

THE TECH

VOL. XXXIII. NO. 7

BOSTON, MASS., WEDNESDAY, APRIL 9, 1913

PRICE TWO CENTS

PROMISING DRESS REHEARSAL OF SHOW

Numbers Excellent, but Smoothness Lacking As Yet—Light Men Cannot Work.

The dress rehearsal of Tech Show, which was held at the Opera House last night, went through in a way which promises an excellent show after the cast has completed its practice and learned to fit the numbers together in a smooth and accurate way. The actual running of the rehearsal was decidedly ragged, as Mr. Sanger made the men stop and repeat until satisfactory any number which needed improving or which did not start absolutely without a hitch.

The individual numbers are conceded to be fully comparable to those of last year's show. The comedy features are given the chief prominence, but there are also several extremely distinctive dances, and the work of the choruses is of equal importance.

Among the songs there are several very catchy pieces, though the music of the first act is hardly up to the standard set later. At the beginning of the second act two specialties are introduced in addition to a pony ballet, which is a feature in itself. The dancing exhibited here by three members of the cast equals any that has been produced on the regular stage in Boston.

The presence of several reporters indicates the interest taken by the Boston papers in the affair.

The announcement was made last night that the plan of having the stage lights operated by students has come to grief at the hands of the Stage Employees' Union. It was a complete surprise to the managers to have objection raised on such a trivial matter, but the union claimed that they would get into trouble with the national organization if they permitted the lights to be run by non-union labor.

The light men are to retain their privileges in connection with the show, and some will probably be appointed to oversee the management of the lights, give the cues and help generally where needed.

LYNN HIGH SCHOOL CLUB.

Meeting to Be Held Thursday—Officers to Be Elected.

On Thursday noon, at 1.30 o'clock, the men here at the Institute who are graduates of the Lynn High School will hold a meeting in Room 26, Rogers. The club has been recently formed, and it is important that all the graduates be present at this meeting in order to elect the officers. A constitution has been drawn up by L. Cowles, '14; J. Stewart, '15; G. Peakes, '15, and it is to be brought up before those present for consideration.

SECOND YEAR, COURSE X.

Mechanical Engineering Drawing and Quantitative Analysis are inter-arranged on Friday and Thursday. Mechanical Engineering Drawing will be given Friday, and Quantitative Analysis will be given on Thursday afternoon, beginning this week.

WALTER HUMPHREYS,
Registrar.

MINING SOCIETY TO HEAR PROF. LINDGREN

"Mining Interests of Mexico" Is Subject of Talk to Be Given in 11 Eng. B.

This afternoon, at 4.15, the Mining Society will meet in 11 Eng. B, to hear Professor Waldemar Lindgren, the head of the Department of Geology here at the Institute, who will address them on "The Mining Interests of Mexico." Professor Lindgren has just returned from Mexico, where he has been studying the mines of that country and has gathered together much valuable and interesting information about them. While there he has also had more or less trouble because of the late revolution, and was detained by it for three weeks, and has undoubtedly some interesting facts about it. It is expected therefore, that his talk will not be wholly confined to the mines, but will deal to some extent with some incidents of the revolution which have come under his observation.

Professor Lindgren was formerly the Chief of the U. S. Coast and Geodetic Survey, and is one of the best known economic geologists of today. In his professional work he has carried on a great deal of research which has been of great value to the Science of Geology.

As a speaker, Professor Lindgren is well known at the Institute, and a large attendance is expected at the meeting. This meeting is open to members of all courses and every one is invited to attend.

FRESHMEN SHOWING INTEREST IN TRACK

New Candidates Will Increase Scoring in Field Events—Many Meets Planned.

After suffering defeat at the hands of their upper class rivals time after time, the Freshmen are at last beginning to awaken to the fact that to save their reputation they must get down to business and turn out a creditable track team this spring. They have met defeat in all of Field Day's events as well as in the indoor track meet. In a small measure they obtained some glory by winning the basketball championship, and after faithful practice evened the standing up somewhat by winning the annual inter-class cross-country run last week. With this encouragement the turnout of the fellows has increased greatly, and the number of the men throwing the hammer and discus, and putting the shot is only exceeded by the men at the jumping pits. Coach Kanaly is greatly pleased with the spirit the fellows are showing, and is glad to see many fellows working hard at the field events. The running events are still the strong point of the Freshman team, and it is in these that they must score the majority of their points if they are to win.

Another incentive to the Freshmen to come out and work hard is the large number of dual meets which are being scheduled by Manager Webster. Already meets are practically completed, with the exception of arranging dates, with several of the best school teams in the vicinity of Boston. Among these are ones with Tufts Freshmen and Boston Latin School.

(Continued to Page 2, Col. 2.)

ENTRIES IN NOVICE WRESTLING MEET

Matches Are Expected to Be Close—Chinese Wrestling to Be Feature.

The final list of entries for the Novice Wrestling Meet, to be held Friday evening, at 8 o'clock, has now been made up. The following men have entered: Owen, '14; Norton, '15; R. Freeman, '13; Blakney, '16; K. L. Harper, '16; R. S. Burnap, '16; L. R. G. Pousquet, '16; E. B. Goodell, '15; T. A. Berrigan, '16; R. G. Berger, '16; S. A. Hoffmann, '16; C. H. Dunkee, '15; P. N. Brooks, '16; G. D. Anderson, '16; L. L. Connelly, '16; Stewart, '14; B. R. Rosenberg, '16; B. B. Levy, '16, and J. I. Connelly, '16. From this list it is easy to predict several very good matches, notably, the one between L. R. G. Pousquet, '16, and E. B. Goodell, '15.

The preliminary bouts will be six minutes' long, the semi-finals, six minutes, and the finals will last fifteen minutes. The officials will be R. S. Smythe-Martin, '14, referee, and G. G. Morse, '16. It is also planned to have several bouts of Chinese wrestling, an exhibition of which was given at the All-Tech Smoker. The members of the audience will be allowed to enter these bouts if they desire to do so. The management of the meet advises any man who has a grudge against anyone to take him down to the meet and indulge in a little Chinese wrestling with him. There are still tickets enough left at the Cage for all.

SOCIALIST CLUB.

Members of Political Engineering Club to Reorganize.

Today, at 4 P. M., in 8 Eng. C, the Political Engineering Club will hold a meeting to reorganize into a permanent society with a fixed constitution and permanent officers. The present chairman, J. Kuttner, will outline the policy of the organization and immediately after this the revision of the present name of the club will be discussed. All members are requested to attend this meeting, and all those interested in Socialism are welcome.

WEATHER.

Forecast for Boston and vicinity: Today, increasing cloudiness with possibly rain; moderate northerly winds.

WEDNESDAY, APRIL 9, 1913

The Junior Promenade is the biggest social function of the college course, and it is intended primarily for the enjoyment of the Seniors and Juniors. It was deemed advisable this year to limit the number of invitations so that the dance would not be overcrowded, and, appreciating the fact that the "Prom" is the upperclassmen's function, the 1914 Committee gave them the privilege of "signing up" a week before that privilege was granted the Sophomores and Freshmen.

To prevent any disloyal members of the upper classes from "signing up" for underclassmen (and thereby defeating the purpose of the whole thing), the rule was made that the invitations were not transferable, and it was, at the time, definitely stated that any men who failed to comply with this rule would, in future years, be refused all Junior Prom privileges, and that any man presenting a ticket at the Somerset which did not bear his name would be barred from entrance.

The Committee has definite knowledge that this rule is, in some cases, not being observed. On first thought one might say, identify the men at the door and, as the Committee definitely stated when the tickets were sold, refuse entrance to the offenders. But on second thought is this the right thing to do? It wouldn't be fair to the girls, and this consideration makes the promised penalty out of the question.

There is another alternative and we agree with the Committee that it is the wiser. It is this, and we print it here so that there will be no misunderstanding or "sobbing" when it is enforced:

The men will be identified at the door and a list made of all those holding illegal tickets, and of the upperclassmen who transferred their tickets. These names will be placed on the "black list" and all future "Prom" privileges will be denied them while at the Institute. The list will be printed in THE TECH after the dance, that other activities may take proper precautions in dealing with men who fail to keep agreements.

CATHOLIC CLUB WILL HOLD DINNER TONIGHT

Mr. Slattery to-Speak on "Socialistic Views"—Business Meeting After Dinner.

Mr. F. E. Slattery, a prominent Boston attorney, will address the members of the Catholic Club at its regular monthly meeting and dinner this evening at 6.30 o'clock. Mr. Slattery will speak on "Socialistic Views," and his talk, like those which have already been given before the club, will, very likely, be interesting as well as instructive.

After the dinner and talk the club will hold its business meeting. One of the most important matters to be brought before this meeting is the club emblem. The designs for the pin will be presented, and the members will decide upon one of them. The Catholic Club has a banquet every year, and this year the annual banquet will be held sometime next month. This evening definite arrangements for the banquet will be made.

FRESHMAN TRACK.

(Continued from Page 1, Col. 3.)

This schedule will be the largest ever arranged for a Freshman track team, and Manager Webster deserves great credit for obtaining so many. If the team wins the majority of these meets it is probable that numerals will be awarded for points won in them, thus offering an unprecedented chance to Freshmen to win this insignia.

In the 100 and 220-yard dashes the Freshmen have a star in W. E. Adams, but cannot expect too much from him in Saturday's meet because of his poor condition. In addition to Adams they will be well represented by Loomis, Hine and Comiskey, all of whom are fast men and likely to score points. If Barry does not run for the Sophomores the sprints in the interclass meet should be a walkaway for the Freshmen.

In the 440-yard dash the first year men will be represented probably by Comiskey and Reed, with several other possibilities. In the half, C. T. Guething and K. Dean should prove capable of winning two places in all of the meets. Roper Page and Reed should also prove strong contenders in this event. The former is improving fast, and is likely to spring a surprise soon.

In the mile H. S. Benson will probably run, and if he does should have no difficulty in winning. M. G. Graff and H. P. Gray are also running well. The team will be weakened in this event by the loss of F. B. Hastie.

H. S. Benson is also a probable winner in the two-mile in all the meets, provided that he does not run the mile. White, Graff and Gray are good at this distance as well as at the mile.

The Freshmen have no one of previous experience in the hurdles, but Ober has been practicing at the highs regularly the last few weeks, and may develop into a strong contender in the coming meets. Adams is fairly good at the low hurdles, but otherwise the Freshmen have no one of any ability.

In the broad jump, Ahearn is the best of the candidates, but Hine, Comiskey and Childs are also jumping well. This event will not be so weak as was supposed some time ago. Ober, Garita, Clarkson and Childs are all good at the high jump, but the first two are the most probable point winners. Laurason is still the best at the pole vault but is no longer the only candidate for this event. Clarkson and Claussen are also vaulting, and are expected to strengthen the team.

Porter is showing very good form in the hammer throw and discus, and is improving fast. Pouller is also throwing the hammer. Ober is showing fair form with the discus. In the shot-put, Bickford, Porter and Volk are showing mediocre form, the latter being the best.

**FRESHMAN CLASS
ADOPTS AMENDMENT**

**Members of Athletic Committee
Now Members Governing
Board.**

The Freshman Class met in Huntington Hall at 1.30 yesterday. The proposed amendment to the class constitution was ratified by a practically unanimous vote of those present. Article 3 of the constitution now reads: "The officers of this class shall be a President, Vice-President, Secretary, Treasurer, two Directors, two representatives to the Institute Committee, and two representatives to the Athletic Association, all of whom shall constitute a Board of Directors for the class." These officers shall be elected for a term of one year.

President Guething called the attention of the class to the Freshman-Sophomore meet on next, Saturday, and asked all who possibly could to attend.

K. M. Sully, the chairman of the dinner committee, reported for the committee. He said that the tickets for this event will be on sale by men in each section until Thursday night. After that date they will be on sale at the Cage. The committee wants every Freshman to make the utmost effort on his part to be present.

CREW PRACTICE.

**Varsity Eight-Oar Shell Ready
—More Candidates Needed.**

Yesterday afternoon, at 4.15 P. M., the daily practice of the crew was held on the Basin, and the men who appeared put in about two hours of work. There were enough men to make up two boats, and the following men took places in the shells: Commodore Gere and Berkowitz, stroke; Macy and Horbakowsky, coxswain; Duff, 2; MacRae, 3; Wellington and Jewett bow. A row of about two miles was taken, and the men performed some good work, being greatly aided by the excellent weather which favored them.

Although the men who are showing up for practice are doing very good work they are slightly handicapped by the irregularities of the fellows who are out as candidates. There are a great many men who come out at intervals, and these fellows are urged to be more regular in their attendance. There is opportunity for at least 30 men each night, and if all the candidates make it a point to appear at the daily practice the results would be much better. The Varsity eight-oared shell is now ready for use but it cannot be used because of the lack of men to man it.

On Wednesday afternoons the Freshmen who are taking drill are to report at 5.30 P. M., and though this may seem late for the men, it is actually the best time of the day on the river because at this hour the water is smoothest. Among the promising candidates the Freshmen predominate, and this should not be the case. There are many upper-classmen that reported for the crew last year, and the work which they did then will be of great help if they come out this year.

The practice is held regularly every day, regardless of the weather, and consequently the men need not feel any fear of not being able to go on the river at times when the weather is not at its best. All Freshmen who desire to do so may substitute crew work for Gym, and preparations are now being made for candidates who have free afternoons. For these men the Boat House will be opened from 2 until 4, and the fellows who wish to come out at this time should notify the men in charge as soon as possible. All students weighing 150 pounds or more stand an excellent chance of making the crew, and al-

MUSICAL CLUBS' CONCERT.

**Will Present Varied Programme
In Everett High Tonight.**

The concert which the combined musical clubs are to give at Everett tonight will be prophetic of the success or failure of the Spring Concert, which is now but a week off. The concert, which is to be given in the Everett High School, is expected to surpass anything up to this time. The recent practices and entertainments have put the men in prime condition. Following is the program which will be presented:

1. "Kavanagh,"
Glee Club.
2. "Serenade,"
Mandolin Club.
3. "American Patrol" March,
Banjo Club.
4. Selected,
Vocal Quartette.
5. Reading,
H. G. Mann.
6. "Boatswain Eoid,"
Glee Club.
7. Quintette,
Mandolin Club.
8. "Wedding of the Frogs,"
Banjo Club.
9. "Winter Song,"
Vocal Quartette.
10. "The Donkey,"
Mandolin Club.
11. "Stein Song,"
Glee Club.

A special car for the accommodation of the fifty fellows who are to make the trip will leave from the upper level at Sullivan Square at 7.20 P. M. sharp.

COMMUNICATION.

To the Editor-in-Chief of THE TECH:

Dear Sir:—I have noticed with interest the lists of absences from the various meetings of the Institute Committee which have been published from time to time in THE TECH. It is noticeable that the same men, with a few exceptions, are absent each time. If these men have been elected to serve upon the committee why are they not doing their duty? They have assumed this responsibility when they accepted their election and they should fulfill the obligations imposed by the office. Doubtless you will find their pictures in Technique, when it comes out, as members of the committee. Why should they be published if these men have not enough interest to attend meetings? On the other hand, has any activity any right to demand representation and then elect men who do not represent it? It is possibly true that the men have been prevented from attending by other engagements. This should not happen, for those on the committee know that the meetings come on alternate Fridays, so they should make their plans accordingly. If it is not asking too much of you I should like to have you call attention to this matter in the columns of THE TECH.

One of the (Represented?)

though they may have never had any experience in this sport, this fact should not prove any drawback to them, as many of last year's best men were those who had no previous experience.
