KOMMERS DINNER
ALL ARE INVITED

Annual Dinner to be Held in the Union on Thursday Evening. Special Features.

The Kommers Dinner, which is to be held next Thursday night in the Union, is being pushed by the management in expectation of a memorable evening. Rumor persists in having it that beer and cigarettes will be part of the menu, and this is expected to induce an exceptionally large and enthusiastic crowd. So noted as this is only a rumor, but rumors have been known to come true. At all events, everybody in the Institute is invited to attend.

MECHANICAL ENGINEERS
TO MEET TOMORROW

Mr. C. B. Rowley '12 Will Speak On Subject of "Cold Storage Insulation."

Tomorrow at 4:00 P. M. the Mechanical Engineering Society will hold a meeting in Room 11 Eng. B. The speaker for the meeting will be Mr. C. B. Rowley, M. E. T. 1912, of the H. W. John-Manville Company, who will talk on "Cold Storage Insulation." In his talk he will tell how and why the use of cork board and practice of building and insulating storage boxes. The lecture will be illustrated with lantern slides and promises to be very interesting and instructive.

At this meeting an important change in the Constitution will be suggested, and it is hoped that as many members will be present as possible. All men from Courses II and X are particularly invited.

FRESHMAN NOMINATIONS
Will be Due Thursday Afternoon for Permanent Officers

Nominations for the permanent officers of the Freshman Class will be due the Thursday, November 13, at 4:00 P. M. The offices to be filled are those of President, Vice-President, Secretary, Treasurer, and Chairman of the Freshman Committee. The nominations must be signed by at least ten members of the class. It will not be necessary to have paid dues in order to sign nominations, but in counting the final votes, after the ballots are in, only those names will be considered whose owners have paid their dues. The nomination papers should be left at the Cage, addressed to the 1917 Election Committee.

FRESHMEN WRESTLERS
Many Men Out—Novice Meet Planned—Team Picking

The coach announces that more freshmen than ever are expected to attend the novice meet this year. Some tickets left for tomorrow, for Steward Colton must know at least by the time how many men are to be provided for.

MANDOLIN CLUB
For the Combined Musical Clubs

The meeting to be held this evening in the Franklin Square House the following members of the Mandolin Club are invited: S. E. Fiza, W. L. Howard, T. K. Kao, H. Huff, W. L. Graves, D. E. Moorehouse, Q. L. Patten, S. E. Fiza, P. E. Stern, D. P. Thompson, A. S. Thayer, R. C. Taylor.

WEATHER

For Boston and vicinity: Generally fair and colder.

BOSTON, MASS., TUESDAY, NOVEMBER 11, 1913. PRICE TWO CENTS

FRESHMAN BASKETBALL
CANDIDATES REPORT

Twenty Men Out—First Practice—Schedules Arranged—A Trip Possible.

About twenty candidates reported at the gymnasium yesterday afternoon for the first practice of the Freshman Basketball Team. Manager Kaush would like to see about twice that number, in the belief that the strong showing made by the 1912 team last year means that 1917 should work hard. Any freshman who has ever played basketball, or who has been in the team, is requested to show up to increase the competition for positions.

All ready six games have been arranged, among them contests with Winthrop, St. John's Prep., Rock Ridge, and Bridgehampton Normal. Negotiations are under way for games with Dummer Academy, at West Byfield, and with the Watertown High School. When the schedule is filled it will consist of twenty games, and it will be published in THE TECH as soon as it is completed.

Plans are under way for a trip through Maine during the February vacation period. If the weather permits, a trip on the Winthrop will probably be Lewis and the Abbott School.

FIRST SOCCER PRACTICE
Good Work Done, But Candidates are Lacking in Numbers.

The Technology Soccer Team held its first practice at the Field yesterday. Although only about a dozen players made up the team, it is expected that more will arrive in the next few days. The practice was reported, but all but one had had previous experience in the game, and a very good practice resulted from their efforts. The men who reported were J. W. White, '18; H. Russell, '16; H. L. F. Young, '15; D. E. Woodbridge, '15; I. W. Young, '15; T. K. Kao, '15; C. H. Martin, 15; Sandburg, 14, and A. Nielsen, 15.

The coach announces that more men must come out if the arrangements contemplated are to be carried out. It is hoped that games will be scheduled in the spring with college and club teams, but this is possible only if a fairly good team is shown. At the present time, practice is being held at the Field every afternoon. More definite arrangements will be made as soon as the number at hand is from and more detailed arrangements are possible.

NEW TECHNOLOGY ISSUE
Copies of Paper Still Available—Special Prices on Big Orders

Copies of the special new Technology issue of the TECH are still on hand. At 10 cents a copy, and also at the Cage, Rogers Corridor, Eng A, and the fourth floor of Pierce. Special new articles will be included, and the cover will be of cardboard and quitted on orders of 50 or more copies.

CALENDAR

Tuesday, November 11, 1913.

1.00—1915 Baseball Team Meetin—Regular.

6:30—Brotherhood St. Andrew dinner—Trinity House.

7:30—E. E. Smoker—Union—Trinity House.

7:45—E. E. Smoker Smoker—Union—Franklin Square House.

8:00—Basketball Alumni—Franklin Square House.

10:00—Basketball Alumni—Franklin Square House.

REV. MR. THOMAS TO SPEAK
ELAT SIDE SETTLEMENT WORKER TO GIVE T. G. A. TALK

The Rev. Mr. Norman M. Thomas of New York City will be the next T. G. A. speaker in the Union, this Thursday, noon. He will speak on the topic, "Immigration, a Challenge to American Patriotism and Christianity." Mr. Thomas is chairman of the American Parish Committee of the East Side, an organization of Presbyterian Agencies in the Polyglot District of the metropolis, and is an active worker. He has three churches, with a staff of ministers, including three Italians, one of which is connected with the churches.

Mr. Thomas is a brother of Ralph L. Thomas '13, Course VI.

JUNIORS VISIT BREWERY
Sterling Ale Process Explained And Samples Tasted

Last Thursday afternoon the class in Industrial Microbiology went on an excursion to the Rueter Brewers in place of their regular exercise. Prof. Prescott was in charge of the party which numbered over twenty-five men.

All the steps in the brewing of Sterling Ale were shown and described in detail by the brew-master and Mr. Rueter who kindly allowed the students a fine chance of seeing in practice some of the things about which they have been studying.

After seeing the large keg full of hot wort and hops, the large cold storage plant where the hops are kept, the vats with the yeast working in them, and the ale in the last process of brewing, the men were given a chance to make a gastronomic test of the product.

BIOLGICAL PROF. RETURNS
PROF. KEITH WILL MEET HIS CLASSES TODAY—WAS CONFINED WITH COLD

Professor Simon C. Keith of the Biological Department is hoping to meet his classes beginning today. The Professor has been confined to his home in Brookline this past week with a severe cold, but is now up and about again. In view of the fact that the first exercise of his new course in Food Microscopy was to have been held last Tuesday, Professor Keith's illness is regarded as having come at an unusually unfortunate time, but the class will meet today at the time—1:30 to 3:00—which was decided upon at the first preliminary meeting two weeks ago.

Let me call your attention to the importance of systematizing your work. The most successful engineer is he who can obtain the greatest amount of correct work out of those whom he employs, and it is only by looking ahead and laying out systematically the work of each individual and of the entire corps that this can be effected—Waddell.

Don't you want one of those handbooks of Boston's Scientific Institutions?

The outlook is good for a first-class freshman Track Team.

Do this—and you'll have no regrets

See us today about that overcost you'll need. Why? Because—you won't be able to secure choice patterns much longer. Again why? Because—of tariff changes resulting in a short woolen supply—and even our large stock, carefully provided, going rapidly.

Today's the day to order.

Prices—$25.00 to $60.00.

MANY FRESHMEN TAKE TRACK INSTEAD OF GYM

Over Thirty-five Already Registered—Wrestling And Hockey Get Their Share.

Freshman Gym classes started yesterday, and as usual there were a large number of men who will substitute track, wrestling, or hockey for the regular gymnastic work. The large number of Freshmen who signed up for track shows that the competition for Technology's teams will be keener than usual this year. The prospects point towards a very successful Freshman track team with such a large number of candidates. Only about a dozen men have expressed their intention of going for hockey, but this list will probably be greatly increased later since today was the first day on which gym classes were held.

COMMUNICATION

To the Editor of THE TECH:

A daily athletic column, I believe would be a valuable addition to your paper. It does not follow from the fact that most students here lack a vital interest in athletics that all students do. Let us hear about the prospects for a good crew at the University of Washington, the latest in tennis in Australia, whether Yale's prospects for a good crew at the University of Washington, the latest in tennis in Australia, whether Yale's
does. Let us hear about the prospects for a good crew at the University of Washington, the latest in tennis in Australia, whether Yale's

NATIVE ZULU PRINCE IS T. C. A. SPEAKER

Captain Cele Tells Of Customs And Conditions In His Native Country.

One of the largest audiences that has attended a T. C. A. talk in the Union was present Thursday at half past one, to hear Captain Mandla's Qwabe, the Zulu prince, from Africa. Captain Cele impressed the audience as being a very well educated man. His manner is that of a college graduate; and his command of the English language which he has learned since his arrival in this country... is excellent. His speech is forceful and his reasoning exceptionally clear.

The conditions coincident with Captain Cele's trip to America are rather interesting. Because of his royal rank he was prohibited from leaving his native religion, so like his father, who was a missionary, he gave up his position and took up his father's work.

-Captain Cele spoke of the customs and habits of his native land. There, he said, the worship is confined to three idols. These gods have a hold on the people and, in everything, the natives have very strong convictions. They are first believers in their creeds; and for this reason more than any other, they are in great need of Christianity.

-He then spoke of the naming of the people in his country, the Zulu. It is a thing of great meaning. His name, for instance, tells the story of his birth by a tribe of warriors who were returning from battle, found him lying by the roadside. The translation of his name means, "I don't know how long I'll live. Give me something to eat."

-Captain Cele is speaking of the reckoning of time in Zulu, said that the natives count time in the most primitive way. They keep count of the days between the appearance of the new moon and the full moon. If the clouds happen to obscure the sun on these nights, they let it go till the next occurrence. The marriage customs of the Zulus are very different from customs of this country. The courtship is done in a long drawn-out fashion, and when the bride has been won, the father of the bride must be paid a price of ten cows for his daughter. The daughter of a chief costs forty cows while the daughter of a king costs fifty cows. The financial rating of the families depends, thus, on the number of unmarried daughters, since each one will bring in wealth to the family upon her marriage.

-Captain Cele spoke highly of his impressions of the conditions and opportunities of this country. The school at Hampton from which he graduated is, he says, a model of excellence. The trades, mechanical arts and engineering subjects taught there prepare the student to become useful and to teach others. The way in which the people of his race are treated in this country also impressed the Captain. He believes that the social advantages of the Negro in America far surpass the conditions of other countries. He himself intends to go back to Zulu within a week to teach the natives what he has learned. He found however, that in doing so he would not be able to teach the girls the arts of cooking, sewing and domestic science, and the only way to do it, he found, was to take someone back with him who could take charge of the girls and teaching. He found a girl in Hampton who consented to go, and the two were married less than a week ago.

In closing, Captain Cele expressed his appreciation of the treatment he has received while in this country. He says that Americans come to see him and his people in their native land. He spoke of the need of teachers and missionaries in Zulu and said that the native is very much to the trip worth while to Americans. He assured the fellows that any of them who were looking for that sort of work would be warmly welcomed by the people of Zulu.

THE TECH, BOSTON, MASS., NOVEMBER 11, 1913.

ECONOMICS CLUB

Regular Meeting Tomorrow Noon.

Business and Discussion.

The Economics Club will hold its regular meeting in C. Engineering C at 1:30 tomorrow. Matters of some importance will be brought up at the business meeting, and the remainder of the time will be devoted to discussion of the propositions on which President Kuttner outlined at the meeting two weeks ago. This conception, it will be held, is to be used as a basis for the more glowing evils of the capitalist system, and to have no necessary connection with the great theories which are ordinarily considered as forming a basic feature of its propaganda. The conception of the members; and MacNeil '15, who will open the discussion for the opposition, promises that a sharp conflict of opinions will come to the surface. The meeting will be open to all Institute men, whether members or not. The officers especially request that the men who have signed indicated their intention of joining will be on hand.

THE TECH BOWLING HEADQUARTERS

Established 1890. Opposite the Union.

Two minutes walk from all Tech Buildings. Unexcelled facilities; the most lavish accommodations. Bows available and screened for private parties. Come in and enjoy a little fun and exercise between periods.

Capt. K. C. A. Captain

Regular Meeting Tomorrow

Business and Discussion.

The Economics Club will hold its regular meeting in C. Engineering C at 1:30 tomorrow. EPISCOPALIAN DINNER

This evening at 5:30 the Brotherhood of St. Andrew in residence at Trinity House, 93 St. James Avenue, will hold a conference in the living room of the Hostel. All who are interested are invited to attend, and may obtain tickets from any member of the Brotherhood.

SOPHOMORE FOOTBALL

Men Should Get Suits From Gym

Before Tomorrow.

If any of the men on the Football Team who have lockers at the Gym expect to get back their suits and other belongings they must get them at once. Otherwise the lockers will be cleaned out by the janitor and the stuff harnessed on Wednesday.

The manager of the team also requests the fellows to watch THE TECH during the latter part of the week for notices that may appear in regard to the fellows getting measured for sweaters.

FRESHMEN GIVE PRESENT

Coach Handtett Of tug-of-War Is Recipient Of Fountain Pen.

After Field Day Coach Handett of the Freshman Tug-of-War Team was presented with a gold-mounted fountain pen by the team. This is an unusual occurrence with Institute Field Day teams, and was done in order to make the Freshmen to show their appreciation of their Coach's hard work in drilling them during their preparation for Field Day.
