BRING THAT GIRL!

The track management has announced that the date of the Spring Meet has been fixed for the morning of March 17th. This will be the only athletic event of Junior Week. As in other years, the meet has been planned to be a promotions party where the other events of the week, the management feels, that it will be a real for an athletic event but also a chance to be the theme of a social affair. Junior Week, one of the highlights of the year, is thus destined to be a most enjoyable and successful event.

PROFESSOR RICHARDS

Head Of Field Course Honored By The Society.

Professor Richard H. Richards of the AAU, (former) Harvard, was a most enthusiastic speaker at the all-scholar's (monthly) meeting of the Junior Field Club on Saturday, April 13th. In his address, he introduced a scheme of activities in an endeavor to add a large number of men to "Bring That Girl" to the meet, whether they be participative in the events of Junior Week or not.

FIRST ELECTION
MADE FOR ANNUAL

John M. DeBell, Chosen Editor-in-Chief Of Next Year's Technique.

John Allen DeBell of Great Barrington, Mass., was elected Editor-in-Chief of the Technique at a meeting of the Keenest Elective Committee held last Wednesday. He received the required number of votes for election.

NIEMAND ZU HAUSE TONIGHT

That "Niemand zu Haue" will outdo the successes of its two predecessors is already assured by the results achieved in the stage department, and by the preliminary sale of tickets. In spite of the backward attitude of some freshmen, mentioned by our communicants, the student body as a whole has accorded excellent support—let us not inquire too closely whether or not out of loyalty to athletics or in expectation of a first-class entertainment. But a success such as previously achieved is not enough for the increased athletic burdens which this year has placed on the undergraduates. It is not enough to turn out the men who support all student activities, and those who go to every such opportunity for good entertainment, even though each brings "Niemand zu Haue" with him. The men who ordinarily have no time for activities nor entertainment—should, on this special occasion, feel it their duty as well as pleasure to support their school by indulging in a royal good time.

TICKET-SELLERS MEET

All men selling Niemand zu Haue tickets will make complete returns to the Union today, at one and four thirty, or tomorrow between eleven and one.

COMMUNICATION

To the Editor of The Tech:

Last Wednesday afternoon, I was one of the two men sent over to the Armory to sell "Niemand zu Haue" tickets to the freshmen at drill. Much to my surprise, the attitude of all those to whom we tried to sell tickets was anything but loyal to Institute activities. I don't believe that there were over forty men who had already bought their tickets and not over twenty who signaled any interest in the subject. On the contrary, from the majority loudly declaring "they aren't going," seemed proud of the fact.

Such a universal feeling among a class that everybody thought at the first of the year was going to be "alive," is to be regretted. Maybe the freshmen do not realize that this year the burden of the financial support of all institute activities is up to the undergraduates themselves. "Niemand zu Haue" was planned and is being run in order to get this support. The money derived will be immediately turned over to the institute committee and used by that body for the different activities that are in need of financial support.

The freshmen for outnumber any other class at the Institute. From them, therefore, should come the largest support in numbers at "Niemand zu Haue." If they persist in their present non-participating attitude, their representation will be below each of the other classes, and is it up to the members of the class themselves. If they don't rally to the support of "Niemand zu Haue" today, and if a large majority do not buy tickets, it means that the true Technological spirit has not been infused into the class of 1915.

ACTIVITIES

GENERAL ELECTRIC CO.

E. E. Society Visits Mammoth Plant At Lynn.

On last Tuesday and Wednesday afternoon, members of the Electrical Engineering Society visited the extensive plant of the General Electric Company at West Lynn. The parties arrived at three o'clock, and were conducted through various departments, the entire inspection occupying three hours. Some idea of the size of the plant may be gained from the floor space which totals over 52 acres, in more than 30 buildings. There are 6000 machine tools in use, $200 electric motors, 2200 arc lamps, and 135 travelling cranes. The capacity of the power plant is 5560 K. W. The parties made a comprehensive tour of the buildings, beginning at the main gate, on Western Avenue, visiting the machine shop floor and later the winding rooms, and testing and assembling departments, as well as the special tools for turning out these machines, and multi-spindle drills for drilling motor frames. The trip ended at 6 a.m., at the Federal Street gate.

WHY not make yo’ personality a mixture o’ common sense and pleasant feelin’s? You supply the common sense and VELVET’ll bring the “pleasant feelin’s.”

The mellowness of VELVET, The Smoothest Smoking Tobacco, is the fuel that keeps kindliness and good nature warm. Buy a 5c metal-lined bag or a 10c tin.

FRESHMEN DEFEAT ALLEN
Freshman Team Goes To An- dover Saturday.

Last Tuesday evening the freshmen wrestlers defeated the Allen School Team of Newton by a score of three and one-half to two and one-half. The bouts were very spirited, all but one ending in a fall. Campbell of the Allen School wrestled twice, once in the 125-lb. class throwing Clark, and once in the 135-lb. class when he was thrown by Weston. In an exhibition bout, Creracher of the Allen School failed to throw Manager Morse of the Varsity Team. "Uncle Jack" Butler, the Allen coach, and "Bob" Allen also wrestled an exhibition bout.

ARCHITECTURAL AWARDS
Bengtson And Norberg Win Architects' Club Prizes.

The prizes of fifty dollars each, offered annually by the Boston Architects' Club, were won this week by Ludvig T. Bengtson and I. C. Norberg. The prizes are offered annually, one to be awarded to a special student in Course IV, Quimby L and the other to a fourth year man in the same course. The problem this year was a design for a monument commemorative to an illustrious playwright, to be placed on the exterior of a building. In addition to the prizes, medals were awarded to E. R. Goodell, W. R. Lewis and E. M. Scenling.

CHEMICAL SOCIETY
Professor Moore will speak at the next meeting of the Chemical Society on Tuesday. His subject will be, "The Effect of the European War on American Chemical Industries." Dr. Walker and several other professors have also consented to be present. There will be cigarettes and refreshments and the society hopes that it will prove the best and largest meeting of the year.
