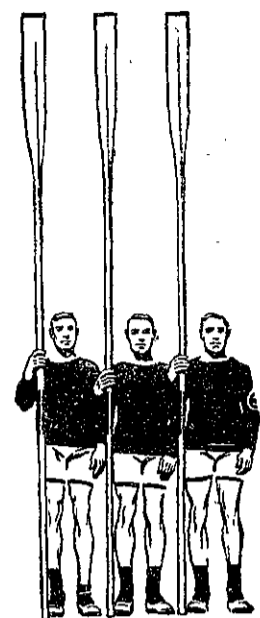

Then we put out for the big race, to make Fatimas of nation-wide reputation, and today more are sold than any other cigarette in this country.

No purer, or more carefully chosen tobacco grows than that in Fatimas. We purposely put them in a plain inexpensive wrapper—in this way we can afford quality tobacco, and twenty of the smokes for 15 cents.

Now your college crew is of utmost importance to you—so is a good cigarette, and it's your aim in life to keep Fatimas in the lead—right up to their good quality—right up to where you first found them, and will always find them.

Success fellows! You started this cigarette on its successful career—and you pull a strong oar all over this country.

**CANDIDATES FOR SOUSA'S BAND TO MEET IN UNION**

Positions In This Unique Organization Eligible To All Classes.

"Meet at 4 o'clock today in the Union, 'Musicians of Technology,'" the announcement rings out through the buildings and corridors of the Institute. Every undergraduate who can play any kind of a band instrument is urged, say the committee of arrangements, to be present at a meeting in the Union at 4 o'clock today, where under the direction of the famous Sousa Brooks, a band will be selected to play at the Senior Joy Ride and Field Day celebration. Those men, especially, who performed so nobly at the Technique Rush, are wanted for members in this extraordinary concourse.

A word in regard to Sousa Brooks, the famous leader. He is one of the shining lights in the Institute firmament. He has also played before crowned heads, for at the Technique Rush last year there were many coronations. There is no doubt that under such an able leader the band will be most successful, and it is only necessary that more men respond to the call.

Members of the band will be given free admission to the Field and free transportation on the Senior Special. It does not matter whether a man is a Senior, however, for all classes are welcome to the ranks of the bandsmen and to add to the general fun and to delight the ears of the solemn Seniors by their efforts.

The tickets for the Joy Ride have been going fast and will be on sale again this noon at 1 o'clock in the Union. The charge is ten cents for transportation to and from the Field.

**COMMUNICATION**

Editor-in-Chief of THE TECH:

We want to congratulate Tech men, especially those away from home, upon having the privilege of hearing Dr. Fleischer in their own Huntington Hall on Sunday afternoons.

Dr. Fleischer is a religious leader, but he teaches the things in religion which unite men, not those which divide them. He believes that religion is the practical idealism and aspiration of the everyday life of a people. In other words, his position in the world of religious teaching is what Tech's field is in the realm of college work. Dr. Fleischer belongs to the spirits that inspired Tech, and he can fill a place in the life of Tech second in importance to none.

"A nation is in danger whose doings and aims are not given meaning through ideal purposes." Let us, as long-headed friends of Tech's best interests, do all in our power to keep him with us and among us.

Yours for Tech,  
W. P. Greeley '02.

(Continued from page 1.)

become a law next May. This would restore the Irish Parliament. In 1800, by Act of Union, the Irish Parliament was dissolved, and the Irish were refused the privilege of ruling themselves. It appeared from this that Ireland would become an extinct entity in national governments. However, the Irish people have always cherished the hope of getting back their Parliament. Throughout the nineteenth century various movements were made to bring this about. These movements have been both revolutionary and constitutional.

Daniel O'Connell, leader of cause for Ireland, caused the repeal of several penal acts against the people; he also enlisted to the cause several members of the House of Commons, and was nearly successful in an effort to have the Act of Union canceled. Up to the middle of the nineteenth century, principally the Protestants were interested in the movement. Next came the Young Ireland movement, supported chiefly by men who were graduates of Trinity College in Dublin. This movement was completely crushed. The spirits of the people at this time were very low; famine and emigration depleted their numbers. The population was reduced from nine millions to four millions by this. At this time our Civil War broke out and many Irishmen came over and enlisted in the cause of the Union. This enlivened a spirit of action in the hearts of the Irish and they returned to Ireland to organize an army for insurrection. This movement was known as the Fenian movement. It was crushed, however, like the first, and the leaders executed or sent to Australia.

Benjamin Disraeli, then prime minister, realized the strength of the Irish movement. A lecturer, Mr. Froude, was sent to the United States to spread about the statement that the Irish were good for nothing. An Irish priest in New York was called upon to defend the Irish. Controversy started in the press concerning these two men, and Mr. Froude soon left the country. Then followed another period of apathy. The Irish members in the House of Commons were not listened to.

C. S. Parnell, an Irish Commoner, next organized, in 1879, the Irish Land League movement. He came over to this country to encourage this, but was soon called back by the dissolution of Parliament. He was re-elected and became the leader of the Irish movement in the House of Commons. Gladstone was won over to the cause and introduced a bill for Irish Home Rule. This bill was defeated and the movement died for a quarter of a century. The bill was brought up a short time ago by Prime Minister Asquith. The bill passed the House of Commons, but was defeated by the House of Lords; it was brought up again, and as before was passed by the House of Commons and defeated by the Lords.

However, a bill was passed shortly before, the substance of which was that if a bill was passed three times by the House of Commons, it would become a law even though the Lords rejected it. This bill is to come up again in May, and it is felt sure that the lower house will pass it.

40c special price

After Mr. Galvin's talk, it was voted to send a letter of congratulation to Governor-elect David I. Walsh. The preliminary report of the committee to look into the matter of representation on the Institute Committee reported favorably, but action on the matter was postponed until next meeting, when more information will be furnished by the committee. A motion was passed to make Father Henry Brock, M. I. T. 1900, an honorary member of the society. The evening closed after McIntyre and Maguire, of Summer Camp fame, had entertained those present with some blackface comic specialties.
