

# THE TECH

VOL. XXXIII. NO. 97.

BOSTON, MASS., WEDNESDAY, DECEMBER 10, 1913.

PRICE TWO CENTS

## E. E. TRIPS—FRIDAY'S LIST NEARLY COMPLETE

### Only Chances To See A General Electric Plant—Schenectady Excluded.

The Electrical Engineering Society will leave the Library in Lowell at 1.25 sharp this afternoon. There is room for several more on this trip, but the list for Friday is almost completed, with the exception of one or two names which may be added. The committee feels that it is highly desirable that all men take this trip if it is possible for them to arrange it, since this will be the only chance to see one of the General Electric Plants. Schenectady has been definitely excluded from the mid-year trip. There will be special guides to take the party through the works.

## INSTITUTE COMMITTEE

### Reports Of Regular And Special Committees Will Be Read

There will be a regular meeting of the Institute Committee on Thursday afternoon at 4.15. A number of reports of the different committees will be read and other important matters will be discussed. The reports of the following standing committees are due at this meeting: Union, Point System, and Bulletin Board. The question of the proposed change in the organization of the Co-operative Society will be discussed and the results of the Committee on the Uniform Constitutions for All Classes will be heard. The report of the Special Committee appointed for the purpose of bringing about closer relations between the Musical Clubs and the Institute Committee will also be read.

## 1916 PIPE COMMITTEE

Chairman J. P. Uhlinger announces a meeting of the 1916 Class Pipe Committee to be held today at four at 225 Newbury street.

## BANJO CLUB

The members of the Banjo Club are now practising regularly for the Winter Concert. A number of men, who will be unable to play in the joint concert, are practicing regularly for the ones that follow.

## CERCLE FRANCAIS

Last night the Cerle Francais held its second regular meeting this year. About a dozen members were present and they enjoyed themselves in hearing of the foreign experiences of the different members. Of the members present only one forgot himself and used English, thereby incurring a fine. Because of the Christmas holidays the next meeting will come in January.

## WEATHER

For Boston and vicinity: Fair, moderate west and northwest winds.

Wisconsin has organized an Anarchist Club.

## CIVILS WILL VISIT INSTRUMENT FACTORY

### Trip to Factory of Berger and Sons Arranged For Next Friday.

The Civil Engineering Society has arranged a trip to the instrument factory of C. L. Berger and Sons, to take place next Friday afternoon. The men will be divided into two parties, so that everyone who wishes to go will have an equal opportunity to see the whole factory. The parties will start from the Union, one at two and the other at three.

The firm of Berger and Sons is the successor to Buff and Berger, which was founded in 1871. C. L. Berger, who helped found the original company, later with his two sons took over the entire management of the business, which now goes under his name. Mr. Berger obtained his experience in manufacturing instruments in Germany and London.

The company makes mainly civil engineering instruments, and these are of the best grade produced in this country. The factory is not large, as the aim of Mr. Berger is rather towards quality than quantity. Besides transits and levels, gravitational pendulums for the geodetic survey are made, as well as magnetic instruments for the United States Government and the Carnegie Institute. Astronomical instruments for Lake Survey and the Mexican Government as well as cameras for photographic surveying are also produced.

Mr. Berger has a large collection of instruments of different kinds which will be shown to the visitors, and he feels that they will prove of great interest to prospective engineers.

This trip will afford an excellent and unusual opportunity for the man in the Civil Engineering Course to become acquainted with the manufacture of the instruments which they must use constantly in their profession. (Continued on page 2.)

## MIDWINTER CONCERT

### Reserved Seats On Sale In The Union At 1 P. M.

The tickets for the Midwinter Concert next Tuesday evening can be exchanged for reserved seats at one o'clock in the Union today. If any of the men have not yet procured tickets, they can do so at that time.

Leader Tallman of the Glee Club wishes the men to remember that the rehearsal next Friday will be at 4.30 instead of the usual time. The music for the "Drinking Song" will be at the Cage by Thursday morning, and the members of the Club must have the music learned by the time of the rehearsal on Friday.

## SOPHOMORE FOOTBALL

The Manager of the 1916 Football Team wants to notify the men that their sweaters are ready for them, and can be obtained at the Cage.

There is a balance due on these sweaters, the amount of which can be learned at the Cage. This balance must be paid before the sweaters will be delivered.

## TECHNOLOGY HOCKEY SEASON OPENS TONIGHT

### Team Plays Pilgrims At Arena—Game Starts At 8.15—Squad Cut.

This evening the Technology Hockey Team will play that of the Pilgrim A. C. It is the first game that Tech has played this season, and from the appearances of the squad the game ought to be fast and even. The tickets are on sale at the Cage in the Union at fifty cents apiece. The game will start at 8.15 in the Arena on St. Botolph street.

Yesterday morning a considerable number of the candidates turned out for practice at 7 o'clock. For an hour and a half the men were lined up in teams against the team that opens the game tonight. The practice was snappy and the men showed up well.

CAPTAIN N. D. MACLEOD

The squad is, however, too large and a cut has been found necessary. The following men are retained and are to report at the Arena tonight at 7.30: Storke, Winton, MacLeod, Fletcher, Gould, Cochrane, Lowengard, Toyce, Keeler, Ross, Edgerton, McRea, Hill, Maguire, Stern, Crowell, Gray, Howlett, McDevitt, Halberstaad, and Tabbut.

In tonight's game the manager hopes to give every man a chance. There will be no practice after today until after the Tufts game on Friday. (Continued on page 3.)

## JUNIOR PROM.

At a meeting of the Executive Committee of the Class of 1915, held yesterday afternoon, the following men were appointed on the Junior Prom. Election Committee: Thomas J. Barry, chairman; Howard C. Thomas, and Joseph M. Livermore. Nominations for members of the Junior Prom. Committee will be received at the Cage from now until Saturday, December 13.

Brown is to have a new \$80,000 biological laboratory.

## WRESTLING TEAM GOES TO BEVERLEY SATURDAY

### Match With Y. M. C. A.—Men In Good Condition For Season's First Meet.

Saturday the wrestling team goes to Beverley, where Tech will meet Y. M. C. A. in the first schedule of the year. M. I. T. won every game on the schedule last year and Captain Kelly hopes to do the same this year. The following men will compose the team:—

115-pound class—Loo.  
125-pound class—Means  
135-pound class—Manager Martin, Captain Kelly, Durkee.  
145-pound class—Treat.  
158-pound class—Walters, Goodell.  
Heavyweight class—Leslie, Crowell.

Durkee, Goodell and Leslie are the men who made such a good showing at the Y. M. C. A. novice meet last Saturday evening, and Captain Kelly is confident that they will make good in their first match against more experienced men.

## TECH MEN AT Y. M. C. A.

### Students To Give Entertainment For Association Members.

An arrangement has been made with the Boston Y. M. C. A. for an entertainment to be given at the Association Building by members of the Technology Glee Club and Tech Show. The performance will be in the nature of a vaudeville show, and will be presented in the Jacob P. Bates Hall, Saturday, January 3, 1914.

The program has not yet been made up, but the present idea is to have about half a dozen numbers by the Tech Show Orchestra and two selections by the Quartet of the Glee Club. It is also planned to put on two or three specialty dances or vaudeville stunts. The admission will be ten cents; tickets obtainable at the door.

## CALENDAR

### Wednesday, December 10, 1913.

1.25—E. E. Trip to Lynn—E. E. Library.  
5.00—Cosmopolitan Club.—8 Eng. C.  
8.00—Hockey, Tech vs. Pilgrim A. A.—Arena.

### Thursday, December 11, 1913.

1.30—T. C. A. Speaker—Union.  
8.00—Walker Club Meeting—Technology Club.  
1917 Basketball vs. Holliston H. S.—Hollister.

### Friday, December 12, 1913.

1.25—E. E. Trip, Lynn—E. E. Library.  
2.00 and 3.00—C. E. Trips, Berger Instrument Factory—Union.  
7.30—Chemical Society Meeting—Union.  
8.00—Hockey, Tech vs. Tufts—Arena.  
8.00—T. C. A. Sociable—H. H.  
8.00—Chauncy Hall Club Meeting—Union.

## In Charge of This Issue

Editor—L. E. Best '15.  
Assistants—H. E. Lobdell '17, E. W. Curtin '17.

## Some New Features

The "Engineering and Scientific Notes," "Spikes" and "College Notes," which have heretofore been run merely as incidentals, will from now on be made regular features of the paper, each appearing twice a week at the top of second column on page two. "Spikes" will appear on Mondays and Thursdays, "Engineering Notes" on Tuesdays and Fridays, and "College Notes" on Wednesdays and Saturdays. The latter will be taken at first-hand, from articles in our exchanges, and will be kept strictly up-to-date.

The attendance at the hockey game tonight should be such as to repay the efforts of the management in securing a reduction in price for Tech men. It will undoubtedly do much toward determining the permanence of this arrangement.

## The Last Chance

Tomorrow is the last day on which nominations for the Senior Portfolio Committee will be received. Every man in the class who wishes to have, after graduation, an accurate and presentable memento of his Institute life, is vitally interested in selecting a faithful and efficient Portfolio Committee, but the election often lacks attention because it presents no appeal to popular enthusiasm. If the class lets this fact prevent the selection of a first-class committee, it deserves as poor a Portfolio as last year's, at an exorbitant price.

## COLLEGE NEWS

William M. Sullivan of Brown has been selected as one of the Rhodes Scholars for Oxford in 1914. He is a Phi Beta Kappa man and won his letter in basketball.

The annual triangular debates between Cornell, Columbia, Syracuse, Pennsylvania and Tulane will open early in January at Syracuse. The second debate will be held at Penn in the latter part of the month. Both of these dates mentioned will be on the question of "The Minimum Wage."

The base of Yale's great stadium is gradually assuming its natural proportions and it is expected that the entire structure will be completed in time for the Harvard game of next year. The "bowl," as it is termed at New Haven, is to be nearly a thousand feet long and 750 feet wide. It will be a half-mile around the top, on which there is to be a walk fifteen feet wide. The thirty entrance tunnels, each of which will accommodate 2,000 persons at a time, were finished last week. In their construction alone over 50,000 bags of cement were used. Over \$62,000 has been subscribed so far, and additional sums are coming in daily. By a special arrangement of the Yale corporation, anyone contributing a thousand dollars to the fund has the privilege of securing each year a block of ten seats in the reserved section.

We announce the receipt of the first number of Volume XXXX of the Literary Supplement of the Queen's University Journal. Queen's University has one of the best hockey teams in Ontario.

## CIVIL ENGINEERING SOCIETY

(Continued from page 1.)

sion. A knowledge of the construction of the instruments will enable them to use them with more advantage. The second year men, who are taking up surveying for the first time at the Institute, will gain a more intelligent idea of their work if they examine the construction of the tools used.

The students will be shown every part of the factory, and everything will be explained. All men who wish to go must be on hand Friday, as it is not likely that a trip similar to this can be taken again for some years.

## CHAUNCY HALL CLUB

### Election Of Officers For The Coming Year Held.

At the Chauncy Hall 1913 Club meeting last night the following officers were elected to serve for the ensuing year:—

President, L. L. McGrady, Sec.-Treas., P. Leonard; Executive Committee—L. E. Wyman, G. E. Crosby, E. W. Curtin.

The purpose of this Club is for the promotion of Tech and Chauncy Hall spirit. It will be remembered that this Club gave a six-foot banner for the best yell for Field Day and Tech Night, and also took the initiative in getting the band for Field Day.

The poultry department at Purdue contains a prize hen. She weighs three and a half pounds and during the last two years has produced 443 eggs weighing 41.5 pounds. The eggs sold at an average price of 27.4 cents and cost 5.2 cents to manufacture.

## Tables For Steel Detailing And Designing

By J. A. AURINGER, C. E., A. B. CO. ENG'R.

These Tables are for the draftsman and designer of steel structures compiled from the AMERICAN BRIDGE CO.'S Green Book of Standards, with new added material. It is just the book for the detailer, designer, architect, engineer and steel company, and will save the user time, expense and worry and would soon pay for itself in any drafting room. Bound in a Black, Flexible Leather, Loose Leaf Book. It is fully indexed ("Angles" is found under "A"; "Beams," under "B"; etc.) and thus any table or diagram is readily turned to (the draftsman's chief point).

Price in Black Leather Binder, Indexed, \$7.00 Net  
Price in Red Leather Binder, Indexed, \$6.00 Net  
Price Per Set Unbound Plates (175), No Index, \$5.00

### JUNIOR CLASS DINNER SATURDAY

Several Innovations Planned For Annual Event—Speakers Announced.

Next Saturday the Junior Class will hold its annual banquet in the Union at six P. M. The committee in charge has spared no pains in making the dinner a success, and has prepared several surprises for those present. Moreover, to prevent a whole evening being wasted arrangements have been made to have the dinner over by eight o'clock. This precludes any conflict of engagements and should result in a large gathering.

The speakers at the dinner will be Prof. Arlo Bates, in charge of the English Department, and Prof. E. F. Miller, in charge of the Mechanical Engineering Department. Professor Bates is well known as a very interesting speaker, and Professor Miller has also won a reputation by his entertaining talks at various dinners. Professor Miller has been closely identified with the technical side of Institute life, while Professor Bates takes more interest in the cultural side; so the speakers should be well able to reflect the different aspects of Technology.

### HOCKEY GAME

(Continued from page 1.)

day. The lineup at the beginning of today's game follows:—

Pilgrim A. C.	Tech.
Mckinnon, rw	rw, Fletcher
Fritz, c	c, Winton
Fynan, r	r, MacLeod (capt.)
Foote, lw	lw, Storke
Whittin, cp	cp, Gould
Dunn, p	p, Cochrane
Small, g	g, Lowengard

Referee—Fred Rocque of Sherbrooke. Asst. Referee—John Rennie of Quebec.

### B. A. A. OUTDOOR TRACK

The new owner of the ground adjacent to the Armory has consented to the laying of a board running track by the B. A. A. The M. I. T. track squad will have the use of the track once a week. There had been serious doubt as to the laying of this track, but suitable arrangements have just been completed.

Coach Kanaly is very glad to have the opportunity of giving the men outdoor track work, for he considers this a vital part of the training. Practice is now going on regularly on Mondays, Wednesdays, Thursdays and Saturdays and a good number are out.

Queen's University has planned an extensive trip for its hockey team during the Christmas vacation. The program includes a number of Canadian colleges and the Intercollegiate Series at New York.

**BOSTON SCIENTIFIC SOCIETY MEETING**

Dr. E. H. Slack Gives Interesting Talk On "Controlling Of Diseases."

Last night Dr. E. H. Slack spoke at the meeting of the Boston Scientific Society. The speaker is the secretary of the Boston Health Department, and therefore well qualified to speak on the "Controlling of Diseases."

Dr. Slack began by telling about charms. He compared their use by the Africans living on the Nile with the similar use of horsechestnuts and like objects by the people of this country. He then went on to the subject of bacteria. He depreciated the disinfection of rooms, etc., claiming that the dangers of infection from the air are negligible. Germs, he said, can be boiled and yet exist.

The chief source of infection, Dr. Slack continued, was contact with the patient or his excreta, spray of the mouth in talking, and the habit of putting the hand in the mouth. Besides contact, the chief danger lies in water, food, flies, and milk. Dr. Slack expressed himself strongly in favor of vaccination, especially in the case of typhoid.

Then the speaker went on to the spread of diseases by insects such as the mosquito, which brings yellow fever and malaria, and the stable flies, who are held responsible for the spread of infantile paralysis.

Other diseases are transferred mechanically, such as typhoid and diphtheria. Figures, Dr. Slack stated, show that one death in every ten is caused by tuberculosis.

Dr. Slack ended his talk with a few words on the work of the health department. Slides were then thrown on the screen to show graphically the decrease of the diseases mentioned.

The University of Washington has requested its president, Dr. Kane, to resign. A Seattle newspaper states the reason given by the University Regents is that Dr. Kane is unprogressive.
