VOL. XXXIV. NO. 10.

BOSTON, MASS., SATURDAY, APRIL 11, 1914.

PRICE TWO CENTS

## DETAILS OF TECHNIQUE RUSH GIVEN OUT

### Parade Will Precede Actual Rush—Starting Gun At One-Thirty-five.

Today is the last day of Technique Sign-ups. No student who has not signed up and paid his full two seventy-five can take part in the rush. So far only a small number of the men who signed up for the book have paid their final deposit and the board requests that in order to facilitate matters on the day of the rush, all those who can should pay up and receive the tickets which entitle them to the book.

At one o'clock the band will start to play on Roger's steps and at one fifteen the parade will start. The entire student body is supposed to take part in this parade, and as can be seen on the circulars to be distributed by the board, there will be plenty of room reserved for those who do so. At one thirty the contestants take their places in the semi-circle roped off about the window. At one thirty-four H. R. Crowell, editor-in-chief of the book will fire off the preparatory gun. At one thirty-five the starting gun will be fired. This will be the signal for the rush. With nothing to impede the runners, they will make one great rush toward the house, but in all their haste they must not forget their manners, for the first man must rap on the window. One minute later the window will open and every man anywhere near it wants to be sure and get his hand through that opening. But more necessary than the fact that his hand goes in is the fact that that hand must be holding the check for the book. Within this house of mystery will be the strongest men on the

(Continued to Page Three)

## ANDOVER ALUMNI DINE

### Presence of Andover Principal Adds To The Enjoyment.

Last night at the Harvard Club on Commonwealth Avenue more than eighty Andover Alumni, many of them Tech men, gathered to meet former school friends and to enjoy the excellent program prepared by the committee in charge.

Judge Morton of the Superior Court presided at the banquet, which was addressed by Alfred E. Stern, the principal of the school, and George P. Day, Treasurer of Yale University. Both were heartily received and added materially to the enjoyment of the evening.

After the banquet the men listened to selections on the Club's organ, and a general social evening followed.

## FRESHMEN AND SOPHS TO STRUGGLE TODAY

### Sophs Will Endeavor To Turn Tide of Freshman Victories.

The Freshman-Sophomore track meet today bids well to be a very closely contested struggle. The Freshmen feel sure that they can clean up this meet as easily as they did the indoor contests. The Sophomores on the other hand have been working hard in an endeavor to get into form so as to come back strong and make up for the defeats in the indoor season and in cross-country. Both teams are evenly matched and the outcome is in doubt. The Freshmen have a large number of men that have been working consistently all winter while many of the Sophs are just getting into form. The Freshmen have O'Hara as the star man in the sprints and should cinch first place easily. Loomis of the Sophomores is slated for second place although Bell and Lawrason are capable of giving him good competition. Several of the men on the record breaking relay team of the Sophs have been out practicing lately and ought to show up fairly well also.

The Freshmen can be conceded all the places in the hurdles, as 1916 has no men that have shown sufficient speed to come up to those that represent 1917. Although the lower classmen cinched all places in the hurdles and the shot in the indoor

(Continued to Page Two)

## IMPORTANT PRACTICE

### All Crew Candidates To Report—Election of Class Captains.

Today will be big rowing day and all of the fifty men who were out on Monday are expected to report today at three o'clock at the boat house. Coach R. L. Stevens is now around and will take charge of the men all the afternoon. It is especially important that all the freshmen be there, as probably a line will be taken on the men and on Monday the chances are strong that they will be divided into their class crews.

As the Captains of the class crews are to be chosen this afternoon, it would be well for every candidate to present himself at the boathouse.

## NOTICE

On account of the death of Mrs. Maclaurin's mother, President and Mrs. Maclaurin's reception at their home to students on Saturday evening, April 11th, will not be held.

## SHOW REHEARSES AT BOSTON OPERA HOUSE

### Dancing Plays Important Part—Mrs. Adams Directs Department.

The first rehearsal at the Boston Opera House of "A Royal Johnnie" was held last night. Every department was there except the orchestra, and the complete Show was tried. Mr. Eugene Sanger was in charge.

MRS. FANNIE B. ADAMS

Many of the amusing incidents which occur so frequently in the Show, and which have always brought smiles to the faces of even those who have seen them repeatedly were made doubly effective by being put on a suitable stage. This was particularly noticeable in the Union Dining Room scene, which brings in almost the entire cast and chorus. It is sure to be one of the most successful parts of the performance.

The striking thing about the rehearsal as a whole was the dancing. This is given an even more prominent part than it has had in other Tech Shows. There has been a ballet in each of the recent ones, but this year there are two, pony and a Russian ballet. The latter was introduced in connection with the many references to Russia in the plot. Every one, wheth-

(Continued to Page Three)

## RIFLE CLUB

The Rifle Club will shoot at the Walnut Hill Range this afternoon, leaving North Station at two o'clock. Permits to obtain rifles from the armory may be obtained from either Haslam, Casselman, Parsons, or Dunn. Capt. Haslam requests any men who intend to try out for the team to make it a point to come out, as the time before the outdoor matches are to be held is very short.

## SECOND ISSUE OF MONTHLY TUESDAY

### Number of Pages and Illustrations Increased—Prize Winning Story.

Next Tuesday morning the second issue of The Technology Monthly is to be placed on sale. In this number several new features will appear.

The size of the Monthly has been increased from forty-four pages to sixty, while the standard set in the first issue will be materially raised. Many more illustrations have been used and a greater amount of reading matter is presented.

Among the features of the second issue, which will be dated, May, 1914, is the new Cover design by O. R. Freeman, the Art Editor of Technique, 1915. In this issue the designer has kept the original copyrighted Technology Border characteristic of last month's cover, replacing the center by a "Conventionalized Rogers Building."

The leading article is a rather timely discussion of Tech Show by a former Associate Editor-in-Chief of THE TECH. Aside from the several undergraduate articles that are presented in the May number, the editors have fortunately secured, from a consulting contractor in San Francisco, California, the complete construction details of the Panama-Pacific Exposition, presented in a form that is of particular interest to technical men. This article as well as the one on Tech Show is illustrated by full and part page photographs several of which are suitable for framing.

The progress of the Crew and of The Championship Wrestling Team are both described in this issue and illustrated by photographic reproductions.

The short story for which the Monthly offered a prize of five dollars through these columns some time ago

(Continued to Page Four)

## WEATHER

For Boston and Vicinity: Saturday unsettled and warmer; moderate southwest breezes.

## CALENDAR

Saturday, April 11, 1914.  
2.00—Show Dress Rehearsal—Opera House.

SATURDAY, APRIL 11, 1914.

## IN CHARGE OF THIS ISSUE.

Editors: M. B. Lewis '14; A. E. Keating '17.

Mrs. Maclaurin's sixteen-hundred-odd friends in the student body will sympathize most deeply with her and with her sister, Miss Young, in the great bereavement which they have sustained. The warm personal interest which our President's wife takes in the students, and which they reciprocate to a man, makes them feel with particular keenness the sorrow which has come to her. On behalf of all these mourners, we offer to the bereaved family our most sincere condolences.

The day—Good Friday—is a comforting reminder of the unreality of death and of the glorious reawakening to which we all confidently look forward.

## WEATHER FORECASTING

Next Tuesday evening in the Chauncey Hall Building, Professor Alexander G. McAdie, Director of the Blue Hills Observatory, will address the Boston Scientific Society on the subject "Forecasting the Weather."

Professor McAdie is known as one of the most interesting speakers in the Scientific field, and the fact that this is his return to the Society after twenty years on the West Coast will add to the interest of the occasion.

A fellowship in engineering is offered by Ohio State University to all graduates in Civil, Mechanical, or Electrical Engineering. To obtain the degree of Master of Science the applicant must devote sixteen hours of work a week to his course for one year. It is regarded as a "stiff" course.

While the members of one of the fraternities at the University of Southern California were being entertained at a tea at a campus sorority house, their house was broken into and stripped of pennants, posters, and other valuables. After about two weeks the missing material was discovered in a rival sorority house. Much scandal ensued when it became known that the co-eds entered the fraternity house disguised as men. When this matter had partially blown over an ice cream establishment offered free ice cream for the purpose of advertisement. Coupons were mailed to all members of the faculty, but none presented themselves to claim the ice cream. Investigation proved that the faculty mail box had been looted and that students were enjoying the treat.

The desire of a Chinese student to complete his education has enabled the University Museum at Penn to purchase a collection of ancient Chinese bronzes taken from one of the temples in Southern China, where they had been in use for about three thousand years. They include a temple vase of the Sung dynasty, 1200 B. C., and an incense burner of the Chou dynasty, about 900 B. C.

The Cosmopolitan Club of Chicago University announces an International Night, to be presented next Monday evening. It is planned to have over a hundred and fifty people on the stage. Among the acts on the program is a Chinese "stunt" similar to the one given by Technology's Cosmopolitan Club.

## FRESHMAN-SOPH MEET

(Continued from Page One)

meet, several Sophs have come out to surprise the Freshmen in these events. The broad jump, hammer and discus will be added to the field events that were not in the indoor meet. The Sophs are fairly strong in these events and should make up for the loss of points in the hurdles. The first place in the mile and in the half belongs to the Sophomores, but the Freshmen are expected to take the majority of the remaining places. The Freshmen by taking the last two places in the runs will undoubtedly pull up their score considerably. Benson will be the mainstay of the Sophomores in the mile and will depend on Graff and Brown to back him up.

**CHESS TONIGHT**

**Simultaneous Match Against Skillful Mr. Kennard.**

The men of the Chess Club are taking much interest in the simultaneous match to be played tonight with Mr. Kennard, and the officers expect a number of good matches to be put up. As stated before in THE TECH Mr. Kennard won eight out of the twelve matches last year, and this year the Club is desirous of bettering its record.

All men intending to play are expected to be at the Union at 7.00 P. M. sharp, and to bring their boards and chess sets with them, as the Club's supply is limited. The entry is open to all, and any men in the Institute who play chess and who are not members of the Chess Club are especially invited to come out and participate, and meet the men of the Club.

**ELECTRICAL SOCIETY**

**Nomination Lists Close Today—Four To Be Elected.**

All nominations for the Electrical Engineering Society must be handed in today. Each nomination blank must be signed by five active members of the society and may be left with Miss Payson in 15 Lowell. The officers to be elected are President, Vice President, Secretary and Treasurer.

The elections will take place during the week of April 20, and the results will be announced at the annual dinner, which will be given by Professor Jackson during the latter part of this month.

**TECHNIQUE RUSH**

(Continued from Page One)

board. These men will grab the wrists of the would-be heroes and, unless the first hand they grab is severed from the contestant's body, this gentleman, whoever he may be, will be the proud possessor of the first copy of Technique 1915. There will be twenty copies given out this way, the first four and the twentieth being free. All of the twenty will contain the autograph of President Maclaurin. Those who obtain the free copies will have their money refunded at the tables after the rush.

There will be three tables in the lot where the rush is held at which Techniques may be obtained after the rush. As the vacation does not begin until Thursday, classes will be resumed at two o'clock as usual, so it is expedient that all those intending to take part in the parade or the rush be as prompt about doing things as possible.

A homelike, first-class hotel, proud of New England traditions, dating from Gen. Warren, yet newly furnished with every comfort & convenience. Long distance phone and hot and cold water in every room. Kept constantly clean by our vacuum plant. Rooms \$1.00 a day and up.

**TECH SHOW**  
(Continued from Page One)

er in these ballets or not, has at least a few fancy steps, and the majority have learned entire dances. During the intervals in the rehearsals when many of the men were off stage, the remote corners were filled with small groups and individuals who were doing things with their feet that amazed the spectators.

This department is under the supervision of Mrs. Fannie B. Adams, who was with the Show last year. Mrs. Adams is a graduate of both the Chalif School of Russian Ballet Dancing and of Gilbert's Normal School of Dancing. With this preparation as a foundation she has taught for a number of years, holding many important positions. She was the first to introduce aesthetic dancing at the Posse Gymnasium, and has charge of this work now that it has grown to be such an important part of the instruction there. She teaches interpretive and pantomime dancing at the English School of Speech and Expression, and has private classes of her own for both children and adults at Whitney Hall in Brookline.

The Dansants at the Copley Plaza which have proved so popular were first introduced by Mrs. Adams, and she still acts as mistress of ceremonies there. These affairs are conducted on a larger scale under her direction than anything similar in the country. In spite of the fact that her time is so well taken up, she has not slighted "A Royal Johnnie," but has drilled the men consistently and with the excellent results which were shown at last night's rehearsal.

This afternoon a dress rehearsal at the Opera House will start at two o'clock and will last until eleven o'clock tonight.

**SCHEDULE FOR TENNIS SEASON IS ANNOUNCED**

**Real Work Will Begin As Soon As Courts Are In Good Condition.**

Owing to the condition of the courts, the tennis men have been unable as yet to do any outdoor practice. It is expected that the courts will be in good shape within a week or two and notice will be posted in THE TECH as soon as the playing is started. Later there will be the usual Spring Tournament, both in doubles and in singles. At present all work is held up until the ground dries out and the weather becomes more settled.

The schedule for the season of 1914 has been arranged as follows:

- May 2—Holy Cross at Boston.
- May 9—Tufts College at Medford.
- May 13—Harvard Seconds at Cambridge.
- May 15—Holy Cross at Worcester.
- May 21—Harvard Seconds at Cambridge.

**GAME POSTPONED**

The baseball game scheduled for yesterday afternoon between Course VII and XIII was postponed, and will be played sometime after Junior Week.

**Velvet**  
THE SMOOTHEST TOBACCO

MUSIC hath charms—add a pipeful of Velvet and you are a whole orchestra. Such is the pleasure of good tobacco. Velvet, the tenderest leaf—aged in the old warehouse for two years—a slow, sombre, time-process of mellowing—in which all harshness is lost—the flavor toned, sweetened, made exquisitely smooth. A smoke without bite—music without discord! Velvet is known to be the most carefully matured smoking tobacco—only time can produce its delights—only patience insures its pleasures. All yours! At all dealers.

is printed in full, and the winner of the contest simultaneously announced. Although the contest was decided more than a week ago, no announcement has been made of the outcome. The judges found considerable difficulty in selecting the winning story on account of the high merit of several of the entries.

In accordance with the great number of requests made to the Editors, the May issue of the Monthly includes a review of four of the professional societies of The Institute, the others to be published in a later issue.

The Monthly will be put on sale in all buildings Tuesday, at which time those who have subscription cards can obtain their copies by presenting them. All other subscribers will receive their copies by mail. Single copies may be purchased for twenty-five cents, and subscriptions can be obtained for \$1.50 including the eight consecutive issues starting from date of purchase.

**FINAL JUNIOR PROM ARRANGEMENTS TODAY**

**Committee Wishes To Meet Men Who Have Not Paid Up in Union Today.**

Today final arrangements will be made for the Junior Prom, and all men who have signed and not paid up are requested to meet the committee today, so that the men in charge of the affair will know whether they can expect them to attend or not. This is of very great importance to the committee and prompt attention to it will be very much appreciated by them.

It will be necessary to show tickets in order to obtain admittance to the hall. The tickets are to be surrendered upon entering the dining room and it is therefore absolutely necessary for every man who has not done so to redeem his receipts for tickets today, Monday or Tuesday. The committee will be in the Union from one to two o'clock on these days.

Attention is called to the fact that men should not wait until the night of the Prom to obtain their tickets and programs, as the men in charge will be very busy at this time and anyone who delays the matter until then might find it very difficult to find a member of the committee. The directions will be printed in THE TECH next week for the benefit of those who did not receive a direction slip.

**NORTHAMPTON TRIP**

There are always a number of Tech students who accompany the Show on its various trips and provision has been made for them this year. A special rate of \$4.22 for the Northampton round trip is offered. Further particulars may be obtained at the Show Office in the Union.

**TEAM LEAVES TODAY**

**Training Season At Neusite For THE TECH Star Players.**

We don't hear a whole lot of noise from that bunch of massacre promoters, but from the latest dope that we, the members of THE TECH greatest and best baseball team, are able to gather, that string of Grinds called Technique are going to try to get away with the bacon Thursday afternoon, April the sixteenth, 1914, A. D., by scaring us out of our boots with some infernal noise or other. Believe us, Technique, we will be in shape to stand it because we got hep to your doings. If you only practiced that calliope affair that you call a hand inside of Bursar Ford's safe you sure would have got away with the trick, but we're wise now and we're going to heat you to it and do the Ulysses stunt and put cotton in our ears, but not in our throats, believe us. We called your little game, technique, so do a little real brain action work and think up a real honest to goodness way to get a look-in to that combat. Tough luck, you can't do it with big town baseball stuff.

Just to let you in at the ground floor and treat you fairer than you treat us in letting us know about that mess of printing that you are trying to get our good shekels for, THE TECH is going to let you in on our wonderful progress from time to time. The team leaves for Neusite on the annual training trip today, not for practice you understand, we don't need it. Twenty live dope chasers will be on the job and the stuff that the censor will be able to hold up wouldn't fill the eye in a needle, so you'll get all that's coming to you in encouragement,—we don't think. On the level, technique, what's coming to you will be a crime against humanity, but not against you.

**FRESHMAN-SOPH MEET**  
 (Continued from Page 2)

The Freshmen look to Litchfield as their first man, and to Brock,

Harrington and Allen for the remainder of the places. Parker who has been working out well in the mile will be unable to run. Guething and Donnelly in the half will be one of the main attractions of the afternoon as these two rivals are both out to win.

The quarter has a number of good men scheduled to take part. Peacock and Bell of the Freshmen are the chief contenders with K. Dean for the honors.

The meet will start promptly at 2.30, and the events will be run off without delay. No allowance will be made for tardiness on the part of any of the contestants.

The price of admission will be twenty-five cents.

**MUSICAL CLUBS**

**Last Rehearsals Before Concert—All Must Be Present.**

The last Mandolin Club Rehearsal before the Spring Concert will be held Monday at four o'clock in the Union. The Banjo Club will rehearse tomorrow, Sunday, at 2.30, and Monday and Tuesday at 8 A. M.

Tuesday noon the Glee Club will meet at the Copley Plaza, and any man who cuts this last review of the Club's program will positively not be allowed to sing in the concert.

**CONCRETE POURED AT NEW BUILDINGS**

**First Concrete Poured Yesterday Noon—Work Progressing Rapidly.**

Yesterday at noon the first run of concrete on the new site flowed from the elevator to the footing trenches. The place which was ready is the center of the east outside wall of the department of general studies. This is at the farther edge of the constructions distant nearly a thousand feet from Massachusetts Avenue, and back two or three hundred feet from the Esplanade.

While this is the first point at
