MINING SOCIETY TO HEAR PROF. LINDGREN

"Mining Interests of Mexico" is Subject of Talk to Be Given in 11 Eng. B.

This afternoon, at 4:15, the Mining Society will meet in 11 Eng. B, to hear Professor Waldemar Lindgren, the head of the Department of Geology here at the Institute, who will address them on "The Mining Interests of Mexico." Professor Lindgren has just returned from Mexico, where he has been studying the mines of that country and has gathered to gather some valuable and interesting information about them. While there he has also had more or less trouble because of the late revolution, and was detained by it for three weeks, and has undoubtedly got some interesting facts about it. It is expected therefore, that his talk will not be wholly confined to the mines, but will deal to some extent with some incidents of the revolution which have come under his observation.

Professor Lindgren was formerly the Chief of the U. S. Coast and Geodetic Survey, and is one of the best known economic geologists today. In his professional work he has carried on a great deal of research which has been of great value to the Science of Geology.

As a speaker, Professor Lindgren is well known of the Institute, and a large attendance is expected at the meeting. This meeting is open to members of all classes and every one is invited to attend.

FRESHMAN TRACK.

(Continued from Page 1, Col. 2.)

The schedule for the Freshman track team Manager Webster deserves great credit for obtaining so many. If the team wins the majority of their meets, it will be considered remarkable. The winners of the meet will be awarded for points won in this schedule.

In the 100 and 220-yard dashes the freshmen have a star performer in E. Adams, but cannot expect too much from him in Saturday's meet on account of his poor condition. In addition to Adams, there will be good candidates by Loomis, Hine, and Comiskey, all of whom are fast men and likely to score winners. Laurison is still the best of the candidates, but Hine, Ober, Garita, Clarkson and Childs are also vaulting, the former being the best of the candidates. Ober is showing fair ability.

COMUNICATION.

To the Editor-in-Chief of THE TECH:

Dear Sir:—I have noticed with interest the list of absences from the various meetings of the Institute Committee which have been published in THE TECH. A recent practice and entertainment committee, which was to be held on the 10th of this month, has been postponed.

I have noticed that the committee is made up of men who are not doing their duty. They have accepted their election and they should fulfill the obligations imposed upon them.

I am therefore writing to you to ask that the committee be reorganized. The committee should be made up of men who are interested in the work of the Institute.

I am, Sir, yours truly,
