PRICE TWO CENTS

NOVICE TEAM PICKED FOR WRESTLING MEET

Competition Keen In Elimination Matches—Freshmen Show Up Well.

Candidates for the novice wrestling meet with the B. Y. M. C. A. next Saturday were given final tryouts in earnest and many scrappy matches resulted. Especially was this true in 135-pound and 145-pound classes. A choice of three men is still left in each of these classes, and there is a chance of all getting in the meet.

The first match between Haslan and Stebbins ended when the latter got a fall. Durkee succeeded in putting Berger down and Blakeney defeated Bond. Wood and Murtz put up a close fight and there was little to choose between them. Stevens had a shade over Berger in the 135-pound class.

The novice team is now as follows: 115-pound class, Bone; 125-pound class, Stebbins; 135-pound class, Durkee, Stevens, Berger; 145-pound class, Wood, Murtz, Peterson; 158-pound class, Goodell; heavy-weight class, Leslie.

SOUTHERN CLUB DANCE

Next Monday evening, December 8, the Technology Southern Club will hold a dance at the Copley Plaza Hotel. This will be the first of a series of big social functions which Pres. Williams declares will make this year a very active one for the Club. The dance will be preceded by a reception which is not limited to the members of the Club, and which will be an excellent opportunity for everyone to get acquainted.

LYRICS CALLED IN

Those Accepted Will Be Announced In Friday's TECH.

This afternoon at four o'clock the lyrics for Tech Show will be called in. This is not, however, the final call. It is simply to get an idea of the progress that is being made. Already several men have handed in lyrics, and the indications so far are very favorable. All the lyrics that are accepted will be announced in Friday's issue of THE TECH. The titles, for which lyrics have not been composed, will also be announced. Those that are now working on lyrics will also hand them in today, and if they are all right will be handed back to be completed later.

FACULTY NOTICE

Professor Bates will be out of town on Saturday, December 6, and unable to meet his class in Eighteenth Century Literature.

The Metropolitan Museum of Art of New York has accepted a \$15,000,000 collection of paintings, bequeathed by Benjamin Altman.

FATHER MURPHY SPEAKS BEFORE CATHOLIC CLUB

Church In History Of Italy Is Discussed—Chinese Entertain.

The great success which has attended the gatherings of the Catholic Club this year was repeated last night at the monthly dinner held in the Union. The attendance was large and enthusiastic, and after disposing of one of Chef Holton's master spreads, the members were entertained by the chief speaker of the evening, Rev. Francis Murphy.

Father Murphy is of St. Francis de Sales' Church, Roxbury, and spoke most interestingly on the condition of the Church in Italy. Father Murphy is an orator and a scholar of ability, and his remarks bespoke a keen insight into the conditions and circumstances of Italian history.

Father Murphy said that the history and triumphs of Italy have always been those of the Church, and, conversely, the glories of the Church are those of Italy; for the Italians have always won distinction under the auspices and patronage of Catholicism. He traced the progress of the two through the ages from the conversion of Constantine and the consequent delivery of Christianity from the clutches of pagan Rome, to the present day, when in spite of socialistic influences, which envelop the Italian government, the people remain true to the faith of their forefathers. He spoke of the great accomplishments of Italy and the Church in architecture, the development of the Gothic and Renaissance styles in painting, sculpture, music, literature and science, and told of the encouragement which the Church has always given to the development and progress of civilization.

Father Murphy's talk was exceptionally entertaining and interesting throughout, and the officers in charge are to be congratulated upon their happy selection of the topic and the man. The speakers at the assembly this year have been invariably of the highest order, and the Club's appreciation is very apparent from the increasing attendance.

Following the talk the Club was entertained by Turpin Hsi with a skilful exhibition of the shuttlecock, similar to that which amused the guests of the Chinese students Saturday night. Mr. Hsi's cousin, T. Hsi, played a selection on the flute and the meeting closed with the singing of the Stein Song.

EDITORIAL CONTEST

The editorials submitted for the Pi Delta Epsilon contest have been coming in slowly, but the number submitted has not been sufficient to give an index of the undeveloped talent in this line. In order to have a competition there must be more men out, and these ought to begin at once if they wish to have a chance of winning.

COACH KANALY EXPECTS WINNING INDOOR TEAMS

Captain Guething Heads List Of Veterans From Which To Pick.

Although the first week of indoor track work has not yet ended, nevertheless enough has been done to show the true prospects for the indoor season. Coach Kanaly is giving the men an early start and hopes to have the men in the pink of condition at the crisis of the relay events. Several men have been lost, but they will be replaced by new men, and candidates who last year were not quite good enough to make the team. The great majority of the members of last year are back and enough material is on hand to permit the selection of

T. H. GUETHING

two good one-mile teams and possibly two two-mile teams.

Of last year's members and candidates the following are already at the Gym for practice: A. B. Curtis, Captain T. H. Guething, C. T. Guething, C. S. Reed and A. F. Peaslee. J. W. Bolton is not yet out, but is expected to start work soon.

Captain Guething holds the Institute record in the quarter-mile, and is one of the best double furlong men in New England collegiate ranks. He has three times scored in this event at the New England Intercollegiate Championships, and is expected to do even better than usual this year. He has run on both relay teams.

(Continued on page 2)

TECHNIQUE CANDIDATES

All Juniors who are interested in the business department of Technique, 1915, and wish to try for the position of Assistant Business Manager, are requested to meet Business Manager George Urauhart in the Technique Office at 5 o'clock this afternoon. This position offers good business experience as well as active membership on the Technique Board.

TALK ON DISPOSAL OF NEW YORK'S SEWAGE

Dr. Geo. A. Soper Tells Of Proposed Sewerage System For New York City.

Among the seventy-five men who listened to an extremely interesting talk given by Dr. Geo. A. Soper, president of the Metropolitan Sewerage Commission of New York, on the question of methods for disposal of its sewage before the sanitary section of the Boston Society of Civil Engineers at the Engineers' Club last night, were Dr. Wm. T. Sedgwick and Prof. E. W. Porter, two assistants and ten students.

Dr. Soper gave an elementary outline of the plans proposed by the Commission for the future development of the disposal of New York sewage. At present there is no restriction on the amount of sewage flowing into any part of New York Bay or the question of its purity. The report of the Committee is to be submitted before May, 1914, and a new committee will be appointed to carry on the actual work. The uniform distribution of the sewage in the harbor in order to sufficiently dilute it has been the great problem. It was found that sewage was not being carried out to sea directly, but remained in certain parts of the harbor, polluting it. A serious nuisance was caused along the outfalls along the waterfront.

The main feature of the plan is the construction of the small island three miles out at sea. The sewage from around the lower East River will be collected and conducted to the island where it will be screened and heated in tanks and later discharged into the sea. The sludge will be taken farther out to sea by steamers. The sewage is to be pumped 12 miles through a thirteen-foot culvert with a raise of twenty-seven feet at the pumping station. In the upper East River the project will consist of intercepting and collecting sewers along both sides of the Harlem River, and leading them to a plant on Ward's Island where the contents

(Continued on page 4.)

THURSDAY, DECEMBER 4, 1913

In Charge of This Issue

Editor—E. F. Hewins '16.
Assistants—R. C. Fellows '16, W. A. Houser '15.

Mr. Stockdale, who speaks for the last time at the Union this noon, has been well known at the Institute as a man of perfect frankness in expressing his ideas. Some of us have disagreed with him, but all of us have been forced to respect him, and we shall feel his loss keenly.

One of the criticisms often made against organized Christianity is that its followers are too self-satisfied and intolerant, and that the doubter's case does not receive at their hands the open-minded consideration to which every man's opinion is entitled. Mr. Stockdale is a man who believes that Christianity can stand on its own feet and make good on its own merits, without hiding behind creeds and formulae and mystic ceremonials. He has made an effective appeal to Tech men as followers of Science, and although his presence is to be removed from us by the space of half a continent, the influence which he exerted upon us will not readily be forgotten.

We congratulate the Cross-Country Team on its choice of a leader. According to all indications, "Doc" Cook should carry the team through one of the most successful years of its history.

The position which Cook has attained should prove a stimulus to men who refrain from entering activities because of fancied inability. Cook had practically no experience in athletics when he came to the Institute; he is a product of the Tech system which gives the same care in coaching to the novice and the veteran, and which has turned out so many men of whom Tech may well be proud.

The attendance at the beginning of indoor track work yesterday, while

INDOOR WORK BEGINS

(Continued from page 1.)

Curtis was a member of the one-mile team last winter and is a Varsity hurdler. He is looked for to make the team again this year. C. S. Reed was a member of the one-mile team last year and has improved greatly since that time, as was shown by his fast work last spring and the remarkable race he ran on Field Day for the Sophs. Peaslee made a strong try for the team last season, but failed to make it. He is a possibility for this year. Bolton was a member of the one-mile team in 1912 and 1913 and should repeat.

For the longer race, Benson and C. T. Guething, of last year's team are probable members of this year's. F. L. Cook, the recently elected captain of the Cross-Country Team is almost certain to prove a valuable man. Although last year Captain Germain and Bylund were looked upon as mainstays, neither was in good condition and their failure to star effected the prospects of the team greatly. This is not the case this year, however, as all the candidates are in good shape. The cross-country men have shown their capabilities by their successful season, and with the aid of Bolton Reed, and Captain Guething, all of whom have run on the longer team, a combination is likely to be turned out which will make a good try for the college championships.

Francis O'Hara '17 has started practice, and with his previous experience at indoor work, is expected to make the one-mile team. Friend '17 has also had a great experience and can be counted on to do fast work. Loomis and Huff, both Varsity outdoor men, F. L. Ford '17, J. J. Donnelly '17, Cady '17, and Williams '17 are other prominent candidates. C. Reid '16 also shows great promise of development. Graff '16 and Nye '14 will both try for the two-mile team, and F. J. Wall will try for it also after he returns to school in February. Wall is doing light track work even now in preparation for the relay season. W. E. Atkins is another promising candidate for the longer distance.

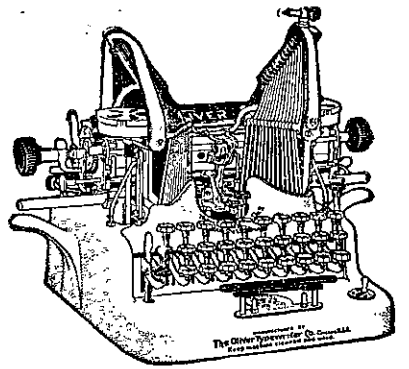

The team may not have the benefit of the regular outdoor work this year, but Coach Kanaly hopes to overcome a minor difficulty such as that. The B. A. A. track has been customarily laid in the Oval, but this property has now changed hands, and it may prove impossible to obtain the use of the grounds.

Coach Frank Kanaly, in speaking of the prospects of the team, said that from the quality of the men out and from the showing made by the Cross-Country Team this fall, he expects to turn out a far better team than that of last year. The team will probably be entered in the B. A. A. meet, the Armory meet at Providence, and possibly some of the New York athletic club meets.

not by any means small, fell short of what it should have been considering the excellent chance Tech has to make a killing in the intercollegiate next spring, due to the graduation of so many stars from competing colleges.

This is an unprecedented opportunity to put our cross-country standing at the top notch so that it may have the right kind of a start when we move to the new buildings. The improved athletic conditions across the river will ultimately put cross-country on a satisfactory footing, but it will be a great help to have the sport already at high water mark when we get there.

The New Model No. 5 Pr n-type Oliver Typewriter makes an ideal machine for students' use. It is a marvel of simplicity, durability and ease of operation. Printype your notes and they will be twice as valuable to you. Easy terms if desired.

HOCKEY PRACTICE

Large Number Out—Date of Harvard Game Changed.

Thirty-five hockey candidates attended the first practice of the season which was held in the Arena last night. All of the men were tried out and most of them showed up well. The first part of the practice consisted of the rushing of the puck by the forwards against the defense, new sets of players being put in every two rushes. During the last of the hour, a practice game was held with the Pilgrim A. A. Different men were put in at short intervals so that every man on the squad had a chance in the game. Three new men, F. E. Richardson '17, A. P. Farnsworth '17 and Proctor '17 joined the squad last night.

If the men continue to show up well, a game with the Tufts team may be arranged for next Saturday night. The Harvard game has been postponed until December 19, to avoid conflicting with the Junior dinner.

COLLEGE NEWS

Wesleyan has taken up intercollegiate soccer football.

Cornell Medical College recently received a gift of four million from Col. O. H. Payne, a Yale graduate.

The University of Colorado is enlarging its station from one half to five k.w. and will procure a government license.

Harvard men are protesting because Christmas vacation begins Tuesday and ends Saturday, cutting off both week ends.

University of Pennsylvania is to have a new chapel to cost at least half a million dollars. It is to be 180 feet long and 66 feet wide, and is to have a seating capacity of 1500.

Sir William Ramsay of England, foremost Biblical scholar in the world, has arranged to deliver a series of five lectures on the "Life of St. Paul" at the University of Pennsylvania.

Johns Hopkins medical school has recently received an endowment of \$1,500,000 from the Rockefeller General Education Board. The fund is to be named after Dr. Wm. H. Welch, the distinguished acting president of the University.

SPIKES

Captain Guething looked promising as he took his starts yesterday.

E. D. Sewall and E. V. Pollard, both of the Freshman class, were trying the high jump. There is lots of room in the Field events.

Captain Eddie Germain of last year's Varsity track team may run for the B. A. A. this winter.

Loomis, captain of the record-breaking Sophomore Relay Team has started active indoor work.

Several of the Freshman relay candidates are handicapped by not having spiked shoes for their indoor work.

Sullivan '17, Hall '15, Teeson '15 and McKinnon '14 are likely to have some keen competition among themselves this year in the high jump.

The Secret of Good Batting

is similar to the secret of good business—it happens to some and just misses the others.

If there ever was a commercial home run it's Fatima, the Turkish-blend cigarette. The expert who conceived this blend was some batter! Fatima was first lined out in the college towns—the student body quickly proclaimed them winners. Today Fatima is the biggest selling cigarette in this country.

The secret is—pure, good, choice tobacco—no expense in the package—quality all in the smoke —"Twenty."

REV. A. A. STOCKDALE TO SPEAK THIS NOON

Last Time South End Pastor Will Appear Before T. C. A. Meeting.

This noon, the Rev. Allan A. Stockdale, pastor of the Union Congregational Church, will speak in the Union, at the regular weekly T. C. A. meeting. Mr. Stockdale will speak before Tech men for the last time, undoubtedly, for he has resigned his position at the Union Church, to take the pastorate of the First Congregational Church, of Toledo, Ohio. The pastor leaves for the West in order that he will be nearer his home, which is in Michigan.

Mr. Stockdale has been a regular T. C. A. speaker, and has spoken in the Union on several occasions in the last two years. His talks will without doubt be remembered by many, particularly because of their novel nature. Previous to his talks, Mr. Stockdale called for questions and queries from the students at large, and then answered these questions from the "Question Box." Many interesting problems and questions were brought up by the students, and the minister's answers were equally interesting. This year, Mr. Stockdale will speak on "A Minister's Opinion of 'The Inside of The Cup,'" and his talk involves such problems and points as will undoubtedly make this noon's talk one of the best this year.

The Union Church pastor is well known as a broad-minded man with liberal views and ideas, and his discussion of Winston Churchill's book, "The Inside of The Cup," this noon will probably find him at his best. Churchill's book criticizes the church and its relation with the working man, and claims that it does not meet the demands and needs of the latter. Mr. Stockdale, with a career as pastor of several large churches in and around Boston, and a varied experience among the working classes, is well qualified to discuss the book and the criticisms made in it. With such a well-known and popular speaker, the T. C. A. is anticipating one of the largest crowds of the year at this noon's meeting.

DR. SOPER'S TALK

(Continued from page 1.) will be screened and discharged into Hell Gate.

In connection with this project the digestive capacity of the harbor will be used as far as possible as in the past. This is considered a great asset in connection with the system. It is estimated that \$17,000,000 will be required for the work with a probable expenditure of more when the final report is submitted. The Commission recommends the use of the Dortmund Tank at all the plants.

An open discussion was held after the talk and the speaker answered the questions which his hearers might have to ask. Prof. Sedgwick also gave a short talk at the close of the meeting.

A monocle is a pane of glass worn in one eye in order that its wearer may not see at one time any more than he is able to understand.—Punch.

Prospects are good for a fine hockey team.
