When the two football teams line up this afternoon for the annual football game between the Sophomores and Freshmen it is expected that the same will prove to be the most important contest of the day. Both teams are confident of victory and have played many outside games, but both have not met any one team. The Sophomores have been coached by Coach O'Brien, formerly of Malverne, while the Freshmen have been under the care of Coach O'Brien, who started as a member of the 1915 football team of the last two years.

FIELD DAY CUP

This afternoon the Cross-Country teams of Holy Cross and Technology will meet in a dual run, over the regular Course of 4.12 miles. The course starts at West Roxbury and is over level country for this kind of work. There are numerous hills, some being gradual slopes and others, like Laub Anderson, being short steep inclines. Fences are thin but far and between, and are not of the kind that block the runners to any great extent. The last two miles are road work, slugging toward the Field. Not running in a straight line, the way is rather hard to follow, and for this reason a heavy trail has been laid from start to finish, in addition to having men posted at various points. The teams will have back at 2:01. The race will start at 3:05 from Roxbury, which should make the men reach the Field at about 3.28. Both teams are fresh from their training and anxious to try their

1916—Bickford, Blanchard, Stocking, Stimet, Hands, Curtis, Peltcher, Morse, Eves, Freeman, Jewett, Bonsue, Woodbridge, Ellis, Fuller, Russell, Spear, Borkowitz, Byrnor, Cleave, Pinkman, Maclean (Captain), Monroe, Sweeney, Jackson, Substitutes—Keith, Makepeace, E. L. Salley, Aylott.

1916 Tug-of-War

It is now the day of the Rope Pull between the Freshmen and Sophomores, and we find the 1916 men, after a month of hard, faithful practice, eager for the fray with their rivals. The squad has for many a long day put forth its efforts under the watchful eyes of the men who, with the experience of the last three years to help them, was unanimously elected by the squad as their coach—H. A. Affel 1914. He pulled on his class and Freshmen it is expected that the same will prove to be the feature contest of the day. Both teams are confident of victory and have played many outside games, but both have not met any one team. The Sophomores have been coached by Coach O'Brien, formerly of Malverne, while the Freshmen have been under the care of Coach O'Brien, who started as a member of the 1915 football team of the last two years.

Yesterday afternoon the Sophomore Football Team had a short final practice at the National League Grounds. The work consisted entirely of signal practice, except some kicking by the punters who will be tried today.

All the men are showing great speed in getting off plays, and especially in starting. The quick shifts are coming well, and Coach O'Brien expects

THE TECH

BRIEF HISTORICAL SURVEY OF TECH'S FIELD DAY

This Basis Of Technology's Spirit Began Thirteen Years Ago—Rush Abolished

Although scarcely a man in the Institute, especially in the two lower classes, lacks interest in Field Day, yet the men who know anything of its origin and history are few.

Until thirteen years ago, there was no great excitement, enthusiasm and rivalry of the two lower classes had its outlet in the annual (fall case race), such as is still in existence in some colleges. That year the struggle was unusually fierce on both sides, and the class of 1903 well deserved the hard-earned victory which fell to them. The death of one of the participants gave a touch of sadness to the affair, and the incoming class co-operated with the Advisory Council on Athletics to bring the present system of Field Day sports into existence.

On the record for the course is 23:0.5 seconds, made by the class of 1903, and the class of 1901 started the two-mile run in 24-5 seconds.

On the record for the course is 23:0.5 seconds, made by the class of 1903, and the class of 1901 started the two-mile run in 24-5 seconds.

GREAT PREPARATIONS FOR MASS-MEETING
Orchestra To Play—Fussing Section
Reserved—Good
Speakers
Preparations for the mass-meeting Saturday night are progressing with
out a hitch, President Macaulay, Mr. Litchfield, and Mr. Rockwell are re
ported to be working night and day preparing their addresses for the
intended occasion. The Tech Or
chestra will be there to make its first appearance this year, so the
Tech songs will not be the only good mu
memorable occasion. The Tech Orchestra to play—fussing section will be
reserved, as in the
"Was Ist Los" entertainment last
year.

The classes will be seated separa
tely, and given a chance to practice, or to show off, their class
cheers.

Someone suggested bringing extra chairs into Huntington Hall to try
to accommodate the crowd, but it was decided that the late comers
desire to stand up. The artful idea of
some of THE TECH will be on sale at
all the booths for the benefit of him who has not secured one for himself, or who wishes to present his com
panion with one.

FOOTBALL
(Continued from page 1.)

1917 Football
The Freshman Football Squad has been working with spirit and enthu
siasm since early in the season, and their chances for winning are very
good this year. Their line has shown itself very strong on the offense, al
though rather poor at times on the defense. The ends have been show
ning some fine form during the more recent practices.

Jewett, in the backfield Parnsworth is very fast and a sure tackle. He starred in the scrimmage with 1915 on October
23. At left half Thompson excels in line playing, being consistent in both his blocking and tackling. For 1917 in both the 1915 and the Somervell games. Winton, at right half, is the very fast end, and should be able to tear off some good end runs.

Ronan will wear a uniform, consist
ing of red jersey and stockings with gray stripes when they appear on the field today.

BAND TO MEET IN
UNION AT 1:30 TODAY
Sousa Brocks' Famous Aggregation to March with Seniors—Cars
Leave at 2 O'Cock.

Today at 1:30 o'clock the famous band led by Sousa Brocks is to meet in the Union. From the Union the band will march to Copley Plaza and there the Seniors are to leave for the Field promptly at 2 o'clock.

Yesterday afternoon, in response to the call, about 20 able players turned out in the Union and, by their earnest efforts, finally drove the Mandolin Club down stairs to prac
tice in the dining room. Their efforts were appreciated by all who heard them. Nearly 200 tickets have been sold, but there are still a few seats. Special cars leave the Copley Plaza at 2 P. M.

TUG-OF-WAR
(Continued from page 1.)

had done in increasing the squad, which was so necessary for any kind of practice

Of the members of last year's team we find the following: Bickford, Husseint, Curtiss, Ellis, Fletcher, Mc
Kee and Spear. The team has its anchor Jackson, who tips the scales at 200 pounds.

In comparing the two teams we find they have been coached on ent
tirely different methods. The Sopho
more Team, while it lacks the enthusi
siasm the Freshmen have, average 5 pounds to the man heavier. This ex
tra weight, together with their past experience, should undoubtedly prove of great value to them this after
noon.

As the 1916 Tug-of-War Team lost last year, the team will go out on the Field full of vim and determination, realizing that to uphold the honor of the class the team must at least win one of the Tag-of-War contests in their college career.

1917 Tug-of-War
After five weeks of faithful train
ning the Freshman Tug-of-War Team is ready to take the field and try to win renown by pulling the event from the Sophomore Team and to help 1917 uphold the reputation of the odd-numbered classes.

The Freshmen know that their am
bition is not an easy one to fulfill, for this afternoon as they rope they will have against them not only a heavier team but one much more experienced. However, they have behind them the fact that in previous years the youngsters have succeeded in holding their own, the score being now six pulls to six between the two lower classes and this coupled with the one that every member has put in his best work to make a winning combination puts the team in high spirits.

Businesslike methods and coaching ability have brought out of the squad a fine, well-balanced team, and if 1917 returns a winner this afternoon the credit of the credit should be given to W. R. Hancock '15 and his classmate, Norton. Hancock pulled on the 1915 Tag-of-War Team during both his Freshman and Sophomore years, and Norton was with the team during his first year. Both men know the game thoroughly and have installed not only confidence but enthusiasm into the hearts of their charges. It is the sole purpose of the team to win from the Sopho
more this afternoon and help their classmates prevent 1916 from losing that appreciation on the Field Day cup.
SATURDAY'S SPECIAL OUT BEFORE TWELVE

Ten Page Issue of THE TECH to... Be Devoted to New Technology
and Field Day.

At the present time all looks promising for the publication of the big special issue of THE TECH next Saturday, which will give the first authentic information concerning the New Technology. Saturday's paper will be an "extra" in every sense of the word.

The detailed plans for the new Institute in Cambridge have not yet been made public, and they will not, in fact, be made known to the public in general at all until Saturday night, thus giving a fair short of the Board and will devote their columns to the subject. In Saturday's TECH all important details will be published. The general layout of the grounds, the buildings, their construction and plans, and their locations, will be described, which will convey a good general idea of the way the new Institute will appear.

Accounts of all the events and devices at the Tech Field and of the Shubert Theatre will have their share of space, and cuts and photos of the winning teams at the Field will be printed. The paper will be a ten-page issue, instead of eight as announced, and will be offered for sale before 12 o'clock on Saturday.

FIELD DAY

(Continued from page 1.)

The enthusiasm shown by the two lower classes in regard to the Field Day games has been shown in the enthusiasm that made the great undertakings possible. We carry the enthusiasm of the two lower classes most concerned.

The above sports were selected to give an opportunity for varied types of competition. The Football and Track meets have been won about equally between the Freshman and Sophomore classes most concerned.

The Sophomores have won the tug-of-war six times. This year's tug-of-war meeting between the two lower classes was a very close one. The Sophomore team has been the team with the most experience.

A cup, a cut of which is shown on page 3, has been won by the Freshmen in two lower classes. This is the cup which was won by the Freshmen in the tug-of-war meeting in 1905, 1913, and 1915. This cup is always awarded to the team with the most experience.

Although the majority of the team have had no previous experience, the Freshmen are fortunate in having the services of O'Hara, Sullivan, and Friend. O'Hara is a well-known B. A. runner and should give a good account of himself to the Freshmen. Friend, Sullivan, and O'Hara have had the Scholastic Indoor Field Day Cup for two years, and this year the Freshmen have had the Scholastic Field Day Cup for two years.

To the Members of the Junior Class.

In establishing a scoring system for Field Day the points were assigned to Field Day participants.

Sincerely yours,

Frank F. Scully.

RELAY

(Continued from page 1.)

 Relay has never won the relay race. This year the Sophomore team has been a very close one. The Sophomore team has been a very close one. The Sophomore team has been a very close one. The Sophomore team has been a very close one.
